

**LEGISLATIVE BUDGET BRIEFING  
DEPARTMENT OF HEALTH  
FISCAL BIENNIUM 2021 - 23**

**Overview**

Thank you for the opportunity to present the Department of Health's Executive Biennium Budget for FB 21-23.

**Mission Statement, Strategic Objectives, Goals and Performance Metrics**

The mission of the Department of Health (DOH) is to protect and improve the health and environment for all people in Hawaii.

The strategic goals of the DOH are to invest in healthy babies and families; take health into where people live, work, learn, and play; create a culture of health throughout Hawaii; address the social determinants of health; use evidence-based practices and make data-driven decisions; and improve core business services and customer satisfaction.

The goals of the DOH are to promote health and well-being, prevent disease and injury, promote healthy lifestyles and workplaces, promote the strength and integrity of families and communities, prevent pollution and promote and preserve a clean, healthy and natural environment, promote resource conservation (recycling), protect and enhance air and water quality, and to assure basic physical and mental health care (the five A's- Affordable, Appropriate, Assured quality, Available, and Accessible).

Focus areas of the strategic plan included 1) launch a community paramedicine program to improve access to care, 2) create crisis stabilization beds to fill gaps in the community's continuity of care, and 3) restrict vaping to protect Hawaii's youth. The DOH has made substantial progress on these three main focus areas despite the COVID-19 pandemic, but having to make adjustments along the way.

**Budget Requests in Relation to Strategic Objectives, Goals and Performance Metrics**

The economic impact of the COVID-19 pandemic and increased requirements in providing support and responses have stretched the DOH's resources. The DOH pivoted many programs to provide critical support to the COVID-19 emergency response, including staff from all Divisions and every island. The lack of a well-coordinated federal response further exacerbated the uncertainties and difficulties in planning and responding to the pandemic. It is also a concern due to the unknown future of the economic recovery and its subsequent impact to the state and the department. As such, the DOH has been carefully monitoring its critical program needs and funding availability to minimize the negative impact to the general public. As we learned the during the period after the last recession, cutting critical public health services that work upstream to prevent more expensive and expansive problems led to shifting the

community's burden on more expensive treatment and services, including an increase in jail admissions. Therefore, the Executive Biennium budget requests include adjustments to fund essential positions and funds to support operations in critical programs. The DOH would also request the budget reductions in FY22 and FY23 to be minimal in order to maintain services for public health related support to protect the health of our most vulnerable individuals and communities.

### **Impact of State-Wide Conditions on Agency Operations**

The DOH has been on the frontlines of this rapidly evolving pandemic. With mounting concerns surrounding the response to contain the spread of COVID-19, the department is under tremendous pressure to control the outbreak through essential public health functions, such as laboratory testing, surveillance, prevention & education, vaccination, contact tracing, quarantine, and isolation of cases and their close contacts. In FY 21, the DOH is facing a reduction of \$20.9 million in operating budget in general funds to assist the State in managing its budgetary shortfalls due to the impact of the pandemic. These savings were mainly through the 221.7 FTE vacant positions in personal services in various public health programs, including positions critical to response and recovery from the COVID-19 pandemic. In preparing and managing the vaccination programs to control and reduce the spread of the COVID-19, DOH would require additional resources to work with the federal government, counties, providers, and local communities to implement the state's COVID-19 Vaccination Plan and help the state's recovery efforts, in order to maintain department's ability to provide sufficient support in all administrations within the DOH.

### **Federal Funds**

Programs that have lost or are at risk of losing federal funds are described below:

#### **HTH440 Alcohol and Drug Abuse Division**

Substance Abuse Prevention and Treatment Block Grant (CFDA 93.959). There is potential reduction in next year's award by dollar for dollar decrease in amount that requirement is not met. Program will continue to seek discretionary federal grants to support the substance abuse prevention and treatment misuse and address the state's needs.

#### **HTH 590 Chronic Disease Prevention and Health Promotion Division**

National Asthma Control Program (CFDA 93.070). Funding ended for asthma self-management programs (ASMP) in schools and through community health centers. There is no supplanting with other means of finance. The contracts with ASMP sites ended.

### **Non-General Funds**

Pursuant to HRS 37-47, below is a web link to the Department of Health's non-general fund reports:

[Link to FY 21 Non-General Fund Reports](#)

## Budget Request

The Executive Biennium Budget for the DOH provides for 185.84 general funded FTE positions and \$13M (FY22) and \$8M (FY23) reductions to the FY21 base budget through a comprehensive review of program functions and activities to identify possible reductions and strategies that would realign departmental efforts to meet its core public health functions and services.

To be prepared for any funding needs, the DOH would request consideration for no additional reductions in general fund base budget for FY 22 and FY 23 for unanticipated expenses, and funds can be immediately re-directed for COVID-19 responses and vaccination efforts in the event unanticipated expenses arise and funds are required for public health related support to protect the health of our most vulnerable individuals and communities.

Below includes impact of reductions and top priority budget requests by Administration:

### Health Resources Administration (HRA):

- The HRA is requesting to exempt the HTH 131 Disease Outbreak Control Division from any reductions as the programs are providing critical lifesaving services to the State of Hawaii. Those services are extremely critical especially during the pandemic.
- DOH will be continuing to discuss with the counties the funding of Emergency Medical Services (EMS) for the next Fiscal Biennium and future budget cycles. This will be addressed in the 2021 legislature.

### Behavioral Health Administration (BHA):

- The reductions in BHA would result in the following impact:
  - Reduction in Purchase of Services (POS) contracts and services resulting in reduction of community programs or services, the impact of which is difficult to determine. Services from the community based and non-profit programs across the state would have to be reduced – particularly in neighbor island rural areas of the state.
  - In some programs, particularly with the Alcohol and Drug Abuse Division, reduction in general funds result in an automatic reduction in federal block grant funding.
- **The Developmental Disabilities Division** is requesting to extend the expenditures ceiling for Intellectual and Developmental Disabilities (I/DD) Medicaid Waiver Administrative Claiming Special Fund per Act 165, SLH 2019. The expenditure ceiling in Act 9, SLH 2020 is set at \$3,200,000 for FY 2021 only. The request is to make this special fund recurring in DOH- Developmental Disabilities Division's (DDD) base budget beyond FY2021. This will allow the DOH-DDD to maximize the use of federal Medicaid administrative claiming to operate HCBS waiver for persons with intellectual and developmental disabilities (I/DD), and ensure compliance with all federal Medicaid requirements. In addition, the

new expenditures ceiling includes the estimates of Special Fund Assessments Pursuant to Sections 36-27 and 36-30, HRS. (\$3,200,000 in FY22 and FY23, MOF: B)

- **The Adult Mental Health Division (Inpatient)** is requesting full year salary for the approved new positions to support the new Hawaii State Hospital (HSH) forensic building. (\$4,305,833 in FY22 and FY23, MOF: A)
- **The Adult Mental Health Division (Inpatient)** is also requesting additional operating funds to support the new HSH forensic building. (\$2,655,133 in FY22 and FY23, MOF: A)
- **The Adult Mental Health Division (Inpatient)** is also requesting funding for 6.00 FTE for positions that were unfunded in Act 9, SLH 2020. (\$492,828 in FY22 and FY23, MOF: A)

#### **Environmental Health Administration (EHA):**

- EHA requires sufficient resources to assure that health and the environment of all those in Hawaii is protected and enhanced by establishing and enforcing regulatory standards for unsanitary and hazardous products/conditions and health care facilities/related services and providing specialized environmental health and laboratory services in the State of Hawaii.
- General funds (mainly position salaries) are necessary to provide the required matching funds and/or maintenance of effort for many of the numerous federal grant awards received annually.
- EHA has met the target reduction amounts for FY 22 and FY 23, although some of the listed items are not very realistic, such as reducing funds for electricity and other facility-related costs budgeted in HTH 710 and HTH 849. Especially for the State Laboratories Division, without sufficient electricity, the labs and their equipment will be inoperable, and no testing will be possible.
- **The Environmental Management Division** is requesting an Increase appropriation ceiling for Water Pollution Control Revolving Loan Fund (Clean Water State Revolving Fund; CWSRF) to enable full utilization of loan funds for water pollution control infrastructure. The funding enables construction of water pollution control infrastructure to protect and abate pollution of ground and coastal water resources and to protect and promote public health and safety in the State of Hawaii. (\$50,000,000 in FY22 and FY23, MOF: W)

#### **General Administration (GA):**

- The GA requires the funding to assure that the department can manage all fundamental capacities for effective and efficient actions to accomplish its mission and goals in

providing fiscal, budget, human resources, and facilities support for the entire department, including neighbor island offices.

- Human Resources Office:
  - The reductions in HRO would negatively impact the DOH's ability to fulfill its mission and goals for departmental human resources management and administration in the areas of labor relations; position classification and compensation; recruitment and examination; training, safety, and employee relations; and employee benefits and transactions; all of which are critical to ensure the Department is able to effectively recruit and retain its most valuable resource, which is its employees, in order to fulfill its mission and goals.
  - Additional impacts include untimely employee transactions such as implementing manual pay transactions, processing separations from service such as resignations and retirements, administration of the Department's Leave Share Program, etc.; inability to effectively and timely maintain positions leading to delays in position establishment, conversions, implementing approved reorganizations, filling positions, etc.; delays in all recruitment and examination actions needed to fill vacant positions, including screening of applicants and interpretation and implementation of various appointment types and procedures; inability to timely and effectively administer the training and safety programs. All of the impacts above will expose the DOH to grievances, internal complaints, or lawsuits, for failure to comply with respective collective bargaining agreements and/or Statutory requirements.
  
- Office of Health Status Monitoring:
  - Abolishment of Office Assistants (OAs): OAs are the backbone of the vital records workforce responsible for cataloguing all births, deaths, marriages, and name changes required for identification, nationality, and other citizenship or resident rights and privileges. Abolishment will lead to less productive and less accurate processing of vital records, which was proven by the backlog of requests due to stay at home orders: births recorded late interfere with registration with Social Security, and late death registration or certification delays burials and probate. Both will cause needless stress and anxiety for the average resident in the accomplishment of ordinary tasks and major life events. Transactions processed by OAs are largely deposited into the General Fund so diminishing the workforce will also strain revenue deposits.
  - Abolishment of Research Statisticians: Research Statisticians are required for ongoing participation in the CDC National Center for Health Statistics program that provides fundamental data sets on births, deaths, and related event which

quantify demographic health trends, pregnancy risk factors, teen pregnancies, preterm births, and basic mortality including leading causes of death. This program enables Hawaii and other participating states to draw down federal funds for programs that address these issues, and are the data on which state and national public policy are based, e.g. seatbelt laws, cancer research funding, etc. Disruption in the quality and timeliness will impair Hawaii's competitiveness for federal dollars and distort our state's unique needs when compared to the mainland.

**Capital Improvement Projects include:**

- In FY22, \$860,000 in construction funds is requested to reroof the warehouse and care facility at Kalaupapa. These buildings must remain in operation until there are no longer patients at Kalaupapa. Design is already funded, and the project is ready to bid out.
- In FY22, \$3,500,000 is requested for Hawaii State Hospital, Building Q to replace chillers and related improvements.
- In FY22 and FY23, total of \$600,000 is requested for Hawaii State Hospital, Building B kitchen improvements.
- In FY22, \$7,090,000 in construction funds is requested to close the second of two landfills at Kalaupapa - the C&D (Construction and Demolition) landfill. Design is already funded and in progress. The much smaller MSW (Municipal Solid Waste) landfill was successfully closed in October 2016 for \$1.6 million.

The Executive Biennium requests also include trade-off transfer requests which consist of adjustments to fund critical positions that were unfunded in Act 9, SLH 2020 to support operations in various programs. Federal fund adjustment requests are also being submitted to align the federal budget ceiling with updated actual and anticipated federal fund awards.

The department is continuing its efforts to further define and develop metrics to track the success of its programs in achieving its strategic goals. DOH continues to address the health of our State through a combination of population health management and strategic partnerships to address the needs of our most vulnerable populations. We look forward to advancing Hawaii's health agenda through the leveraging of resources and capitalizing on health care reform options which support accessible, affordable, and quality health care.

<u>Division</u>	<u>Description of Function</u>	<u>Activities</u>	<u>Prog ID(s)</u>	<u>Dept- Wide Priority</u>	<u>Statutory Reference</u>
CDPHND	Expands DOH services in all communities statewide on emergency preparedness/response, communicable disease, health promotion, disease prevention and school health. Focused on the health of populations, communities, and the individuals and families living in them to promote healthy lifestyle choices and assure access to public health nursing services. Community involvement informs DOH policy development/enforcement.	Provides multifaceted clinically skilled work that includes disease/health event investigation, health/ developmental screening, referral/follow up, outreach, home-visiting, case management, health/nursing consultation, surveillance of access sites, coalition building, community organizing, and advocacy across the lifespan for vulnerable populations with health conditions, optimizing health and preventing further disability.	HTH100/KJ	H	HRS Section 321-1.7
CDPHND	Manages, coordinates and provides statewide tuberculosis prevention, detection, intervention, and treatment to prevent and control tuberculosis and development of drug-resistant TB. Hawaii has the highest state incidence of tuberculosis primarily related to immigration and migration.	Coordinates and provides screening for active TB disease and TB infection using TB skin testing, blood tests and X-rays. The clinic provides direct patient care for complex TB cases and oversees the treatment of cases in neighboring islands and the medical community. PHNs, MDs, pharmacists, and outreach workers evaluate, and monitor patient compliance with treatment protocols, as well as investigate and manage contacts of infectious TB cases. "TB Case Review", "TB Cohort Review" and other program evaluation tools provide comprehensive program evaluation and direction, and facilitate collection of relevant data for surveillance, statistical reporting and analysis of trends.	HTH100/DD	H	HRS Chapter 325.2; HAR Title 11, Chapter 164.2
CDPHND	Prevents the spread of Hansen's disease through case management, treatment and epidemiological follow up of new cases. Also provides case management to prevent and treat sequelae of Hansen's disease in accordance with statute (87% of the HD Control Program is funded through federal funds).	Identifies and manages all new cases of Hansen's disease, providing diagnosis, treatment, epidemiological follow-up and case management. Prevents and treats HD-related complications and disabilities.	HTH100/DE	H	HRS Chapter 326; HAR Title 11, Chapter 168
CDPHND	Provides administrative services, program planning and legislative support for STD control. Administers programs for the surveillance, prevention and control of STDs statewide.	Provides STD prevention, diagnosis and treatment at the Diamond Head STD Clinic and statewide in collaboration with district public health offices, community based organizations and health care providers. Carries out STD case follow up and partner notification to prevent ongoing transmission and re-infection. Coordinates STD surveillance statewide and monitors emerging antimicrobial resistance to prevent treatment failures.	HTH100/DH	H	HRS Chapter 325
CDPHND	Provides administrative services, program planning and legislative support for HIV control. Administers programs for the surveillance, prevention and control of HIV statewide.	Provides HIV prevention, counseling, testing and referral to care statewide to reduce HIV transmission, directly and through contracts and collaboration with community agencies. Supports services for individuals with HIV to access appropriate medical care and prevention counseling to prevent ongoing transmission. Provides mandated surveillance of HIV/AIDS.	HTH100/DI	H	HRS Chapter 325
CDPHND	Provides a secure living environment and medical care for the patients of Kalaupapa in accordance with HRS Chapter 326.	Provides medical, and nursing services for Kalaupapa registry patients in Kalaupapa. Maintains infrastructure to support the Kalaupapa community, including housing, food, transportation, equipment, utilities, and emergency management.	HTH100/DG	H	HRS Chapter 326
CDPHND	Hale Mohalu on Oahu permits a higher level of medical care for the Kalaupapa patients than can be provided at the Kalaupapa nursing facility. Patients are also triaged or re-admitted to the Hale Mohalu health care facility on their way to/from tertiary care in the community hospitals and subspecialty medical outpatient care to ensure continuity of patient care.	Provides Kalaupapa patients with coordinated medical, nursing, and rehabilitative care, particularly for services on Oahu that cannot be provided in Kalaupapa.	HTH100/DF	H	HRS Chapter 326

CDPHND	Provides coordination, oversight, and policy direction for four distinct statewide programs that focus on prevention and control of HIV, tuberculosis, Hansen's disease, and sexually transmitted diseases as well as Public Health Nursing services and activities. Also provides oversight for the statewide medical marijuana registry program. Communicable disease control in this division requires careful approaches in difficult to reach populations that are characterized by immigration/migration, unfair stigmatization, poverty, or alcohol/drug abuse. Treatment to prevent transmission is often prolonged and may be life-long. Incorporating social and behavioral determinants of health are essential to this division's function.	Plans, directs, and reviews planning, programming and budgeting activities coordinating with departmental administrative offices, division branches, and other agencies. Reviews and recommends personnel actions, and investigates and resolves issues relating to employee grievances, program challenges and problems. Provides division-wide medical consultation, clinical direction through medical, nursing, and other public health standing orders, investigates and appropriately addresses public health/medical concerns for division programs, and reviews all division federal grants as principal investigator and financial officer. CDPHND	Funds 2 RNs for medically fragile.	Provides multifaceted clinically skilled work that includes health event/disease investigation, health and developmental screening, referral and follow up, outreach, home-visiting, case management, nursing consultation, surveillance of access sites, coalition building, community organizing, and advocacy across the lifespan for vulnerable populations with health conditions, optimizing health and preventing further disability, with a focus on children with medically fragile conditions.	HTH100/KL	M	
DOCD	Division oversees three programs under its purview: Disease Investigation, Immunization and has oversight of the EMSC (Emergency Medical Services for Children) grant. DOCD ensures the objectives and activities of each program, works in concert to enhance Hawaii's overall capacity to address the prevention and control of and preparedness and response to infectious diseases and other related issues, both unintentional and intentional. DOCD also works to strengthen collaborations in these endeavors between the Department of Health and multiple other partners, including clinical commercial laboratories, hospitals, schools, emergency management agencies, private organizations, and military among others, to address the threat of emerging infectious diseases and bioterrorism/man-made events.	Collaborates and conducts activities as needed to address issues such as preparedness and response to emerging threats (e.g., COVID-19, Ebola and Zika) of outbreak potential, infectious or otherwise, as well as more common infectious disease issues.	HTH131/DA	H	HRS §321-4.3; §321-31; §325-5
DOCD	Promote the use of, and in some cases, provide vaccines where and when available to prevent the incidence and spread of infectious diseases; provide central repository for statewide immunization information; assess the impact of vaccine use on disease trends and spread; conduct surveillance for and investigate vaccine-preventable disease cases/outbreaks.	Conduct Stop Flu at School (statewide school-located flu vaccination program); educate public health and providers regarding vaccines; conduct school vaccine assessments; maintain vaccine-preventable disease surveillance; conduct vaccine-preventable disease investigations of cases/outbreaks (e.g., COVID-19, hepatitis A and mumps outbreak responses); maintain the Hawaii Immunization Registry (HIR) to capture immunization information statewide; order vaccine for the Vaccines for Children program through the HIR. ADAD	HTH440/HO consists of State, federal, and special funds that are contracted to provide substance abuse prevention and treatment services statewide.	Unlike other agencies, ADAD does not provide direct services; all substance abuse prevention and treatment services are procured and contracted. It is important to note that reductions in General Funds may generate a corresponding dollar-for-dollar reduction in federal Substance Abuse Prevention and Treatment (SAPT) Block Grant funds, which will significantly reduce the number of participants served in substance abuse prevention activities, and adults and adolescents who can be admitted for substance abuse treatment services. ADAD	HTH440/HD Organizational functions are: Administration; Administrative Management Services Office, Quality Assurance and Improvement Office, and the Planning, Evaluation, Research and Data Office.	Division Administration develops, coordinates and supports the implementation of innovative substance abuse services and programs, and directs the Division's legislative program and activities on substance abuse, and provides effective intra- and inter-departmental coordination. The Administrative Management Services Office oversees the Division budgeting, financial management, and human resources functions. The Quality Assurance and Improvement Office develops and implements a system-wide quality assurance and improvement program that incorporates staff, community, and consumer involvement. The Planning, Evaluation, Research and Data Office plans, coordinates, and conducts planning, evaluation, research and data collection and analysis to support the development of policies, programs, state plans and services related to substance abuse. ADAD	HTH440/HT consists of the Treatment and Recovery Branch that oversees the planning, development, and contracting of substance abuse treatment, intervention, and recovery services, monitoring of contracted providers and services; provision of consultant services and technical assistance related to substance abuse prevention, intervention, and treatment to the public and private sectors; and education of the public and private sectors regarding prevention and clinical issues in the substance abuse field. HTH440/HT was transferred out from old Org Code and Program ID HTH440/HR to align the positions and funds with the ADAD Reorganization.	The Treatment and Recovery Branch (TRB) coordinates, develops and administers programs that promote access to clinically sound and cost-effective substance abuse treatment, recovery and support services. TRB provides consultation and collaborates and coordinates substance abuse treatment services with other organizational segments of the division, other divisions, other state departments, community groups, and service providers. It is important to note that reductions in General Funds may generate a corresponding dollar-for-dollar reduction in federal SAPT Block Grant funds, which will significantly reduce the number of participants served in substance abuse prevention activities, and adults and adolescents who can be admitted for substance abuse treatment services. TRB also administers special projects, including but not limited to the Hawaii Screening, Brief Intervention and Referral to Treatment (SBIRT) Project and the Hawaii Opioid State Targeted Response (STR) Project. ADAD	HTH440/HU consists of the Prevention Branch that develops, maintains, and implements a comprehensive statewide plan for substance abuse prevention services; coordinates and collaborates in the planning and implementation of effective substance abuse prevention services with community groups, private and public agencies, federal funding sources, and consumers; and provides knowledge and expertise in the field of substance abuse prevention and assures technology transfer to support and improve substance abuse prevention services.	The Prevention Branch (PB) develops performance standards and outcomes to be achieved by service providers contracted to provide substance abuse prevention services in compliance with federal and state requirements; develops, executes, and monitors contracts for substance abuse prevention services; provides substance abuse prevention related consultation and assistance to other divisions within the Department, other state departments and private sector organizations; collaborates and coordinates substance abuse prevention services with other organizational segments of the division, other state departments, community groups, and service providers; provides substance abuse prevention expertise in securing and administering public or private funds and grants; and administers special projects, including but not limited to the Strategic Prevention Framework - Partnerships for Success (SPF- PFS) and the Hawaii State Tobacco Enforcement Contract (FDA). CAMHD	Provide for the administration of the Child and Adolescent Mental Health Division (CAMHD), including legislative functions, planning, compliance with state and federal rules, and maintaining critical services for the youth in the state	The CAMHD Administration Office is comprised of the Division Administrator and Secretary; the Clinical Services Office (CSO) which is comprised of the Medical Director, Lead Psychologist, Psychiatrists, Psychologists, Social Workers and Clerical Support; The Healthcare Systems Management Office (HSMO) which is comprised of IT staff, Quality Assurance Staff and clerical support; Program Improvement and Communications Office (PICO), which is comprised of the Lead Research and Evaluation Specialist, Planner, Provider Relations Liaison, Digital Marketing Specialist, Public Information Specialist and clerical support; Central Administrative Service Office (CASO), which is comprised of the Administrative Officer, accountants, contracts staff, personnel staff and clerical and accounting staff; and a Federally Funded Substance Abuse Mental Health Services Administration grant (Kaeru) which is comprised of a Project Director, Clinical Supervisor, Evaluator, Social Marketer, Care Coordinators and clerical support.	HTH460/HF	H	
CAMHD		The CSO oversees the critical placements and issues with clients, staff training, and program review statewide, within the Division as well as contracted providers. The HSMO provides facility certification and credentialing of CAMHD staff and contracted providers, adjudication of all billing to insurance companies for appropriateness and proper documentation, management of the Electronic Health Record and quality assurance. PICO provides communication and provider relations, web based content and research and evaluation of data to provide better care to the youth, and public legislative review.	HTH460/HF	H	HRS Chapter 321-171 through 176 and 334-3
CAMHD		CASO handles all contracting, procurement, fiscal and personnel matters. Kaeru is a wraparound program through a federal grant for youth in or at-risk of mainland placement and is specifically focused on returning CAMHD youth from out-of-state residential treatment programs back to their home communities and preventing the future displacement of youth to out-of-state programs when possible.	HTH460/HF	H	
CAMHD	Support functions to CAMHD registered clients that do not have funding for other supports through Federal Funded Programs.	These funds are used to fund the federally mandated program for First Episode Psychosis for adolescents and young adults, support and contracts for mental health services for youth without homes, the Family Support Organization Contract, staff and contracts for trauma informed care, Telehealth and Electronic Health Record equipment, staff to support evaluation and information systems, a coordinator for the Hawaii Interagency State Youth Network of Care (an organization promoting partnerships, community outreach and needs assessment), and clinical training and education. Medicaid Funding is used to provide contracted Mental Health Services to the children and adolescents across the state of outpatient and inpatient services, along with General Fund monies for those youth that do not meet the Medicaid eligible criteria, the state match and the costs that exceed the Medicaid rates to provide the services to the youth. DDD	Medicaid 1915(c) Home and Community-Based Services (HCBS) Waiver serves individuals with moderate to profound intellectual and developmental disabilities (I/DD) who would otherwise receive services in an institution due to the severity of their cognitive and/or physical disabilities. Services provided in homes and communities include personal assistance/habilitation, community learning services, emergency stabilization services, respite, employment supports, training and consultation, specialized medical equipment, home and vehicle modification, adult day health, and private duty nursing. The HCBS waiver provides services for over 3000 people per year in the community at a cost that is significantly lower than the cost of institutional care. The State currently receives Federal Financial Participation (FFP) at the FY2021 rate of 53.02%	State match for Title XIX of the Social Security Act Medical Assistance program to operate the Medicaid 1915(c) Home and Community Based Services (HCBS) Waiver. The 1915(c) HCBS waiver must meet all requirements of the Medicaid Community Integration Final Rule in order to draw down Federal Medical Assistance Percentages (FMAP). DDD operates an array of HCBS services that support individual with substantial intellectual and developmental disabilities to live in the community versus in institutional settings. Due to new and increasing oversight and enforcement of federal requirements, DDD has instituted a number of modernizations to the HCBS waiver including updates to service requirements to enhance oversight and support community integration, instituting new services to increase participation in the community, building of more person-centered case management practices, adoption of the Supports Intensity Scale (SIS) assessment to align individuals' budgets with their support needs, and aligning provider payment rates with the actual costs of service provision. DDD	Directs the administration of the statewide case management system for persons with intellectual and developmental disabilities and their families including overall planning, budgeting, coordination and management of the Case Management Branch.	Administers the statewide case management system for persons with I/DD and their families or guardians. Ensures the development of person-centered plans for all clients in the DDD system through the development of policy and procedures, development and consistent implementation of standards, and a supervisory system. Develops and maintains standardized forms for use in the client management system. Administers Branch budget and fiscal policies and procedures in compliance with State and departmental directives. Ensures case management compliance with the requirements of the Medicaid 1915(c) Home and Community Based Services waiver. Provides clinical processes for case managers to interact with the Clinical and Eligibility Determination Staff to support interdisciplinary teaming for people with complex needs.	HTH501/CU	H	Chapter 333F, HRS
DDD	The Community Resources Branch oversees the development of resources, services, and supports for DDD individuals with I/DD including assuring implementation and quality of the Medicaid HCBS Waiver by the provider network, and resources to assist individuals with housing, employment, and activities for self-determination and full community integration. Provides overall budget management and administration of the Branch. Oversees the Neurotrauma Program in accordance with HRS § 321H.	Oversees the development, application process and reporting requirements of required assurance for the Medicaid 1915(c) Home and Community Based Services waiver. Develops and monitors 1915(c) waiver standards for the provider network. Initiates and coordinates the development of new and existing resources and services for individuals with I/DD in the areas of housing, employment, and self-determination, including community integration activities. DDD	The HCDSB operates dental clinics and performs dental treatment for institutionally and community placed disabled persons who have very limited access to private sector dental services. Access is limited for adults with developmental, behavioral and medical problems due to a high risk of health complications and a lack of reimbursement for dental care for this population.	HCDSB is the only state dental program that provides direct dental treatment services to the community. HCDSB provides dental treatment services for adults (over 20 years old), and for Medicaid patients who are classified as aged (over 65 years old), blind, disabled or other special needs who lack access to private sector dental services. HCDSB provides dental services to patients who reside at Hawaii State institutions, including the Hawaii State Hospital, Leahi Hospital, and Kalaupapa Settlement, as well as to patients who reside in the community. HCDSB has five (5) dental clinics located at the Department's Health Centers on Oahu (Diamond Head, Lanakila, Leeward, and Windward), and the Hawaii State Hospital. Currently there are no dental clinics located on the Neighbor Islands. In addition to the dental services provided at the HCDSB clinics, dental procedures will now be provided (limited) in a hospital setting under general anesthesia as needed. DDD	The Outcomes and Compliance Branch (OCB) oversees the DDD Quality Assurance and Improvement Program (QAIP), monitors case management functions as required by the Medicaid HCBS Waiver, oversees the adverse events reporting and management system, manages first level service and eligibility appeals and mortality reviews, maintains a training program for DDD, coordinates the National Core Indicator assessments, certifies Adult Foster Homes, investigates and resolve complaints, and operates the DDD utilization management program.	OCB oversees the DDD quality assurance and improvement program, which is the overarching structure for managing quality and implementing program improvements based on systematic monitoring and tracking and analysis of data trends and patterns. The QAIP conducts ongoing and regular internal monitoring to review processes and measures to continuously improve services. To ensure quality client outcomes using best practices this section develops, monitors and evaluates quality improvement processes that is data driven. OCB conducts consumer and family surveys. Training needs are identified based on critical measures and outcome analysis and implement the National Core Indicator (NCI) Project. OCB is responsible for monitoring DDD case management practices, programs and participants' outcomes, and certifies Adult Foster Homes and caregivers in accordance with HAR. The OCB Training Unit provides training for DDD staff, participants, and their families to support the core initiatives of the Division and staff competencies at all levels. DDD	Per Section 321H-2 HRS, the Department of Health shall develop services for survivors of neurotrauma injuries. This statute establishes a special fund from traffic fines to identify and meet the needs of persons with severe neurotrauma and with oversight from two advisory boards to administer the neurotrauma special fund. This CRB branch utilizes this fund to: 1) provide education for the prevention of neurotrauma; 2) assist individuals and family members to obtain services; 3) maintain a Registry of Incidents, prevalence, and outcomes for survivors of traumatic brain injury; and 4) contract to provide peer mentoring for survivors to reintegrate into the community. It is critical that this resource be available as there are no other supports to address the needs of traumatic brain injury survivors.	Develops, implements and monitors a comprehensive system of statewide supports to address the needs of people with Neurotrauma injury and their families.	HTH501/JN	H	Chapter 321H, HRS

FHSD	Women's and Reproductive Health	Administers a statewide system of health services to address the needs of high-risk populations including adolescents, men, women, and hard to reach populations in their reproductive years. Promotes strategic planning methods that engage community services and stakeholders and addresses health disparities impacting access to quality care across the lifespan. The Reproductive Health Services Unit assists individuals in determining the number and spacing of their children and promotes positive birth outcomes and healthy families. The education, counseling and medical services available through state funded clinical programs assist with achievement of this goal. The Perinatal Support Services Program strives to reduce factors that contribute to infant mortality and provides an array of services to address risk factors that lead to poor birth outcomes. The Adolescent Health Unit partners with teen serving community organizations, parents, and teens to identify priorities for advancing adolescent health and leverages grants and funding, trainings, and cross-sector programming to build community capacity to address and improve adolescent health across the state. EHSD	The Food and Drug Branch safeguards public health by ensuring, through inspections, warnings and embargoes, that food, drugs, cosmetics, medical devices and related products are safe, effective and properly labeled. The branch priority is food product safety, given the large number of product recalls and outbreaks of foodborne illnesses occurring nationally and locally. Recently the branch was given the authority to regulate the processing of hemp into hemp-derived products such as cannabidiol (CBD) into products that can be taken orally to supplement the human and animal diet and products that can be applied topically to skin and hair.	The branch conducts inspections of local food manufacturers, distributors and warehouses to ensure food products are manufactured, packaged and stored properly. The branch ensures that food products that are deemed adulterated or misbranded are immediately removed from sale. The branch assists with food and drug safety issues after natural disasters. The branch is currently developing interim rules to implement Chapter 328G, HRS to ensure hemp-derived products have been properly tested for contaminants and properly labeled, facilities properly registered, and penalties and enforcement procedures are developed to ensure non-compliant products and facilities are effectively dealt with.	HTH610/FP	H	Chapters 321, 328, 328C, 328D, 328E, 328G, 330, and 330C, HRS; HAR, Title 11, Chapters 11-15 Milk, 11-29 Food and Food Products; 11-33 Hawaii Drug Formulary of Equivalent Drug Products; 11-35 Shellfish Sanitation; and 11-36 Sale of Prophylactics through Vending Machines.
EHSD	The Food Safety Branch (formerly Sanitation Branch) regulates, educates, and services the community regarding food safety, disease prevention, and environmental health. Its primary function is food protection, a complex program focusing on public health practices through education, partnerships, prevention, assessment, and compliance.	The branch permits and inspects retail food establishments; assesses and assures that care homes meet sanitation requirements; inspects all public and private schools, milk plants and dairies; licenses tattoo artists and embalmers; and permits and inspects tattoo shops, mortuaries, and public swimming pools.	HTH610/FQ	H	Chapters 321, 322, and 469, HRS; HAR, Title 11, Chapters 11-10 Public Swimming Pools, 11-15 Milk, 11-17 Tattoo Artist, and 11-22 Mortuaries, Cemeteries, Embalmers, Undertakers, and Mortuary Authorities, 11-35 Shellfish Sanitation, and 11-50 Food Safety Code.
EHSD	Indoor & Radiological Health Branch: The Noise Section implements the statewide community noise program through enforcement of maximum permissible sound levels and issuance of permits/variances for stationary noise sources, agricultural, construction and industrial activities. The Radiation Section assures radiation protection for users and the general public through radiological incident response, licensure and inspection of radiation facilities with electronic products emitting ionizing radiation, licensure of radiation services, and administrative support to the Radiologic Technology Board. The Indoor Air Quality Unit protects and enhances indoor health and minimizes public exposure to indoor air pollutants through proper design, installation and maintenance of air conditioning and ventilation systems and complaint investigations. The Asbestos & Lead	The branch conducts assessments and develops policies and regulations to assure safety in the fields of noise, radiation, mechanical ventilation, indoor air quality, asbestos, and lead. Staff inspect radiation sources, sources of noise (construction, stationary, agricultural, and industrial), mechanical ventilation systems, indoor air quality, asbestos, and lead to assure they do not degrade the public health or the environment of the community. The branch monitors ambient environmental radiation levels by sampling and testing drinking water, air, and precipitation, and provides emergency response for radiological emergencies. It reviews plans for public buildings to assure conformance with ventilation requirements. The branch provides programs and information to the public and the regulated community to increase their awareness and understanding of environmental regulations and rules.	HTH610/FR	H	Chapters 321, 339K, 342F, 342P, and 466J, HRS; federal statutes: Clean Air Act, Toxic Substances Control Act, Mammography Quality Standards Act, Energy Policy Act, National Emissions Standards for Hazardous Air Pollutants (NESHAP); HAR, Title 11, Chapters 11-39, 11-41, 11-44, 11-45, 11-46, 11-501, 11-502, 11-503, and 11-504.
EHSD	Section protects public health and the environment from exposure to asbestos, lead and lead-based paint hazards through implementation of Hawaii Administrative Rules and the Neutral Administrative Inspection Scheme (NAIS), and also maintains asbestos/lead abatement accreditation, certification, and registration for asbestos/lead abatement individuals and entities. In addition, the entire Branch is a comprehensive platform for the State Radiological Response Team (also known as DOH RAD). This operational tactical team has a significant role in all radiological emergencies involving release of radioactive materials from U.S. Nuclear Regulatory Commission (NRC) and State licensees, nuclear propulsion activities at Pearl Harbor, and most importantly, chemical-biological-radiological-nuclear-explosive (CBRNE), or terrorist events. EMD	Clean Air Branch - Assures clean, safe air to breathe by evaluating, monitoring, and regulating sources of air pollution. Implements and enforces State and federal air pollution laws and regulations and maintains the statewide ambient air quality monitoring network. Protects public health and prevents the degradation of Hawaii's air quality and quality of life.	Reviews applications and issues air permits of potential air pollution stationary sources. Evaluates, through application of dispersion modeling, the potential impact of an air pollution source on ambient air quality. Evaluates the control technology, operations, and fuels consumed to assess the types and potential air emissions from the various sources. Conducts the Hawaii Greenhouse Gas (GHG) Program to restrict GHG emissions and combat climate change. Compiles and maintains a statewide air emissions inventory of both criteria air pollutants and GHGs for the air pollution sources. Monitors the activities of the stationary sources for compliance with the applicable rules and permit conditions. Recommends enforcement action where violations have occurred. Conducts inspections of stationary sources and investigates incidents and complaints. In conjunction with the Air Laboratory, establishes and maintains the ambient air monitoring network and conducts special air monitoring studies as necessary. Compiles, assesses, and manages the data retrieved from the monitoring stations producing applicable reports and notifications. Initiates case development of alleged violations, determines the penalty, drafts and issues the notice of violation, and participates in the conference, hearing, and legal process. Assesses, proposes, or comments on corrective measures, settlement agreements, penalties, and administrative or court actions. Conducts "smoke reading" training classes to provide continuing certification of inspectors in the technique of evaluating visible smoke. EMD	Clean Water Branch - Protects residents and visitors by regulating known sources of ocean and fresh water pollution; manages and alerts public to factors that threaten clean water; implements Clean Water Act.	Administers the National Pollutant Discharge Elimination System (NPDES) permit program for the U.S. Environmental Protection Agency. Issues Clean Water Act Section 401 Water Quality Certifications for federal permits for construction in nearshore and inland waters. Oversees the City and County of Honolulu in administering the Publicly Owned Treatment Works Pre-Treatment Program. Identifies sources of water pollution through area surveillance, routine inspections, and complaint investigations. Evaluates the impact of water pollutants on public health. Determines compliance with rules via source testing, water sampling, and special studies. Analyzes water quality and operational data to determine degree of non-compliance. Determines compliance with permit conditions via site inspection, source testing and special studies. Initiates corrective measures through administrative or court actions. Fosters partnerships with other agencies involved in nonpoint source pollution control. Promotes community-based watershed management through education and voluntary compliance with environmental management standards. Provides federal funding for demonstration of best management practice (BMP) projects from the public and private sectors relating to nonpoint source control. EMD	Solid and Hazardous Waste Branch - Prevents the release of pollutants that endanger people and the environment, and rehabilitates contaminated lands. Assures proper management of solid and hazardous waste through aggressive enforcement of environmental laws and regulations, promotion of pollution prevention and waste minimization, and development of proactive partnerships with waste generators and the regulated community.	Regulates the generation, transportation, treatment, storage, and disposal of hazardous waste. Regulates the management of solid waste and landfills. Assists businesses and the public of Hawaii in reduction and prevention of waste generation at the source. Oversees solid waste management planning and state recycling programs. Regulates underground storage tanks that store petroleum or hazardous substances, including the Red Hill Facility. Monitors and evaluates the effects of pollutants on ambient conditions throughout the state. Investigates complaints, inspects sources, and initiates appropriate action to correct violations. EMD	Wastewater Branch - Administers statewide functions relating to water pollution control, wastewater treatment works program, water and wastewater sludge reuse, individual wastewater systems program, and the water pollution control revolving fund program that funds low-cost construction loans for wastewater treatment and collection system construction. By helping local governments and other applicants improve and expand their water pollution control facilities, the Wastewater Branch plays a very vital role in economic development and the development of jobs within Hawaii's communities.	Regulates the generation, treatment, storage, and disposal of wastewater and wastewater sludge. Regulates wastewater, wastewater reclamation, and wastewater sludge treatment facilities that are not covered under a NPDES permit. Regulates individual wastewater systems, which include cesspools and septic systems. Investigates complaints, inspects wastewater treatment facilities and individual wastewater systems, and initiates formal enforcement action to correct violations. HTH460	HV	Reduce Operating Expenses	The impact of this reduction will be minimal to the Family Guidance Centers in the Neighbor Island Services Branch and the Branch itself. The telework and teleconference capabilities enable them to provide care coordination to the families and community partners which has decreased the need for as much mileage and office usage. We have eliminated office phones and switched to cell phones and laptops for clinical staff to enable them to work from anywhere, and this has decreased costs during this pandemic.	A	-	-	\$ (18,135)	-	-	\$ (18,135)	N
HTH460	HF	Reduce Operating Expenses and Purchase of Service Contracts	The impact of this reduction to the Child and Adolescent Mental Health Division (CAMHD) will be an increase in direct services to the psychiatrists in the Family Guidance Centers as they will be doing all medication management for all clients being served by CAMHD. Psychiatrist positions were abolished in the last legislative session which will add additional workload to the existing psychiatrists to cover these other offices without a psychiatrist. CAMHD anticipates that once they youth in the state are back in school, the number of youth needing mental health services will increase, and with that, so will the number of youth that CAMHD will be serving. Other cuts are minimal operating cuts that for the short term can be met, but on-going training of clinical staff is a need in an ever-changing mental health climate. This budget cuts most of CAMHD's training, and will need to be added on at a later date. Overall, this budget cut is doable for a short-term fix, but cannot be carried on for the long-term. More staff and operating money will be needed to provide the appropriate services to the youth in the state.	A	-	-	\$ (388,665)	-	-	\$ (388,665)	N

HTH501	ED	Reduce operational costs/Abolish #19281 Dentist	<p>These reductions will eliminate one full-time Dentist, reduce cost by closing the Diamond Head Health Center Dental Clinic, and reduce the contract with Queens Medical Center for oral surgery by \$150,000. The Hospital &amp; Community Dental Services Branch (HCDSB) provides comprehensive dental treatment to the most underserved and vulnerable populations and is a community safety-net for access to oral health care. HCDSB's objective is to assure access to basic dental care services for the adult Medicaid populations that are aged, blind and disabled which limit their access to dental treatment. These include persons with severe chronic mental illness, frail elderly persons who are medically fragile, and individuals with intellectual/developmental disabilities (I/DD).</p> <p>Dental services are provided to patients that reside at Hawaii State institutions, including Hawaii State Hospital and Kalaupapa Settlement, as well as to patients who reside in the community. The HCDSB has five (5) dental clinics located at the Department's Health Centers on Oahu: Diamond Head, Lanakila, Leeward, Windward, and the Hawaii State Hospital. HTH501	JA	Reduce operational costs	<p>Reductions would impact the following:</p> <p>ASO Log# 20-071 - Hilopa'a Family to Family, Inc.; Schedule SIS-A Assessments Eliminates contract to provide services to schedule Support Intensity Scale-Adult (SIS-A) assessments with participants, their families, or legal guardians. The SIS-A is needed to determine the level of support needs and service budgets and is conducted statewide for each waiver participant once every three years and is a requirement of the Medicaid 1915(c) waiver. Each assessment requires scheduling of multiple interviews including with participants, families, guardians, and service providers in order to make determinations about their level of needs and ensuring SIS level and individual supports budget. Requires ability to work with participant families including those with cognitive challenges and/or limited English proficiency. Assessments often have to be rescheduled, resulting in multiple points of coordination across all required respondents.</p> <p>ASO Log#20-072 - Honolulu Merchant Patrol and Guard Co., Inc. This would eliminate security patrol guard services to secure all buildings and property of the Waimano Hale Complex. Over time, these buildings, because of their remote location, have been vandalized or have become night encampment for homeless individuals, prompting the need for security services. Staff are reluctant to provide any work after work hours or weekends as a result. This contract is jointly funded by Adult Mental Health Division which providers 24/7 crisis line services from this location.</p>	A	-	-	\$ (206,102)	-	-	\$ (206,102)	N

HTH501	KB	Reduce operational costs	<p>Reductions in this area would impact the ability for the Developmental Disabilities Division to implement essential projects to meet requirements of the Centers for Medicare and Medicaid Services in implementing the 1915(c) Waiver for Individuals with Intellectual and Developmental Disabilities in a number of core areas. While many of these projects could be funded through DDD's Administrative Claiming Special Fund as they meet the intent of Act 165, SLH 2019, now codified in § 333-F, the fund was not made recurring in DDD's budget through the last budget bill. Impacts are as follows: RSM US LLP; BHA IT Project</p> <p>17-217 - Public Consulting Group, Inc. This would reduce the contract for system integration services for the DDD case management system INSPIRE. Rate Methodology Studies This would reduce funding needed to complete Rate Methodology Studies, which is a core requirement of Medicaid 1915(c) waiver applications and subsequent amendments to waiver applications. Home and Community Consulting LLC Reduction would eliminate this contract needed to provide training for staff in how to develop the application for the Medicaid 1915(c) Home and Community Based Services (HCBS) waiver and how to submit waiver amendments.</p>	A	-	-	\$ (330,732)	-	-	\$ (330,732)	N

Reduction in this contract would mean the inability to provide CMS mandated supports for consumer-directed (CD) participants in the Medicaid 1915(c) Waiver. 19-142 - University of Hawaii; Center for Disability Studies Projects This would eliminate contracts to the University of Hawaii, Center for Disability. Impacts the ability to support clients who receive support to attend post-secondary school settings and prepare for employment, provision of self-determination training, prepare analytical reports on the National Core Indicators to help DDD implement continuous quality improvement, development of curriculum required under HAR 11-148.1 and support the development of best practices in provision of services. CR Dispatch Services Inc. DDD Courier Services Eliminate courier services for timely transport of documents, resulting in the need to mail documents, which is a security risk, or staff transporting (however mileage has also been reduced). Travel related expenditures Reduce travel and per diem for staff. HTH520	AI	Abolish unfunded position #101851 Communication Access Specialist	<p>Duties of the position: Oversee and coordinate the statewide credentialing of sign language interpreters, provide technical assistance and policy analysis on issues relating to communication access services and technology for persons who are deaf, hard of hearing, deaf-blind, blind, or visually impaired. The negative impact without a 1.00 FTE permanent exempt Communication Access Specialist position is as follows:</p> <p>(a) Potential lawsuit. Without increasing the number of qualified ASL interpreters, the pool of qualified ASL interpreters will remain too small and inadequate for state programs to achieve effective communication for persons with communication disabilities (especially for neighbor island programs), which subjects the state to lawsuits.</p> <p>(b) The position administers the Continuing Education Program (CEP) for interpreters to improve their sign language skills and to maintain high ethical standards. Without the CEP, interpreter skills will degrade and lead to ineffective communication, ethical and privacy violations (e.g., breaches of patient confidentiality under the Health Insurance Portability and Accountability Act of 1996), and distrust by persons with communication disabilities.</p> <p>(c) The absence of the position would stop the state's entire ASL interpreter testing and credentialing program, the CEP, the significant technical assistance to state agencies, and the work on establishing guidelines for payment to communication access service providers. The impact of not filling this unique position will be great because more than 200,000 individuals with communication disabilities in Hawaii will not be served.</p>	A	(1.00)	-	\$ -	(1.00)	-	\$ -	N
HTH520	AI	Reduced funding for the Americans with Disabilities Act Coordination and Communication Access programs.	<p>Reduction of funding for the Communication Access program will impact statewide communication access services. The Communication Access program is one of its kind in the entire state system; there is no other government agency to assume the responsibilities of the program. The impact of reduced funding is: 1) Reduced number of testing from 4 to 1x a year for sign language interpreters in the state who do not have a national credential. Thirty-one (31) interpreters are either tested or have their credential renewed through DCAB annually; 2) Four weeks delay on issuance of a Hawaii State Sign Language Interpreter Credential to over forty (40) state and nationally certified or credentialed interpreters in the State of Hawaii. Credentials for current interpreters will expire within one (1) to two (2) years, depending upon the renewal cycle; 3) Four weeks delay to maintain a state registry of sign language interpreters and other communication access providers for state and county agencies to enable them to know whether interpreters are qualified for specific assignments; 4) Two weeks delay to maintain a recommended fee schedule for the payment of interpreters and communication access providers;</p>	A	-	-	\$ (22,545)	-	-	\$ (22,545)	N

HTH520	AI	Reduced funding for the Americans with Disabilities Act Coordination and Communication Access programs.	<Continued from above> 5) One week delay in technical assistance responses to state and county agencies to comply with the Americans with Disabilities Act (ADA) requirement to provide effective communication through the use of sign language interpreters, real time captioners, video remote interpreting, etc. Reduction of funding for the Americans with Disabilities Act (ADA) Coordination efforts will eliminate all external training and workshops for state and county agencies, as well as the public, to ensure compliance with the ADA, Fair Housing Act, and other disability rights laws, as all support monies for those activities will decrease. As a result, grievances, complaints, and lawsuits against state and county will increase. In FY 20, the office fielded 348 requests for assistance and conducted fourteen (14) trainings. Trainings will be completely eliminated, although technical assistance by phone or email can be maintained. ADA-related technical assistance and public education in the area of emergency preparedness will be eliminated, including the COVID-19 pandemic response.								
HTH520	AI	Reduced funding for the Statewide Program for Disabled Persons in accordance with Part III of Chapter 291 and Chapter 348F-3(4), HRS.	The statewide Disabled Person Parking Program will be severely impacted with the reduction or depletion of funding for the following: depletes funding of parking database with current records of 101,443 permittees information including those who hold a disabled person license plate, expired or deceased permittee parking placard; eliminates the database maintenance fee which is vital to the program; elimination of the retrieval program of expired or deceased permittee parking placards; reduction of procurement of 89,000 decals, 60,000 placards, 30,000 ID cards and 10,000 application forms; required advertisement of public hearings; and distribution of parking education materials on how to use the placard. There will be no quality assurance in the renewal of expired placards or in the retrieval of deceased permittee placards, resulting in over 10,000 invalid placards in circulation which will cause abuse of the parking program. The database maintenance fee is vital for the statewide Disabled Person Parking Program.	A	-	-	\$ (61,317)	-	-	\$ (61,317)	N
HTH520	AI	Reduced funding for the Disability and Communication Access Board.	Impacts the reduction of travel for DCAB Board meetings, which are currently 6x/year, which will be virtual only due to the COVID-19 pandemic; reduction of printing of agendas and minutes, DCAB materials and standard office supplies, and provisions of Americans with Disabilities Act required auxiliary aids and services for meetings, trainings, interviews, conferences (i.e. sign language interpreters, real-time captioner, Braille, audio-description, etc.) for Board and public who request for accommodation to participate in state programs and activities. The reduction will impact public participation (on-site and virtual). Impacts the reduction of over 50 meetings and trainings, two (2) annual Facility Access and Special Parent Information Network conferences, 28 newsletters, 1,687 technical assistance responses, eliminates 11 phone lines and the ability to conduct business including fielding of over 30 daily telephone calls relating to compliance with the Americans with Disabilities Act and federal laws that impact people with disabilities. Impact on the administrative, fiscal, clerical support to complete and process the new third parking placard by June 30, increase of inquiries on Act 87 (2019) and begin issuance by mail on July 1, 2021. Impacts the ability to advocate and serve the interests of 282,538 persons with disabilities in the State of Hawaii, as well as visitors with disabilities and their families. HTH590	KK	PR: 20% reduction in operational budget for division-wide public health education	<p>1. Effective health communications is a mixture of media modes to reach people across Hawaii to provide accurate timely information, but the reduced budget will require relying more heavily on less expensive digital, and social media platforms. Criticism and complaints from stakeholders representing vulnerable populations facing greater health disparity is expected due to the reduction in public health education reaching their communities.</p> <p>2. The 20% reduction impacts work for programs subject areas of nutrition, physical activity, obesity prevention, tobacco prevention, asthma, cancer, diabetes, and heart disease and stroke. Informing the public of changes to policy that are beneficial is part of the implementation and adoption of social norm change such as was done to reduce overall smoking rates with smoke free workplace laws. Reduction in advertising will have negative impact in public understanding and compliance with public health policies and systems changes.</p> <p>3. The reduction will most hurt priority populations in rural harder to reach areas experiencing as much as 14-year life expectancy difference in Hawaii from its more affluent communities. The 20% reduction in health communications will have a negative impact on the knowledge and awareness people need at the individual level to support their healthy behavior choices.</p>	A	-	-	\$ (112,451)	-	-	\$ (112,451)	N

Reduces budget with Department of Education (DOE) for Standards-Based Health and Physical Education (H/PE) and the State Wellness Guidelines services that will result in the reduction of 6 H/PE complex area resource teacher (RT) positions &amp; reduce operational cost by 75%.</p> <p>2. The Department of Health began the partnership with the DOE in 2000 to support standards-based H/PE so students would learn lifelong skills for healthy nutrition and physical activity. No other funded District/Complex area RTs exist to support the implementation of the H/PE standards for Hawaii's public schools.</p> <p>3. Data collection and evaluation are integral to the division's ability to quantify and qualify the effectiveness of interventions and the H/PE RTs support the administration of the public health survey participation such as the Safety and Wellness Survey (SAWS) that provides an assessment of the implementation of the State Wellness Guidelines by schools, and the Youth Risk Behavior Survey that is a stratified random sampling confidential student survey.</p> <p>4. The H/PE RTs are part of the systems change to improve health for Hawaii's youth who live in obesity and chronic disease promoting environments. The reductions in their expertise to the schools will continue to undermine the support for skills-based learning.</p> <p>5. The H/PE RTs have been on the front lines of testing policy change and adoption in the DOE system, and public health will not have these integrated champions to address child health issues. The program anticipates increasing difficulty with partnering on public health legislation that impacts classroom instructions for nutrition and physical activity.</p>	A	-	-	\$ (806,798)	-	-	\$ (806,798)	N

This may increase the risk for another Dengue outbreak or other vector-borne diseases to proliferate. 2. The loss of the Maui entomologist would be detrimental to the Maui Vector program as well as to the statewide Vector Control program. The Entomologist IV provides considerable input in the development of vector surveillance and abatement strategies for their respective county. Each island is presented with different issues such as topology, weather patterns, human population densities, urban/rural issues, vegetation densities, etc., which must be considered when developing surveillance and abatement strategies. An on-island entomologist would have an intimate understanding of such issues and would be able to develop and maintain an informative surveillance system to determine population densities and speciation of various vectors in each area. Population increases would indicate the need for increased abatement efforts to properly manage the vector. Knowledge of the different species and their relative population densities is vital in combating an outbreak as known hot spots would be treated more aggressively to reduce the risk of infection. HTH501	KB	NG	1	OR-11	Establish recurring expenditures ceiling for Intellectual and Developmental Disabilities (I/DD) Medicaid Waiver Administrative Claiming Special Fund per Act 165, SLH 2019.	Act 165, SLH 2019, now codified in HRS §333F-23, established the Intellectual and Developmental Disabilities (I/DD) Medicaid Waiver Special Fund. The purpose of the fund is to deposit federal funds received through Medicaid administrative claiming that are needed to operate the Medicaid Home and Community-Based Services (HCBS) Waiver for persons with I/DD.  These administrative funds are separate from funding for the direct provision of services, and can only be for I/DD waiver operations that are specified in HRS §333F-23, which are: (1) Fiscal management services; (2) Training; (3) Quality management activities; (4) Ongoing operations and maintenance of the information technology system; (5) Conducting rate methodology studies; and (6) Assessment services for determining each participant's level of support needs. HTH501	CN	AR	2	OR-20	Protect and Preserve the Medicaid 1915(c) Waiver for Individuals with Intellectual and Developmental Disabilities (I/DD)	<p>The Developmental Disabilities Division (DDD), pursuant to HRS § 333F-1 et seq., provides a comprehensive system of supports and services for persons with substantial intellectual and developmental disabilities (I/DD). The individuals served by DDD are among the most vulnerable citizens in the state.</p> <p>Nearly all of the individuals supported by DDD – more than 3,000 Hawaii residents with disabilities – are served through a Medicaid Section 1915(c) Home and Community Based Services (HCBS) Waiver for Individuals with Intellectual and Developmental Disabilities (the “DD Waiver”). These individuals have extensive personal care needs, physical and behavioral challenges, and often chronic health conditions that require specialized services and supports. Without the services they receive from DDD, many individuals would ultimately require placement in institutional settings, which would cost the state double or often triple what it costs to provide services in home and community based settings.</p>	A	-	-	\$ -	-	-	\$ 6,000,000

HTH501	CN	AR	2	OR-20	Protect and Preserve the Medicaid 1915(c) Waiver for Individuals with Intellectual and Developmental Disabilities (I/DD)	<Continued from above> Prior to the establishment of Medicaid 1915(c) HCBS waivers, institutions such as Waimano Training School and Hospital were the primary means of supporting individuals with I/DD. These waivers allow states to access federal funds for an array of home and community based services such as personal assistance, employment supports, private duty nursing, residential care, and adult day health programs. In fact, federal Medicaid funds pay the larger share of the cost of the program. The federal share, based on the Federal Medical Assistance Percentage (FMAP), is typically between 53 and 54 percent. In fiscal year 2020, the State received approximately \$75 million in federal Medicaid funds for the DD Waiver.  1915(c) waivers must be renewed every five years. The DD Waiver was last renewed in July 2016 and DDD is currently working on the application for the July 2021 renewal.

DOH would be forced to refuse admissions from the court and thus be in violation of multiple Hawaii Revised Statutes and the Clark Injunction. Reducing these contracts will put additional strain on an already stretched budget and could lead to litigation against the State of Hawaii.
2021	HTH440	HD	A	\$ 20,113,424	\$ 360,778	\$ 19,752,646	1.80%	The restriction in filling vacant positions affects the division's ability to operate the programs effectively and efficiently.
2021	HTH460	HO	A	\$ 42,666,481	\$ 765,226	\$ 41,901,255	1.8%	This reduction will reduce the monies available to pay for the University of Hawaii Department of Psychiatry (DOP) contract. This contract provides telepsychiatry for eligible Child and Adolescent Mental Health Division (CAMHD) youth by fellows in the DOP program. These youth receive medication evaluation and management, assessments and treatment. This reduction reduces the number of fellows that can provide these services to the youth in the programs. As there is a shortage of psychiatrists in Hawaii, this program helps CAMHD and the health plans reach youth that are located in rural areas.
2021	HTH501	CM	A	\$ 2,619,281	\$ 648,854	\$ 1,970,427	24.77%	17-131 - CARE Hawaii, Inc.; Crisis Network Services; -\$333,821 This would reduce the contract for the crisis network services which provide statewide crisis call responses, crisis mobile outreach, and the crisis residential on Oahu for individuals with intellectual and developmental disabilities who are experiencing a behavioral or psychiatric crisis. This would result in a diminished crisis response system for people with intellectual and developmental disabilities, inclusive of a crisis shelter, resulting in greatly increased emergency room use and admission to hospital acute psychiatric settings for these individuals. These services are billed wherever possible to the 1915(c) waiver, but not all costs are covered, for example when the telephonic crisis is stabilized at that level and does not result in a crisis mobile outreach, it cannot be billed as a waiver service. Also, room and board for the crisis shelter and follow up crisis response, which can avert future crisis, cannot be billed to Medicaid. Crisis services are required in DDD Statute HRS 333F. Long-Term Adult Supports & Resources contract to Goodwill Industries of Hawaii; -\$302,728 This would reduce services to individuals not in the HCBS waiver who are not eligible for Medicaid, or are waiting to be enrolled in the waiver. The requirement for provision of services to individuals eligible for DDD is mandated under §333F-2(c)(3)&(4) 18-151 - Brenda J. Impacts the ability to process timely eligibility applications due to inability to assess functional limitations as is required in HRS 333-F. Delays the provision of services. There is litigation history regarding delays that resulted in a waitlist for services including Makin v. Queen's Medical Center, Dental Clinic; -\$150,000 The Queen's Medical Center (QMC) Dental Clinic maintains the only facilities, equipment, and staff that can provide the needed service in Hawaii for adult patients whose conditions are seriously compromised by medical conditions or by inherent physical, mental, or intellectual/developmental disabilities so as to prevent the delivery of services in a customary dental setting. In Hawaii, the QMC Dental Clinic is the only clinic that provides hospital dentistry (dental care under general anesthesia) for these vulnerable adult populations.  QMC provides general dental and oral surgery services concentrating on, but not limited to, disabled and medically compromised patients. The delivery of these services require facilities, equipment, and staff common to both a surgical theatre and dental operator. The HCDSB contracts with QMC to provide general dental and oral surgery services under a hospital setting for the vulnerable adult populations that cannot receive dental care in traditional dental clinic or office.  The reduction of funds will significantly affect the QMC Dental Clinic's budget to financially support the dental clinic. These funds are critical to maintain and support the clinic facilities, operations, and personnel expenses. This reduction of funds will directly affect their overall capacity to provide treatment to the community and HCDSB referral patients.

Reduction in this contract would mean the inability to provide CMS mandated supports for consumer-directed (CD) participants in the Medicaid 1915(c) Waiver. The CD component of the Waiver allows participants to serve as the employer of record for their service employees and manage a set amount of dollars allocated for their CD services. The structure of the CD program removes the State from any co-employer liability and gives flexibility for the employer to obtain quality services. CMS incorporates the use of a Financial Management Services (FMS) entity which Hawaii uses to provide: (1) an Electronic Visit Verification (EVV) system for recording employee worktime (federally mandated under Section 12006(a) of the 21st Century Cures Act), (2) payment of employees, (3) withholding and deposit of employer and employee taxes, (4) ensuring compliance with federal and state regulations for employers. In addition, the FMS contractor provides training and tools for CD employers to manage and reallocate funds within the annual amount of Medicaid dollars allocated for their CD services. Since most CD employers are family member of participants, they are not paid and provider agency administrative expenses are not incorporated into the CD unit rates; enabling cost savings for the State.</p>
2021	HTH501	JO	A					<p>&lt;Continued from above&gt;                      Without these FMS supports, the State is: (1) at risk for being a co-employer and assumes liability for over 1600 CD employees, (2) not in compliance with federal and state labor and tax regulations and subject to any hearings and subsequent penalties, (3) not in compliance with the provisions of the CMS approved Waiver. A reduction in the FMS contract would significantly jeopardize the compliance of the state with the 1915(c) Waiver.</p> <p>19-142 University of Hawaii; Center for Disability Studies Projects; -\$443,074                      This would eliminate contracts to the University of Hawaii, Center for Disability. HTH 730	EMS shortfall	Additional General Funds are requested to meet collective bargaining and recurring personnel cost and cost of other current expenses for the service providers contracted to provide emergency medical ambulance, dispatch, and aeromedical services for the islands of Oahu, Hawaii, Kauai, Maui, Molokai, and Lanai. The shortfall is due to unfunded increases in recurring other current expenses and a 5% restriction on general funds for collective bargaining included in Section 33 of Act 48, SL H 2020 and a 5% restriction on general funds for operating expenses (other current expenses) for the 3rd and 4th Quarters due to a projected reduction in revenue during the continuing period of COVID-19.	A	-	-	\$ 6,383,948
HTH 907	DOCD (CT, Epi, Immz Activities)	Continuation of contracted disease investigation/contact tracing/first contact callers for COVID-19 positive cases and their close contacts. This will compliment the Title 32 continuation of National Guard staff assigned to Contact Mapping activities. Funding will also support new office space, utilities, equipment, and other related expenses.	A	-	-	\$ 4,000,000
HTH 907	Community Outreach & Education and Statewide Communications	Collaboration with community organizations to conduct public health education and community empowerment to prevent and mitigate COVID-19. This includes providing on-site education in targeted communities and residential settings like public housing and congregate living settings. Research and development of vaccination messages, media placement for COVID-19 prevention and mitigation.	A	-	-	\$ 1,900,000
HTH 907	State Lab: Oahu & DHOs	State Lab Division expanded support for COVID-19 testing (including expanded saliva analysis), technical assistance, supplies, PPE, possible contracted analysis if capacity exceeds SLD operational capacity.	A	-	-	\$ 6,855,000
HTH 907	Testing/Specimen Collection Contracts	Swab team expansion to include increasing non-governmental personnel to participate in COVID-19 community-based testing utilizing the full-spectrum of testing options available (e.g., PCR, molecular, antigen, point-of-care, swab-and-send, observation of self-swabbing, etc.).	A	-	-	\$ 4,000,000
HTH 907	Public Health Preparedness Logistics & Training	Increased need for public health preparedness infrastructure to assure operational success, particularly for high-priority groups. The DOH Public Health Preparedness Program was established to respond to short-term emergencies requiring around the clock operations; this program needs additional supports to sustain a multi-year response to the COVID-19 pandemic. To maximize flexibility in operational response, this additional work will be done by contracted staff.	A	-	-	\$ 200,000

**RE: WAM Info Briefing**  
**Hearing date: Tuesday, January 12, 2021 @ 12:30 p.m.**

Aloha Chair Dela Cruz, Vice Chair Keith-Agaran and members of the committee,

Thank you for allowing me the opportunity to submit testimony regarding our budget appropriation requests for this 2022-2023 biennium. As you are aware, Act 103, SLH 2015, codified as HRS Chapter 323F, Part IV ("Act 103") provides for operating and capital subsidies for Maui Health Systems ("MHS") in connection of its operation of the hospitals. Under HRS §323F-58 (and the terms of the Transfer Agreement) MHS may request support payments for its operating costs not to exceed the amount appropriated for the operating costs of the Maui Regional System for the 2014 fiscal year, which was \$38 million, including a 2% margin. Under HRS §323F-59 MHS may also request support payments for its capital expenditures during the first ten (10) years of MHS' operations of the hospitals in an amount not less than \$6 million.

The last subsidy the State provided to HHSC-Maui Region for the hospitals before the transition was \$36.8 million. For the current fiscal year 2021, we have been appropriated \$19.0 million. We are requesting \$19 million for the 2022 fiscal year and \$16 million for the 2023 fiscal year.

In the three and a half years since the transition, and with the support of the legislature, MHS has been able to reduce its need for subsidies by nearly half when compared to the last subsidy granted to the Maui Region. These drastic savings have occurred while MHS has been able to significantly increase quality scores, manage expenses, increase revenues, and recruit much needed physicians. MHS also continues its efforts to retain talented local healthcare professionals over the last few years, including the hiring of entire graduating classes of nurses from Maui Community College.

Although the Administration's budget included a budget appropriation of \$11.5 million for fiscal year 2022 and \$8.9 million for fiscal year 2023 (which is a fairly drastic reduction), we feel the \$19 million/\$16 million request for this biennium is justified due to the tremendous and totally unprecedented challenges that MHS has faced to the COVID pandemic, including the following:

- MHS saw a decrease in Maui resident utilization of 13% and decrease in visitor utilization of 52% at MMMC.
- Like the hotel industry, our net revenue is supplemented by the visitors due to the favorable reimbursement from their insurance plans and travel insurance.
- The payer mix has changed from Commercial to QUEST (Medicaid) by at least 5%, therefore net patient revenue has been (and will continue to be) further reduced.

- Union negotiations with the largest bargaining unit is pending – hopeful we will be reaching agreement by January 31<sup>st</sup> of this year.
- While net patient revenues have declined, we were unable to decrease staffing to reduce expenses. As Maui's only hospital, we need to maintain adequate staffing so that the hospital stays operational and ready to serve during this COVID pandemic. In addition, we needed to retain adequate staffing levels to serve the community for emergent and elective needs as well as for continued COVID surges.
- Additional PPE will be required due to ongoing infection control and protection needs (N95, surgical masks, isolation gowns, gloves, etc.).
- Additional specialized equipment including ventilators, additional beds, HEPA filters, UV sterilization systems, storage containers, computer workstations, CAPR/PAPR units will be needed due to COVID.
- Additional cost related to COVID tests for employees, patients, contractors, etc. will be incurred.

In closing, MHS would like to emphasize that the \$19 million/\$16 million request is the bare minimum of what is anticipated that will be needed to continue to safely and effectively operate for our residents and visitors in this COVID environment. It is also that amounts that are needed to keep MHS on pace of eliminating subsidy requests within 10 years. Please also note, however, that MHS is very sensitive to the enormous budget shortfalls that the State is facing, and therefore, only asks for the lowest baseline notwithstanding that additional losses may be incurred.

We thank you for your service and hard work on behalf of the State of Hawaii and hope that you can support the full subsidy requests for this biennium.

Mahalo for your consideration,

Michael Rembis  
Chief Executive Officer
