DEPARTMENT OF LAND AND NATURAL RESOURCES**

POST OFFICE BOX 621  
HONOLULU, HAWAII 96809

**Testimony of  
SUZANNE D. CASE  
Chairperson**

**Before the Senate Committee on  
WAYS AND MEANS**

**Thursday, February 20, 2020  
10:35AM  
State Capitol, Conference Room 211**

**In consideration of  
SENATE BILL 2692, SENATE DRAFT 1  
RELATING TO THE NA WAI EHA WATERSHED**

Senate Bill 2692, Senate Draft 1 proposes to provide an appropriation from the Land Conservation Fund towards state acquisition of lands at the heart of Maui's Nā Wai 'Ehā watershed. **The Department of Land and Natural Resources (Department) strongly supports this bill and suggests an amendment to clarify the purpose of the matching funds to be used for the purchase.**

Nā Wai 'Ehā represents significant ecological, cultural, and hydrological value to the island of Maui. Composed of breathtaking native forests, hidden valleys, and mountains reaching 5,000 feet tall, it provides habitat for over 45 endangered species. Nā Wai 'Ehā is the principal source of Maui's drinking water. Currently in private ownership, the lands of Nā Wai 'Ehā have been offered for sale, presenting a rare opportunity to place those valued lands into the public trust to ensure that their unique resources are appropriately managed in perpetuity for their public benefits.

The Department is coordinating with federal and County partners to enable the purchase of the mauka conservation lands for placement into the State forest reserve system, while securing into the public trust, under County ownership, the water systems and easements that lie downslope of the conservation lands. Exact acreage of the acquisition cannot be identified until the land has been surveyed. In addition, it is our understanding that the County of Maui is seeking to secure through its budget process the significant funds needed to purchase the water system and easements. Therefore, the Department respectfully suggests that the bill be amended as follows:

**SUZANNE D. CASE**  
CHAIRPERSON  
BOARD OF LAND AND NATURAL RESOURCES  
COMMISSION ON WATER RESOURCE MANAGEMENT

**ROBERT K. MASUDA**  
FIRST DEPUTY

**M. KALEO MANUEL**  
DEPUTY DIRECTOR - WATER

AQUATIC RESOURCES  
BOATING AND OCEAN RECREATION  
BUREAU OF CONVEYANCES  
COMMISSION ON WATER RESOURCE MANAGEMENT  
CONSERVATION AND COASTAL LANDS  
CONSERVATION AND RESOURCES ENFORCEMENT  
ENGINEERING  
FORESTRY AND WILDLIFE  
HISTORIC PRESERVATION  
KAHOOLAWE ISLAND RESERVE COMMISSION  
LAND  
STATE PARKS

SECTION 2. There is appropriated out of the land conservation fund the sum of \$ \_\_\_\_\_ or so much thereof as may be necessary for fiscal year 2020-2021 for the land acquisition of the Na Wai Eha watershed in Wailuku, Maui; provided that no funds shall be made available under this Act unless the county of Maui provides matching funds of at least \$ \_\_\_\_\_ for the purpose for which this sum is appropriated, or for the purchase of the associated water systems and easements offered by the seller. This project is deemed necessary to qualify for federal aid financing and/or reimbursement. The sum appropriated is anticipated to be supplemented by federal funds.

The sum appropriated shall be expended by the department of land and natural resources for the purposes of this Act.

Thank you for the opportunity to comment on this measure.

DEPARTMENT OF WATER SUPPLY  
COUNTY OF MAUI  
200 SOUTH HIGH STREET  
WAILUKU, MAUI, HAWAII 96793

February 18, 2020

**Testimony of the County of Maui Department of Water Supply  
In Consideration of S.B. 2692 relating to Na Wai Eha Watershed**

**Before the Senate Committee on**

**WAYS AND MEANS**

**Thursday, February 20, 2020**

**10:35 AM**

**State Capitol, Senate Conference Room 211**

The County of Maui supports the proposed Bill S.B. No. 2692 to appropriate funds for acquisition of the Na Wai Eha watershed in Wailuku, Maui. This critical watershed provides about 70% of the drinking water for the island of Maui through the Maui County Department of Water Supply (MDWS) public water system. This mostly forested watershed contains a pristine native ohia forest and is home to 45 endangered plant and wildlife species. The landowner has already sold over 4,000 acres to private entities. The proposed state acquisition will ensure protection of these important ecosystems as well as the region's historical, cultural and natural values.

Over the last two decades, MDWS has invested over \$6.5M in grant funds through watershed protection partnerships to control invasive plant and animal species within the Na Wai Eha watershed and Mauna Kahalawai. Intact native forests are the hydrologic engine that sustains groundwater recharge, stream flow and our drinking water supply. State control of these critical watersheds would ensure adequately funded and consistent watershed management. Na Wai Eha is also a strong candidate to receive federal funding through the Forest Legacy Program to further enhance this acquisition.

Thank you for your consideration of our viewpoint on this matter.

Respectfully submitted,

A handwritten signature in black ink, appearing to read "Jeffrey T. Pearson".

FROM: Alice L. Lee  
Council Chair

SUBJECT: **HEARING OF FEBRUARY 20, 2020; TESTIMONY IN SUPPORT OF SB 2692, SD 1, RELATING TO THE NA WAI WATERSHED**

Thank you for the opportunity to testify in **support** to this important measure. The purpose of this measure is to acquire the Na Wai Eha watershed using land conservation funds.

The Maui County Council has not had the opportunity to take a formal position on this measure. Therefore, I am providing this testimony in my capacity as an individual member of the Maui County Council.

I support this measure for the following reasons:

1. The Na Wai Eha watershed, composed of native koa, ohia, and lama forests, hidden valleys, and mountains reaching 5,000 feet, the habitat for over 45 endangered species, and the principal source of Maui's drinking water, is a tremendous environmental asset to the County of Maui.
2. Acquisition of the watershed will provide for its protection and promote new stewardship opportunities.
3. This measure will preserve and protect 11,020 acres of this critical watershed for public recreation, cultural gathering, and endangered species in perpetuity.

For the foregoing reasons, I **support** this measure.

Michael P. Victorino  
Mayor

Sananda K. Baz

**SB2692 SD1 RELATING TO THE NA WAI EHA WATERSHED**

Honorable Donovan M. Dela Cruz, Chair  
Honorable Gilbert S.C. Keith-Agaran, Vice Chair  
Honorable members of the Committee On Ways and Means

-----  
Thank you for this opportunity to testify in **STRONG SUPPORT** of SB2692 SD1.

The purpose of this bill is to appropriate funds for the acquisition of the Na Wai Eha Watershed in Wailuku, Maui. This watershed is essential to the public water system of Maui in that it supplies 70% of our drinking water. This watershed also contains native ohia forest, and 45 endangered plant and wildlife species. The proposed acquisition will ensure protection of this important ecosystem as well as the region's historical, cultural and natural characteristics.

The County of Maui has granted funds to control invasive plant and animal species within the watershed. Intact native forests are the hydrologic engine that drive groundwater recharge, stream flow and our drinking water supply. State control of this critical watershed would ensure adequately funded and consistent watershed management. Na Wai Eha is also a strong candidate to receive federal funding through the Forest Legacy Program.

**I strongly urge you to pass this measure, SB2692 SD1.**

Aloha e Chair Dela Cruz, Vice-Chair Keith-Agaran, and Committee Members:

SB2692 SD 1 proposes that the State purchase the ecologically, hydrologically, and culturally important lands known as Na Wai 'Eha with funds from the Land Conservation Fund, which supports the State's Legacy Land Conservation Program ("Legacy Program"). The Trust for Public Land supports the conservation of Na Wai 'Eha for public benefit, but we note that the acquisition can also be accomplished by supporting the Governor's request for an increase of the spending ceiling for the Legacy Land Conservation Program ("Legacy Program") in the FY21 supplemental budget from \$5.1 million to \$10.2 million (LNR101 Land Conservation Fund) in honor of the program's 15<sup>th</sup> anniversary (or via an appropriation in SB 2668 SD1). This would benefit Na Wai 'Eha as well as other worthy projects on Maui and Hawai'i Island. A more detailed case statement and diverse supporter list of over 60 large landowners, private businesses, and community groups, is attached, ranging from Alexander & Baldwin to the Sierra Club.

The Trust for Public Land was part of a coalition legislators and community and environmental groups that worked together to enact the Legacy Program in 2005, which sets aside funding from the real estate conveyance tax to conserve land and special places throughout Hawai'i Nei. 2020 marks the program's 15<sup>th</sup> anniversary. The Legacy Program has conserved significant cultural sites, watersheds that produce our drinking, important habitat for native species, agricultural land that increases our food security, and beaches and coastal areas enjoyed by all. Each year, there are many more worthy projects than there is available funding.

Over \$20 million of unspent money has built up in the Land Conservation Fund supporting the Legacy Program because:

- (1) The spending ceiling set by the Legislature in its budget bill of \$5.1 million is lower than the amount deposited in the fund (\$6.8 million or 10% of the real estate conveyance tax, whichever is lower). DLNR is only authorized to spend \$5.1 million, which is less than what is going into the fund (\$6.8 million); and
- (2) Monies for projects that do not close are returned to the fund.

This has caused over \$20 million to build up in the fund that the DLNR and the Legacy Program cannot spend or use for land conservation, as the Legislature and supporters of the program originally intended.

The Legacy Commission has identified and recommended 11 projects (including Na Wai 'Eha) for funding for FY21, but only two projects can be funded at the existing spending ceiling level. Attached is a supporter list, case statement, Island Voices op-ed published in the Star Advertiser, and 90 cards filled out by supporters on Hawaiian Caucus Day.

Mahalo -

## Legacy Land Conservation Program: 15 Years of Aloha ‘Āina

### Celebrate By Raising The Legacy Program Spending Ceiling

In celebration of the 15th anniversary of the State Legacy Land Conservation Program (“the Legacy Program”), a coalition of community organizations, landowners, and businesses listed in the insert support doubling the spending ceiling for FY21 from \$5.1M to \$10.2M in the Legislature’s annual budget bill.

Lands with important cultural, natural, and agricultural resources are sometimes, despite land use laws, threatened with development, destruction, or made inaccessible to the public. The Legacy Program is a win-win approach to these conflicts.

The Legacy Program is a completely voluntary program where private landowners voluntarily consent to the purchase of or conservation of their lands. The Legacy Program provides grants to public agencies and non-profit community organizations to purchase and voluntarily conserve land to protect unique and threatened natural and cultural resources: e.g., historic

sites, coastlines, native forest, watersheds, scenic open space, agricultural and ranch land, and recreational, fishing, and hunting areas.

In 2005, the Legislature enacted the program with nearly unanimous bipartisan support by its members and by an enthusiastic cross section of community, conservation, and affordable housing groups.

The Legislature prophetically recognized that an “alarmingly small amount of money is invested each year to protect our natural capital base” and that the “preservation, protection, and enhancement of the State’s land, coastal areas, and natural resources are of central importance for current and future residents and for the state economy.”

**The Legacy Program has since protected 36 special places and over 21,000 acres throughout Hawai‘i nei and leveraged two-thirds of funding from county, federal, or private sources.**

Ka Iwi Coast, O‘ahu: 182 acres of scenic coastline protected in 2017 with funds from the Legacy Program and the City and County of Honolulu Clean Water & Natural Lands Program after 40 years of grassroots advocacy.

## How The Legacy Program Works

For 15 years, the State’s Legacy Program has protected treasured lands across Hawai‘i in a fiscally responsible, transparent, and community-supported manner.

Applicants to the Legacy Program go through a rigorous vetting process administered by the Legacy Land Conservation Commission (“the Commission”) made up of nine volunteer Governor-appointed commissioners with subject matter expertise (e.g., Hawaiian culture, native plants and animals, agriculture) and geographical representation from all the islands. The Commission analyzes detailed applications, conducts site visits, consults with the House Speaker and Senate President, ranks projects, and makes funding recommendations to the State Board of Land and Natural Resources.

Once an applicant is awarded funding, Legacy Program staff then work with the State Attorney General’s department and the Land Division to ensure that the State’s investment of funding is protected and documented via appraisals, deed restrictions, conservation easement restrictions, title review, and contractual grant agreement requirements.

## A Legacy of Aloha ‘Āina

These 44 special places have benefited from the Legacy Program:

### HAWAI‘I ISLAND

- ◆ Amy B.H. Greenwell Ethnobotanical Garden, Kona
- ◆ Hilo Forest Reserve
- ◆ Kahuku Coastal Property, Ka‘ū

15

years in operation, the Legacy Program has protected some of Hawai'i's most treasured places

## What Is The Legacy Program's Spending Ceiling?

The State of Hawai'i dedicates a portion of revenue from the real estate conveyance tax (a tax paid by the seller whenever land is sold) to the Legacy Land Conservation Fund ("the Legacy Fund"). Ten percent or \$6.8 million, whichever is less, of the real estate conveyance tax goes into the Legacy Fund.

The Legislature has generally imposed a \$5.1M "spending ceiling" that is lower than the \$6.8M that goes into the Legacy Fund annually.

After administration/staffing costs and the \$1.5M debt service for the Turtle Bay Makai conservation project, only about \$3.2M has been available for competitive grants for land conservation projects statewide each year since 2016.

**Meanwhile, over \$20M has built up unspent in the Legacy Fund**, as the amount flowing into the fund (\$6.8M) exceeds the annual spending ceiling (\$5.1M) or projects are discontinued.

Over 2,300-acres known as Waikapuna located in Ka'u, Hawai'i Island was recently acquired by the Ala Kahakai Trail Association, funded by the County of Hawai'i's Open Space Program and the State's Legacy Program, conserving over 2.3 miles of the Ala Kahakai National Historic Trail, an ancient fishing village, and hundreds of cultural sites. The Ka'u community has been working for decades to protect their beloved 80-mile coast to honor their kūpuna and perpetuate their rural lifestyle.

## What Is The Impact Of Increasing The Spending Ceiling for FY21?

Each year, the number of applicants to the Legacy Program has increased with non-profits and public agencies competing for funding. For FY21, the Legacy Commission recommended 11 projects for full funding. But under the spending ceiling, only two projects can be fully funded.

While community demand for protecting land has intensified, land and prices and development pressures have increased, the spending ceiling has remained the same, resulting in missed opportunities for many worthy and time-sensitive land acquisitions.

In his FY21 Executive Budget, the Governor is requesting a one-year increase of the Legacy Program spending ceiling from \$5.1M to \$10.2M. A total of \$8.1M would be available for competitive land acquisition grants allowing four more special places to be conserved in Hawai'i.

This would **not** increase the conveyance tax. The spending ceiling increase would draw upon existing unspent funds (now over \$20M) and would **not** affect other parts of the State budget.

The proposed spending ceiling increase could contribute to the purchase and protection of the top six ranked projects in FY21, conserving extremely valuable and sensitive cultural and natural landscapes, watersheds, native habitat, agricultural lands, and coastlines facing acute and imminent threats of development in Maka'alaie (Hāna, Maui), Kiolaka'a (Ka'ū, Hawai'i), Manāka'a (Ka'ū Hawai'i), Mokae (Hāna, Maui), Mapulehu (East Moloka'i), and Na Wai 'Eha (Maui).

### Commission's Recommended Ranking of FY21 Legacy Program Projects

1) Maka'alaie, Hāna, Maui	\$1.587M
2) Kiolaka'a, Ka'ū, Hawai'i	\$1.475M
<b>Total available for grants under current \$5.1M spending ceiling</b>	<b>\$3.2M</b>
<i>(includes partial funding of \$138K for Manāka'a)</i>	
3) Manāka'a Fishing Village, Ka'ū, Hawai'i	\$875K
4) Mokae, Hāna, Maui	\$1.8633M
5) Mapulehu, East Moloka'i	\$300K
6) Nā Wai 'Ehā	\$2M
<b>The projects (above) that will go unfunded if spending ceiling is not raised from \$5.1M to \$10.2M</b>	<b>\$8.1M</b>
7) Haloa 'Āina, Kealakekua, Hawai'i	\$500K
8) Halulu Fishpond, Waipā, Kaua'i	\$600K
9) Waikalua Loko, Kāne'ohē Bay, O'ahu	\$700K
10) Keone'ō'io, South Maui	\$1.1915M
11) Nānu'alele, Hāna, Maui	\$66K

Due to overall funding constraints, these important projects recommended for funding by the Commission will not receive funds in FY21.

Nearly an acre added to the Hanalei Black Pot Beach Park in 2010, with funds from the Legacy Program and Kaua'i Open Space Fund.

Mokae, Hāna, Maui - 32.7 acres of shoreline that could be saved if the spending ceiling is increased for FY21.

# Legacy Lands Program marks 15 years of protecting nature

**By Butch Haase, Earlynne Maile and Mary Charles**

In Hawaii and nationally, we live in divisive and distrustful times, where belief in policymakers and each other seems to decline daily. But there is hope. Reflect on our collective efforts to malama aina across Hawaii for the last 15 years through the State Legacy Land Conservation Program ("Legacy Lands Program").

In 2005, listening to diverse stakeholders, the Legislature got it right. It passed the Legacy Lands Program recognizing that an alarmingly small amount of money is invested each year to protect our natural capital base and that the "preservation, protection, and enhancement of the state's land, coastal areas, and natural resources are of central importance for current and future residents and for the state economy."

The act set aside 10% or

\$6.8 million per year, whichever is less, from the pre-existing real estate conveyance tax (a state tax paid when land is sold) to save threatened places for future generations. Today, legacy lands include places like Ka Iwi Coast Mauka on

Oahu, the Nu'u Refuge on Maui, Lapakahi State Historical Park on Hawaii island, Kainalu Ranch on Molokai, and Hanalei Bayfront Pier on Kauai.

The program has protected 36 special places and over 21,000 acres of land. Its impact is much greater than its investment. For every dollar from the program, two dollars are raised from private, federal and county sources. The program's grassroots application process activates and re-connects people to aina, kupuna, culture,

## ISLAND VOICES

*Butch Haase, left, chairs the State Legacy Land Conservation Commission; Earlynne Maile chairs The Trust for Public Land Hawaii; Mary Charles chairs the Hawaiian Islands Land Trust.*

receives more applications than ever. Last year, there were 11 qualified projects from throughout the state, and nine projects had to be turned away. This has happened because the Legislature has recently only authorized the Legacy Land Program to spend

\$5.1 million in its annual budget bill, less than what flows into the fund, and discontinued project grants are redeposited into the fund.

Unspent funds of over \$20 million have built up that the Legacy Program is unable to award to deserving communities who face threats to precious places across the islands.

More than 60 unlikely allies — landowners and community groups — ranging from Alexander & Baldwin, Kamehameha Schools,

and the James Campbell Co. LLC, to the Sierra Club and 'Ahaui Malama Ika Lokahi can agree on one thing: They all support the governor's request in the fiscal year 2021 supplemental budget (LNR 101 — Land Conservation Fund) to permit the Legacy Land Program to tap a portion of the over \$20 million so that additional lands can be set aside for future generations, fulfilling the Legislature's original intent and the people's desire to conserve the places that make Hawaii, Hawaii.

At a recent closing of a Legacy Land property, one community member announced, "Thank goodness there's still something having to do with land in Hawaii that everyone can agree on!" We couldn't agree more, and if you agree, please join in at the Legislature this Friday, 9 a.m. to noon, as we celebrate the Legacy Land Program's 15 years of aloha aina and look to the future for greater success.
