

DAVID Y. IGE
GOVERNOR OF HAWAII

STATE OF HAWAII
DEPARTMENT OF LAND AND NATURAL RESOURCES

POST OFFICE BOX 621
HONOLULU, HAWAII 96809

Testimony of
SUZANNE D. CASE
Chairperson

Before the House Committee on
JUDICIARY & HAWAIIAN AFFAIRS

Tuesday, March 30, 2021
2:00 PM

State Capitol, Via Videoconference, Conference Room 325

In consideration of
SENATE BILL 347, SENATE DRAFT 1, HOUSE DRAFT 1
RELATING TO LITTER CONTROL

Senate Bill 347, Senate Draft 1, House Draft 1 proposes to prohibit the intentional release of balloons inflated with a gas that is lighter than air. **The Department of Land and Natural Resources (Department) supports this bill and provides the following comments.**

The Department recognize the deleterious impacts that marine debris, including balloons, has on wildlife and their habitats, leading to an alarming natural resource concern throughout the state. Marine debris harms land and ocean-based habitat through smothering and abrasion and impacts a variety of wildlife through ingestion and entanglement.

A study conducted by the University of Tasmania (research conducted outside of Hawaii) found that 1 in 3 birds out of a sample of 1,733 sea birds, representing 51 different species, had ingested plastic marine debris. Balloons, as soft plastics, posed the highest risk for the sea birds since they can cause fatal obstruction. Sea turtles, as well, were susceptible to mortality from soft plastics, due to experiencing a blockage through the gastrointestinal tract lasting anywhere between 4 to 6 months. Gut-content studies from Australia have indicated that turtles may selectively ingest balloons and other soft plastics due to their similar appearances to a species of jellyfish consumed by all species of turtles.

The negative impact of ingestion is compounded by the fact that plastics of all sizes absorb and release Persistent Organic Pollutants, toxic chemicals which adversely affect the health and longevity of marine organisms.

Although a large amount of marine plastic debris arrives from the ocean, it is all of our responsibility to reduce the amount of plastic debris entering and re-entering our ocean and beaches. This bill would help reduce the balloon waste load entering Hawaii's waters and shorelines and contribute to the improved health of our wildlife and their habitats.

Thank you for the opportunity to comment on this measure.

Beach Environmental Awareness Campaign Hawai'i

DATE: Thursday 25th March, 2021

TO: Chair Nakashima, Vice-Chair Matayoshi & Judiciary and Hawaiian Affairs Committee Members

FROM: Suzanne Frazer, Co-Founder, Beach Environmental Awareness Campaign Hawai'i

RE: **TESTIMONY IN VERY STRONG SUPPORT OF SB347 SD1**

Relating to litter control. Prohibits the intentional release of balloons.

Committee meeting on Tuesday 30th March 2021 at 2PM via videoconference

Aloha Chair Nakashima, Vice-Chair Matayoshi and Committee Members,

I am writing on behalf of Beach Environmental Awareness Campaign Hawai'i (B.E.A.C.H.) in very strong support of SB347 SD1 which will ban intentional balloon releases throughout Hawai'i.

This is an important and necessary bill. Just last year there was a mass balloon release on O`ahu at Nanakuli Beach Park (please see attached photos). Releasing balloons is littering. This type of litter is one of the most harmful there is to marine life. Sea turtles, albatrosses and other marine life that eat squid and jellyfish can mistake a balloon in the ocean for food (please see photos). When balloons are ingested they cause blockages of the gastro-intestinal tract that then leads to starvation and death. The plastic ribbon attached to balloons is also a danger as it can cause injury or death to marine life that become entangled in it or ingest it.

It is unnecessary to release balloons into the air for celebration or commemoration of events. There are many other non-lethal ways to celebrate such as planting a tree, giving a lei or lighting a candle. B.E.A.C.H. has found that balloon litter on beaches increases particularly around May and June which is graduation time. One of our B.E.A.C.H. members was saddened to see a group of people celebrating graduation come out of a restaurant and release balloons into the air.

A number of states have passed laws related to balloon releases including California, Connecticut, Florida, Tennessee and Virginia. Several cities have also passed laws including San Francisco and Baltimore. The industry supports bans on releasing balloons (please see attached statement downloaded from The Balloon Council website) because it doesn't hurt their industry as the law will not ban balloons outright - only the release is banned.

Hawai'i is a state surrounded by water and therefore it is imperative that action is taken to prevent one of the most hazardous types of litter from getting into the ocean and becoming marine debris. SB347 will achieve the goal of preventing balloon litter. More than 1500 people signed a petition in support of state action on marine debris including banning balloon releases (please see attached petition).

Thank you for this opportunity to provide written testimony in very strong support of SB347. Please amend this bill to the SD1 version because it takes effect upon approval.

Mahalo!

Suzanne Frazer

Photos this page and next page:

Over 2000 yellow and black balloons along with plastic ribbons were released (littered) into the air on 8th June, 2020 at Nanakuli Beach Park. The event was shown on the TV news.

Over 2000 balloons littered at Nanakuli Beach Park, O'ahu - June 8th, 2020

Balloon floating in ocean at Kahuku.
After undergoing brittle fracture, it has the
appearance of tentacles and therefore can be
mistaken for a squid or jellyfish by sea
animals.

photo: Thomas Engstrom

Balloons along with plastic ribbons
collected from the Kahuku shoreline.
The ribbons as well as the shredded
balloons give the impression of
jellyfish.

<http://www.theballooncouncil.org/wp-content/uploads/2018/10/TBC-Stance-on-Balloon-Releases-2018.pdf>

Worth the Weight: The Balloon Council says balloons should not be released.

After years of thoughtful consideration, monitoring national and international trends and getting feedback from our diverse audience of balloon related businesses and balloon friends, TBC has decided to revise our stance on balloon releases.

"In the past TBC didn't advocate for or against balloon releases, we advised people on the best practices to minimize environmental impact such as only using latex and not adding strings," said TBC Chairman Dan Flynn. "Over the years, as the social and political climates have changed, our position has also evolved. This change in stance fully recognizes the need for everyone to be as 'green' as we possibly can be to protect our planet."

The revised Balloon Release stance reads:

Worth the Weight: The Balloon Council says balloons should not be released. Americans love balloons, but for many reasons no longer support balloon releases. Balloon makers have worked hard to share and inspire the use of Smart Balloon Practices to keep balloons available for every occasion.

We stand with communities by encouraging that balloons be weighted, not released outdoors, and disposed of properly when broken or deflated. Whether it's a single balloon or hundreds, let's keep them from flying away.

Don't let go: Inflate. Weight. Enjoy.

TBC's goal for the past thirty years has been to support the success of the balloon industry and to ensure the continued use and enjoyment of balloons now and in the future.

TBC will continue to monitor industry trends and work closely with balloon related businesses and the communities where they reside to actively review and revise balloon release language and oppose bans on the sales and use of balloons.

We strongly encourage all balloon-related businesses to help us educate the public and the media about the importance of using Smart Balloon Practices.

Please visit our website www.Balloonsliftup.com or contact us at (800) 233-8887, if you would like more information about the "Meet Faraday: Smart Balloon Practices" campaign.

PETITION TO REQUEST THE STATE TO REMOVE MARINE DEBRIS FROM HAWAII'S BEACHES & TO REQUEST THE LEGISLATURE TO PASS BILLS BANNING PLASTIC BAGS, STRAWS, POLYSTYRENE FOAM, STYROFOAM, AIRSOFT, BALLOON RELEASES

We the undersigned request the State of Hawai'i, which is responsible for beaches up to the high tide mark, to remove marine debris from Hawai'i's beaches and coastlines. We are concerned that the problem of marine debris on beaches is not being addressed by the State nor Counties and as a result, marine debris is accumulating on our beaches. Funds need to be allocated for weekly removal of marine debris from Hawai'i's beaches. We also ask the legislature to please ban all plastic checkout bags, polystyrene foam food and drink containers and bait trays, styrofoam roofing material, plastic straws, airsoft and balloon releases. These steps are urgently needed now to protect the ocean and marine life.

We are concerned that the problem of marine debris on beaches is not being addressed by the State nor Counties and as a result, marine debris is accumulating on our beaches. Funds need to be allocated for weekly removal of marine debris from Hawai'i's beaches. We also ask the legislature to please ban all plastic checkout bags, polystyrene foam food and drink containers and bait trays, styrofoam roofing material, plastic straws, airsoft and balloon releases.

These steps are urgently needed now to protect the ocean and marine life.

PETITION TO REQUEST THE STATE TO REMOVE MARINE DEBRIS FROM HAWAII'S BEACHES & TO REQUEST THE LEGISLATURE TO PASS BILLS BANNING PLASTIC BAGS, STRAWS, POLYSTYRENE FOAM, STYROFOAM, AIRSOFT, BALLOON RELEASES

We the undersigned request the State of Hawai'i, which is responsible for beaches up to the high tide mark, to remove marine debris from Hawai'i's beaches and coastlines. We are concerned that the problem of marine debris on beaches is not being addressed by the State nor Counties and as a result, marine debris is accumulating on our beaches. Funds need to be allocated for weekly removal of marine debris from Hawai'i's beaches. We also ask the legislature to please ban all plastic checkout bags, polystyrene foam food and drink containers and bait trays, styrofoam roofing material, plastic straws, airsoft and balloon releases.

These steps are urgently needed now to protect the ocean and marine life.

PETITION TO REQUEST THE STATE TO REMOVE MARINE DEBRIS FROM HAWAII'S BEACHES & TO REQUEST THE LEGISLATURE TO PASS BILLS BANNING PLASTIC BAGS, STRAWS, POLYSTYRENE FOAM, STYROFOAM, AIRSOFT, BALLOON RELEASES

We the undersigned request the State of Hawai'i, which is responsible for beaches up to the high tide mark, to remove marine debris from Hawai'i's beaches and coastlines. We are concerned that the problem of marine debris on beaches is not being addressed by the State nor Counties and as a result, marine debris is accumulating on our beaches. Funds need to be allocated for weekly removal of marine debris from Hawai'i's beaches. We also ask the legislature to please ban all plastic checkout bags, polystyrene foam food and drink containers and bait trays, styrofoam roofing material, plastic straws, airsoft and balloon releases.

These steps are urgently needed now to protect the ocean and marine life.

PETITION TO REQUEST THE STATE TO REMOVE MARINE DEBRIS FROM HAWAII'S BEACHES & TO REQUEST THE LEGISLATURE TO PASS BILLS BANNING PLASTIC BAGS, STRAWS, POLYSTYRENE FOAM, STYROFOAM, AIRSOFT, BALLOON RELEASES

We the undersigned request the State of Hawai'i, which is responsible for beaches up to the high tide mark, to remove marine debris from Hawai'i's beaches and coastlines. We are concerned that the problem of marine debris on beaches is not being addressed by the State nor Counties and as a result, marine debris is accumulating on our beaches. Funds need to be allocated for weekly removal of marine debris from Hawai'i's beaches. We also ask the legislature to please ban all plastic checkout bags, polystyrene foam food and drink containers and bait trays, styrofoam roofing material, plastic straws, airsoft and balloon releases.

These steps are urgently needed now to protect the ocean and marine life.

PETITION TO REQUEST THE STATE TO REMOVE MARINE DEBRIS FROM HAWAII'S BEACHES & TO REQUEST THE LEGISLATURE TO PASS BILLS BANNING PLASTIC BAGS, STRAWS, POLYSTYRENE FOAM, STYROFOAM, AIRSOFT, BALLOON RELEASES

We the undersigned request the State of Hawai'i, which is responsible for beaches up to the high tide mark, to remove marine debris from Hawai'i's beaches and coastlines. We are concerned that the problem of marine debris on beaches is not being addressed by the State nor Counties and as a result, marine debris is accumulating on our beaches. Funds need to be allocated for weekly removal of marine debris from Hawai'i's beaches. We also ask the legislature to please ban all plastic checkout bags, polystyrene foam food and drink containers and bait trays, styrofoam roofing material, plastic straws, airsoft and balloon releases.

These steps are urgently needed now to protect the ocean and marine life.

PETITION TO REQUEST THE STATE TO REMOVE MARINE DEBRIS FROM HAWAII'S BEACHES & TO REQUEST THE LEGISLATURE TO PASS BILLS BANNING PLASTIC BAGS, STRAWS, POLYSTYRENE FOAM, STYROFOAM, AIRSOFT, BALLOON RELEASES

We the undersigned request the State of Hawai'i, which is responsible for beaches up to the high tide mark, to remove marine debris from Hawai'i's beaches and coastlines. We are concerned that the problem of marine debris on beaches is not being addressed by the State nor Counties and as a result, marine debris is accumulating on our beaches. Funds need to be allocated for weekly removal of marine debris from Hawai'i's beaches. We also ask the legislature to please ban all plastic checkout bags, polystyrene-foam food and drink containers and bait trays, styrofoam roofing material, plastic straws, airsoft and balloon releases. These steps are urgently needed now to protect the ocean and marine life.

**PETITION TO REQUEST THE STATE TO REMOVE MARINE DEBRIS FROM HAWAII'S BEACHES & TO REQUEST THE LEGISLATURE TO -
PASS BILLS BANNING PLASTIC BAGS, STRAWS, POLYSTYRENE FOAM, STYROFOAM, AIRSOFT, BALLOON RELEASES**

We the undersigned request the State of Hawai'i, which is responsible for beaches up to the high tide mark, to remove marine debris from Hawai'i's beaches and coastlines. We are concerned that the problem of marine debris on beaches is not being addressed by the State nor Counties and as a result, marine debris is accumulating on our beaches. Funds need to be allocated for weekly removal of marine debris from Hawai'i's beaches. We also ask the legislature to please ban all plastic checkout bags, polystyrene foam food and drink containers and bait trays, styrofoam roofing material, plastic straws, airsoft and balloon releases. These steps are urgently needed now to protect the ocean and marine life.

PETITION TO REQUEST THE STATE TO REMOVE MARINE DEBRIS FROM HAWAII'S BEACHES & TO REQUEST THE LEGISLATURE TO PASS BILLS BANNING PLASTIC BAGS, STRAWS, POLYSTYRENE FOAM, STYROFOAM, AIRSOFT, BALLOON RELEASES

We the undersigned request the State of Hawai'i, which is responsible for beaches up to the high tide mark, to remove marine debris from Hawai'i's beaches and coastlines. We are concerned that the problem of marine debris on beaches is not being addressed by the State nor Counties and as a result, marine debris is accumulating on our beaches. Funds need to be allocated for weekly removal of marine debris from Hawai'i's beaches. We also ask the legislature to please ban all plastic checkout bags, polystyrene foam food and drink containers and bait trays, styrofoam roofing material, plastic straws, airsoft and balloon releases. These steps are urgently needed now to protect the ocean and marine life.

PETITION TO REQUEST THE STATE TO REMOVE MARINE DEBRIS FROM HAWAII'S BEACHES & TO REQUEST THE LEGISLATURE TO PASS BILLS BANNING PLASTIC BAGS, STRAWS, POLYSTYRENE FOAM, STYROFOAM, AIRSOFT, BALLOON RELEASES

We the undersigned request the State of Hawai'i, which is responsible for beaches up to the high tide mark, to remove marine debris from Hawai'i's beaches and coastlines. We are concerned that the problem of marine debris on beaches is not being addressed by the State nor Counties and as a result, marine debris is accumulating on our beaches. Funds need to be allocated for weekly removal of marine debris from Hawai'i's beaches. We also ask the legislature to please ban all plastic checkout bags, polystyrene foam food and drink containers and bait trays, styrofoam roofing material, plastic straws, airsoft and balloon releases. These steps are urgently needed now to protect the ocean and marine life.

PETITION TO REQUEST THE STATE TO REMOVE MARINE DEBRIS FROM HAWAII'S BEACHES & TO REQUEST THE LEGISLATURE TO PASS BILLS BANNING PLASTIC BAGS, STRAWS, POLYSTYRENE FOAM, STYROFOAM, AIRSOFT, BALLOON RELEASES

We the undersigned request the State of Hawai'i, which is responsible for beaches up to the high tide mark, to remove marine debris from Hawai'i's beaches and coastlines. We are concerned that the problem of marine debris on beaches is not being addressed by the State nor Counties and as a result, marine debris is accumulating on our beaches. Funds need to be allocated for weekly removal of marine debris from Hawai'i's beaches. We also ask the legislature to please ban all plastic checkout bags, polystyrene foam food and drink containers and bait trays, styrofoam roofing material, plastic straws, airsoft and balloon releases. These steps are urgently needed now to protect the ocean and marine life.

Comments:

To: The Honorable Mark Nakashima, Chair, the Honorable Scot Matayoshi, Vice Chair, and Members of the House Committee on Judiciary and Hawaiian Affairs

From: Hawai'i Reef and Ocean Coalition (by Ted Bohlen)

Re: Hearing **SB347 SD1 HD1– RELATING TO LITTER CONTROL**

Hearing: Tuesday March 30, 2021, 2:00 p.m., by videoconference

Aloha Chair Nakashima, Vice Chair Matayoshi, and Judiciary and Hawaiian Affairs Committee members:

The HAWAI'I REEF AND OCEAN COALITION – HIROC – was formed in 2017 by coral reef scientists, educators, local Hawai'i environmental organizations, elected officials, and others to address the crisis facing Hawaii's coral reefs and other marine life. **The Hawai'i Reef and Ocean Coalition STRONGLY SUPPORTS SB347 SD1 HD1, but urges the Committee to amend it by inserting an effective date upon approval. This uncontroversial measure has had no votes in opposition and further discussion is not needed.**

Coral reefs are already being severely harmed by ocean waters that are warming and becoming more acidic as a result of greenhouse gas emissions worldwide. Coral reefs are also being harmed in Hawai'i by sediment and nutrient runoff from the land, by overfishing, especially of herbivores, and plastic marine debris.

One type of plastic marine debris that is especially lethal to marine life is balloons filled with gases lighter than air, which often end up in the ocean in Hawai'i. Sea birds, turtles, and marine mammals are often killed by ingesting balloons they think are food or by getting tangled on attached strings and ribbons. Balloons, like other plastics, absorb and release persistent organic pollutants, toxic chemicals that adversely affect the health and longevity of marine organisms. In short, **these gas-filled balloons are toxic to marine life and should not be released in Hawai'i.**

Other states, including California, Connecticut, Florida, New Jersey, Tennessee, and Virginia have prohibited the release of balloons inflated with lighter-than-air gases.

Please pass this bill with an amendment that: "This Act shall take effect upon its approval".

Thank you for the opportunity to testify.

Hawai'i Reef and Ocean Coalition (by Ted Bohlen)

Danielle vosburgh	BalloonsBlow.org	Support	No

Comments:

Greetings friends,

My name is Danielle Vosburgh, I am Co-Founder and Director of BalloonsBlow.org. I am testifying in strong support of SB347 SD1 with the urging to move forward to make this Act effective immediately.

My sister and I created BalloonsBlow.org because we experienced firsthand the explosion of balloon pollution. Cleaning the beaches for the last 25 years, we have removed tons of plastic marine pollution.. and thousands of balloons. We were driven to help educate others and actively halt planned balloon releases. We need these measures - not for the child who accidentally lets go of a balloon but to help deter adults who intentionally release, or plan the release of this hazardous litter. Over the past 10 years, we have halted hundreds of planned balloon releases with the help of our nearly 100,000 social media followers who agree, balloon releases should be illegal.

While there are several states with current 'balloon laws' - they were passed decades ago, with the influence of balloon industry lobbyists. Those outdated nonsensical balloon release laws always allow for a certain number to be released - making it legal to litter with balloons as long as it in lesser numbers. Hawaii will be the first state with a common-sense law that will make a real difference in balloon pollution in Hawaii, and beyond. Other states will follow, leading to a major reduction in balloon pollution. We cannot stress enough how important it is for this legislation to pass.

It is unlawful to litter, so it only makes sense when it comes to balloons. There is no difference between releasing a balloon into the air or tossing one on the ground.. either way, they both become litter - a blight to the landscape and death traps to animals. Balloons are an especially deadly form of litter as birds, marine life, domestic, and farm animals are attracted to this trash. On our website, we have a never-ending photo gallery of balloons trashing nature - and entangling, choking, and killing animals.

It is fact - balloons generate garbage, squander finite Helium, easily trash faraway pristine places, cause power outages, spark fires, aggravate latex allergies & kill countless animals.. including humans.

Although these measures may not entirely rid Hawaii of this deadly blight - as the floating garbage travels there from afar - it will set an example for other states to follow. We implore the State of Hawaii to pass SB 347 SD1 so this Act will take effect upon approval to greatly reduce the number of these flyaway death traps trashing Hawaii and killing wildlife - and to start a well-needed trend across the country.

To protect the flora and fauna of Hawaii, and beyond - we strongly support this legislation. Thank you for the opportunity to present this testimony, and please don't hesitate to reach out if I can be of any assistance.

Respectfully,

Danielle Vosburgh

Comments:

Aloha and many thanks for this opportunity to show our SUPPORT for house bill 1102 / senate bill 347, which would prohibit the intentional release of balloons in Hawai'i. Balloons and their ribbons present an entanglement hazard for our native wildlife, and this bill is a small step in the right direction towards the prevention of locally-sourced marine debris in our oceans.

Hawai'i Wildlife Fund is a small conservation organization that has been working to protect native wildlife for the past 25 years. During that time and with the help of thousands of volunteers, we have removed nearly 350 tons of marine debris (mostly plastic pollution) from our shorelines. Specifically, since September 2016 in ~ monthly surveys at Kamilo Point, we have recorded 17 balloons along a set 100m stretch of beach (over 44 surveys in total), documenting the problem with these items on a very remote stretch of coastline along the SE coast of Hawai'i Island. Please join us in supporting this bill at this upcoming committee hearing.

Me ka mahalo,

Megan Lamson, M.S.

Hawai'i Wildlife Fund - President & Program Director

THE HUMANE SOCIETY
OF THE UNITED STATES

To: Rep. Mark Nakashima, Chair
Members of the Committee on Judiciary and Hawaiian Affairs

Date: March 30, 2021

Re: Support SB 347 SD1 HD1, Relating to Litter Control

Dear Chair Nakashima, Vice Chair Matayoshi, and Members of the Committee on Judiciary and Hawaiian Affairs,

The Humane Society of the United States, representing our members and supporters in Hawaii, strongly supports SB 347 SD1 HD1, legislation aimed at ending environmentally unsound balloon releases in Hawaii.

While releasing a helium balloon into the atmosphere during a celebratory event or a solemn memorial may be visually pleasing, it is extremely detrimental to the environment and the pain and suffering experienced by animals as a result of these releases is staggering. Discarding a balloon into the atmosphere is simply littering. Once released, balloons can travel for hundreds of miles before they burst or deflate and become litter. Seabirds, sea turtles, seals and other marine mammals are injured or killed after ingesting or becoming entangled in balloons and their strings. Animals on land such as horses, cows, and other farm animals are also at risk.

Balloons are commonly made of latex or mylar materials and present a danger to animals who perceive them as food, or they may get caught in the ribbons attached to them, hindering their ability to move around and feed. For example, when balloons burst, they resemble jellyfish, the natural prey of sea turtles, and subsequently block their digestive track when ingested. Seabirds are at particular risk as a recent study found that balloons are the leading marine debris risk of mortality for seabirds.

Both the U.S. Fish and Wildlife Service and the National Oceanic and Atmospheric Administration warn against the practice. Even so-called 'biodegradable' balloons take years to break down in the environment. Therefore, wildlife and marine animals will continue to ingest them. A study found more than 18,000 balloons, strings, and other pieces were picked up along the Great Lakes shorelines in Detroit from 2016 to 2018.

Hawaii's unparalleled extensive coastline, fields, and waterways are resources worthy of the greatest standards of protection. There are eco-friendly alternatives to balloon releases that are appropriate for celebratory or solemn events including lighting a candle, creating a charity fundraiser, planting a tree, or organizing a service day. As we become aware of the harmful implications of balloon releases, we need to change our behavior accordingly and ensure we are compassionate not only towards humans, but toward all living things.

Thank you for your consideration of this important legislation. We respectfully urge the committee to advance SB 347.

Sincerely,

Lindsay Vierheilig
Hawaii State Director

Testimony to the Hawaii State House Committee on Judiciary and Hawaiian Affairs

March 30th, 2021

2:00 pm

Hawaii State Capitol – Conference room 325

RE: SB 347 Relating to Litter Control

Aloha Chair Nakashima, Vice-Chair Matayoshi, and members of the Committee,

Thank you for the opportunity to submit testimony on Senate Bill 347.

Pacific Whale Foundation (PWF) would like to support proposed Senate Bill 347, prohibiting the intentional release of balloons inflated with a gas that is lighter than air and propose an amendment so that **this Act shall take effect upon its approval.**

The volume of anthropogenic litter is continually increasing in marine environments, and most of these items are single-use plastics. Balloons are often composed of material not dissimilar to plastic, such as latex or metalized plastics¹. Although latex is a natural product of rubber-producing plants, pure latex requires the addition of many other compounds to produce long-lasting balloons¹, which gives them ever-lasting quality once released and deflated.

Balloons are often released during celebratory occasions and may travel far distances before popping and descending back down to Earth. In the case of the state of Hawai'i this inevitably adds to marine debris in the ocean. Balloons that land in the ocean behave like plastic; they float at the surface where they can be mistaken for food and ingested by any number of marine animals, such as dolphins, turtles, or sea birds.

During a study conducted by PWF on nearshore sea surface debris, our researchers found and removed found 51 balloons from Maui's nearshore waters². This number is

particularly concerning, considering the scope of the study was relatively small when compared to the totality of Hawaiian state waters.

We urge the Committee to pass this legislation **with an amendment for immediate effect upon approval** as a step toward mitigating the impacts of marine debris on the wildlife that inhabit the land and waters surrounding our vulnerable island state. Thank you for your time and consideration.

Sincerely,

Shelby Serra

Conservation Coordinator

Comments:

Dear Chair Nakashima, Vice Chair Matayoshi, and members of the Committee on Judiciary and Hawaiian Affairs,

Please pass this very important bill!

Balloons are one of the most lethal types of marine debris. When released, they travel high into cold air, which causes them to burst in a “brittle fracture” pattern that looks like the body and tentacles of squid and jellyfish. Our endangered sea turtles, albatrosses and other seabirds, marine mammals, and other marine life ingest these balloons, which become stuck in their digestive systems and cause excruciating deaths by blockage, starvation, etc. Moreover, the plastic ribbon attached to balloons can cause injury or death by strangulation.

Please pass SB347 SD1 HD1, and importantly, please add a section saying that "**This Act shall take effect upon its approval**".

Mahalo nui loa,

Victoria Anderson

Suzie Wallace	Individual	Support	No

Comments:

Aloha,

My name is Suzie Wallace and I am a resident of Puowaina (Punchbowl), Honolulu. I am also a marine science teacher at Radford High School. I am writing in strong support of SB347 banning balloon releases. Please hear this bill to protect our wildlife and promote sustainable practices for celebrating important life events.

I have personally seen littered bits of balloons at Ala Moana Beach Park and have witnessed many graduations over the past decade where balloons were released. It is well documented within the scientific community the impact that plastics, including balloons, has on marine animals especially juvenile sea turtles that mistake plastics for jellyfish, which is their main food source. Unlike humans, turtles cannot regurgitate ingested plastics and can die from starvation when they eat plastics mistaking it for food. Given the impact that releasing balloons can have on our local sea turtle population and the fact that there are many other ways to celebrate occasions (such as giving leis and planting trees in honor of the deceased) other than releasing balloons, it seems to me fair to enact a law that protects our marine animals for our future generations.

Personally, my most difficult task as an educator is having to explain to students how the judicial process works. Many children just absolutely love sea turtles but what they don't understand is why our judicial system is unjust and why they would need to submit testimony to have laws that protect their beloved sea turtles in the first place. Many students simply assume that our laws would not allow pollutants to be made in the first place if they were to have harmful impacts on wildlife. However, they are typically not pleased to learn that they must first thoroughly research a topic then use their words to sway politicians to enact laws that aim to conserve animals that were once plentiful in previous generations in order for these laws to be made.

I implore you to also research this topic thoroughly as well and not dismiss the advice of these experts. It is what my students expect that you have done to show your due diligence before making your decision today.

Please pass this bill with the following amendment "**This Act shall take effect upon its approval.**" Thank you for your careful consideration and the opportunity to provide written testimony in strong support of SB347.

Mahalo,

Suzie Wallace

DATE: 27th March, 2021

TO: Chair Nakashima and Members of the Committee on Judiciary and Hawaiian Affairs

FROM: Dean Otsuki

RE: **TESTIMONY IN VERY STRONG SUPPORT OF SB347 SD1**
Relating to litter control
Committee meeting on Tuesday 30th March, 2021 at 2:00pm via video conference

Aloha Chair Nakashima and Committee Members,

I am in very strong support of SB347 SD1 which would prohibit the intentional release of balloons inflated with a gas that is lighter than air.

Balloons are flying trash. They end up as pollution wherever they land. They are a threat to marine and land animals because they are colorful and are mistaken for their food. The plastic ribbons are also an entanglement hazard for animals. I've done many beach clean-ups and found dead balloons on the beach.

In addition, metallic balloons can cause a short circuit that can knock out power to thousands of residents. According to Hawaiian Electric, in 2016 there were 25 power outages on oahu affecting 37,221 customers, 3 power outages in Maui County affecting 3977 customers and 2 on Hawaii Island affecting 963 power outages. "Graduation Balloons Present Power Outage Concern", May 16, 2017, (bigislandwatch.com)

There are other alternatives to balloons to celebrate such as blowing bubbles, writing in chalk, giving flowers or lei, having a nice meal, or planting a tree/garden.

Please pass SB347 SD1 to end the harmful practice of releasing balloons in the environment and amend this bill to "take effect upon approval."

Sincerely,

Dean Otsuki

This Act shall take effect upon its approval

DATE: 29 March 2021

TO: Chair Nakashima, Vice-Chair Matayoshi, and Members of the Committee on Judiciary & Hawaiian Affairs

FROM: Ruby Ranoa

RE: TESTIMONY IN STRONG SUPPORT OF SB347 SD1 HD1

Relating to litter control. Prohibits the intentional release of balloons inflated with a gas that is lighter than air.

Committee meeting on 30 March 2021, 2:00 P.M.

Aloha Chair Nakashima, Vice-Chair Matayoshi and Committee Members,

My name is Ruby Ranoa, and I am writing in very strong support of SB347 SD1. I am a marine debris research intern with B.E.A.C.H., as well as an environmental science student at Seattle University. In my work as a marine debris research intern, I have held many pieces of balloon debris collected from multiple beaches on Oahu, including the balloon itself, attached strings, and any related décor. As someone who was raised in Kailua, it saddens me to see how much more trash litters our beaches now as compared to when I was little, including balloon debris. I strongly support SB347 because it serves as a possibility to decrease one of the most harmful types of marine debris, which protects our honu from ingesting balloon fragments.

Another important reason why to ban the release of balloons, is that balloons can cause fires, explosions, and damage when they come into contact with powerlines.

I urge you to amend SECTION 4, "This Act shall take effect on July 1, 2050" to "This Act shall take effect upon its approval". Our effect on the environment will not wait for us, and I see no reason as to why we should wait over 25 years to place this bill into effect. Waiting only provides more time for balloons and related décor to harm wildlife and cause powerline issues.

Thank you for this opportunity to give testimony in strong support of SB347 SD1 HD1.

Mahalo,

Ruby Ranoa

SB-347-HD-1
