State Senate  
Hawaii State Capitol, Room 229  
415 South Beretania Street

Dear Chair Nishihara and Members:

SUBJECT: Senate Bill No. 1321, Relating to Firearms

I am David Nilsen, Acting Major of the Records and Identification Division of the Honolulu Police Department (HPD), City and County of Honolulu.

The HPD supports Senate Bill No. 1321, Relating to Firearms.

This bill makes changes to Hawaii Revised Statutes Section 134 and allows for the registration of firearms after the five-day registration period has expired. It clarifies that failure to register a firearm within this time period does not relieve the owner of the duty to register the firearm. Additionally, this bill allows the owner of an unregistered firearm to register the weapon after the five-day registration period has expired without penalty. The HPD believes that this bill will encourage those who have missed the five-day registration period, for whatever reason, to come in and register their firearms as they may do so without penalty. This will also allow the HPD to maintain more accurate records of firearms within the City and County of Honolulu.

The HPD urges you to support Senate Bill No. 1321, Relating to Firearms.

Thank you for the opportunity to testify.

APPROVED:

Susan Ballard

Sincerely,

A handwritten signature in cursive script that reads "David P. Nilsen".

David P. Nilsen, Acting Major  
Records and Identification Division

The Honorable Glenn Wakai, Vice Chair  
Senate Committee on Public Safety, Intergovernmental, and Military Affairs

State Capitol, Room 229

RE: SB1321 Relating to Firearms

Aloha Members of the Senate Committee,

The Hawaii Firearms Coalition SUPPORTS SB1321.

The Hawaii Firearms Coalition finds that Hawaii's HRS 134-3 (relating to firearms registration) is harmful to firearm owners and unnecessary and therefore should be repealed. However we support SB1321 because it's even worse to make criminals out of good people that want to do the right thing by registering their firearms even if late.

Hawaii's firearms permitting and registration process is overly complex with short deadlines, such as the requirement in HRS 134-3 to register a firearm within 5 days of acquisition or entering the state else receive a petty misdemeanor. Law abiding citizens sometimes cannot meet these deadlines due to reasons such as:

1. Life problems – Busy work schedules, family emergencies, etc.
2. Military training and unexpected work projects
3. Not knowing registration is required (registration is not required in most states)
4. Inheriting a firearm and finding it years later

Another example is that the 5 day registration requirement doesn't exclude weekends and holidays. If a person acquires their firearm on Friday night (day 1), holds it for the weekend (day 2,3), and Monday is a holiday (day 4) then they have only 1 day to register it since firearms registration is closed on nights, weekends, holidays, and is only available in one location. A very tough requirement to meet for a person working two jobs due to Hawaii's high cost of living. Hawaii's firearm permitting and registration is an overburdened process to the average working person so it's understandable why people may register firearms late.

There have been many reports of people with unregistered firearms, inherited or brought in from the mainland, that are past the five day deadline and they don't know what to do. They feel like criminals

and are afraid they'll be arrested if the firearms are registered late. A good law abiding citizen shouldn't have to feel that way.

For these reasons the Hawaii Firearms Coalition Supports SB1321. Thank you for your consideration.

Mahalo

## Comments:

I support this bill because sometimes honest people make legitimate mistakes and don't realize what the requirements are. There's a difference between deliberately breaking the law and mistakenly breaking the law. There needs to be an accommodation for those who want to follow the law and are learning the requirements.

Comments:

I support this legislation with a HUGE caveat.

I find it extremely ironic that with this bill the legislature is essentially providing people the opportunity for them to infringe upon their own constitutionally-protected right to keep arms by reporting themselves to the government for not reporting themselves to the government which has already infringed their rights by criminalizing them for exercising their rights and not reporting it to the government!

That's so twisted! But expected here in Hawaii where anything having to do with the pre-existing natural unalienable God-given fundamental individual enumerated constitutionally-protected civil rights regarding self-defense are treated not only with disdain, but with criminalization.

Here's my real suggestion: Gut and replace this bill with a total repeal of any demand by the state that those exercising their rights must report any such exercise thereof to the State.

That proposed legislation would, for a start, look like this:

~~**§134-3 Registration, mandatory, exceptions.** (a) Every person arriving in the State who brings or by any other manner causes to be brought into the State a firearm of any description, whether usable or unusable, serviceable or unserviceable, modern or antique, shall register the firearm within five days after arrival of the person or of the firearm, whichever arrives later, with the chief of police of the county of the person's place of business or, if there is no place of business, the person's residence or, if there is neither a place of business nor residence, the person's place of sojourn. A nonresident alien may bring firearms not otherwise prohibited by law into the State for a continuous period not to exceed ninety days; provided that the person meets the registration requirement of this section and the person possesses:~~

~~—(1) A valid Hawaii hunting license procured under chapter 183D, part II, or a commercial or private shooting preserve permit issued pursuant to section 183D-34;~~

~~—(2) A written document indicating the person has been invited to the State to shoot on private land; or~~

~~— (3) Written notification from a firing range or target shooting business indicating that the person will actually engage in target shooting.~~

~~The nonresident alien shall be limited to a nontransferable registration of not more than ten firearms for the purpose of the above activities.~~

~~— Every person registering a firearm under this subsection shall be fingerprinted and photographed by the police department of the county of registration; provided that this requirement shall be waived where fingerprints and photographs are already on file with the police department. The police department shall perform an inquiry on the person by using the International Justice and Public Safety Network, including the United States Immigration and Customs Enforcement query, the National Crime Information Center, and the National Instant Criminal Background Check System, pursuant to section 846-2.7 before any determination to register a firearm is made.~~

~~— (b) Every person who acquires a firearm pursuant to section 134-2 shall register the firearm in the manner prescribed by this section within five days of acquisition. The registration shall be on forms prescribed by the attorney general, which shall be uniform throughout the State, and shall include the following information: name of the manufacturer and importer; model; type of action; caliber or gauge; serial number; and source from which receipt was obtained, including the name and address of the prior registrant. If the firearm has no serial number, the permit number shall be entered in the space provided for the serial number, and the permit number shall be engraved upon the receiver portion of the firearm prior to registration. All registration data that would identify the individual registering the firearm by name or address shall be confidential and shall not be disclosed to anyone, except as may be required:~~

~~— (1) For processing the registration;~~

~~— (2) For database management by the Hawaii criminal justice data center;~~

~~— (3) By a law enforcement agency for the lawful performance of its duties; or~~

~~— (4) By order of a court.~~

~~— (c) Dealers licensed under section 134-31 or dealers licensed by the United States Department of Justice shall register firearms pursuant to this section on registration forms prescribed by the attorney general and shall not be required to have the firearms physically inspected by the chief of police at the time of registration.~~

~~— (d) Registration shall not be required for:~~

~~— (1) Any device that is designed to fire loose black powder or that is a firearm manufactured before 1899;~~

~~—(2) Any device not designed to fire or made incapable of being readily restored to a firing condition; or~~

~~—(3) All unserviceable firearms and destructive devices registered with the Bureau of Alcohol, Tobacco, and Firearms of the United States Department of Justice pursuant to Title 27, Code of Federal Regulations.~~

~~—(e) No fee shall be charged for the registration of a firearm under this section, except for a fee chargeable by and payable to the registering county for persons registering a firearm under subsection (a), in an amount equal to the fee charged by the Hawaii criminal justice data center pursuant to section 846-2.7. In the case of a joint registration, the fee provided for in this section may be charged to each person. 24 hours is not enough time. When a home is broken into, there are many people to call and notify. I'm not sure if anyone on this committee has ever been a victim of a robbery, but it's very stressful. And to add icing on the cake, if the homeowner notifies the police 24 hours and 1 minute later, then they will be breaking the law.

First of all, I would prefer that firearms are not required to be registered and I beleive that a database of anything I own is dangerous.

But, I supprt this bill because it eliminates the short timeframe to register new guns brought in to Hawaii. It is a burden to new arrivals to get acustomed to the unique lawas of Hawaii and force a schedule on them. An example I witness at the police department firearms registration desk are the men and women of the military who come to defend the country from this beautiful state only to be hassled with the difficult and tedious process of gun registration.

I appreciate resonable legistative changes that does not make it more difficult for me to own firearms.

I support this bill, and ask that you as elected representatives also support this bill. If a person for some reason or other inadvertently misses registration of a firearm, and then does indeed register it in good faith, that person should not be penalized for an administrative oversight. Especially since the time windows in Hawaii are so short, and getting to downtown with the traffic is not the easiest thing in the world, let alone find parking.

Although I do not support the premise of registration, I do feel that a simple mistake should not result in criminal charges. With the way the current law is currently written a person whom for whatever reason fails to register a firearm within 5 days or coming into possession of the firearm would be subject to criminal charges if they attempt registration. No person should be prosecuted for attempting to do the right thing and comply with the law even if they failed to do so in a timely manner. Passing this bill would allow these people to comply with the law without fear of prosecution.

There would be no negative effect to the legislator, the state or its people for passing this bill into law.

It is lamentable that the state thinks that my property is any of their business - it is not. A brief reading of history proves that registration of firearms always leads to confiscation - something we may soon see in Hawaii.

However, since the state sees fit to threaten us with violence unless we report ownership of our firearms, I support any bill that reduces that threat of violence. Please support this bill, and please continue to support legislation that brings an end to the violence of the state against peaceful people.

Testimony : Aloha, I am writing in support of SB1321. Simply put, criminal charges should be leveled against an individual due to forgetting to register their weapon. Especially if those charges could potentially result in an individual losing their 2nd amendment right indefinitely.

Testimony : This e-mail is in SUPPORT of SB1321.

As a LEGAL firearm owner, I would like to see ALL legislatures go through the process of owning a firearm to see and feel the frustration. It is without a doubt that Hawaii has one of the most strict gun laws in the United States of America. Even with strict gun laws in the Aloha state, we do not see a decline of criminal activities in our neighborhoods involving firearms that were bought ILLEGALLY. We as LEGAL firearm owners are the ONLY one's penalized and punished with these strict gun laws, but criminals get to roam free. Give the people their rights to protect themselves from such criminals, don't let more innocent people die. If the criminals have their way, the deaths of innocents are on the hands of our legislatures who restrict the access of protecting ourselves.

Sincerely,  
Mark D.

Although we do not support registration we do feel that a simple mistake should not result in criminal charges. If a person has a delay for any reason (medical, moving, transportation ect...) and can not register their firearms in the time required, if they attempt to register their firearms late they could currently be subject to criminal prosecution. This law would remove that criminal charge and give people an opportunity to register at any time.

Testimony : Really registration is supported and life gets in the way but to define it as criminal is a bit much. I strongly oppose SB1321 if the state wants to impose this then look at your process to register this should be done by the store at the time of purchase eliminating the need to use taxpayer funds and would ensure registration is done for those gun arriving with household goods the owner can pay a dealer storefront to register the weapon

Testimony : This e-mail is in SUPPORT of SB1321. While I do not support the registration of firearms, just as the registration of one's religion isn't acceptable, penalizing individuals for missing the incomprehensibly short deadlines for registration should be waived. Please realize that the deadlines given out by the Firearms Department sometimes CANNOT be met.

for example. I was told that I had two CALENDAR days to register a handgun. This means that a firearm bought on a Friday must be registered on that Friday. The office closes before the retailers do, which means that a firearm legally purchased after 4pm on friday CANNOT be properly registered on time. This is a commerce restricting rule, especially during three day weekends.

I would appreciate the opportunity to speak with any Senator regarding this bill.

Thank you,

Kent Kurihara

I do NOT support the requirement for registering firearms in Hawaii, however I feel that given the current laws gun owners should not be criminalized for a simple mistake or delay in registering the firearm. Given that registration is a requirement, this bill makes it easier for gun owners to comply and is fair.

People are busy, if their jobs require them to move here, this bill criminalizes them for not registering their firearm in an unreasonable amount of time. The time frame should increase to 30 days. I'm a law abiding citizen and a registered voter in the state of Hawaii. I support SB1321 I do not support registration but I do support to have the criminal charges removed so that firearms may be registered at any time.

Testimony : Guns help protect our families. Guns help protect our little ones. Guns keep the BAD GUYS away. Guns are part of our self defense. If a bad guy or bad guys breaks with weapons into our house, we cant protect ourselves if we don't have weapons because the law took it away for a forgotten registered gun. Plus, if we didn't have weapons and we called the cops for help, we would be dead before they arrived. Boom, right there, another life or lives lost

Name : Seth Addison  
E-mail : sethaddison@hotmail.com  
Zip Code : 96706

Testimony : This is an Email in support of SB1321.

I personally do not believe that the State registry is a good thing, and I has not done anything to lower crime. However, it seems to me that if someone moves into this State, or for some other legal reason possess a firearm that has not been registered, if doing so will cause that person to become penalized, to me common sense is they probably are not going to register it with the State(if they are caught with it they are punished and if they register it, they are punished).

If you want people to register their firearms that otherwise might not have been registered, you should support SB1321.

Thank you,

Seth Addison

Testimony : This email is in SUPPORT of SB1321. I believe that there are some circumstances beyond a person's control (illness, catastrophe in the family, etc) which may delay the registration of a firearm. I also believe that a responsible firearm owner will do what they need to in order to register the firearm within the appropriate time but this would allow that minuscule chance where they are unable to register to be extended for a reasonable period of time. Thank you for your consideration.

Testimony : This email in SUPPORT of SB1321. Although I do not support registration, I do feel that a simple mistake should not result in criminal charges. If a person has a delay for any reason (medical, moving, transportation ect...) and can not register their firearms in the time required, if they attempt to register their firearms late they could currently be subject to criminal prosecution. This law would remove that criminal charge and give people an opportunity to register at any time.

Testimony : To who it concerns,

I am writing this to let you know that as a voting resident of Hawaii I am opposed to the measures that are proposed in SB and its implications in regards to firearms ownership in Hawaii. With the large amount of military that are coming and going from the island and they are never informed of the requirement to register firearms that is not a thing that is needed to be done in almost all of the other states in the country. This simple oversight would turn much of our nations military into criminals for not being aware of the additional requires that Hawaii places on firearms ownership.

Although a responsible gun owner should register a weapon in due time, I believe there are forces that distract a person or prevent a person from doing so. I do feel a person should be held accountable for not abiding by the rules but a simple mistake should not make them a criminal.

Given that Hawaii is the only state that requires registration of all firearms, it is easy for someone moving here from a state where the 2cd Amendment has not been infringed upon to not realize how easy it is for the laws here in the State of Hawaii to make them criminals on paper. This bill would allow these law abiding citizens to comply with the laws.

Please, support my right to bear arms, supporting my protection, the protection of the lives of my loved ones, my livelihood, my favorite pastime. Just because I may make an honest mistake, or if I had a reason like medical, moving, transportation, etc... and I failed to register within the required time frame, but DID REGISTER late, I should not be subject to criminal prosecution. Remember, that the law does not apply to law-breakers. Regulation and suppression of my rights only punish law-abiding citizens.

Testimony : To whom it may concern,

Please Oppose Senate Bills 556, 600, 621, & 1466

As a fellow Hawaii resident and an American, I urge you to please oppose Senate Bills 556, 600, 621, and 1466.

SB 556 is unnecessary and could potentially be used to deny constitutional rights based on secret government watchlists without due process.

SB 600 would discriminate against young adults under the age of 21 who are visiting or relocating into Hawaii by denying them their Second Amendment rights.

SB 621 would further victimize those who have the misfortune of suffering a loss or theft of their property by imposing a one-size-fits-all requirement for how they must report lost or stolen firearms.

SB 1466 could allow for the removal of an individual's Second Amend rights not based on a criminal conviction or mental health adjudication, but instead on a third party allegation.

Again, please oppose Senate Bills 1321, 556, 600, 621, and 1466. Mahalo.

Sincerely,  
Lloyd Y. Manamtam

Testimony : This e-mail is in SUPPORT of SB1321..... As a surgeon and responsible gun owner. I do not object to the registration process. But again. it is naive to think that criminals or persons with intent to harm will follow these rules. It hurts only the lawful citizen. Yet, I agree because I do believe in order and lawfulness. However, with unpredictable schedules that surgeons who are on emergency call have, timely registration of firearms can be quite difficult. We would need to take time off work to pick up the permit, obtain the weapon and assure that we can get to the registration desk by 1500. While 5 days may seem like a lot of time to those who work predictable shifts, you may be quite surprised by how quickly these days pass when dealing with medical issues, one patient of which, may take eight hours to care for or complete surgery. I have been very close to being outside that registration time period due to work. I strongly feel that making someone like myself now a "criminal" is radically unjustified. A simple solution would be to keep the registration desk open perhaps for at least 12 hours monday thru friday?

Dear Sir/Ma'am

I am writing this in response to the bills being introduced to ban semi automatic rifles, commonly and incorrectly referred to by Government officials and the media as assault rifles.

I'd like to ask you one question, what do you know about firearms in this country outside of what you see on TV?

Do you know what select fire is?

Do you know the difference between semi automatic and automatic?

Do you know what caliber round that a AR15 uses?

Do you know the difference between a magazine and a clip?

Do you know what the AR in AR15 means?

I could go on and on but most of these questions can be answered by a simple google search.

My point is, these are gun 101 questions and folks like yourself looking to ban semi automatic firearms can't answer them. You would rather spread misinformation about guns sharing facts that are incorrect and if repeated often enough by the media seem to become reality to you and your colleagues. Facts don't lie and not one single fact supports your argument.

Your thought presses for gun safety can be compared to drinking and driving.

Let's reduce the number of fatalities caused by drunk drivers by removing the sober drivers from the street.

I would invite you to come see one of the Practical shooting events that myself and many others partake in. Every weekend you see 50 to 75 women, children and men of all races and backgrounds competing.

I would invite you to watch or partake in any of the handgun safety courses that take place every weekend, many of these courses specially for women. There are also training courses that are held. You'll be taught rifle and handgun technique to protect your family and loved ones or improve your accuracy at the range.

There will be a gun show at the Blaisdale in March, you should go and talk to people there, contrary to what you may believe there will NOT be gang members illegally purchasing guns. Rather family's and friends having a good time and spending money on their hobbies.

Have you ever been to one of the shooting fairs at Kokohead? Over the weekend there are

more attendees than a UH football game. Every politician in Hawaii should go and learn something, it may open your eyes.

I enjoy many aspects of shooting. I compete in Practical shooting events held at Kokohead every weekend. Most often we compete with hand guns but we really enjoy the multi gun events where we compete with hand gun, rifle and shotgun. I enjoy spending weekends on Lanai hunting with my family and friends. Even if I don't bag a deer or a mouflon the time we get to spend together is priceless. I enjoy the time I have spent with my dad in Houston shooting sporting clays. Spending the afternoon shooting clays on shotguns he has restored. I enjoy building rifles, several on the AR platform. One in particular was used to help a friend pass his shooting Quals to become a sheriff. I enjoy the classes I take to help me become a better shooter. I take these classes so I know what I need to do should I ever be put in a position to protect my life or that of my friends and family.

My story is no different from all other legal gun owners and what has us all baffled is why you think we are a threat to this state and country. We all wonder why you want to take our second amendment rights away but keep them in place for your own protection. Why can celebrities and politicians be safe behind armed guards but the ordinary citizen be stripped of their right to protect themselves? Are we supposed to believe that a police officer will always be there in time?

In the last 20 years there have been more shootings, many of which are sensationalized by the media. In all these cases it has been a failure of government that has allowed these to happen, not the silent majority law abiding gun owner. But politicians want to keep adding more gun laws instead of fixing the root problems. Guns have not changed in the last 20 years, our society has. Talk to any teacher and you will know their daily struggle. Undisciplined kids that are shown no consequence for their actions. Today criminals have more rights than the victim.

I really wish that politicians would spend the time and get to know the real gun owners in this country. Maybe then they will realize that their efforts are misguided. No new gun law will ever stop someone determined to do harm. Recent terror attacks have proved this. Most anti gun lobbies will always ask why anyone would need a semi automatic rifle, yes there are others than just the AR platform. Well, what you just read is my reason and millions more like me.

Recently my way of life was saved by my dearest friends Chaney. I shoot, surf and ride motocross with Channy. In September 2017 she gave me a new kidney and a new lease on life. Is this the type of person you feel as a threat to society?

Testimony : This email is in SUPPORT of SB1321. I had an experience with registering a gun recently. I bought a firearm, had all the necessary paperwork (I own other firearms) and had to take an emergency flight to the mainland. This was over the weekend and I didn't get a chance to register it before I left.

Well, it ended up being a big hassle and I had to find someone to go into my house, into my safe, and turn in the firearm to the police department. It was a very awkward and frustrating during a time in my life where I was dealing with family emergencies.

Due to the extensive screening process in Hawaii, anyone that obtains a permit has cleared background checks...we know they are law-abiding citizens...or else they would not have passed the initial screening to get a permit. Let's give our law-abiding citizens the benefit of doubt. 5 business days is a really short time and even those of us with the best intentions sometimes has "life" happen to them and could cause them to miss the deadline.

To the Honorable Senate of the State of Hawaii,

I appreciate your time reviewing my testimony regarding SB1466: Relating to Gun Violence Protective Orders.

According to SB1466: would a person have his/her property confiscated without the right to due process? Would this legislation be in violation of the Fifth and Fourteenth Amendments in the Bill of Rights? Does this mean that a person can have his/her property confiscated without having committed a criminal act?

To relieve someone of their rights, one would imagine that the evidence necessary would be substantial and beyond a reasonable doubt. What tangible evidence would be necessary for the issuance of a Gun Violence Protective Order? What assurances can be given to the people of Hawaii that Gun Violence Protective Orders will not be abused?

Should SB 1466 violate a person's right to due process, or any other rights in the United States Constitution, I would urge you to please oppose SB 1466. Law making should begin with the U.S. Constitution and adhere to the rights and freedoms that are the fabric of our great nation.

I appreciate your time and consideration, as well as your dedication to the people of Hawaii.

Mahalo and have a great day!
