

HANA HIGHWAY BRIDGE IMPROVEMENTS

JOIN US

The Hawaii Department of Transportation (HDOT), in partnership with the Federal Highway Administration, Central Federal Lands Highway Division (FHWA-CFLHD),

will be holding two virtual public meetings to discuss a project to improve six of the historic bridges along the Hana Highway (Route 360) located between Huelo and Hana town in east Maui. The meetings are the third in a series of four public meetings, as a follow-up to the meetings held in January 2020. The bridges include **Kailua Stream Bridge** (Mile Post [MP] 5.9), **Makanali Stream Bridge** (MP 8.2), **Puohokamoa Stream Bridge** (MP 11.0), **Kopiliula Stream Bridge** (MP 21.7), **Ulaino Stream Bridge** (MP 27.9), and **Mokulehua Stream Bridge** (MP 28.3). The six bridges have been identified by HDOT as high priority for improvements.

During the virtual public meeting presentation, the project team will discuss the proposed bridge solutions and construction considerations for how we plan to improve the bridges and maintain traffic. We invite you to attend and engage with us during a virtual Q&A session. We want to hear from you and what your thoughts are about the project.
