Comments:

I am in strong support of this bill. Ten years experience in the Department of Education and 5 of those years as a principal or higher will allow for a well rounded candidate. A working knowledge of a tri-level system of educational systems provides a system of mutual support and communication.

The superintendent needs to understand that our public school system is large AND consists of several separate and distinct islands. It is important to use a variety of communication methods. Consideration of various methods for different types of messages.

The utilization of the press or midnight emails does not represent a collaborative communication style.

If any system needed a solid communication protocol, it is the Department.
