

Re: GM730 for Clayton C. Y. Pang, for the Board of Professional Engineers, Architects, Surveyors, and Landscape Architects.

Response to Questions

- 1) Being a member of the Board is an opportunity to give back to the engineering profession and to ensure that only qualified individuals are licensed in the State of Hawaii.
- 2) My role on the board would be to help review applications of electrical engineers that are attempting to become licensed in the State of Hawaii and to assess their qualifications and work experience to assure that engineering applicants are qualified and meet the rules and laws to become licensed.
- 3) I have over 49 years of electrical engineering experience and have been actively involved in the design of numerous projects which include lighting design, power distribution, emergency generator systems, fire alarm systems and energy conservation systems. The projects include retail shops, schools, hotels, hospitals, office buildings, industrial facilities, as well as medium voltage distributions systems.
- 4) I hope to help the Board with updating the rules and laws to allow drawings and documents to be electronically signed and submitted for permit purposes. This will also help the counties in the State of Hawaii to be more consistent in their requirements for electronic submittals of permit drawings and documents. I will also provide electrical input when electrical issues are concerned and brought before the Board.
- 5) I believe in being fair, honest, objective and open minded when evaluating an application or situation.
- 6) I am currently a volunteer Board Member of Troop 1, BSA for 11 years (28 years as Scoutmaster), and committee member for the American Cancer Society Ala Moana Magic Island Relay for Life for 25 years. I am recently retired from 6 years on the Board of Malama Manoa.
- 7) A conflict may occur if I personally know the applicant or individual in a situation that comes before the Board. I would recuse myself from voting or discussion regarding the matter.

**Testimony of the Board of Professional Engineers,
Architects, Surveyors and Landscape Architects**

**Before the
Senate Committee on Commerce & Consumer Protection
Friday, April 9, 2021
9:20 a.m.
Via Videoconference**

**On the following measure:
G.M. 730, SUBMITTING FOR CONSIDERATION AND CONFIRMATION
TO THE BOARD OF PROFESSIONAL ENGINEERS,
ARCHITECTS, SURVEYORS, AND LANDSCAPE ARCHITECTS,
GUBERNATORIAL NOMINEE, CLAYTON PANG,
FOR A TERM TO EXPIRE 06-30-2025**

Chair Baker and Members of the Committee:

My name is Sandra Matsushima, and I am the Executive Officer of the Board of Professional Engineers, Architects, Surveyors, and Landscape Architects (Board). The Board supports the reappointment of Mr. Clayton Pang to the Board as a licensee member.

Mr. Pang has been licensed as a professional electrical engineer since August 31, 1976, and his license is current, valid, and in good standing. Mr. Pang is the president and principal electrical engineer of Electech Hawaii, Inc., where he designs and manages projects in the electrical engineering field. Mr. Pang's experience provides the Board with a wealth of knowledge both locally and nationally, as he represents the Board at regional and national conferences.

Mr. Pang was first appointed to the Board on January 14, 2019, and he has attended 14 out of 17 board meetings. He actively participates and prepares for agenda item discussions and shares his insights based on his 44+ years of experience as a professional engineer. Mr. Pang is also a member of the Board's Rules Committee and provides his research, experience, and knowledge. Mr. Pang's professional experience and desire to contribute to the community will continue to be an asset to the Board.

Thank you for the opportunity to testify on this measure.

Subject: GM 730, Consideration of Clayton Pang to the Board of Professional Engineers, Architects,
Surveyors and Landscape Architects

Dear Senator Baker,

It is with great pleasure to me to write this letter of recommendation for Mr. Clayton C.Y. Pang.

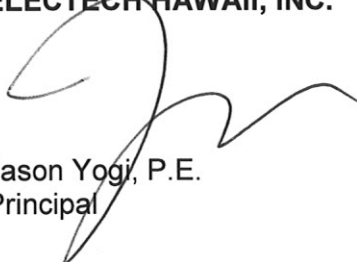

I have worked with Clayton for nearly 30 years and have benefitted from his knowledge and friendship. His dedication to the field of Electrical Engineering has been a personal touchstone of mine and I have used it as I made my way in the same field. His reputation in this field is unquestioned.

His service to the community at large should set an example for all of us as it shows us what true "Aloha" is. His dedication in his work with the Boy Scouts of America indicates that he not only works in the present but is trying to mentor young people for the future.

I cannot recommend him to this board strongly enough.

Very truly yours,

ELECTECH HAWAII, INC.

Jason Yogi, P.E.
Principal

Subject: GM 730, Consideration of Clayton Pang to the
Board of Professional Engineers, Architects, Surveyors,
and Landscape Architects

Dear Senator Baker:

Clayton Pang has served faithfully and diligently on the EASLA Board since 2010. His expertise is undisputed and more than qualifies for continued service on the board.

I have worked with Clayton for 48 years and in the lengthy period of time I have witnessed only good things. He is a well-mannered individual always kind and considerate to others and is someone with integrity and high moral character. This is evidenced as an active and generous Scoutmaster for Punahou School Troop 1, BSA for many years, and the American Cancer Society's Relay for Life. He genuinely understands the true meaning of Stewardship by giving his time, his talent, and his treasure to various charitable endeavors.

He is a great employer and friend.

Sincerely,

Maureen M. Yamasaki
