Comments:

We have suffered for decades from teeth chattering, axel breaking potholes and deep flooded swales on our roads. This will never be repaired until all property owners are required to pay road maintenance dues. The dues will be less than the car repairs, or the truckloads of gravel brought in by individual residents. Please pass this bill!

Comments:

For over 60 years my subdivision has relied on voluntary road maintenance. The best years ever netted no more than 10% compliance from lot owners. Many of our roads are impassable and the little work done is all performed by just a few volunteers. It's a shame that this has continued for so long. Please help us.

Comments:

As a resident of a affected subdivision I fully support this bill. We are desperate for oversight, training and mediation. Scarce community resources are wasted on legal bills instead of being used for improving our substandard roads.
