Comments:

Aloha Chair Gabbard, Vice Chair Ruderman, and Esteemed Members of the Committee,

I write in support of House Bill 2624, House Draft 1.

When we look to strengthen environmental law and policy, we make our most sustainable changes when we seek win-win solutions. Who can object to democratizing the Office of Environmental Quality Control by improving public information and access? The proposed website is a reasonable and worthy goal.

In summary, please support HB2624 HD1.

Thank you for your consideration.

Best,
Dylan P. Armstrong

Dear Honorable Committee Members:

Please support HB2624. The public should be able to comment on environmental impact statements, which they can't do if they're not made aware of them.

Thank you for the opportunity to present my testimony.

Sincerely,

Andrea Quinn
