DAVID Y. IGE
GOVERNOR

SCOTT J. GLENN
CHIEF ENERGY OFFICER

(808) 587-3807

Testimony of
SCOTT J. GLENN, Chief Energy Officer

before the
HOUSE COMMITTEE ON PUBLIC SAFETY, VETERANS, & MILITARY AFFAIRS
Friday, March 13, 2020
10:00 AM
State Capitol, Conference Room 430

In SUPPORT of
SB 2885, SD2
RELATING TO THE HAWAII EMERGENCY MANAGEMENT AGENCY.

Chair Takayama, Vice Chair Asuega Gates, and Members of the Committee, the Hawaii State Energy Office (HSEO) supports SB 2885, SD2, which establishes and appropriates funds from the Hazard Mitigation Special Fund for the Hawaii Emergency Management Agency. This measure will increase public health and safety by providing funds to support the management and implementation of state hazardous mitigation projects under Chapter 127A-18, Hawaii Revised Statutes.

Positive impacts of mitigation projects could support more resilient energy delivery in a disaster by providing specific funding to address identified hazardous conditions that can improve response time to roads and utilities that may otherwise be affected by (1) cutting, trimming, or removing dangerous trees or branches that pose a hazard to other properties; (2) stabilizing or removing unstable rock and soil hazards; and (3) cleaning streams and waterways to mitigate or prevent flooding or other hazards. We support a near-term effective date for this measure.

Thank you for the opportunity to testify on this bill.

HAWAII EMERGENCY MANAGEMENT AGENCY

TESTIMONY ON SENATE BILL 2885 SD2,
RELATING TO THE HAWAII EMERGENCY MANAGEMENT AGENCY

Before the House Committee on
PUBLIC SAFETY, VETERANS, & MILITARY AFFAIRS

By

Thomas L. Travis
Administrator, Hawaii Emergency Management Agency (HI-EMA)

Aloha Chair Takayama, Vice-Chair Gates and Members of the Committee:

The Hawaii Emergency Management Agency (HI-EMA) **supports** Senate Bill 2885 SD2.

Senate Bill 2885 SD2 establishes the hazard mitigation special fund for the HI-EMA.

HI-EMA has had funding to implement entering property to remove dangers to public safety, after taking appropriate measures with the landowners. This funding is nearly exhausted, making the program mute. This measure would provide funding and to slightly expand program authority to allow the agency to continue its work in cutting, trimming, or removing dangerous trees or branches that pose a hazard to public safety; stabilizing or removing unstable rock and soil hazards; and cleaning streams and waterways to mitigate or prevent flooding or other hazards.

Note: My comments represent HI-EMA concerns at the state emergency management level only. I would defer to the separate comment/testimonies of the county emergency management agencies, as they would be the jurisdictions impacted by this legislation at the local level.

Thank you for the opportunity to provide testimony on Senate Bill 2885 SD2.

TESTIMONY ON SENATE BILL 2885 SD2,
RELATING TO THE HAWAII EMERGENCY MANAGEMENT AGENCY

PRESENTATION TO THE
COMMITTEE ON PUBLIC SAFETY, VETERANS & MILITARY AFFAIRS

BY

MAJOR GENERAL KENNETH S. HARA
ADJUTANT GENERAL
DIRECTOR OF THE HAWAII EMERGENCY MANAGEMENT AGENCY
AND DIRECTOR OF HOMELAND SECURITY

MARCH 13, 2020

Aloha Chair Takayama, Vice-Chair Gates and Members of the Committee:

I am Major General Kenneth S. Hara, Adjutant General, Director of Emergency Management and Homeland Security Advisor for the Department of Defense. Thank you for the opportunity to submit testimony in SUPPORT of SB 2885 SD2.

Senate Bill 2885 establishes the hazard mitigation special fund for the HI-EMA that is important to provide the ability to fund hazard mitigation projects as required by law.

HI-EMA has had funding to implement entering property to remove dangers to public safety, after taking appropriate measures with the landowners. However, this funding is nearly exhausted, making the program mute. This measure would provide funding and expand the program authority to allow the agency to continue its work in cutting, trimming, or removing dangerous trees or branches that pose a hazard to public safety; stabilizing or removing unstable rock and soil hazards; and cleaning streams and waterways to mitigate or prevent flooding or other hazards.

Thank you for the opportunity to provide testimony in support of Senate Bill 2885 SD2.
