administrative assistant position in the Department of Human Resources Development.

This bill is objectionable because by repealing the Trust Fund, the bill would eliminate the dedicated, long-term funding arrangement for tobacco prevention programs. The Trust Fund uses payments being made by tobacco companies pursuant to the Tobacco Master Settlement Agreement to develop and fund programs to prevent tobacco uptake and to cease tobacco use. Defunding a dedicated revenue source for tobacco prevention and cessation programs creates uncertainty about the continuity of those programs and their ability to achieve their intended outcomes. Any significant reduction in these programs or services will likely result in negative public health impacts and significantly higher health care costs in future years. Over the last twenty years, these programs have helped prevent youth from initiating smoking, have reduced the number of residents who smoke, and have reduced tobacco-use-related healthcare expenditures by over one billion dollars.

Additionally, the bill would eliminate the University of Hawaii (UH) Cancer Center's ability to conduct cancer research and cancer center operations with cigarette tax moneys, significantly increasing costs for the UH to maintain its existing operation and programs.

Notably, recent improvements in the State's current fiscal situation and forecasted tax revenues appear to eliminate the need for this bill.

For the foregoing reasons, I am returning House Bill No. 1296 without my approval.

Respectfully,

DAVID Y. IGE
Governor of Hawai'i

A BILL FOR AN ACT

RELATING TO STATE FUNDS.

15 PART V

16 SECTION 13. The legislature finds that mass shootings and
17 mass casualty events are a public health crisis. The National
18 Governors Association has stated that efforts to prevent
19 targeted violence map on to other prevention and mitigation
20 efforts, specifically public health models. The legislature
21 notes that many violence prevention strategies, such as

1 assessment, risk identification, and mitigation, are already
2 included as an important part of new physician training. These
3 current practices fit well with the objectives and strategies of
4 threat assessment teams, while trained mental health
5 professionals, such as psychiatrists and psychologists, provide
6 crucial insights and skills that are invaluable to
7 interdisciplinary threat assessment.

8 The legislature further finds that the Hawaii state fusion
9 center, in partnership with other agencies, has already laid a
10 foundation for a threat assessment program. Enabling a
11 multidisciplinary threat assessment team consisting of
12 individuals with diverse training and experience can help
13 prevent violence and find solutions to manage threats.

14 The purpose of this part is to establish a threat
15 assessment team program within the Hawaii state fusion center of
16 the office of homeland security to train, establish, and operate
17 threat assessment teams.

18 SECTION 14. Chapter 128A, Hawaii Revised Statutes, is
19 amended by adding a new section to be appropriately designated
20 and to read as follows:

1 "§128A- Threat assessment team program; established.

2 (a) There is established within the Hawaii state fusion center
3 of the office of homeland security a threat assessment team
4 program for the Hawaii state fusion center to train, establish,
5 and operate threat assessment teams.

6 (b) The threat assessment team program and facility shall
7 be located at the First Responders Technology Park,
8 TMK 9-5-002:057, at an appropriate time."

9

PART VI

SECTION 15. There is appropriated out of the general revenues of the State of Hawaii the sum of \$132,972 or so much thereof as may be necessary for fiscal year 2021-2022 and the same sum or so much thereof as may be necessary for fiscal year 2022-2023 for one full-time equivalent (1.00 FTE) permanent administrative assistant position in the department of human resources development.

17 The sums appropriated shall be expended by the department
18 of human resources development for the purposes of this part.

19 PART VII

20 SECTION 16. Statutory material to be repealed is bracketed
21 and stricken. New statutory material is underscored.

1 SECTION 17. This Act shall take effect on July 1, 2021;
2 provided that sections 3 and 4 shall take effect on June 30,
3 2025.
