Comments:

As constituents of the bill's introducing Senator, we would say that we have no objection to the Lt. Governor being added to the committee. Our concerns come with what are the responsibilities of this committee and to whom do they report and answer? It is very challenging to get answers about issues that occur around the Capitol and the outlay of expenses and decisions. Thus our request with this testimony would be that the committee with the Lt. Governor be more responsive and open in allowing the public to know upon what \$\$ are being spent.
