HOUSE OF RÉPRESENTATIVES THIRTY-FIRST LEGISLATURE, 2021 STATE OF HAWAII

ACT 144 H.B. NO. ¹⁰²⁹ S.D. 1

A BILL FOR AN ACT

RELATING TO LIVING PARK PLANNING COUNCILS.

BE IT ENACTED BY THE LEGISLATURE OF THE STATE OF HAWAII:

1	SECT	ION 1. The legislature finds that the coronavirus
2	disease 2	019 has had a catastrophic impact on the world economy.
3	The compl	exities of dealing with a worldwide health crisis have
4	added add	itional layers of uncertainty that may increase the
5	time need	ed for recovery. Because of this, the State has
6	implement	ed the fiscal biennium 2021-2023 program review to
7	identify	ways to:
8	(1)	Reduce expenditures;
9	(2)	Identify programs, functions, and activities for
10		possible elimination that, although well-intentioned,
11		are of marginal benefit, low performing, or of lesser
12		priority; and
13	(3)	Identify cost-saving opportunities in core and primary
14		programs and services through tightening program
15		eligibility, reducing program benefits, improving
16		efficiency, or shifting costs.

H.B. NO. ¹⁰²⁹ S.D. 1

The department of land and natural resources, after
 thorough review and much scrutiny, has determined that the
 living park planning council for Kahana valley is no longer
 effective and functional.

5 Act 15, Special Session Laws of Hawaii 2009, authorized the 6 establishment of living park planning councils among other 7 effects to develop a state living park master plan to ensure a 8 living park achieves its purpose and goals. After ten years and 9 over eighty meetings, however, due to the complexity and lack of 10 consensus, the community-based planning council could not reach 11 consensus or develop the framework for a master plan for Kahana 12 valley state park. Hence, the department of land and natural 13 resources engaged the services of a contractor to initiate the 14 master planning process. However, it was determined that there 15 were many issues to be addressed prior to the development of a 16 community master plan. In 2019, the contractor finalized their 17 report that identified three main issues that needed to be 18 resolved prior to moving forward on a master plan:

19 (1) Determination if a cultural living park is still a20 realistic and valid concept;

1	(2)	Assessment of the provisions and options relating to
2		residential leases; and
3	(3)	Identifying appropriate alternative management
4		entities for oversight and management of the
5		residential portions of the park or the park in
6		general.
7	The outco	me and outlook have diminished with the lack of
8	participa	tion, consensus, and motivation to move forward towards
9	a master	plan for the Kahana community. To date, there has been
10	no furthe	r discussion on a master plan or future date to
11	reconvene	the planning council.
12	The	purpose of this Act is to:
13	(1)	Repeal sections of Act 15, Special Session Laws of
14		Hawaii 2009, that authorized the establishment of
15		living park planning councils; and
16	(2)	Authorize the department of land and natural resources
17		to oversee development and implementation of a master
18		plan for the Kahana community.
19	SECT	ION 2. Act 15, Special Session Laws of Hawaii 2009, is
20	amended a	s follows:
21	1.	By amending section 1 to read:

1 "SECTION 1. The legislature finds that state living parks 2 possess unique historical and cultural value. In state living 3 parks, individuals reside on lands located within the living 4 park and are an essential part of the purpose of the park for 5 the benefit of the public. As set forth in Senate Resolution No. 264, S.D. 1, Regular Session of 1977, the purpose of a 6 living park is to nurture and foster native Hawaiian culture and 7 spread knowledge of its values and ways. 8

9 Kahana valley state park is an example of a living park. 10 Between 1965 and 1969, the State condemned the ahupuaa o Kahana 11 for use as a state park, making it the only landowner in the 12 State of Hawaii, other than the owners of Niihau, to own an 13 intact ahupuaa. An ahupuaa, a triangular slice of land running 14 from the mountains to the ocean, was the major land division 15 used by pre-contact Hawaiians.

Families living in Kahana at the time of condemnation were of varied ethnic backgrounds, and the people of Kahana generally lived a simple, subsistence lifestyle in harmony with native Hawaiian values and traditions. In 1970, a governor's task force proposed the concept of a living park as a way in which

2021-2415 HB1029 SD1 SMA.doc

the residents could continue to live in the park and participate
 in the park for the benefit of the public.

To effectuate the living park concept, Act 5, Session Laws 3 of Hawaii 1987, authorized the department of land and natural 4 resources to issue long-term residential leases to individuals 5 who had been living on the land. In 1993, the department of 6 7 land and natural resources entered into sixty-five-year leases with thirty-one qualifying families and required that all 8 lessees be an essential part of the interpretive programs by 9 contributing at least twenty-five hours of service each month to 10 benefit the park. To provide lessees with money to construct 11 12 new houses, Act 238, Session Laws of Hawaii 1988, appropriated funds to provide low-interest home construction and mortgage 13 loans for Kahana valley state park lessees. The appropriation 14 was sufficient for twenty-six lessees to receive loans in the 15 amount of \$50,000 each. 16

Since 1993, three leases have been terminated by the department of land and natural resources for noncompliance with lease conditions. Other families living in Kahana valley have sought to obtain long-term leases, but the department of land and natural resources refuses to issue any further leases,

Page 5

relying on the attorney general's opinion issued on March 24,
 2008, asserting that Act 5, Session Laws of Hawaii 1987,
 expired.

Since 1970, Kahana residents and the greater community 4 proposed numerous plans to the board of land and natural 5 resources. However, the board of land and natural resources 6 7 never adopted a master plan for Kahana valley state park. As a result, there has been a lack of clarity, vision, goals, and 8 9 policies directing the residents and the department of land and 10 natural resources in the development and management of Kahana 11 valley state park.

12 The management of a living park requires that the 13 department of land and natural resources have the authority to 14 negotiate and enter into long-term residential leases, a clear 15 master plan, and the resources to support the living park, 16 including the establishment of a land manager position akin to a 17 konohiki.

18 The purpose of this Act is to:

Page 6

19 (1) Establish a two-year moratorium on evictions of
20 persons who at the time of the enactment of this Act,
21 reside in Kahana valley state park, have participated

1		in interpretive programs for Kahana valley state park,
2		and have continuously lived there since before 1987 or
3		hold or have held a long-term lease or permit to
4		reside there; and
5	(2)	Authorize the department of land and natural resources
6		to issue long-term residential leases to qualified
7		persons[; and
8	(3)	Establish a living park planning council to develop a
9		master-plan for each state living park that will
10		provide the framework, proposed rules, measurements
11		for success, and planning process to ensure that the
12		living park achieves its purpose and goals]."
13	2.	By amending sections 5 and 6 to read:
14	"SEC	TION 5. The development of a master plan for a state
15	living pa	rk shall rest with the [living park planning council.]
16	departmen	t of land and natural resources. The master plan shall
17	be review	red and updated as needed. In developing the master
