

STATE OF HAWAII
DEPARTMENT OF LAND AND NATURAL RESOURCES

POST OFFICE BOX 621
HONOLULU, HAWAII 96809

Testimony of
SUZANNE D. CASE
Chairperson

Before the Senate Committee on
WAYS AND MEANS

Thursday, February 20, 2020
10:35 AM
State Capitol, Conference Room 211

In consideration of
SENATE BILL 2668, SENATE DRAFT 1
RELATING TO THE LAND CONSERVATION FUND

Senate Bill 2668, Senate Draft 1 proposes to (1) increase the maximum dollar amount of the annual Conveyance Tax distribution to the Land Conservation Fund (Fund) from \$6.8 million to \$8.8 million, (2) increase the percentage of the Fund that may be used, annually, for costs related to the operation, maintenance, and management of lands acquired by the Fund, and (3) provide a Fiscal Year (FY) 21 appropriation from the Fund for resource land acquisition. **The Department of Land and Natural Resources (Department) supports this measure.**

Raising the Revenue Cap (Section 2)

In 2005, the Legislature recognized that “an alarmingly small amount of money is invested each year to protect our natural capital base,” and authorized ten percent of annual conveyance tax revenue as a source of permanent funding for land conservation, based on a finding “that the preservation, protection, and enhancement of the State’s land, coastal areas, and natural resources are of central importance for current and future residents and for the state economy” (Act 156). During the first eight years of funding (FY06-FY13), the Fund received an uncapped, ten percent share of conveyance tax revenue that ranged from \$2.38 million (FY09) to \$5.92 million (FY06), and averaged \$4.48 million. For FY14-FY15, this revenue share climbed to \$7.72 million per year (average), while the Department’s spending ceiling remained unchanged at \$5.1 million per year.

In 2015, the Legislature capped this revenue source at \$6.8 million per year. Over the next four years (FY16-FY19), ten percent of conveyance tax revenue exceeded this new cap by \$7.7 million, total, money that could have been applied to land acquisition projects. For FY19, the Legislature granted the Department’s perennial request to raise the spending ceiling for the Fund, providing a one-time increase from \$5.1 million to \$6.9 million. For the FY20-FY21 biennium, the annual

spending ceiling was lowered back down to the historic appropriation level. At this level, about \$3.2 million remains available for the annual land acquisition grant program, after covering debt service for the State's land acquisition at Turtle Bay and expenditures for program administration.

In the face of escalating real estate prices and persistent development pressure, the Department's primary dedicated funding mechanism for land conservation continues to lose pace with market values and public demand, resulting in missed opportunities for many worthy and time-sensitive land acquisitions. For example, the Department received applications for over \$15 million in FY20+FY21 grant funding, with over 64% of total land acquisition costs to be provided by other sponsors. In reviewing these applications, the Legacy Land Conservation Commission voiced its disappointment that more funds were not available to support the bulk of the proposals.

Council on Revenues growth rate projections suggest that ten percent of conveyance tax revenues will exceed \$8.8 million in each year of the FY 2021 to FY 2026 budget planning period, indicating that raising the Fund revenue cap as proposed would result in a \$12 million total impact to the general fund during that period. **This impact represents a two percent reduction in total estimated conveyance tax distributions to the general fund and a 0.024 percent reduction in total estimated general fund tax revenue over the entire six-year budget planning period.**

The Department notes that an increase in the annual spending ceiling would be required to authorize the Department to expend additional conveyance tax revenue for grants from the Legacy Land Conservation Program. In order to promote greater legislative involvement in the distribution of funds and more timely determination of program resource needs, the Department recently changed the timeline for the Fund grant application process. For the FY21 budget cycle, we already received a funding recommendation from the Legacy Land Conservation Commission, and used it as a basis for the Department's supplemental budget request. Thus our current and future budget requests now reflect specific, point-in-time knowledge of planned acquisitions rather than estimates of anticipated demand (as previously derived by assessing historic revenue, appropriations, and requested grant amounts).

Raising the Management Grants Cap (Section 1)

The Department notes that awarding and administering grants of operation, maintenance, and management funds for lands acquired by way of the Fund must be conducted under State procurement law and would require additional staff resources to develop and implement procedures for grant application, review, award, contracting, and field inspection. Given the expanding workload of the Legacy Land Conservation Program, which now monitors the management of 36 conserved properties—with up to 18 more that may be added by the end of FY21—the Department would need one additional position in order to responsibly implement an expansion of the management grant component of the Legacy Land Conservation Program, while continuing to preserve and enhance the vitality of grants for land acquisition

Appropriation (Section 3)

The Department respectfully notes that the Executive Budget Request for FY20-21 includes an appropriation of \$10,224,428 for resource land acquisition. This amount represents a one-time increase of \$5,100,000 in the annual spending ceiling for the Legacy Land Conservation Program. The Department would use this additional funding to support the acquisition of four properties, as

recommended by the Legacy Land Conservation Commission, and the completion of a resource land acquisition plan.

Thank you for the opportunity to comment on this measure.

Aloha e Chair Dela Cruz, Vice Chair Keith-Agaran, and Committee Members:

SB 2668 increases the maximum amount that can be used for management of lands acquired through the Legacy Land Conservation Program ("Legacy Program") from five percent to twenty-five percent, increases the statutory cap for the program from \$6.8 million to \$8.8 million, and appropriates a blank amount for resource land acquisition. We appreciate the Senate's efforts to support this valuable program. While TPL supports increasing the statutory cap, we hope that DLNR's budget for management of important forest, watershed, and recreation lands would not be decreased as a trade-off for this increase. This bill also appropriates a blank amount for resource land acquisition and indirectly appears to address the \$5.1 million spending ceiling set by the Legislature in its supplemental budget bill (LNR101).

The Trust for Public Land was part of a coalition legislators and community and environmental groups that worked together to enact the Legacy Program in 2005, which sets aside funding from the real estate conveyance tax to conserve land and special places throughout Hawai'i Nei. 2020 marks the program's 15th anniversary. The Legacy Program has conserved significant cultural sites, watersheds that produce our drinking, important habitat for native species, agricultural land that increases our food security, and beaches and coastal areas enjoyed by all. Each year, there are many more worthy projects than there is available funding.

The Governor's FY21 executive supplemental budget requests that the spending ceiling for the Legacy Program be increased from \$5.1 million to \$10,224,428 in honor of the 15th Anniversary. Over \$20 million of unspent money has built up in the Legacy Program fund because:

- (1) The spending ceiling set by the Legislature in its annual budget bill of \$5.1 million is lower than the amount deposited in the fund (\$6.8 million or 10% of the real estate conveyance tax, whichever is lower) – DLNR is only authorized to spend \$5.1 million, which is less than what is going into the fund; and
- (2) Monies for projects that do not close are returned to the fund.

This has caused over \$20 million to build up in the fund that the DLNR and Legacy Program cannot spend or use for land conservation, as the Legislature and supporters of the program originally intended.

We urge you to support increasing the FY21 spending ceiling for this worthy program from \$5.1 to \$10,224,428 (LNR101 Land Conservation Fund). Over 60 community, Hawaiian, and business organizations support this effort (see attached supporter list) – from the Land Use Research Foundation and the James Campbell Co. to the Sierra Club. On Valentine's Day, Hawaiian Caucus Day, 90 people filled out cards supporting this effort, which are also attached.

The State of Hawai‘i

Legacy Land Conservation Program: 15 Years of Aloha ‘Āina

Celebrate By Raising The Legacy Program Spending Ceiling

In celebration of the 15th anniversary of the State Legacy Land Conservation Program (“the Legacy Program”), a coalition of community organizations, landowners, and businesses listed in the insert support doubling the spending ceiling for FY21 from \$5.1M to \$10.2M in the Legislature’s annual budget bill.

Lands with important cultural, natural, and agricultural resources are sometimes, despite land use laws, threatened with development, destruction, or made inaccessible to the public. The Legacy Program is a win-win approach to these conflicts.

The Legacy Program is a completely voluntary program where private landowners voluntarily consent to the purchase of or conservation of their lands. The Legacy Program provides grants to public agencies and non-profit community organizations to purchase and voluntarily conserve land to protect unique and threatened natural and cultural resources: e.g., historic

sites, coastlines, native forest, watersheds, scenic open space, agricultural and ranch land, and recreational, fishing, and hunting areas.

In 2005, the Legislature enacted the program with nearly unanimous bipartisan support by its members and by an enthusiastic cross section of community, conservation, and affordable housing groups.

The Legislature prophetically recognized that an “alarmingly small amount of money is invested each year to protect our natural capital base” and that the “preservation, protection, and enhancement of the State’s land, coastal areas, and natural resources are of central importance for current and future residents and for the state economy.”

The Legacy Program has since protected 36 special places and over 21,000 acres throughout Hawai‘i nei and leveraged two-thirds of funding from county, federal, or private sources.

Ka Iwi Coast, O‘ahu: 182 acres of scenic coastline protected in 2017 with funds from the Legacy Program and the City and County of Honolulu Clean Water & Natural Lands Program after 40 years of grassroots advocacy.

How The Legacy Program Works

For 15 years, the State’s Legacy Program has protected treasured lands across Hawai‘i in a fiscally responsible, transparent, and community-supported manner.

Applicants to the Legacy Program go through a rigorous vetting process administered by the Legacy Land Conservation Commission (“the Commission”) made up of nine volunteer Governor-appointed commissioners with subject matter expertise (e.g., Hawaiian culture, native plants and animals, agriculture) and geographical representation from all the islands. The Commission analyzes detailed applications, conducts site visits, consults with the House Speaker and Senate President, ranks projects, and makes funding recommendations to the State Board of Land and Natural Resources.

Once an applicant is awarded funding, Legacy Program staff then work with the State Attorney General’s department and the Land Division to ensure that the State’s investment of funding is protected and documented via appraisals, deed restrictions, conservation easement restrictions, title review, and contractual grant agreement requirements.

A Legacy of Aloha ‘Āina

These 44 special places have benefited from the Legacy Program:

HAWAI‘I ISLAND

- ◆ Amy B.H. Greenwell Ethnobotanical Garden, Kona
- ◆ Hilo Forest Reserve
- ◆ Kahuku Coastal Property, Ka‘ū
- ◆ Kaiholena, North Kohala
- ◆ Kaiholena South, North Kohala

15

years in operation, the Legacy Program has protected some of Hawai'i's most treasured places

What Is The Legacy Program's Spending Ceiling?

The State of Hawai'i dedicates a portion of revenue from the real estate conveyance tax (a tax paid by the seller whenever land is sold) to the Legacy Land Conservation Fund ("the Legacy Fund"). Ten percent or \$6.8 million, whichever is less, of the real estate conveyance tax goes into the Legacy Fund.

The Legislature has generally imposed a \$5.1M "spending ceiling" that is lower than the \$6.8M that goes into the Legacy Fund annually.

After administration/staffing costs and the \$1.5M debt service for the Turtle Bay Makai conservation project, only about \$3.2M has been available for competitive grants for land conservation projects statewide each year since 2016.

Meanwhile, over \$20M has built up unspent in the Legacy Fund, as the amount flowing into the fund (\$6.8M) exceeds the annual spending ceiling (\$5.1M) or projects are discontinued.

Over 2,300-acres known as Waikapuna located in Ka'u, Hawai'i Island was recently acquired by the Ala Kahakai Trail Association, funded by the County of Hawai'i's Open Space Program and the State's Legacy Program, conserving over 2.3 miles of the Ala Kahakai National Historic Trail, an ancient fishing village, and hundreds of cultural sites. The Ka'u community has been working for decades to protect their beloved 80-mile coast to honor their kūpuna and perpetuate their rural lifestyle.

What Is The Impact Of Increasing The Spending Ceiling for FY21?

Each year, the number of applicants to the Legacy Program has increased with non-profits and public agencies competing for funding. For FY21, the Legacy Commission recommended 11 projects for full funding. But under the spending ceiling, only two projects can be fully funded.

While community demand for protecting land has intensified, land and prices and development pressures have increased, the spending ceiling has remained the same, resulting in missed opportunities for many worthy and time-sensitive land acquisitions.

In his FY21 Executive Budget, the Governor is requesting a one-year increase of the Legacy Program spending ceiling from \$5.1M to \$10.2M. A total of \$8.1M would be available for competitive land acquisition grants allowing four more special places to be conserved in Hawai'i.

This would **not** increase the conveyance tax. The spending ceiling increase would draw upon existing unspent funds (now over \$20M) and would **not** affect other parts of the State budget.

The proposed spending ceiling increase could contribute to the purchase and protection of the top six ranked projects in FY21, conserving extremely valuable and sensitive cultural and natural landscapes, watersheds, native habitat, agricultural lands, and coastlines facing acute and imminent threats of development in Maka'alaie (Hāna, Maui), Kiolaka'a (Ka'ū, Hawai'i), Manāka'a (Ka'ū Hawai'i), Mokae (Hāna, Maui), Mapulehu (East Moloka'i), and Na Wai 'Eha (Maui).

Commission's Recommended Ranking of FY21 Legacy Program Projects

1) Maka'alaie, Hāna, Maui	\$1.587M
2) Kiolaka'a, Ka'ū, Hawai'i	\$1.475M
Total available for grants under current \$5.1M spending ceiling	\$3.2M
<i>(includes partial funding of \$138K for Manāka'a)</i>	
3) Manāka'a Fishing Village, Ka'ū, Hawai'i	\$875K
4) Mokae, Hāna, Maui	\$1.8633M
5) Mapulehu, East Moloka'i	\$300K
6) Nā Wai 'Ehā	\$2M
The projects (above) that will go unfunded if spending ceiling is not raised from \$5.1M to \$10.2M	\$8.1M
7) Haloa 'Āina, Kealakekua, Hawai'i	\$500K
8) Halulu Fishpond, Waipā, Kaua'i	\$600K
9) Waikalua Loko, Kāne'ohē Bay, O'ahu	\$700K
10) Keone'ō'io, South Maui	\$1.1915M
11) Nānu'alele, Hāna, Maui	\$66K

Due to overall funding constraints, these important projects recommended for funding by the Commission will not receive funds in FY21.

Nearly an acre added to the Hanalei Black Pot Beach Park in 2010, with funds from the Legacy Program and Kaua'i Open Space Fund.

Mokae, Hāna, Maui - 32.7 acres of shoreline that could be saved if the spending ceiling is increased for FY21.

Legacy Lands Program marks 15 years of protecting nature

By Butch Haase, Earlynne Maile and Mary Charles

In Hawaii and nationally, we live in divisive and distrustful times, where belief in policymakers and each other seems to decline daily. But there is hope. Reflect on our collective efforts to malama aina across Hawaii for the last 15 years through the State Legacy Land Conservation Program ("Legacy Lands Program").

In 2005, listening to diverse stakeholders, the Legislature got it right. It passed the Legacy Lands Program recognizing that an "alarming small amount of money is invested each year to protect our natural capital base" and that the "preservation, protection, and enhancement of the state's land, coastal areas, and natural resources are of central importance for current and future residents and for the state economy."

The act set aside 10% or

\$6.8 million per year, whichever is less, from the pre-existing real estate conveyance tax (a state tax paid when land is sold) to save threatened places for future generations. Today, legacy lands include places like Ka Iwi Coast Mauka on

Oahu, the Nu'u Refuge on Maui, Lapakahi State Historical Park on Hawaii island, Kainalu Ranch on Molokai, and Hanalei Bayfront Pier on Kauai.

The program has protected 36 special places and over 21,000 acres of land. Its impact is much greater than its investment. For every dollar from the program, two dollars are raised from private, federal and county sources. The program's grassroots application process activates and re-connects people to aina, kupuna, culture,

ISLAND VOICES

Butch Haase, left, chairs the State Legacy Land Conservation Commission; Earlynne Maile chairs The Trust for Public Land Hawaii; Mary Charles chairs the Hawaiian Islands Land Trust.

receives more applications than ever. Last year, there were 11 qualified projects from throughout the state, and nine projects had to be turned away. This has happened because the Legislature has recently only authorized the Legacy Land Program to spend

\$5.1 million in its annual budget bill, less than what flows into the fund, and discontinued project grants are redeposited into the fund.

Unspent funds of over \$20 million have built up that the Legacy Program is unable to award to deserving communities who face threats to precious places across the islands.

More than 60 unlikely allies — landowners and community groups — ranging from Alexander & Baldwin, Kamehameha Schools,

and the James Campbell Co. LLC, to the Sierra Club and 'Ahaui Malama Ika Lokahi can agree on one thing: They all support the governor's request in the fiscal year 2021 supplemental budget (LNR 101 — Land Conservation Fund) to permit the Legacy Land Program to tap a portion of the over \$20 million so that additional lands can be set aside for future generations, fulfilling the Legislature's original intent and the people's desire to conserve the places that make Hawaii, Hawaii.

At a recent closing of a Legacy Land property, one community member announced, "Thank goodness there's still something having to do with land in Hawaii that everyone can agree on!" We couldn't agree more, and if you agree, please join in at the Legislature this Friday, 9 a.m. to noon, as we celebrate the Legacy Land Program's 15 years of aloha aina and look to the future for greater success.

TAX FOUNDATION OF HAWAII

126 Queen Street, Suite 304

Honolulu, Hawaii 96813 Tel. 536-4587

SUBJECT: CONVEYANCE, Raise Cap on Land Conservation Fund Earmark

BILL NUMBER: SB 2668, SD-1

INTRODUCED BY: Senate Committee on Water & Land

EXECUTIVE SUMMARY: Increases the percentage of the land conservation fund that may be used for costs related to the operation, maintenance, and management of lands acquired by the fund. Increases the maximum dollar amount of the conveyance tax distribution to the land conservation fund. Appropriates funds from the land conservation fund for resource land acquisition. The cap was imposed to make general fund forecasting more reliable and increase transparency and accountability.

SYNOPSIS: Amends section 173A-5, HRS, to allow costs for operation, maintenance, and management of lands up to 25% of annual fund revenues.

Amends section 247-7, HRS, to raise the dollar cap of conveyance tax revenues redirected to the land conservation fund from \$6.8 million to \$8.8 million.

EFFECTIVE DATE: July 1, 2020.

STAFF COMMENTS: The conveyance tax was enacted by the 1966 legislature after the repeal of the federal law requiring stamps for transfers of real property. It was enacted for the sole purpose of providing the department of taxation (which at the time also administered the real property tax) with additional data for the determination of market value of properties transferred. This information was also to assist the department in establishing real property assessed values and at that time the department stated that the conveyance tax was not intended to be a revenue raising device.

Prior to 1993, the conveyance tax was imposed at the rate of 5 cents per \$100 of actual and full consideration paid for a transfer of property. At the time all revenues from the tax went to the general fund. The legislature by Act 195, SLH 1993, increased the conveyance tax to 10 cents per \$100 and earmarked 25% of the tax to the rental housing trust fund and another 25% to the natural area reserve fund. As a result of legislation in 2005 and in 2009, the conveyance tax rates were substantially increased and bifurcated between nonowner-occupied residential properties and all other properties. Tax brackets were based on the amount of the value transferred. Until 2005, 50% of the receipts went into the general fund and the other half was split with the affordable rental housing program and the natural area reserve program. Beginning in 2005, another 10% was taken for the land conservation fund.

Act 84, SLH 2015, imposed the \$6.8 million cap on the earmark. In 2015, the Conference Committee explained the rationale for the cap on the earmark as follows:

Your Committee on Conference finds that budgetary planning and transparency are key components to ensuring the ongoing fiscal health of the State. Your Committee on Conference believes that, by establishing maximum amounts to be distributed to various non-general funds from the conveyance tax, this measure will make forecasts of general fund revenues more reliable, will increase legislative oversight of agencies and programs supported by the non-general funds, and will subject those agencies and programs to competition for limited public funds if the agencies or programs want more than the amount automatically distributed to their non-general funds.

Conf. Comm. Rep. No. 156 (2015).

Raising the cap on the earmarked revenues should be done only with great caution. As with any earmarking of revenues, the legislature will be preapproving each of the programs fed by the fund into which the tax monies are diverted, expenses from the funds largely avoid legislative scrutiny, and the effectiveness of the programs funded becomes harder to ascertain. It is also difficult to determine whether the fund has too little or too much revenue.

This bill also expands the scope of what moneys in the fund may be spent on. If the fund can be spent on more things, it probably will be spent on more things, and, predictably, more resources will be needed to feed the fund. Guess who will have to pay for the extra feeding.

If the legislature deems the programs and purposes funded by this fund to be a high priority, then it should maintain the accountability for these funds by appropriating the funds as it does with other programs. Earmarking revenues merely absolves elected officials from setting priorities. If the money were appropriated, lawmakers could then evaluate the real or actual needs of each program.

Scott Crawford	Testifying for Ke Ao Hali'i (Save the Hana Coast)	Support	No

Comments:

Aloha,

On behalf of Ke Ao Hali'i, a land conservation organization in Hana, Maui, we wish to express our support for SB2668, to increase the cap on the amount of funds put into the land conservation fund each year, and increase the portion of the land conservation fund that can be used to support the operation, maintenance and management of lands acquired with the fund.

Mahalo for your consideration.

Scott Crawford, Chair
