**Testimony COMMENTING on HB0581**  
**Relating to Health**

COMMITTEE ON HEALTH  
REPRESENTATIVE JOHN M. MIZUNO, CHAIR  
REPRESENTATIVE BERTRAND KOBAYASHI, VICE CHAIR

COMMITTEE ON HUMAN SERVICES & HOMELESSNESS  
REPRESENTATIVE JOY A. SAN BUENAVENTURA, CHAIR  
REPRESENTATIVE NADINE K. NAKAMURA, VICE CHAIR

Testimony of Caroline Cadirao  
PSM Manager, Executive Office on Aging  
Attached Agency to the Department of Health

Hearing Date: February 13, 2019  
9:15 AM

Room Number: 329

- 1 **EOA's Position:** The Executive Office on Aging (EOA), an attached agency to the Department
- 2 of Health, would like to provide comments on HB0581. We support the intent of this measure
- 3 provided that its enactment does not reduce or replace priorities within the Administration's
- 4 executive biennium budget.
- 5 **Fiscal Implications:** This measure appropriates unspecified funds for SFY20 and SFY21 for the
- 6 Executive Office on Aging to fund a dedicated staff position to coordinate the provision of
- 7 public and private Alzheimer's disease and related dementia services.
- 8 **Purpose and Justification:** Alzheimer's disease is the sixth leading cause of death in the
- 9 United States and it affects 27,000 Hawaii residents, a number that will increase to 35,000 by the
- 10 year 2025. In addition, an estimated 66,000 unpaid caregivers in Hawaii provide 74,000,000

1 hours of unpaid care each year. While the *Hawaii 2025: State Plan Alzheimer's Disease and*  
2 *Related Dementias* identifies strategies in addressing the multifaceted issues in dealing with the  
3 disease, the services and activities needed requires leadership and coordination at a systemic  
4 level. Resources are needed to better facilitate and coordinate the collaborative activities to  
5 implement and update the Alzheimer's disease and related dementias state plan.

6 During the 2018 Hawaii State Legislative Session, Governor Ige signed Act 146 Relating to  
7 Health. This act added a new section to the EOA Statute, HRS349 to prepare an update of the  
8 State Plan on Alzheimer's Disease and Related Dementia (ADRD). However, no funding was  
9 appropriated to EOA to fund a dedicated position to carry out the mandate, update the State  
10 ADRD Plan, and coordinate the provision of public and private Alzheimer's disease and related  
11 dementia services.

12 **Recommendation:** Funding for a dedicated staff position to update the ADRD State Plan and  
13 coordinate the provision of public and private Alzheimer's disease and related dementia services  
14 is not a part of the Administration's budget request. We support advancing this measure  
15 provided that its enactment does not reduce or replace priorities with the Administration's  
16 budget request.

17 Thank you for the opportunity to testify.

**HB-581**

GARY SIMON	Policy Advisory Board for Elder Affairs (PABEA)	Support	Yes

Comments:

Dear Chair Mizuno, Vice Chair Kobayashi, Honorable Members of the House Committee on Health, Chair San Buenaventura, Vice Chair Nakamura, and Honorable Members of the House Committee on Human Services and Homelessness,;

I am Gary Simon, Chairperson of the Policy Advisory Board for Elder Affairs (PABEA), which is an appointed board tasked with advising the Executive Office on Aging (EOA).

I am testifying as an individual who has worked in healthcare for over thirty years, and I am offering testimony on behalf of PABEA.

My testimony does not represent the views of the EOA but of PABEA.

***PABEA wholeheartedly supports HB 581.***

The position of the Alzheimer’s Disease and Related Dementias Services Coordinator is essential to the effective management and organization of the implementation of the State Plan on Alzheimer’s Disease and Related Dementias among and by state and community agencies.

The position also is vital to preparing the annual State Plan progress report to the Legislature as required by Act 214 of 2013.

PABEA supports EOA’s request for funding for the position in the amounts of \$26,478 for FY 2019 – 2020 and \$52,956 for FY 2020 – 2021.

We urge you to support HB 581 and EOA’s requested funding.

And, we urge you to recommend its passage.

Thank you for seriously considering the Bill.

Very sincerely,

Gary Simon

Chairperson, Policy Advisory Board for Elder Affairs (PABEA)

February 13, 2019

To: Honorable Representative John Mizuno, Chair  
House Committee on Health

Honorable Joy A. San Buenaventura, Chair  
House Committee on Human Services and Homelessness

Date: February 13, 2019, Conference Room 329, 9:15 a.m.

### RE: HB581 RELATING TO HEALTH

Dear Chair Mizuno, Chair San Buenaventura, and Members of the Committees:

On behalf of the Alzheimer's Association, Aloha Chapter, I am pleased to extend our **strong support** for House Bill 581, with amendments. This bill appropriates funding for one full-time equivalent Alzheimer's Disease and Related Dementia Coordinator within the Executive Office on Aging. This position was established by Act 214, Session Laws of Hawaii 2013.

The State of Hawaii recognized the public health crisis of Alzheimer's Disease in 2013 and developed Hawaii 2025: State Plan on Alzheimer's Disease and Related Dementias. Unfortunately, while the Alzheimer's Disease and Related Dementia Services Coordinator position remains unfilled, insufficient progress is being made towards adopting the recommendations and strategies.

Alzheimer's disease is a growing epidemic and is now the nation's sixth leading cause of death. Since the year 2000, there has been a 258% increase in Alzheimer's deaths in Hawaii. Today, more than 28,000 individuals live with Alzheimer's disease or a related dementia. This public health crisis costs \$17,617 per capita to Medicare and an additional \$207 million to Medicaid each year. Hawaii's 66,000 caregivers carry the heaviest burden, providing an estimated \$944,000,000 in unpaid care.

There is an urgent need to address these issues. The current number of individuals affected will only continue to rise as baby boomers age. The increase in individuals affected will continue to take a toll on families and on our community as we are left to pay hefty costs for the care of individuals with dementia. Providing funding for the Alzheimer's Disease and Related Dementia Coordinator will allow for our community to lessen the negative impact that this disease poses if left unaddressed.

Additionally, we humbly request that this measure be amended to also create and appropriate funds for a Program Specialist IV position within the Chronic Disease Prevention and Health Promotion Division.

# alzheimer's association®

## ALOHA CHAPTER

1130 N. Nimitz Highway Suite A-265, Honolulu, Hawaii 96817  
Phone: 808.591.2771 Fax: 808.591.9071 [www.alz.org/hawaii](http://www.alz.org/hawaii)

Alzheimer's is now viewed as a midlife disease, in that it occurs along a continuum typically beginning in midlife or earlier and results in dementia later in life. Research now demonstrates that there are ways to improve brain health and reduce risk of cognitive decline. The Chronic Disease Prevention and Health Promotion Division works to promote health and reduce the burden of chronic disease for the people of Hawaii by empowering the community, influencing social norms and supporting and encouraging healthy lifestyle choices. Programs under the Chronic Disease Prevention and Health Promotion Division utilize public health strategies including: strategic partnership development and community linkages; awareness and education; surveillance; evidence-based best practices; evaluation; and promoting health equity. For these reasons, we believe that a position focused on Alzheimer's and related dementias within the Chronic Disease Prevention and Health Promotion Division would be well suited to mitigate some of the growing burden.

I appreciate the opportunity to testify in **strong support** of this legislation and applaud your leadership in bringing it forward.

Sincerely,

Ian Ross

**Re: Strong Support for HB581, Relating to Health.**

Aloha e Chairs Mizuno and San Buenaventura, Vice Chairs Kobayashi and Nakamura, and HLT and HSH Members,

My name is Steve Lohse, I'm a resident of Chinatown Gateway Plaza (CGP), a 200-unit, city-owned, affordable housing property in Chinatown. I'm also chair of the CGP Tenant Association (CGPTA), organized by CGP residents in 2006 to keep ourselves informed and engaged in matters of concern to our community. **On behalf of the CGPTA, thank you for this opportunity to submit written testimony in Strong Support for HB581.**

If you're like me, then you have known Alzheimer's victims in your family and community, and you have experienced the sadness of seeing people that you've known all your life gradually incapable of recognizing family and friends. How can we possibly justify not helping?

Please support the Alzheimer's Disease and Related Dementia Services Coordinator position within the Executive Office on Aging. It is unimaginable that we don't do all we can to support family health, including kupuna health, in Hawaii Nei.

**Please, pass HB581. Thank you!**

**STATEMENT OF THE ILWU LOCAL 142 ON H.B. 581  
RELATING TO HEALTH**

The ILWU Local 142 **supports** H.B. 581, which appropriates funds for the Alzheimer's Disease and Related Dementia Services Coordinator position within the Executive Office on Aging.

Alzheimer's and dementia are chronic diseases in every sense. A 2013 state plan called for a coordinator to assist the State with this growing and inevitable problem, but funding has yet to be provided. The fact is one coordinator is not enough, considering the scope and magnitude of the problem. However, one coordinator will be a good start.

Alzheimer's Disease and dementia are extremely costly. The cost of care for patients with Alzheimer's and dementia are astronomical in terms of dollars as well as emotional and physical costs for family caregivers. Hundreds of thousands of hours are spent each day by family caregivers, resulting in the likelihood of diminished economic security for their own retirement. And, as the number of patients with Alzheimer's Disease and dementia continues to grow, the likelihood of Medicaid dollars, half of which is funded by the State, being funneled to pay for such care will grow exponentially.

Although Alzheimer's and dementia may not be preventable, there may be ways to mitigate the impact of the growing number of patients with these conditions. Medical treatment and medication for the patient and education for the family are options that a dedicated coordinator can offer to families coping with the ongoing stress and strain of caring for patients with Alzheimer's and dementia.

The ILWU urges passage of H.B. 581 to address this huge public health need. Thank you for the opportunity to offer testimony on this measure.

Re: **HB 581 – RELATING TO HEALTH**  
**Testimony in Strong Support**

Chair Mizuno and San Buenaventura and Committee Members:

I **strongly support** HB581.

Families rarely talk about how Alzheimer's disease is impacting them. But I am compelled to provide this testimony in memory of my father and on behalf of the literally thousands of individuals and unpaid family caregivers that are affected by Alzheimer's disease and related dementias.

My family has personally experienced the devastating impact of Alzheimer's Disease. My late father passed away from the disease. Caregiving at home involved myself, my mother, my wife, my son, and my daughter. We personally saw how the disease robbed my father of his ability to control his emotions; behavior; mobility; bodily functions, and ultimately his ability to speak and show his love and appreciation to my mother. He passed away one week short of my parent's 60<sup>th</sup> wedding anniversary.

We are just one family. With similar, but uniquely different situations are the 28,000 Hawaii residents living with Alzheimer's Disease and 66,000 unpaid family caregivers helping their loved ones with the Disease. This makes almost 100,000 Hawaii residents impacted by the Disease right now, that are largely dealing with the Disease on their own.

The State recognized in 2013 the public health crisis of Alzheimer's Disease. A State Plan on Alzheimer's Disease and Related Dementias was developed. Unfortunately the Plan has NOT been implemented and is sitting on the shelf.

This bill would appropriate funds for the Alzheimer's Disease and Related Dementia Services Coordinator position. My hope is that with this position the recommendations of the Plan can be turned into actual policies that are carried out. Hawaii families are living every day the nightmare of this disease. We need to help them now.

I urge you to pass this bill. Thank you for the opportunity to provide this testimony.

Sincerely,

Steve Tam  
Hawaii Kai

The Alzheimer's disease and related dementia services coordinator position was established within the executive office on aging by Act 214, Session Laws of Hawaii 2013. This coordinator position is absolutely essential as it is tasked with overseeing arrangements of public and private Alzheimer's Disease and related dementia services. The coordinator will oversee and assess the needs of the affected as well as potential populations of Alzheimer's Disease and dementias related of Hawaii. Funding of this position is crucial as the number of existing cases of Alzheimer's Disease, as well as the cost of the disease continually rises.

Please support the passage of this measure.

Mahalo,

Katrina Sudweeks

*Aloha Chair and Committee Members:*

*I am in **strong support** of the appropriation of funds for the position of Alzheimer's disease and related dementia services coordinator within the Executive Office on Aging. In the state of Hawaii, there are currently an estimated 28,000 individuals living with Alzheimer's Disease, and it is the 6th leading cause of death in the state. Most recently reported in 2018, Hawaii's Medicaid expenditure on Alzheimer's Disease care has risen to \$207 million and is projected to increase by 35.4% by the year 2025. Furthermore, the per capita Medicare expenditure on people with dementia was \$17,617.*

*I am passionate about helping people with Alzheimer's and dementia after watching my father suffer a lengthy decline into dementia, cared for at home by his loving wife.*
