Comments:

Robocalls are now a decades old annoyance and largely used by scammers to fleece the people. The Hawaii legislature should absolutely support and call for further action by the FCC to crack down on these types of calls. They are a nuisance at best and a targeted crime at worst. Working to combat these is a worthy endeavor.

Comments:

I write in support of HCR45 with the appreciation of the introducing members of the measure. Robocalls have increased significantly recently, to the point of one not wanting to answer their own phone. It's clear that without oversight, this practice will continue to disrupt the lives of our citizens.

Comments:

Please stop robocalls. I am a medical professional and often work nights, but I cannot turn my phone off during the day when I am sleeping in case there is a medical emergency. Hardly a day goes by when I'm not woken up unnecessarily from an unwanted, unsolicited robocall. Please stop robocalls.

Comments:

My father is 89 years old and is plagued by these calls. I can shrug them off, but they really bother him. He wonders if he should be doing something he is not. The federal government should protect the public interest against profiteers. Support this reso.

Comments:

I appreciate the Legislature's intent to put an end to unwanted and unsolicited phone calls. Robocallers often mask their spam calls using genuine, local numbers and take advantage of unsuspecting residents with telemarketing offers for a product or service. Robocallers often deceive consumers with threats to take action to avoid a loss of service, car warranty, or a bad credit score to pay debt. Phone companies should be stopping this before they get to our phones yet the industry has only grown and current protections are not sufficient. This measure urges the FCC to do more to combat robocalling and work with the phone companies and other agencies who have the ability to stop these unwanted calls. This measure is necessary for the protection of consumers and I urge you to pass this resolution.

Mahalo for the opportunity to testify in support of HCR45.

Comments:

Aloha committee members,

I support cracking down on illegal robocalls. Please pass this resolution.

Mahalo.
