Aloha Friends,

Happy 2016! I hope you and your families had a wonderful Christmas and enjoyed a safe holiday season. The second half of the biennium of the 28th Legislature began on January 20, 2016.

Thank you to those of you who contacted me with suggestions for possible legislation. While I may not have been able to accommodate all of your requests, I hope you will find that the legislation I am introducing on behalf of Kapolei and Makakilo, reflects your input.

There are many issues that are expected to come up this legislative session, including the legalization of marijuana, physician-assisted suicide, homelessness, and increasing the general excise tax to fund public education. While my guiding principle is to vote with the interests of all Kapolei and Makakilo residents in mind, I find it helpful to directly seek your input on some of the more contentious issues. Please consider taking the survey so that I know your position on these issues.

Should you have any questions or comments, please do not hesitate to contact my office at 586-8500, or via email at rephar@capitol.hawaii.gov. Mahalo nui loa for allowing me the privilege of serving as your representative in the House of Representatives.

Mahalo,
Sharon

Representative Har presented a certificate of appreciation from the House of Representatives to Warren Wegesend upon his retirement as the General Manager of the Villages of Kapolei Association.

Please respond to the following statements by selecting the most appropriate response:	Strongly Agree	Agree	No Opinion	Disagree	Strongly Disagree
Parents should have to opt student into controversial sex education programs. (Currently students are automatically enrolled and parents must opt their children out.)					
Parents should be allowed to opt students out of high-stakes standardized testing.					
The State should legalize recreational marijuana use.					
Patients with a terminal medical-diagnosis should be allowed the option to end their own life.					
I would support an increase in the general excise tax (GET) to provide additional funding for public schools.					
I would be willing to pay additional taxes for a public educational system that includes preschool classrooms and programs.					
The State should fund an aggressive, specific, and long-term solution to the homelessness crises with an increase to the property conveyance tax.					
I would support the legalization of gambling to generate revenue that would be used toward essential governmental services.					
Given the millions of tax dollars lost on internet sales, I believe the State should collect the general excise tax (GET) on online transactions as opposed to an overall increase in the GET.
