RELATING TO TRANSPORTATION.

Senate Committee on Transportation

The Department of Transportation (DOT), **supports** this bill to install depth gauge signs along public highways that lies within a special flood hazard area and is prone to flooding.

According to the manual on uniform traffic control devices, each intersection would require four depth gauge signs at a cost of \$1000 per sign or \$4,000 for each intersection where the depth gauge signs are installed.

As DOT's funding is limited, we appreciate the unspecified general revenue appropriation that has been added to this bill to fund this effort.

Thank you for the opportunity to provide testimony.

LATE

HB-304-HD-2
