Re: SB 2795; Support

Aloha. And thank you for placing this Bill on your agenda for consideration. Safety is a priority for survivors and island families who have been harmed. The probability of safety is greatly increased without information in the system about their whereabouts.

Hawaii is one of the very few remaining States who do not have a functioning Address Confidentiality Program. This seems like a system feature that is desperately needed in the continuum of community resources to support survivors in flight, in danger and at risk for imminent harm.

This testimony is in support of this Measure to bring to fruition the Address Confidentiality Program, which has been on the agenda for consideration for more than 3 years.

Thank you for your favorable action.
