Comments:

While the Waikiki Neighborhood board will meet on February 9th to vote on this Bill we have heard the complaints and appreciate the action of Rep Tam to attempt to forward this bill.

I personally support the bill and look forward to sending testimony from the Board following the vote on Feb 9.

Comments:

Aloha Chair, Vice Chair and members,

Oh please pass this bill. As a high rise condo dweller, we need some relief from this chronic excessive noise.

Regards, Ann S. Freed

Comments:

Aloha Chair and Comitter members

i absolutely support representative tams bill to limit the operating hours for leaf blowers usage in the Waikiki Sprcial District.

Local law enforcement nerds this tool to be able to take action and respond to residents and others complaints as these leaf blowers are adding to the noise pollution level in a high density zone .

we need to create a more liveable environment for residents and visitors and all who want a sense of calm during the hours when these leaf blowers will have to be silenced

this is a important new statue especially in these challenging times .

we need to put all our thought and purpose into improving the quality of life in this area which needs now more than ever to be a enjoyable experience for all who live or visit waikiki

Mahalos

David Moskowitz

## Comments:

I write in support of House Bill 296. Noise pollution is an increasing problem within our community, and this bill aims to address that. Limiting the hours of use, as well as the allowable maximum permitted decibels of noise will provide much needed relief to those affected by the noise on a daily basis. I strongly urge all members to consider and approve HB296.
