

**TESTIMONY OF
THE DEPARTMENT OF THE ATTORNEY GENERAL
THIRTIETH LEGISLATURE, 2020**

ON THE FOLLOWING MEASURE:

H.B. NO. 2292, H.D. 1, RELATING TO ELECTRIC GUNS.

BEFORE THE:

HOUSE COMMITTEE ON JUDICIARY

DATE: Monday, February 24, 2020 **TIME:** 2:00 p.m.

LOCATION: State Capitol, Room 325

TESTIFIER(S): Clare E. Connors, Attorney General, or
Amy Murakami, Deputy Attorney General

Chair Lee and Members of the Committee:

The Department of the Attorney General (Department) supports this bill.

The purpose of this bill is to protect the health and safety of the public by regulating the sale and use of electric guns.

The constitutionality of Hawaii's electric gun ban has been drawn into question by the United States Supreme Court decision in Caetano v. Massachusetts, 136 S. Ct. 1027 (2016). And a pending lawsuit in the United States District Court for the District of Hawaii, Roberts v. Ballard, 18-00125 HG-KSC, is seeking a declaratory judgment and injunction to invalidate Hawaii's electric gun ban. If Hawaii's electric gun ban is invalidated by the courts, there will be no regulations on the purchase, possession, and use of electric guns by the public.

This bill repeals Hawaii's ban on electric guns and creates a regulatory scheme that restricts the use of electric guns to self defense. The bill requires electric guns that use projectiles, such as Tasers, to be subject to a permitting and registration process similar to firearms and requires sellers of electric guns to be licensees and keep records of inventory and sales. The bill also creates criminal offenses for the use or possession of electric guns in the commission of a misdemeanor or felony.

It is the Department's understanding that the county police chiefs support the regulatory scheme that would require electric guns that use projectiles be subject to a permitting and registration process similar to firearms.

We respectfully ask the Committee to pass this bill.

LATE

COMMITTEE ON JUDICIARY

Rep. Chris Lee, Chair

Rep. Joy A. San Buenaventura, Vice Chair

on

DATE: Monday, February 24, 2020

TIME: 2:00pm

PLACE: Conference Room 325

Aloha Members of the Senate Committee, The Hawaii Firearms Coalition OPPOSES HB2292

Hawaii Firearms Coalition is opposed to the changes being proposed to Hawaii's electric weapons laws because;

- This bill would severely hamper the public ability to own and use a electric weapons for self-defence.
Treating an electric weapon the same as a firearm does nothing to increase public safety
- The training required does not exist.
- Training would be costly.
- It prevents the gifting of electric weapons to a loved one or friend.
- The registration system would be burdensome to stores.
- Bill prevents online purchases.
- No other state has these requirements.
- Cheaper and/or easier to purchase a firearm,
- Items are not or can not be serialized.
- Impossible to enforce.
- No other state has these requirement.
- Electric arms are very rarely used in crimes.

Andrew Namiki Roberts
Director
Hawaii Firearms Coalition

I wish to submit this testimony in OPPOSITION to the passage of this proposal. Electric guns are legal in much of the country without the overly restrictive requirements that come along with the bill. It's replete with red tape and restrictions and for that reason I say we mix this flawed idea and wait for SCOTUS to broaden their availability and guidelines for use.

House Committee on Judiciary
Representative Chris Lee, Chair
Representative Joy A. San Buenaventura, Vice Chair

State Capitol, Room 325
HEARING: Monday, February 24, 2020, at 2PM
RE: HB2292 Relating to Electric Guns

LATE

Aloha Members of the House Committee,

I OPPOSE HB2292 and REQUEST AMENDMENTS

Although I support the unrestricted ownership and public carry of electric guns, I cannot support this bill due to extreme burdensome restrictions on sellers and restrictions for the buyer.

You can buy an electric gun in almost all states legally through AMAZON.COM and have it shipped to your door without restrictions. This bill treats electric guns like a firearm where stores may not go through the hassle of getting their store licensing because the record keeping, tracking, inspections, and other requirements cost a lot of time and money. Even though legal, stores may not go through the hoops to sell them.

I WAS TASED FOR HPD TRAINING. My entire HPD academy class was voluntarily tased with no adverse effects. It is safe to use in the vast majority of cases. Electric guns can have adverse effects on criminals with health and drug problems, but they have the option to NOT ATTACK INNOCENT VICTIMS.

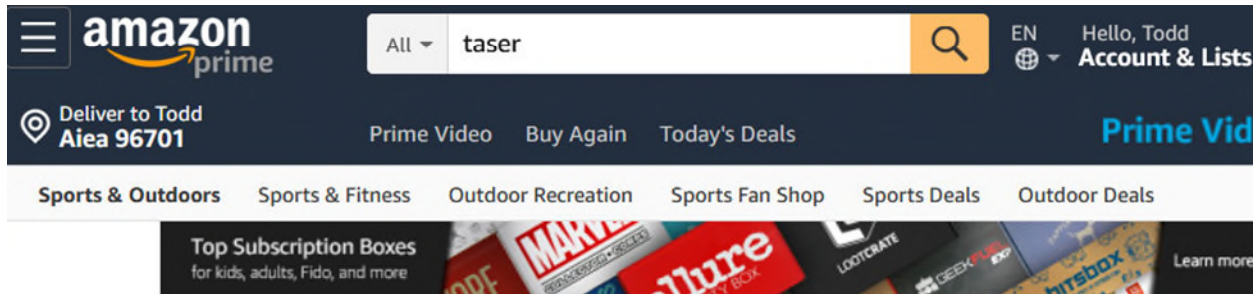

Please amend this bill:

- Amend to language in Sen Gabbards SB2848 – legalization of electric guns with no restrictions

Mahalo

Todd Yukutake
Resident of Aiea, District 33
PH. (808) 255-3066
Email: toddyukutake@gmail.com

Electric guns can be bought on Amazon and shipped to your door in most states.

The image shows the top navigation bar of the Amazon website. On the left is the Amazon Prime logo. In the center is a search bar containing the word "taser". To the right of the search bar are links for "EN", "Hello, Todd", and "Account & Lists". Below the search bar, there are navigation links for "Deliver to Todd Aiea 96701", "Prime Video", "Buy Again", and "Today's Deals". A horizontal menu below that lists categories: "Sports & Outdoors", "Sports & Fitness", "Outdoor Recreation", "Sports Fan Shop", "Sports Deals", and "Outdoor Deals". At the bottom of this section is a banner for "Top Subscription Boxes" with images of various boxes like "Marvel", "Culture", "Loot Crate", "Geek & Sundry", and "BitBox".

Eric Kaneshiro	Individual	Oppose	No

Comments:

Please don't restrict my ability to protect myself and my family. An electric stun gun is a less lethal self-defense tool and this law would restrict self-defense rights of law-abiding citizens like me. Instead of exploring more ways to take away my rights, the Legislature should be focusing on crime reduction by going after criminals and their illegal activities directly.

Hawaii already has the strictest gun laws and doesn't allow its citizens to protect themselves (see how many CCW bills you've handed out).

Why further reduce law-abiding citizens the right to defend themselves?

Crime is already on the rise thanks to weak prosecution of criminals and repeat criminals. Our police are disgusted as well.

While we would applaud the repealing of the ban on Electric Guns, the revised statute places undue burdens on the citizens of Hawaii in order to purchase and use. The United States Supreme Court has ruled that Electric Guns are covered under the 2nd Amendment by the decision in *Caetano v. Massachusetts*. Electric Guns are non-lethal devices that only temporarily disable an attacker. These devices are not limited to TASERS or other devices which fire the charge dispensing projectile. These items are also hand-held and used at point-of-contact range, which make them a valuable tool for our Kapuna who do not wish to use a firearm or other device but do want to protect themselves. We all have seen the rash of attacks upon our Kapuna and if they could have had an electric gun/device, they may have been able to defend themselves. Sadly, we will never know. We now have a chance to right this wrong and give our Kapuna and Hawaii ohana the chance to have non-lethal devices at their disposal.

As non-lethal devices, why are we making our Hawaii ohana go through burdensome process of permitting and registration.

- This bill would severely hamper the public ability to own and use a taser for self-defense.

Hello, I strongly oppose this bill.

Why is Hawai'i trying to limit non lethal mechanisms of defense? Is it not bad enough that we are not allowed to conceal or open carry to protect ourselves from the increasing crime and violence? How are women and the elderly to protect themselves when they are alone and walking to their car, home or bus? What is Hawai'i proposing to protect these people instead of protecting criminals! Law makers should be absolutely ashamed of themselves for even bringing laws like this to the table.

Please drop this bill, throw it in the trash and never bring a similar bill like this up again.

I oppose HB2292,

This bill will highly regulate an item that is not regulated anywhere else in the United States. This bill will discourage common people from obtaining electric guns to protect themselves. This will inundate HPD firearms and cost the city more money to regulate an item that does not have a serialized number for identification. Training would be costly which will affect anyone with low or fixed income. This bill will prevent online purchases and make it difficult for the public to obtain. Electric guns are much cheaper and easier to use.

If you have any questions I can be reached at kimo.galon@gmail.com

As written, I oppose this law. Tasers are not made with serial numbers, nor is there readily available 'taser training' to the public. This makes it harder to own a taser than it does a firearm for defense, which I think would make wanting to make a less than lethal device legal for self defense moot. This would prevent someone from giving a taser to someone in an emergency or quickly.

HB2292 should be amended

I do support the repeal of the ban of electric firearms, but not the way you wish to achieve it with HB2292.

You had a chance to throw the vulnerable unarmed people of Hawaii a bone. We are at the mercy of career criminals , strung out drug addicts and unpredictably violent individuals. Unlike you the majority of us do not have armed security at our places of work.

With the restrictions you are proposing to the ownership and carrying of electric firearms, you fail the people of Hawaii that so desperately need a way to protect themselves at all times.

HB-2292-HD-1

Submitted on: 2/24/2020 8:41:33 AM
Testimony for JUD on 2/24/2020 2:00:00 PM

Submitted By	Organization	Testifier Position	Present at Hearing
Kevin Kacatin	Individual	Oppose	No

Comments:

OPPOSE. This measure does not allow for carrying outside of the home, place of sojourn or employment.

The training suggested in this measure does not exist and would be cost prohibitive should a training method be developed.

Overall, this entire measure only serves as a deterrent for law-abiding citizens that want a method of self defense if they chose to not own a firearm.

I oppose this ban. We need something to protect ourselves if we gun owners cannot lawfully carry a firearm on our person why not allow us to carry an electric gun. I think you are under the impression because of the word gun it has a serial number they do not from what I read and talking to individuals the probes of tasers the cartridges are numbered. But the electric guns themselves are not. There is this belief that individuals may use it to rob others, but the fact is if criminals decide to do this they do not follow the law and will get them regardless. They also do not come with serial numbers on them. how will you regulate them and what State are you using as a model to follow? That is right no state does this because its impossible to do? What kind of training will you require? Use the law enforcement model is different from Joe Blow the regular user. There was the same fear with pepper spray that individuals would go out and use them to rob people. Has that happened? and if it did why was it not publicized?

I believe that electric guns should be legal to possess and carry within the state of Hawaii. However, the bill in its current form does not help to meet this need. For instance, the bill requires the person to attend a training class for electric guns: these classes do not exist. Moreover, these classes would inevitably cost money. Because of this, the bill would discriminate against lower socio-economic individuals from possessing electric guns for lawful purposes such as self defense since they may be unable to pay the associated fees related to training and possession. This would lead to lower socioeconomic individuals being less able to defend themselves. No other state in the United States has such restrictions on the purchasing and possession of electric guns. I oppose this bill, but support the ability of Hawaii residents to possess and carry electric guns for self-defense.

I Oppose HB2292 as it stands, but I support ownership of tasers for self - defense.

The current bill makes it harder to own a taser than to own a rifle. The state should make it easier for law abiding citizens to own a "less lethal" alternative for self defense. The taser/electric gun would easily fill this role.

Other state that allows tasers do not have the proposed requirements. The requirements proposed for our state are costly and cumbersome.

Thank you for your time.

Matthew Dasalla.

State Capitol, Room 325

H.B. 2292, H.D. 1
RELATING TO ELECTRIC GUNS

House Committee on Judiciary

The Department of Transportation (DOT) **supports** this Administration bill which proposes to repeal section 134-16 of the Hawaii Revised Statutes (HRS) and replace it with a new law restricting the use of electric guns, regulating the sales of electric guns, and requiring training and education on electric guns.

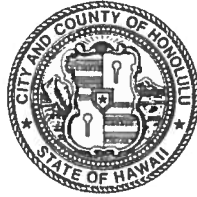

The United States Supreme Court decision in *Caetano v. Massachusetts*, 136 S. Ct. 1027 (2016), ruled that stun guns are included in the Second Amendment's protections. The Supreme Court's decision in *District of Columbia v. Heller*, 554 U.S. 570 (2008), ruled that the Second Amendment extends to all bearable arms, including those that were not in existence at the time of the founding.

The DOT understands the intent to protect the health and safety of the public through restricting and regulating the use and sale of electric guns. The DOT recognizes the aforementioned Supreme Court decisions, and conjunctively supports the passage of this bill.

Thank you for the opportunity to provide testimony.

The Honorable Chris Lee, Chair
and Members
Committee on Judiciary
House of Representatives
Hawaii State Capitol, Room 325
415 South Beretania Street
Honolulu, Hawaii 96813

Dear Chair Lee and Members:

SUBJECT: House Bill No. 2292, HD1, Relating to Electric Guns

I am David Nilsen, Major of the Records and Identification Division of the Honolulu Police Department (HPD), City and County of Honolulu.

The HPD supports House Bill No. 2292, HD1, Relating to Electric Guns.

This draft addresses concerns the HPD expressed previously regarding a permitting process to ensure a person prohibited in Section 134-H, Hawaii Revised Statutes (HRS), from owning an electric gun, does not receive one, and makes changes to HRS 134-3.5 that allows medical providers to release the medical information necessary to enforce the mental health prohibitions of Section 134-H.

Thank you for the opportunity to testify.

APPROVED:

Handwritten signature of Susan Ballard in cursive.

Susan Ballard
Chief of Police

Sincerely,

Handwritten signature of David P. Nilsen in cursive.

David P. Nilsen, Major
Records and Identification Division
