A BILL FOR AN ACT

RELATING TO CLEAN ENERGY FINANCING.

BE IT ENACTED BY THE LEGISLATURE OF THE STATE OF HAWAII:

1 SECTION 1. The legislature finds that significant 2 investment in clean energy technology and infrastructure will be 3 required to achieve the State's goals of energy selfsufficiency, energy security, and energy diversification. 4 5 Additional investment is also needed to meet the renewable 6 portfolio and energy efficiency portfolio standards in 7 chapter 269, Hawaii Revised Statutes, as well as the Hawaii Clean Energy Initiative's 2030 target of 165,000,000 gallons of 8 9 petroleum used per year for ground transportation. The current 10 aggregate level of green infrastructure investment is in excess 11 of \$15,350,000,000.

12 The legislature also finds that green infrastructure 13 investment supports Hawaii's evolving energy market and provides 14 affordable options for the State's ratepayers. Due to the 15 significant amount of capital required for green infrastructure 16 investment, the State must leverage private investment with 17 limited public funds. Growth in the clean energy market will

2021-2086 HB558 HD2 HMSO

2

reduce the cost of clean energy for ratepayers, drive job
 creation, and save billions of taxpayer dollars currently being
 spent on importing petroleum oil.

4 The legislature has made various efforts to invest in green 5 technology. Act 155, Session Laws of Hawaii 2009, established 6 the building energy efficiency revolving loan fund to provide 7 low cost financing to eligible public, private, and nonprofit 8 borrowers to make energy efficiency improvements to buildings. 9 Act 211, Session Laws of Hawaii 2013, established the Hawaii 10 green infrastructure authority to make cost-effective green 11 infrastructure financing options accessible and affordable to 12 customers under the green energy market securitization program.

13 The legislature further finds that a significant barrier to 14 clean energy adoption has been the unavailability of flexible 15 financing and low-cost capital. Building Hawaii's clean energy 16 infrastructure at the lowest possible cost is vital to reach the 17 State's goal of one hundred per cent clean energy by 2045. 18 Public funds must be used in a sustainable manner to 19 simultaneously spark customer demand for clean energy technology 20 and attract private investment in green technology. It is the 21 State's goal that each public dollar spent will have an

2021-2086 HB558 HD2 HMSO

Page 2

1 investment multiplier effect throughout the green technology
2 industry.

3 The legislature also finds that a variety of financing 4 options must be available to support Hawaii's clean energy 5 investment. Ratepayer-funded programs, such as energy 6 efficiency rebates and the green energy market securitization 7 loan program, have made progress but do not serve all ratepaying 8 customers or the entire clean energy technology market. The 9 green energy market securitization loan program has facilitated 10 over \$110,000,000 in solar photovoltaic and energy efficiency 11 projects, but the program is not able to serve all ratepayers 12 and focuses only on established technology. The green energy 13 market securitization bond was an innovative use of a rate 14 reduction bond, but due to the time lag between the issuance of 15 the bond and expenditures for improvements, using this bond 16 financing was inefficient compared to using revolving loan 17 funds, which are expended annually and in a more expedient 18 manner.

19 Furthermore, the COVID-19 pandemic has had significant
20 negative impacts on Hawaii's tourist industry and economy,
21 resulting in projections of severe state budgetary shortfalls

2021-2086 HB558 HD2 HMSO

1 over the next four years. With only a limited number of 2 financing mechanisms available for state agencies to install 3 solar photovoltaic systems, state agencies have historically 4 lowered their energy costs by entering into energy performance 5 contracts and power purchase agreements with private partners to 6 install and own energy retrofits and solar photovoltaic systems 7 on their behalf. While individual results are dependent on the 8 negotiated terms of the consummated energy performance contract 9 or power purchase agreement, many of these arrangements have 10 successfully reduced the cost of energy for the State.

11 Additionally, most agreements include an option for state 12 agencies to purchase the installed equipment during the term of 13 the agreement. For example, an actual power purchase agreement 14 executed on September 30, 2016, between a state agency and an 15 investor is estimated to reduce the agency's energy cost by 16 forty-two per cent over the twenty-year term of the agreement. 17 However, if this state agency had access to financing under 18 section 196-62.5, Hawaii Revised Statutes, to exercise its 19 purchase option over the same twenty-year term of the power 20 purchase agreement, it is estimated the agency would reduce its 21 energy cost by sixty-one per cent. This sixty-one per cent,

2021-2086 HB558 HD2 HMSO

Page 5

which includes the loan repayment and ongoing equipment
 maintenance costs, would create a new source of cash flow for
 the agency.

4 With the number of energy performance contracts and power 5 purchase agreements in existence throughout the State, there is 6 a tremendous opportunity for additional energy savings --7 savings that can be utilized to finance the conversion of the 8 State's retiring internal combustion fleet to short-term leases 9 on electric vehicles and install electric vehicle charging 10 systems, while remaining budget neutral. Using the example 11 above, this agency could install one level 3 charging system and 12 lease seven electric vehicles with its savings.

13 The purpose of this Act is to strengthen the Hawaii green 14 infrastructure authority's ability to support investment in 15 clean energy technology, including electric vehicles and 16 electric vehicle charging systems and infrastructure, by:

17 (1) Creating a clean energy and energy efficiency
18 revolving loan fund to finance a broad range of clean
19 energy technologies;

20 (2) Expanding the objective of the \$50,000,000 sub-fund to21 allow state agencies to finance their purchase options

2021-2086 HB558 HD2 HMSO

H.B. NO. ⁵⁵⁸ H.D. ²

1		under existing energy performance contracts and power
2		purchase agreements to further reduce and stabilize
3		future energy costs, with the option to utilize
4		savings to finance the installation of electric
5		vehicle charging systems and lease or purchase
6		electric vehicles;
7	(3)	Repealing the building energy efficiency revolving
8		loan fund; and
9	(4)	Appropriating funds out of the clean energy and energy
10		efficiency revolving loan fund to make clean energy
11		investment loans or for other approved uses.
12	SECT	ION 2. Chapter 196, Hawaii Revised Statutes, is
13	amended b	y adding a new section to part IV to be appropriately
14	designate	d and to read as follows:
15	" <u>§19</u>	6- Clean energy and energy efficiency revolving
16	loan fund	. (a) There is created within the Hawaii green
17	infrastru	cture special fund created in section 196-65 the clean
18	energy and	d energy efficiency revolving loan fund, similar to a
19	revolving	line of credit, which shall be administered by the
20	authority	. Funds deposited into the clean energy and energy
21	efficienc	y revolving loan fund shall not be under the

Page 7

H.B. NO. ⁵⁵⁸ H.D. ²

1	jurisdict	ion of, nor be subject to approval by, the public
2	utilities	commission and shall include:
3	(1)	Any amounts, up to a total amount not to exceed
4		\$50,000,000, of moneys borrowed by the authority, with
5		the approval of the governor, from federal, county,
6		private, or other funding sources, pursuant to
7		part III of chapter 39;
8	(2)	Funds from federal, state, county, private, or other
9		funding sources;
10	(3)	Investments from public or private investors;
11	(4)	Moneys received as repayment of loans and interest
12		payments; provided that the repayment of loans and
13		interest payments under this paragraph shall not
14		include repayment of loans and interest collected as a
15		result of funds advanced from proceeds of green energy
16		market securitization bonds; and
17	(5)	Any fees collected by the authority under this
18		section; provided that moneys collected as a result of
19		the funds advanced from proceeds of green energy
20		market securitization bonds shall be kept separate
21		from fees collected as a result of funds advanced from

1	proceeds of the clean energy and energy efficiency
2	revolving loan fund.
3	(b) Moneys in the clean energy and energy efficiency
4	revolving loan fund shall be used to provide low-cost loans at
5	below-market rates or other authorized financial assistance to
6	eligible public, private, and nonprofit borrowers for clean
7	energy investments or other authorized uses, or both, on terms
8	approved by the authority. Moneys from the fund may be used to
9	cover administrative and legal costs of fund management and
10	management associated with individual loans, including
11	personnel, services, technical assistance, data collection and
12	reporting, materials, equipment, and travel for the purposes of
13	this section.
14	(c) Appropriations or authorizations from the clean energy
15	and energy efficiency revolving loan fund shall be expended by
16	the authority. The authority may contract with other public or
17	private entities for the provision of all or a portion of the
18	services necessary for the administration and implementation of
19	the loan fund program. The authority may set fees or charges
20	for fund management and technical site assistance provided under

2021-2086 HB558 HD2 HMSO

H.B. NO. ⁵⁵⁸ H.D. 2

1	this section. The authority may adopt rules pursuant to
2	chapter 91 to carry out the purposes of this section.
3	(d) All interest earned on the loans, deposits, or
4	investments of the moneys in the clean energy and energy
5	efficiency revolving loan fund shall become part of the fund.
6	(e) The authority may establish subaccounts within the
7	clean energy and energy efficiency revolving loan fund as
8	necessary."
9	SECTION 3. Section 196-61, Hawaii Revised Statutes, is
10	amended by adding fifteen new definitions to be appropriately
11	inserted and to read as follows:
12	"Clean energy investments" means the purchase or
13	installation, or both, of clean energy technology, including
14	energy efficiency measures, green transportation infrastructure,
15	and recycling and renewable energy technology.
16	"Electric vehicle" has the same definition as in
17	<u>section 291-71.</u>
18	"Electric vehicle charging system" has the same definition
19	as in section 291-71.
20	"Energy performance contract" has the same meaning as in
21	section 36-41.

1	"Green energy money \$aver on-bill program" means the
2	tariff-based on-bill repayment mechanism approved for the
3	exclusive use of the authority by the public utilities
4	commission.
5	"Green infrastructure loan program", or "green energy
6	market securitization loan program" means the loan program
7	established under section 196-62 and capitalized by the issuance
8	of green energy market securitization bonds.
9	"Limited liability company" shall have the same meaning as
10	in section 428-101.
11	"Loan fund program" means the clean energy and energy
12	efficiency revolving loan fund program.
13	"Option to purchase" means a legally binding agreement
14	between a buyer and a seller that gives the buyer the option,
15	but not the obligation, to purchase the solar photovoltaic
16	system or other installed equipment at an agreed upon price,
17	prior to the maturity date of the power purchase agreement or
18	energy performance contract.
19	"Power purchase agreement" means a contract between two
20	parties, one which generates electricity (the seller) and one
21	which is looking to purchase electricity (the buyer). The power

1	purchase agreement defines all the commercial terms for the sale
2	of electricity between the two parties.
3	"Qualified security" shall have the same meaning as in
4	section 227D-1.
5	"Renewable energy" shall have the same meaning as in
6	section 269-91.
7	"Renewable energy technology" means the equipment and
8	related accessories required to generate or produce renewable
9	energy.
10	"Special purpose entity" means a legal entity created to
11	fulfill narrow, specific, or temporary objectives and typically
12	used by companies to isolate the firm from financial risk.
13	"Subaccount" means an account under the clean energy and
14	energy efficiency revolving loan fund that is created within
15	another separately established fund and which is reserved for a
16	specific purpose."
17	SECTION 4. Section 196-62.5, Hawaii Revised Statutes, is
18	amended as follows:
19	1. By amending its title and subsections (a) and (b) to
20	read:

1

11

Page 11

H.B. NO. ⁵⁵⁸ H.D. 2

1 "[+]\$196-62.5[+] Financing for state government agencies. 2 (a) [With the approval of the governor, a] Any state agency may 3 apply for financing, subject to availability under the revolving 4 line of credit for fiscal year $\left[\frac{2018-2019}{7}\right]$ 2021-2022, and 5 annually thereafter, from the green infrastructure loan program 6 pursuant to section 196-65(b)(2), upon terms and conditions as 7 are agreed to between the department or agency and the Hawaii 8 green infrastructure authority; provided that the loans shall be 9 issued at an interest rate of 3.5 per cent a year; provided 10 further that the loans shall not adversely affect the 11 sustainability of the sub-fund or Hawaii green infrastructure 12 special fund such that the replenishment of funds requires a 13 higher interest rate in other financing agreements or an 14 appropriation from the general fund. 15 (b) [An] As may be applicable, an agency shall consult 16 with the public benefits fee administrator of the public 17 utilities commission prior to planning an energy-efficiency 18

18 measure subject to this section. The agency's proposed energy-19 efficiency measures shall meet or exceed the public benefits fee 20 administrator's enhanced efficiency levels and requirements to 21 be eligible for the Hawaii green infrastructure loan program.

2021-2086 HB558 HD2 HMSO

H.B. NO. ⁵⁵⁸ H.D. 2

1	The agency shall coordinate with the public benefits fee
2	administrator throughout the entire project cycle to ensure that
3	energy efficiency is maximized. All supporting documentation
4	required by the public benefits fee administrator shall be
5	provided by the agency to ensure compliance with the State's
6	energy-efficiency portfolio standard under section 269-96."
7	2. By amending subsection (d) to read:
8	"(d) Beginning with fiscal year [2018-2019,] <u>2021-2022,</u>
9	and annually thereafter, an agency shall repay a loan issued
10	pursuant to subsection (a) using general revenue savings that
11	result from reduced [utility] <u>energy</u> costs due to
12	[implementation of] financing the purchase of solar photovoltaic
13	systems or other clean energy equipment, implementing energy-
14	efficient lighting and other energy-efficiency measures[\cdot], as
15	well as operational and fuel cost savings achieved by the
16	conversion of internal combustion vehicles to electric
17	vehicles."
18	SECTION 5. Section 196-64, Hawaii Revised Statutes, is
19	amended to read as follows:
20	"[$\{$] §196-64[$\}$] Functions, powers, and duties of the
21	authority. (a) In the performance of, and with respect to the

2021-2086 HB558 HD2 HMSO

H.B. NO. ⁵⁵⁸ H.D. 2

1	functions	, powers, and duties vested in the authority by this
2	part, the	authority, as directed by the director and in
3	accordanc	e with a green infrastructure loan program order or
4	orders un	der section 269–171 or an annual plan submitted by the
5	authority	pursuant to this section, as approved by the public
6	utilities	commission, for the green energy market securitization
7	loan prog	ram, may:
8	(1)	Make loans and expend funds to finance the purchase or
9		installation of green infrastructure equipment for
10		clean energy technology, demand response technology,
11		and energy use reduction and demand side management
12		infrastructure, programs, and services;
13	(2)	Hold and invest moneys in the green infrastructure
14		special fund in investments as permitted by law and in
15		accordance with approved investment guidelines
16		established in one or more orders issued by the public
17		utilities commission pursuant to section 269-171;
18	(3)	Hire employees necessary to perform its duties,
19		including an executive director. The executive
20		director shall be appointed by the authority, and the

2021-2086 HB558 HD2 HMSO

Page 15

H.B. NO. ⁵⁵⁸ H.D. ²

1		employees' positions, including the executive
2		director's position, shall be exempt from chapter 76;
3	(4)	Enter into contracts for the service of consultants
4		for rendering professional and technical assistance
5		and advice, and any other contracts that are necessary
6		and proper for the implementation of the loan program;
7	(5)	Enter into contracts for the administration of the
8		loan program, without the necessity of complying with
9		chapter 103D;
10	(6)	Establish loan program guidelines to be approved in
11		one or more orders issued by the public utilities
12		commission pursuant to section 269-171 to carry out
13		the purposes of this part;
14	(7)	Be audited at least annually by a firm of independent
15		certified public accountants selected by the
16		authority, and provide the results of this audit to
17		the department and the public utilities commission;
18		and
19	(8)	Perform all functions necessary to effectuate the
20		purposes of this part.

2021-2086 HB558 HD2 HMSO

H.B. NO. ⁵⁵⁸ H.D. 2

1	(b)	The authority shall submit to the public utilities
2	commissic	on an annual plan for the green energy market
3	securitiz	ation loan program for review and approval no later
4	than nine	ety days prior to the start of each fiscal year. The
5	annual pl	an submitted by the authority shall include the
6	authority	's projected operational budget for the succeeding
7	fiscal ye	ear.
8	<u>(c)</u>	In the performance of, and with respect to the
9	functions	, powers, and duties vested in the authority by this
10	part, the	e authority shall administer the clean energy and energy
11	efficienc	y revolving loan fund pursuant to section 196- , and
12	may:	
13	(1)	Make loans and expend funds to finance the purchase or
14		installation of clean energy technology and services;
15	(2)	Implement and administer loan programs on behalf of
16		other state departments or agencies through a
17		memorandum of agreement and expend funds appropriated
18		to the department or agency for purposes authorized by
19		the legislature;
20	(3)	Utilize all repayment mechanisms, including the green
21		energy money \$aver on-bill program, financing tools,

2021-2086 HB558 HD2 HMSO

Page 17

1		servicing and other arrangements, and sources of
2		capital available to the authority;
3	(4)	Exercise powers to organize and establish special
4		purpose entities as limited liability companies under
5		the laws of the State;
6	(5)	Acquire, hold, and sell qualified securities;
7	(6)	Pledge unencumbered net assets, loan receivables,
8		assigned agreements, and security interests over
9		equipment financed as collateral for the authority's
10		borrowings from federal, county, or private lenders or
11		agencies;
12	(7)	Utilize the employees of the authority, including the
13		executive director;
14	(8)	Enter into contracts for the service of consultants
15		for rendering professional and technical assistance
16		and advice and any other contracts that are necessary
17		and proper for the implementation of the loan fund
18		program;
19	(9)	Enter into contracts for the administration of the
20		loan fund program, without the necessity of complying
21		with chapter 103D;

H.B. NO. ⁵⁵⁸ H.D. 2

1	(10)	Establish loan fund program guidelines;
2	(11)	Be audited at least annually by a firm of independent
3		certified public accountants selected by the authority
4		and provide the results of this audit to the
5		department and the legislature; and
6	(12)	Perform all functions necessary to effectuate the
7		purposes of this section.
8	<u>(d)</u>	The authority shall submit an annual report for the
9	<u>clean ene</u>	rgy and energy efficiency revolving loan fund to the
10	legislatu	re no later than twenty days prior to the convening of
11	<u>each regu</u>	lar session describing the projects funded and the
12	projected	energy impacts."
13	SECT	ION 6. Section 196-65, Hawaii Revised Statutes, is
14	amended b	y amending subsection (b) to read as follows:
15	"(b)	Moneys in the Hawaii green infrastructure special
16	fund may	be used, subject to the approval of the public
17	utilities	commission, for the purposes of:
18	(1)	Making green infrastructure loans, including for
19		installation costs for energy-efficient lighting and
20		other energy-efficiency measures[+], to finance the
21		option to purchase solar photovoltaic systems and

H.B. NO. ⁵⁵⁸ H.D. ²

	other clean energy equipment under existing power
	purchase agreements and energy performance contracts,
	finance the purchase or lease of electric vehicles,
	and install electric vehicle charging systems;
(2)	Creating a \$50,000,000 sub-fund, as a revolving line
	of credit within the Hawaii green infrastructure
	special fund, for any state agency to obtain financing
	to implement cost-effective energy-efficiency
	measures[+], finance the option to purchase solar
	photovoltaic systems and other clean energy equipment
	under existing power purchase agreements and energy
	performance contracts, finance the purchase or lease
	of electric vehicles, and install electric vehicle
	charging systems;
(3)	Paying administrative costs of the Hawaii green
	infrastructure loan program;
(4)	Paying any other costs related to the Hawaii green
	infrastructure loan program; or
(5)	Paying financing costs, as defined in section 269-161,
	to the extent permitted by the public utilities
	(3)

2021-2086 HB558 HD2 HMS0

H.B. NO. ⁵⁵⁸ H.D. 2

1		commission in a financing order issued pursuant to
2		section 269-163."
3	SECT	ION 7. Section 201-12.8, Hawaii Revised Statutes, is
4	amended b	y amending subsection (b) to read as follows:
5	"(b)	Subject to legislative appropriation, moneys from the
6	fund may	be expended by the Hawaii state energy office for the
7	following	purposes and used for no other purposes, except for
8	those set	forth in this section:
9	(1)	To support the Hawaii clean energy initiative program
10		and projects that promote and advance dependable and
11		affordable energy, renewable energy, energy
12		efficiency, energy self-sufficiency, and greater
13		energy security and resiliency for the State and
14		<pre>public facilities;</pre>
15	(2)	To fund, to the extent possible, the climate change
16		mitigation and adaptation commission and the
17		greenhouse gas sequestration task force;
18	(3)	To support achieving the zero emissions clean economy
19		target set forth in section 225P-5;
20	[- (4-)-	To fund the building energy efficiency revolving loan
21		fund established in section 201-20;

2021-2086 HB558 HD2 HMSO

Page 21

1	(5)] (4) To fund projects and incentives to promote the
2	adoption of clean transportation technologies, develop
3	clean vehicle charging infrastructure, and upgrade
4	infrastructure to support the development of clean
5	vehicle charging infrastructure; and
6	$[\frac{(6)}{(5)}]$ To fund, to the extent possible, the duties of
7	the state building code council in section 107-24, as
8	they relate to the development of energy conservation
9	codes."
10	SECTION 8. Section 201-20, Hawaii Revised Statutes, is
11	repealed.
12	[" [§201-20] Building energy efficiency revolving loan
13	fund. (a) There is established in the state treasury the
14	building energy efficiency revolving loan fund which shall be
15	administered by the department, and into which shall be
16	deposited:
17	(1) Funds from federal, state, county, private, or other
18	funding sources;
19	(2) Moneys received as repayment of loans and interest
20	payments; and

2021-2086 HB558 HD2 HMSO

H.B. NO. ⁵⁵⁸ H.D. 2

1	(3) Any fees collected by the department under this
2	section.
3	(b) Moneys in the building energy efficiency revolving
4	loan fund shall be used to provide low or no interest loans or
5	other authorized financial assistance to eligible public,
6	private, and nonprofit borrowers to make energy efficiency
7	improvements in buildings. Moneys from the fund may be used to
8	cover administrative and legal costs of fund management and
9	management associated with individual loans, to include
10	personnel, services, technical assistance, data collection and
11	reporting, materials, equipment, and travel for the purposes of
12	this section.
13	(c) Appropriations or authorizations from the fund shall
14	be expended by the department. The department may contract with
15	other public or private entities for the provision of all or a
16	portion of the services necessary for the administration and
17	implementation of the loan fund program. The department may set
18	fees or charges for fund management and technical site
19	assistance provided under this section. The department may
20	adopt rules pursuant to chapter 91 to carry out the purposes of
21	this-section.

H.B. NO. ⁵⁵⁸ H.D. ²

1	(d) All interest carned on the deposit or investment of
2	the moneys in the fund shall become a part of the fund.
3	(e) The department may establish subaccounts within the
4	fund as necessary."]
5	SECTION 9. Any unencumbered balance in the building energy
6	efficiency revolving loan fund repealed by section 8 of this Act
7	shall be transferred to the credit of the clean energy and
8	energy efficiency revolving loan fund.
9	SECTION 10. There is appropriated out of the clean energy
10	and energy efficiency revolving loan fund the sum of \$
11	or so much thereof as may be necessary for fiscal year 2021-2022
12	and the same sum or so much thereof as may be necessary for
13	fiscal year 2022-2023 to provide loans or other financial
14	assistance to eligible borrowers for clean energy investments or
15	other authorized uses.
16	The sums appropriated shall be expended by the Hawaii green
17	infrastructure authority for the purposes of this Act.
18	SECTION 11. Statutory material to be repealed is bracketed
19	and stricken. New statutory material is underscored.
20	SECTION 12. This Act shall take effect on July 1, 2050.

Report Title:

Clean Energy and Energy Efficiency Revolving Loan Fund; Building Energy Efficiency Revolving Loan Fund; Energy Financing; State Agencies; Hawaii Green Infrastructure Authority; Appropriation

Description:

2021-2086 HB558 HD2 HMS0

Creates the clean energy and energy efficiency revolving loan fund in the Hawaii green infrastructure special fund to be administered by the Hawaii green infrastructure authority. Amends and expands the purpose of the revolving sub-fund for state agencies and also includes the electrification of fleet vehicles. Repeals the building energy efficiency revolving loan fund. Appropriates loan ceiling. Effective 7/1/2050. (HD2)

The summary description of legislation appearing on this page is for informational purposes only and is not legislation or evidence of legislative intent.
