Comments:

Dear Representative Gene Ward, Member of Hawaii House of Representatives:

My name is Kazuki Mori, a student from Kalani High School. I am in strong favor of SB2724, prohibiting the use of lead based paint on buildings. From a community of artists and member of an art based clubs in school, we understand the health effects of lead-based paint, such as increase risk for cancer and cardiovascular diseases. There are already cases of individuals getting lead poisoning from old buildings will lead based paint. For a safer future, prohibiting lead based paint on architectures will reduce health-risks.
