Comments:

I support this resolution urging additional federal funds to support COFA citizens who live and work in our community. They are a small and vulnerable group with many challenges including barriers to many state services and support because of their status as COFA citizens. It is imperative that the federal government and the state of Hawaii understand that their presence in our state is part of an international agreement related to US security.

Thank you for hearing this resolution and I respectfully request you pass it.

Amy Agbayani, co-chair Hawai'i Friends of Civil Rights

Comments: IS this in addition to the already promised \$\$ for the compact folks? IF there is some reason that the USA is not sending the promised \$\$, then we have to take a very heavy stance to get them to provide. Hawai`i did not bomb and cause the medical issues for these people. Yet, every day, we watch as they try to survive minimally in a community that is not theirs and is not always kind. Please make sure that the monies are given as they should have been a long time ago.
