Committee on Public Safety, Intergovernmental, & Military Affairs
Hawai'i State Legislature

Dear Chair Nishihara, Vice-Chair Wakai, and Committee members:

RE: **SB 2002 Relating to Firearms**
SB 2437 Relating to Electric Guns
SB 2518 Relating to Firearms
SB 2519 Relating to Firearms
SB 2635 Relating to Firearms Ammunition
SB 2943 Relating to Firearms
SB 3053 Relating to Firearms
SB 3054 Relating to Firearm Registration

The First Amendment to the Constitution of the United States provides for freedom of religion, speech, and press; and the right to peaceably assemble and to petition the government. Yet, as fundamental and sacrosanct as those values are to America, few if any would argue that those freedoms are not subject to reasonable restrictions (take the cliché of "yelling 'Fire' in a crowded theater").

Similarly, the Second Amendment guarantees the right to keep and bear arms. This right, too, must be subject to reasonable restrictions, or else we would each be able to have our own machine gun mounted on our mantelpiece or strapped over our shoulders.

So the question comes down to what is reasonable. That should be determined by a free people acting through their elected representatives, in this case our State Legislature. And given the times in which we live, and the carnage that we have witnessed both in our own state and across the country, I thank you for taking on the divisive but crucial task of deciding what reasonable restrictions might be.

You have seven bills on today's agenda that would impinge on the right to keep and bear arms:

SB 2002 would prohibit possession of a loaded firearm while intoxicated. One would hope that this is not a difficult issue on which to find common ground, though I expect some will disagree.

SB 2518 implies that its adoption would make Hawaii's license-to-carry-firearms law stronger against attack in court. If this Committee finds that to be true, I support it. I have not been able to independently verify that assertion, and hope you will hear from the administration and other law enforcement.

SB 2002 Relating to Firearms
SB 2437 Relating to Electric Guns
SB 2518 Relating to Firearms
SB 2519 Relating to Firearms
SB 2635 Relating to Firearms Ammunition
SB 2943 Relating to Firearms
SB 3053 Relating to Firearms
SB 3054 Relating to Firearm Registration

February 4, 2020

Page 2

SB 2519 would prohibit large capacity magazines for all firearms. Such magazines are already restricted for pistols, and SB2519 might be the most important bill before you today, given the data on mass shootings that is set forth in the preamble of this bill.

SB 2635 would regulate ammunition the same way firearms are regulated, and require the licensing of sellers of ammunition. It would seem that this proposal would be particularly valuable in the case of a firearm that is lost or stolen, but also in tracing ammunition that is used in a crime.

SB 2943 would prohibit the assembly of a gun that would not have a serial number (a "ghost gun") and would mandate a serial number for firearms brought into Hawaii that do not already have one.

SB 3053 would prohibit 50-caliber guns. I have seen these guns on YouTube and they are awesome-looking weapons. I cannot imagine a legitimate civilian use for them.

SB 3054 would require notification when a firearm is moved out-of-state. This would be of some value, though perhaps limited. On the other hand, the burden on a gun owner seems minimal.

Can any of the restrictions contained in the seven bills be considered unreasonable? I have no doubt that some will say yes, but except for my questions about SB 2518, I would argue that all of these bills would make Hawaii a safer place without unduly restricting the right to keep and bear arms.

There also is an eighth bill on the agenda, SB 2437, relating to electric guns. I confess total ignorance on that subject, and therefore do not offer testimony on it.

Again, thank you for taking on these issues.

Respectfully Submitted,

Harry Kim

The Honorable Clarence Nishihara
Chairman, Committee on Public Safety, Intergovernmental, and Military Affairs
Hawaii State Capitol, Room 214
Honolulu, Hawaii 96813

Dear Chairman Nishihara:

On behalf of the members of the National Rifle Association in Hawaii, I would like to communicate our opposition to Senate Bill 3054 (SB 3054).

SB 3054 requires individuals to provide notice of permanent removal of a firearm outside the state with the registering county within five days.

This legislation is rooted in unsound policy and does nothing to address the criminal misuse of firearms. Instead, it will expose otherwise law-abiding citizens to criminal penalties for simply moving out of state. If passed, this legislation will have an especially detrimental impact on the many military members who are stationed in Hawaii, who may be relocating at a moment's notice. Further, this legislation fails to address the many visitors who come to Hawaii with firearms that are forced into registration for the short duration of their stay or the lack of public notification for persons who have decided to move out of state.

The purpose of the bill as stated in the preface is to maintain an accurate count of firearms in the state, however meaningless state record keeping is hardly a rationale to subject people to criminal penalties. Instead the focus of the state should be public safety and addressing criminal misuse of firearms, not bureaucratic exercises that serve as a complete waste of the state's finite law enforcement resources.

Sincerely,

A handwritten signature in black ink, appearing to read "Daniel Reid".

RE: SB3054 Relating to Firearm Registration

Aloha Members of the Senate Committee,

The Hawaii Firearms Coalition **OPPOSES SB3054** and **REQUESTS AMENDMENTS**.

This bill contains a penalty that makes criminals out of law-abiding citizens. One example is military members who transfer out of Hawaii with their firearms and unintentionally violates SB2635 would have a criminal record affecting their security clearances.

HIFICO would support this bill with the following amendments:

1. Remove the criminal penalty.
2. Permanently remove the owner's and firearm's registration data from all government databases (including RAPBACK) when their firearms are permanently moved out of state, sold to another registered owner, or destroyed.

HIFICO constantly receives input from the firearms community asking for their firearms registration data to be permanently deleted when their firearms are taken out of the state, sold to another person, or destroyed. This is all the incentive needed for firearms owners to voluntarily report that their firearms are no longer present in Hawaii.

Comments:

I support this bill as part of an effort to better track firearms in our state, to help try to avoid them falling into the hands of those who are not eligible for firearms possession. Requiring registration of guns moved out of the state will provide our legal authorities more up to date information on firearm possession and tracking. When a red flag protective order or criminal offense suddenly disqualifies a gun owner from possessing guns, this bill can assist with firearms tracking that is necessary to determine whether all firearms of the person have been properly surrendered and accounted for.

Thank you for your consideration of measures to help safeguard our community.

SB3054 requires the owner of a firearm to notify the firearms department within 5 days of a firearm permanently leaving the State. The purpose of this bill is for the State to have a more accurate record of firearms in Hawaii.

We oppose this bill as it makes criminals out of the law abiding. Military members PCSing out of Hawaii may inadvertently violate this law. Same applies to residents that sell guns to buyers in other states and residents moving to the mainland.

HIFICO recommends the bill be amended to remove the penalty and require the firearm registration data be permanently erased upon request of the owner.

Any law restricting an American citizen's second amendment right is unconstitutional.

Lawmakers should be working to promote and sustain our freedoms, not diminish and remove them. As you have seen on New Year's Eve. The fireworks go off. No laws stop criminal activity. Criminals do not follow the law. That is the definition of a criminal. So the laws you were trying to pass now. Are only going to affect law abiding citizens. And the right to defend themselves. Not the murder rate. Not criminal activity. Other than you're going to create Criminal opportunity for underground guns. We all know the police are too few in the state to protect anybody. Because of the aloha spirit in the state. We have low gun crime. So passing laws to make law abiding citizens felons. Is not the answer. It's easy and inexpensive to pass bad loss. Instead of setting up programs to help the The homeless, mentally ill, drug addicted, housing problems we have. The supreme court is on the cusp of passing and reaffirming the Second Amendment. You're wasting all of our time. But of course the only thing you were trying to do right now. Is a lemonade the second amendment. Hawaii doesn't need more restrictive gun laws. They already have more than enough. Hawaii's politicians need to listen to the voices of people and even furthermore they need to respect and uphold the United States Constitution through the oath that they took to do so. Once the firearm is no longer in the state of Hawaii, Hawaii has no jurisdiction. The new state of residency has jurisdiction. Once a vehicle is removed from the state of Hawaii, Hawaii lawfully cannot file charges against a former resident for not reporting the removal. It is lawfully owned property that is lawfully permitted to be moved from state to state as long as all laws are followed in the acquiring state.

Why would you need to "register" a gun that's moved permanently out of state? You already have the registration information if it were to come back in so this is a waste of time. Other states that may have registration would have the info on their system so why bother? Do you plan on having people register vehicles that are permanently moved out of state? This is an absurd and ridiculous bill that puts yet another burden on law abiding citizens. Why put the onus on gun owners to track guns that leave the state? Hawaii needs to find a reasonable and accurate way to do this action on their own with out taxing the people of Hawaii for their Constitutional rights, time, funds or other resources.

Aloha,

I am writing to provide testimony in opposition to SB3054. This bill requires that the owner of a firearm notify the firearms department within 5 days of a firearm permanently leaving the State.

I oppose this bill as it makes criminals out of the law abiding. Military members PCSing out of Hawaii may inadvertently violate this law. Same applies to residents that sell guns to buyers in other states and residents moving to the mainland. I strongly urge you to work with organizations like the Hawaii Firearms Coalition, to amend this bill to remove the penalty and require the firearm registration data be permanently erased upon request of the owner of the firearm(s).

Mahalo,

-James P.

I OPPOSE THIS BILL

- Must notify firearms department that firearm was permanently moved out of state.
- Penalty is a petty misdemeanor
- Creates criminals out of the law abiding.
- Registration record will still be present.

SB3054 requires the owner of a firearm to notify the firearms department within 5 days of a firearm permanently leaving the State. The purpose of this bill is for the State to have a more accurate record of firearms in Hawaii.

We oppose this bill as it makes criminals out of the law abiding. Military members PCSing out of Hawaii may inadvertently violate this law. Same applies to residents that sell guns to buyers in other states and residents moving to the mainland.

HIFICO recommends the bill be amended to remove the penalty and require the firearm registration data be permanently erased upon request of the owner.

There is no corresponding obligation on the state to delete registration information along with all ancillary data collected in the process of registering the firearm. Consequently the double book record keeping system will NOT facilitate a more accurate record of firearms in the state. Two sets of books is the mark of a criminal organization. For this to be a legitimate effort at record keeping the state must delete all data collected for the original registration when it records the exported firearm data.

I oppose this bill because it is further evidence of your gun-grabbing efforts in Hawaii! There is no problem to be fixed with this bill, as with almost all other bills you submit to the legislature about guns! More gun laws has no bearing on safety or protection - never has, never will. Why do you continually want to make it easier to make law-abiding citizens criminal?!? Instead, remove the penalties and remove the requirement to register firearms at all! Use evidence, not emotionality, to create sound and meaningful laws!!!

OPPOSE

SB3054 - RELATING TO FIREARM REGISTRATION. Amends section 134-3, Hawaii

Revised Statutes, to require the registration of firearms that are moved out of the State.

Creates a penalty of a petty misdemeanor for any person who fails to register a firearm that is moved out of the State.

I urge you to OPPOSE this Bill as it accomplishes nothing. It has no affect on crime, does not affect public safety or serve any lawful purpose. It also oversteps the States authority as the State would not have any legal jurisdiction over any person or item that is not within the State boundaries or legal enclave. How would the State prosecute this offense? By what mechanism would it be enforced?

How would said firearm be removed from the roles of registered firearms in the State of Hawaii? How would the record be destroyed as the State would have no legal purview over the firearm? How would the owner of the firearm be notified that the removal is complete? In most instances, the firearms have left the state with the owner. Is the owner duty bound to return to Hawaii to “unregister” the firearms as the firearms must be registered while they are in the State. Who is responsible for the costs incurred to travel back to Hawaii?

If the firearms are transferred via sale, there is already a mechanism under HRS 134-2 and 134-4. Even the firearms are sold to an out of state buyer they go through the transfer process via an FFL and completing the chain of custody for registration.

By creating another burdensome layer, the only thing accomplished by this revised statute would be creating “victimless crimes” and creating a “solution” to a problem that does not exist.

I urge you to OPPOSE this Bill.

Dear Mr. / Mrs. Official,

I am writing you asking that you oppose any and new gun restriction proposals. Support, stand and protect the 2nd amendment rights of the people, not infringe and restrict. Rights that weren't given by you and should not be restricted by you. Hawai'i has and already is one of the most strictest states in the nation regarding gun laws and ownership. Passing any more will not make any change, but turn many law abiding citizens into criminals. You'll have thousands overnight. Laws will not stop the acts of a madman. Assault is an action, it could be done with bats, sticks, knives, hammers, vehicles and even empty handed, I don't see you go after those. Inanimate objects are harmless without the intentions behind it. On the flip side they can be used for good. Tools to build, fix and repair, sport, family time and protection. Please oppose ANY gun control measures, they will not stop shootings, they will only harm law abiding citizens as myself.

Sincerely,
Daniel Yoro Sr.

I strongly oppose this bill, which would be a terrible piece of legislation if passed. It would make criminals out of law-abiding citizens. What if someone were to bring a registered firearm on a trip to the mainland that lasted two weeks and a criminal stole the firearm the day before the owner returning to Hawaii? There was no plan for permanent removal but now the traveler has become a criminal for not reporting the move with in five days. There is no way to predict the future.

Instead of finding more and more ways to restrict the God-given rights of law-abiding citizens, the legislature should be finding ways to strengthen these rights. For example, the text of this bill should be amended to delete the penalty, which is useless and destructive, and instead require the firearm-registration data to be erased, expunged, and removed from the record upon request of the firearm owner.

SB3054 requires the owner of a firearm to notify the firearms department within 5 days of a firearm permanently leaving the State. The purpose of this bill is for the State to have a more accurate record of firearms in Hawaii.

We oppose this bill as it makes criminals out of the law abiding. Military members PCSing out of Hawaii may inadvertently violate this law. Same applies to residents that sell guns to buyers in other states and residents moving to the mainland.

HIFICO recommends the bill be amended to remove the penalty and require the firearm registration data be permanently erased upon request of the owner.

Registration, per se, is useless. The State and various police departments have no idea who owns what and the fact that a firearm is registered solves no crime in and of itself, other evidence must be gathered. Knowing that a firearm has left the state may make registration records complete, but a complete useless set of records is still useless, in terms of preventing crime. Criminals don't register guns, and honest gun owners aren't criminals. Just more hassle for gun owners.

"(e) Every person who permanently moves firearms out of the State shall contact the department where the firearms are registered to notify such department that the firearms have been moved out of State within five days of having been removed from the State."

Or what? You're going to send HPD to the mainland to hunt them down? Give me a break! No one will comply with this! It's like the state is TRYING to make criminals out of people!

Here's how you can solve this problem: repeal registration requirements and destroy all records. The possessions of private individuals are none of the state's business. Registration does not stop criminals from committing violent acts.

Comments:

I oppose this bill because any military member who leaves, has a higher chance of breaking the law. Which will affect their security clearance. Sometimes orders are given with little notice. So by saying X amount of days to let HPD know is absurd.

Many gun owners have tried to unregister firearms because they were no longer owned or not operable. They were told by HPD that once it's in the database, nothing can be done to remove it.

So we spend all this money \$1,000,000 a year on the firearms department and yet they can't keep an accurate count of what guns are in Hawaii? But really it is none of their business how many guns are in Hawaii. Instead HPD and law makers should focus on criminals who use guns illegally. And not focus on legal, law abiding gun owners. Would knowing there are 1.5 million guns in Hawaii have any results not knowing those guns are here? How would that help reduce crime? How would knowing what's still here help anything? The answers are that they won't at all. This is just another attempt to imagine and create more gun laws by our anti 2nd amendment state.

What purpose could possibly be served by this proposed law?

The claim that the number of firearms in the state is unknown will not be altered in any way by this law. Since the number of firearms currently in the state is the unknown "X", all that will be achieved by having the number of guns that people remove from the state (as if people who move out of state with their firearms are going to go register their move), the concrete number "Y", is that you will now subtract a known (but grossly factually inaccurate number of the real number of guns removed from the state) from the UNKNOWN number of guns, "X", thus leading to the brilliant conclusion that no one still has any idea how many guns are in the state. UNKNOWN minus "Y" = UNKNOWN. Pretty simple really.

Good job geniuses! Keep up the brilliant strategies!

Maybe you should pass a law that ALL GUNS MUST BE REGISTERED, including those left over from pre-mandatory registration days, AND THAT ALL CRIMINALS ILLEGALLY POSSESSING FIREARMS MUST REGISTER THEM. Then, I'm sure, with the likely 100% compliance with those requirements you'd know exactly how many guns are in the state.

Now, please tell me: What good would having that number do in any way?

Who's "safer" and why? Or are you doing this for some other reason?

Dear Legislators,

I understand and can see clearly that the intent of Hawaii legislation is to destroy the 2nd Amendment rights of its citizens. I oppose SB3054 and don't really understand its purpose. If I should decide to move away from Hawaii, then why would Hawaii care about the movement of my legally purchased firearms? What would be the purpose of that? I am already in the forced upon federal data base. For the record, I am a retired US Marine and a law-abiding citizen. Some of the bills being introduced in the legislation would have me portrayed as a criminal and a lawbreaker. I don't understand why these bills are stripping away the rights I have as per the Constitution of the United States and in particular, the 2nd Amendment.

I oppose this bill and I ask that it be opposed and discarded. If I move away from Hawaii, I will most assuredly take ALL of my legal possessions with me and the State of Hawaii will no longer have to worry about me or consider me for any reason.

Thank you for your consideration of my testimony.

Did any of YOU politicians come up with any bills to stop criminals, or at least curb their criminal behavior? Or are YOU just going to concentrate on making LAW ABIDING CITIZENS, exercising their RIGHTS, into criminals?

Is lying, stealing, and cheating a way of life for these career politicians? YOU rob and steal from us 'legally', and whatever is left YOU leave to the other criminals to steal and kill us. Furthermore, with these bills, you do not care that we will not be able to defend ourselves from either.

Do you all have any integrity? I took an oath, YoU ALL need to follow that oath.

"I do solemnly swear (or affirm) that I will support and defend the Constitution of the United States, and the Constitution of the State of Hawaii, and that I will faithfully discharge my duties as..... to the best of my ability."

Please oppose SB3054. This bill unfairly burdens people that are moving out-of-state. Largely, the military segment of Hawaii's population. I urge you to OPPOSE this Bill as it accomplishes nothing. It has no affect on crime, does not affect public safety or serve any lawful purpose. It also oversteps the States authority as the State would not have any legal jurisdiction over any person or item that is not within the State boundaries or legal enclave. How would the State prosecute this offense? By what mechanism would it be enforced?

How would said firearm be removed from the roles of registered firearms in the State of Hawaii? How would the record be destroyed as the State would have no legal purview over the firearm? How would the owner of the firearm be notified that the removal is complete? In most instances, the firearms have left the state with the owner. Is the owner duty bound to return to Hawaii to "unregister" the firearms as the firearms must be registered while they are in the State. Who is responsible for the costs incurred to travel back to Hawaii?

If the firearms are transferred via sale, there is already a mechanism under HRS 134-2 and 134-4. Even the firearms are sold to an out of state buyer they go through the transfer process via an FFL and completing the chain of custody for registration.

By creating another burdensome layer, the only thing accomplished by this revised statute would be creating "victimless crimes" and creating a "solution" to a problem that does not exist.

I urge you to OPPOSE SB3054.

This measure is intrusive as the registered firearm owner is not in the process of committing any crime of any severity by leaving the State of Hawaii and should not be subject to criminal penalties for not committing any violent crime by removing their private property out of the State of Hawaii.

Registration of firearms, as it currently stands, provides no assurance or statistical proof that it aids in "public safety".

Hi

I ***STRONGLY OPPOSE*** this bill as its written incorrectly. If you own a firearm in the State of Hawaii it is registered with HPD for life. There shouldn't be a process to re-register the firearm if you move out of State as HPD doesn't have the ability to share information across States. Criminals do not register guns when moving out of State.

You are PUNISHING law abiding citizens or preventing them to protect themselves from criminals. Nothing is this law relates to punishing criminals.

What needs to happen is harsher punishment needs to be enacted. If you commit a crime with a firearm you should be sentenced to a long term in jail. The problem is the judicial system not convicting criminals to harsher penalties to deter individuals from committing heinous crimes with firearms.

Crimes performed by a few don't warrant harsher laws to penalize the law abiding citizens. Punish the criminals with tougher sentencing.

Best Regards

I oppose this measure because it makes a criminal out of someone who leaves the islands with their firearms. Yes, HPDs firearms records are a mess in part because of the departments once registered always registered policy which in my case goes back to the early 70's.

Maybe Mr. Rhodes, in his continued assault on Hawaii's gun owners, can come with a better way to fix the broken registration system without criminalizing those that leave Paradise with their firearms.

I assume this bill is intended to specifically ban 50BMG. As written it would ban all .50 caliber firearms. Numerous firearms from pistols to muskets fire .50 caliber bullets. As written this would ban all of them.

If the intent is to ban 50BMG firearms then it should be noted that repeated attempts from reputable researches have yet to find evidence that a 50BMG firearms has ever been used in a crime. In states where 50BMG has been prohibited the laws have been circumvented by manufacturers creating alternate firearms with the same or in some cases more effective calibers, which also have NEVER been used in crimes.

I oppose this bill because I believe it will not solve any current issues or problems. Hawaii is already known to have very restricted firearms laws and this will only create more burden for the legally abiding firearms owners. From personal experience, I have legally sold and transferred firearms to other persons and informed HPD firearms division of the transfer, which they said 'it wasn't needed'. SB 3054 can potentially criminalize citizens that HPD failed to document properly through many years of firearms transactions.

OPPOSE

SB3054 - RELATING TO FIREARM REGISTRATION. Amends section 134-3, Hawaii Revised Statutes, to require the registration of firearms that are moved out of the State. Creates a penalty of a petty misdemeanor for any person who fails to register a firearm that is moved out of the State.

I urge you to **OPPOSE** this Bill as it accomplishes nothing. It has no affect on crime, does not affect public safety or serve any lawful purpose. It also oversteps the States authority as the State would not have any legal jurisdiction over any person or item that is not within the State boundaries or legal enclave. How would the State prosecute this offense? By what mechanism would it be enforced?

How would said firearm be removed from the roles of registered firearms in the State of Hawaii? Would the record of registration be destroyed as the State would have no legal purview over the firearm? How would the owner of the firearm be notified that the removal is complete? In most instances, the firearms have left the state with the owner. Is the owner duty bound to return to Hawaii to "unregister" the firearms as the firearms must be registered while they are in the State. Who is responsible for the costs incurred to travel back to Hawaii?

If the firearms are transferred via sale, there is already a mechanism under HRS 134-2 and 134-4. Even the firearms are sold to an out of state buyer they go through the transfer process via an FFL and completing the chain of custody for registration.

By creating another burdensome layer, the only thing accomplished by this revised statute would be creating "victimless crimes" and creating a "solution" to a problem that does not exist.

I urge you to **OPPOSE** this Bill.

I OPPOSE THIS BILL

- **Must notify firearms department that firearm was permanently moved out of state.**
- **Penalty is a petty misdemeanor**
- **Creates criminals out of the law abiding.**
- **Registration record will still be present.**

SB3054 requires the owner of a firearm to notify the firearms department within 5 days of a firearm permanently leaving the State. The purpose of this bill is for the State to have a more accurate record of firearms in Hawaii.

We oppose this bill as it makes criminals out of the law abiding. Military members PCSing out of Hawaii may inadvertently violate this law. Same applies to residents that sell guns to buyers in other states and residents moving to the mainland.

I recommend the bill be amended to remove the penalty and require the firearm registration data be permanently erased upon request of the owner.

Comments:

The goal of this bill does not warrant criminalization of a non-act. The need for the police to know when firearms leave the state is trivial and will not increase the safety of the general public. The tabulations sought by this bill will be useless because the non-compliance rate will be high among people permanently leaving the state with firearms. It is unlikely the police have the resources to track and prosecute offenders once they are gone.

SB3054: REGISTERING GUNS SOLD TO THE MAINLAND:

I STRONGLY OPPOSE THIS MEASURE.

For decades now **HPD** has refused to de-register firearms being sold to the mainland.

NOW, they want us to register firearms that are (**PRE '94**) firearms before we sell them to a mainland buyer. **WHY???** What good purpose can this possibly serve besides clogging up the Firearms Division with useless paperwork. Most other states don't even register long guns, so it can't be a Federal requirement. **Please ask HPD what this will solve.**

Thank you,

Harvey Gerwig

This bill is not rooted in sound policy or even logic. By requiring people to unregister their firearm when they leave the state you are exposing law abiding citizens to prosecution for simply moving out of state. This would have a severe impact on military members who are posted here, as well as having no enforcement mechanism.

I strongly oppose this bill. The language is confusing and lacks clarity for those that move from Hawaii to other states. This bill, as written, is overreaching in its intent and further penalizes otherwise law bidding citizens.

please stop this last minute onslaught of unreasonable and unnecessary legislation.

Comments:

I strongly oppose this bill. This bill does nothing to promote the safety and welfare of the people in Hawaii. It puts a monitor on the location of the individual with ownership of the firearm. It does nothing to guarantee the firearm has actually left the state which could be used in a crime once declared out of state and creating "ghost" guns that will no longer be registered in Hawaii. This makes for travel for hunters who do sport shooting and hunting out of state extremely difficult who have to re-register firearms once again in the state once competition or hunting season is over. This creates an extreme burden and undue effort for law abiding citizens. Removing the firearm "permanently" is vague and ambiguous as some hunting seasons last for months for some people in Hawaii who stay in the lower 48 during the winter hunting season months. This bill does not help in keeping adequate records. Record keeping of persons is unconstitutional and all records should only consist of records at the time of purchase as any other criminal activity will already be reported to proper authorities by the rapback system. Please reconsider this bill.

I strongly oppose SB3054. I am a certified firearms instructor for the Marines and Hawaii Army National Guard and the President of the Pu'uoloa Rifle and Pistol Club. This bill is a clear violation of the Second Amendment and will do nothing to curb crime in this State. This bill will criminalize many of the transient Military Members, competitive shooters and hunters that visit the State of Hawaii for periods of more than 5 days. These people have better things to do on their Hawaii vacation than stand in line at the police station on a weekday between the hours of 8:00am-3:00pm to get photographed, fingerprinted, pay fees, and register a firearm.

How will this being enforced? Isn't it a gun owners right to move a gun out of the state of Hawaii if they so choose? Isn't it their property? Would you be okay with notifying the state of Hawaii that you decided to have your vehicle shipped out of the state? Isn't it yours to do with as you please? This bill will turn law-abiding citizens into criminals overnight for choosing to relocate their own property outside of state lines. Any firearm moved outside of state lines is an individual's personal property and has no ties to the state. The state has no say and no right to what a firearm owner does with their personal property.

I am against this bill and any other bill that is eroding our rights as clearly stated in the United States constitution. Hawaii gun laws already severely infringe on our right to bear arms. The Constitution very clearly states that our right to bear arms “shall not be infringed”.

Registrations, permits, etc are obvious infringements already. Adding more to this is just a slap in our face and the faces of our founding fathers. If Hawaii law makers can’t comprehend something so simple as “shall not be infringed” then we need new ones! After all the 2nd amendment was included in the constitution so the people (us) can fight back against a tyrannical government. How many of our rights must this government take away before we consider it tyrannical?

Strongly Oppose

Many military tend to move out of state and for the people serving our country, it will be a burden on them. Some people have medical emergencies and may need to move last minute. The guns are already registered so why do we need to let HPD know. This our own privacy and there's not way to monitor everyone. There are many people moving in and out of Hawaii.

Firearms registrations are already unconstitutional. When residents relocate to another state they are unable to get off the registration list. Now this bill requires you to go back to HPD and let them know you are relocating is obnoxious. Many of our military are in and out of the islands and requiring them to go back to HPD before relocation is highly unnecessary and is micro managing our residents an American's.

This bill will not regulate nor prevent any kind of crime in Hawaii. It would also put a strain on HPD firearms department with unnecessary paperwork.

I applaud your effort's at looking towards different approaches to track guns within the state, but I oppose this bill because of its lack of being realistic and actually grasping the problems we have here in Hawai'i. I sell firearms and deal with the issue of people not being aware of the simple fact they needed to register a firearm they brought when they moved to Hawai'i.

That happens often. You making a law that says people need to report guns leaving the state will largely go unnoticed and not done by the large number of Hawai'i residents moving out due to the difficulties of living here. They will either knowingly ignore the law as its only a misdemeanor and unenforceable after they have already left Hawai'i anyway. Not to be rude but you should be working on trying to reduce the hardships involved with living in Hawai'i so us the people of Hawai'i wouldn't need to move away in the first place.

I oppose SB3054 because there is no problem with the firearms registration records. The State may want a more accurate record, however, it shouldn't penalize the law-abiding citizen. Why on earth would you penalize someone for taking guns out of the state? Gun owners would happily de-register their firearms if given the option, because as of now HPD maintains a permanent record regardless of what happens to the gun.

This seems like a bill written by someone who hates gun owners and wants to find any and every excuse to force them to jump through an ever expanding maze of red tape and punish them if they miss a step.

Use more carrot and less stick. De-registering firearms would be a popular option especially because it means taking our names off yet another government list.

SB3054 is restrictive and does not allow for typical mishaps that occur with struggles that are inherent in relocating lawfully within the country. how does this affect criminal or public safety. is that not the ultimate aim of these bills? criminals historically/statistically commit crimes with stolen or unregistered firearms, why is this issue even relevant? it is not. I urge you to OPPOSE this Bill as it accomplishes nothing. It has no affect on crime, does not affect public safety or serve any lawful purpose. It also oversteps the States authority as the State would not have any legal jurisdiction over any person or item that is not within the State boundaries or legal enclave. How would the State prosecute this offense? By what mechanism would it be enforced?

How would said firearm be removed from the roles of registered firearms in the State of Hawaii? How would the record be destroyed as the State would have no legal purview over the firearm? How would the owner of the firearm be notified that the removal is complete? In most instances, the firearms have left the state with the owner. Is the owner duty bound to return to Hawaii to “unregister” the firearms as the firearms must be registered while they are in the State. Who is responsible for the costs incurred to travel back to Hawaii?

If the firearms are transferred via sale, there is already a mechanism under HRS 134-2 and 134-4. Even the firearms are sold to an out of state buyer they go through the transfer process via an FFL and completing the chain of custody for registration.

By creating another burdensome layer, the only thing accomplished by this revised statute would be creating “victimless crimes” and creating a “solution” to a problem that does not exist.

I urge you to OPPOSE this Bill.

SB3054 requires the owner of a firearm to notify the firearms section within 5 days of a firearm permanently leaving the State. The purpose of this bill is for the State to have a more accurate record of firearms in Hawaii, so why not remove the penalty and instead have the registration record deleted upon notification that firearm has been sold/moved out of state?

We oppose this bill as it makes criminals out of the law abiding. Military members PCSing out of Hawaii may inadvertently violate this law. Same applies to residents that sell guns to buyers in other states and residents moving to the mainland.

To our politicians who were sworn into office to support and defend our constitution,

First off, I do hope that each of the testimonies that have been submitted are thoroughly read and not just thrown to the side.

As a father to 3 boys, a husband, a contributor to society, a taxpayer, a guards member in the Hawaii Air National Guard, and an American, I OPPOSE all bills and laws that infringe on the peoples right to bear arms. I serve in the armed forces TO SUPPORT AND DEFEND THE CONSTITUTION OF THE UNITED STATES. It is a slap in the face to all Americans, to those who have served, those who still serve, and those who have payed the ultimate sacrifice TO PRESERVE OUR RIGHTS AS AMERICANS!

Your bills to restrict more firearms, magazine limits, so called “ghost guns”, etc. do nothing but disarm the law abiding citizen. It is already bad enough that we are so restricted and don’t even have the ability to protect ourselves or others. I ask that you stop disarming the law abiding American Citizens because as we know, criminals will never obey the laws.

WE THE PEOPLE do not support the infringement on our rights!

God Bless,

A Concerned American

I work a great job, and thus feel like my off hours should be the least of the government's worries regarding IMPOSING PROVEN INEFFECTIVE LAWS...allow true freedoms...

Unless proven...we shouldn't be subjected to laws which will place a false veil of protection on its effected...

PLUS...imposing such proposed would literally be impossible...Unless you want to waste more taxpayer money door knocking and "firearm accessory grabbing"...let us not bring to recent light the current firework ban...and realize all the effectiveness it has on keeping Hawai'i "safer and healthier"

I strongly oppose this bill.

I oppose this bill as it makes criminals out of the law abiding. Military members PCSing out of Hawaii may inadvertently violate this law. Same applies to residents that sell guns to buyers in other states and residents moving to the mainland.

I would like the bill be amended to remove the penalty and require the firearm registration data be permanently erased upon request of the owner.

If I move out of the state, I should no longer be subject to any jurisdiction under Hawaii law.

No other items I may own require notifying the state that I have moved. If I move my vehicle to another state, I have to comply with the requirements of the new state and Hawaii is not involved. Criminals wouldn't have registered their firearm in Hawaii, so again this new law has no effect on criminals. The ONLY potential outcome is to make otherwise law-abiding gun owners petty criminals.

I strongly oppose Sb3054. This bill creates criminals out of law abiding citizens. Why does the firearme department need to know when a firearm permanantly leaves the state within 5 days??? If we are still going to have this firearm registered to us in the state, even as a non-resident, why does it matter? This would furthur complicate selling firearms to persons out of state. Why would the state expend resources investigating and prosecuting a person who has done nothing besides leave the state with their guns? It does not make sense to charge a person with a crime for upsetting the bureaucracy's statistics by moving with their firearms and being registered in a different jurisdiction. Our state should expend its resources minding people that are within our state, not in some other state.

Why is this even an issue. I can see situations where military personnel are on a turn of duty and the spouse chooses to move to the mainland and forgets or doesn't know this needs to be done.

I don't get why you insist on forcing law bidding citizens to defend our constitutional rights every year. You force us to take time from our jobs or use our jobs against those who cannot be present.

I've been to the hearings you've had in the past and have seen more than 97% of the people against the anti-gun laws and yet you still persist in pushing these kind of laws through against overwhelming testimony against them.

How about suggesting laws that will actually take a firearm out of the hands of criminals and actually punish those who use firearms while committing criminal acts with very stiff sentences and stop trying to turn law-biding citizens into criminals.

Please stop. The governments job is to secure citizen's rights not take them away.

I STRONGLY OPPOSE this Bill as it accomplishes nothing. It has no effect on crime, does not affect public safety or serve any lawful purpose. It also oversteps the States authority as the State would not have any legal jurisdiction over any person or item that is not within the State boundaries or legal enclave. How would the State prosecute this offense? By what mechanism would it be enforced?

How would said firearm be removed from the roles of registered firearms in the State of Hawaii? How would the record be destroyed as the State would have no legal purview over the firearm? How would the owner of the firearm be notified that the removal is complete? In most instances, the firearms have left the state with the owner. Is the owner duty bound to return to Hawaii to “unregister” the firearms as the firearms must be registered while they are in the State. Who is responsible for the costs incurred to travel back to Hawaii?

If the firearms are transferred via sale, there is already a mechanism under HRS 134-2 and 134-4. Even the firearms are sold to an out of state buyer they go through the transfer process via an FFL and completing the chain of custody for registration.

By creating another burdensome layer, the only thing accomplished by this revised statute would be creating “victimless crimes” and creating a “solution” to a problem that does not exist.

Dear Senators,

Please kill Senate Bill SB3054.

SB3054 would create an unnecessary burden on law abiding citizens and would do nothing to curb crime. The law would be unenforceable and I believe most people would not comply. The military would be affected the most and this bill wouldn't do any good for anyone.

Currently, a resident must notify the Police Department when a firearm is transferred to another resident, but no reporting is necessary when the a firearm is remove from or sent out of state. When owners in the past notified or tried to notify the Police Department that they had transferred their firearm out of state, the Police Department told them it was not necessary and to stop notifying them of the transfer. We also have sold and transferred many firearms out of state, all legally of course.

This bill would not do anything, but burden the firearms owners, dealers and the firearms department of a law that would make no sense, be unenforceable, would probably not be followed by most, do nothing to reduce crime and be totally inaccurate in it's data mining.

Please kill SB3054. It's ridiculous. You cannot treat law abiding citizens this way.

Subject: SB3054, Firearms; Gun Safety; Registration

I strongly oppose SB3054 to require the registration of firearms that are moved out of the State. Hawaii has "the strongest gun safety laws in the nation," yet law makers have not fully examined the impact that this bill will have on the rights of law-abiding gun owners.

Letting the department know a firearm is no longer in the state is not constitutional. And inflicting a penalty is not necessary and overreaching by law makers.

When a person permanently moves a firearm out of the State and informs the Honolulu Police Department's Firearms section that the gun is removed, there is still a permanent record of the registered firearm in the HPD database. The registration record is never destroyed.

I humbly demand that the Committee on Public Safety, Veterans, & Military Affairs not vote to move SB3054 any further.

Please direct any and all questions to dctactical@hawaii.rr.com.

Committee members,

Please kill SB 3054, I strongly oppose this bill. Whoever drafted this bill did not check with HPD Firearms first. Numerous times our customers have tried to notify HPD that their firearms was sold to someone in the mainland and to remove it off thier records and who it was sold to. And they will tell you that HPD Firearms department are only concerned with the guns coming into the state and they do not care about the firearms that are leaving the state.

We travel to the states at least twice a year for our store purchases and we take our firearms with us because in the states we go to we are allowed to carry. This bill if passed will make us keep re-registger the same guns multiple times a year whether it is for business or hunting. Also you have military personel and local law enforcement officers who train and serve outside of Hawaii. You will put a tremendous burden on all of us and the HPD firearms departmen if you pass this bill.

I strongly oppose SB3054 to require the registration of firearms that are moved out of the State. Hawaii has “the strongest gun safety laws in the nation,” yet law makers have not fully examined the impact that this bill will have on the rights of law-abiding gun owners.

Letting the department know a firearm is no longer in the state is not constitutional. And inflicting a penalty is not necessary and overreaching by law makers.

When a person permanently moves a firearm out of the State and informs the Honolulu Police Department’s Firearms section that the gun is removed, there is still a permanent record of the registered firearm in the HPD database. The registration record is never destroyed.

I humbly demand that the Committee on Public Safety, Veterans, & Military Affairs not vote to move SB3054 any further.

Please direct any and all questions to kellylim@hawaii.rr.com.

Very respectfully,
Kelly Lim

If the firearms are moved out of state then their no longer of Hawaii's concern. A registration form will still be in existence if guns are brought back to the state in a database. Again your turning a law abiding citizen into a criminal.

Must notify firearms department that firearm was permanently moved out of state.

Penalty is a petty misdemeanor

Creates criminals out of the law abiding.

Registration record will still be present.

SB3054 requires the owner of a firearm to notify the firearms department within 5 days of a firearm permanently leaving the State. The purpose of this bill is for the State to have a more accurate record of firearms in Hawaii.

We oppose this bill as it makes criminals out of the law abiding. Military members PCSing out of Hawaii may inadvertently violate this law. Same applies to residents that sell guns to buyers in other states and residents moving to the mainland.

HIFICO recommends the bill be amended to remove the penalty and require the firearm registration data be permanently erased upon request of the owner.

I am opposed to SD3054 as it will make criminals out of law abiding citizens. While the State of Hawaii requires all firearms to be registered, there are many states that do not. This bill will impact people who move out of state, have a residence and some other state and travel back and forth with their firearms or sells a firearm though a Federal Firearms Licensee or gun store. Should they forget to notify the Police or are unaware of the law they could become criminals due to a bureaucratic over reach into the private lives of the citizens of the State of Hawaii.

Dear Legislators,

I oppose this bill because it is redundant. All legal firearms are already registered in the state. Even if the firearm is sold or transferred within the state or out, that firearm record is still listed with the previous owner(s) and NOT DELETED. I have had friends tell me that the registration clerks tell them they will NOT delete a firearm off their records even if they do not have that firearm.

I urge you to vote not on this bill.

Respectfully,
William Hopkins

To the COMMITTEE ON PUBLIC SAFETY, INTERGOVERNMENTAL, AND MILITARY AFFAIRS,

My name is Richard Monroe

I oppose SB3054 for these reasons:

1. It violates the Second Amendment.
2. It violates the oath of the Senators to uphold the Constitution of the United States.
3. Fears and feelings do not override personal inalienable rights.
4. It criminalizes law-abiding gun owners.
5. It is unnecessary in a state with already comparatively low gun crimes.
6. The firearm has been moved outside of the state's jurisdiction and is no longer of any concern unless it returns.
7. It just adds to the state's overburdened bureaucracy. Unnecessarily draws from the state government's valuable time and limited resources.

Additionally, I call upon our local Senate representatives and lawmakers to support your local community in protecting ALL our constitutional rights. As well as to continually oppose any violations to it. I also invite and encourage the free exercise of those rights by all.

Lastly, I recommend and encourage the senators and lawmakers to reduce and eliminate useless gun laws from the books. Let that be your legacy. Your community will thank you for it and remember you fondly.

Thank you for your time and consideration.

This bill is an impediment to legal gun ownership. It is an adding an unnecessary procedure to legal gun ownership. Under this proposed law, if I move to the Mainland and take my legally registered guns with me, I'm committing a crime if I forget to tell the Firearms Department that I'm taking my guns with me? This should not be a crime.

This proposal is just badly written and WRONG. Why would you register when a LEAVES the state? If the firearm left the state HOW do you register a firearm that is no longer in your possession?? Upon the sale of a firearm, you are already required to provide documentation showing who you sold or transferred the firearm TO. The registration record still exists.

Again, this will be criminalizing law abiding citizens. What, EXACTLY, will this proposed bill do?? This proposed bill is a WASTE of both TIME and MONEY. Ridiculous.
