The Office of Hawaiian Affairs (OHA) **SUPPORTS** SCR27/SR16, which requests the Department of Human Services, in coordination with the Department of Health, to collect data on lesbian, gay, bisexual, transgender, queer or questioning, pansexual, asexual, gender nonconforming or intersex (LGBTQIA+) youth who are under the supervision of the courts or the Kawaiiloa Youth and Family Wellness Center (formerly known as Hawai‘i Youth Correctional Facility). **SCR27/SR16 offers an opportunity to collect data that can improve policymaking decisions to address the current disparate experiences of vulnerable LGBTQ youth in Hawai‘i.**

Lesbian, Gay, Bisexual, and Transgender (“LGBT”) people have deep roots in traditional Hawaiian society, and remain a significant but often unacknowledged part of Hawai‘i’s community today. Hawaiian culture has a rich history of gender diversity and acceptance of those who would now be considered lesbian, gay, bisexual, transgender, or gender non-conforming. In pre-colonial Hawaiian culture and society, aikāne and mähū were even revered and maintained special roles in society and in certain cultural practices.<sup>1</sup>

Unfortunately, our community today does not meaningfully acknowledge and accommodate our lesbian, gay, bisexual, transgender, and gender non-conforming communities, resulting in various forms of systemic and invidious discrimination not reflective of Hawai‘i’s cultural history and traditional values, and that may have a particularly significant impact on Native Hawaiians who are highly represented among our LGBTQ youth. Currently, over 1 in 10 public high school students in the state identify as LGBQ (including youth who are “questioning” their sexuality), with 22% of these youth being Native Hawaiian.<sup>2</sup> Three percent of Hawai‘i’s high-school-aged youth identify as transgender, with 25% of these youth being Native

Hawaiian.<sup>3</sup> Hawai‘i’s LGBTQ youth suffer from poor access to healthcare and health outcomes,<sup>4</sup> high incidence of substance abuse,<sup>5</sup> high incidence of sexual and emotional abuse by a partner,<sup>6</sup> bullying in schools and poor educational outcomes,<sup>7</sup> and poor mental health with high rates of self-harm and suicidal ideation.<sup>8</sup> Also, despite a notable presence in Hawai‘i, nearly half of all transgender youth live in unstable housing situations compared to only six percent of cisgender youth.<sup>9</sup> All of these minority stress factors may lead to LGBTQIA+ youth involvement with the courts and correctional system.

By establishing LGBTQIA+ data collection practices in the juvenile justice system, this measure would help to inform the State’s policymaking and programming with respect to our LGBTQIA+ community, and better ensure that policies and programs can address the unique needs of our most vulnerable LGBTQIA+ youth. Notably, the exclusion of LGBTQIA+ people from consideration or recognition in government policies and programs may not only perpetuate such adversities, but may also limit our society from realizing and benefiting from its members’ true and full potential. Accordingly, this measure would take an important first step toward better supporting this segment of our community and improving their lives, and benefit our society as a whole.

Accordingly, OHA urges the Committee to **PASS** SCR27/SR16. Mahalo piha for the opportunity to testify on this measure.

SUBJECT: **SCR27**

POSITION: The Office of Youth Services supports the intent of this resolution.

PURPOSE: Requesting the Department of Human Services, in coordination with the Department of Health, to collect data on Lesbian, Gay, Bisexual, Transgender, Queer, or Questioning, Pansexual, Asexual, Gender Non-Conforming, and Intersex Youth who are under the supervision of the courts and the Hawaii Youth Correctional Facility.

It is important as a state that we begin documenting statistics on this vulnerable population.

- We need more information on lesbian, gay, bisexual, transgender, queer or questioning, and intersex youth who go through the juvenile courts/system because no data collection efforts have been made so far and these are some of our most vulnerable youth populations.
- The 2017 and 2018 [Hawai'i Department of Health's Sexual and Gender Minority Reports](#) showed that a disproportionate amount of our LGBTQ youth show significant risk factors for incarceration.

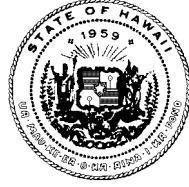

- National studies and [reports](#) show that LGBTQ youth are often unjustly criminalized.
- A 2018 Hawai'i study found about 300 homeless youth statewide, about half living on their own. The Partners in Care Street Youth Study in 2018 showed over 80% of those aged 12-17 were Hawaiian or part-Hawaiian or other Pacific Islander. Twenty-one percent identified as differently gendered, and over 58% had attempted suicide.

Information collected by the Department of Human Services will be critical in understand this undocumented population pathways through our state systems and key to the development of appropriate response in social services and evidence-based practices.

**DEPARTMENT'S POSITION:** The Department of Human Services appreciates the intent of these resolutions and provide comments.

**PURPOSE:** The purpose of these resolutions requests the department of human services, in coordination with the department of health, to collect data on lesbian, gay, bisexual, transgender, queer or questioning, pansexual, asexual, gender non-conforming, and intersex youth who are under the supervision of the courts and the Hawaii Youth Correctional Facility.

DHS will work with the Department of Health, the Hawaii Youth Correctional Facility, and constituents to determine the best approach to begin collecting the requested data while respecting the minors' and youths' right to privacy.

However, to do this and other needed work for Hawaii's youth, DHS, the Office of Youth Services, and the Hawaii Youth Correctional Facility must be funded appropriately with staff

I strongly support this bill. Both national and local studies and reports show that LGBTQ+ youth often face significant challenges when navigating the criminal legal system. I have personally seen as deputy public defender that the criminal legal system can be overtly hostile to our LGBTQ+ youth community, especially transgender individuals. Harassment and/or brutality while incarcerated, and at all stages of the criminal legal system, is common. Please pass this measure to ensure our LGBTQ+ are counted and best served.

Aloha Chair San Buenaventura, Vice Chair Ihara and Committee Members,

Please pass SB27 to ensure that the Department of Human Services in collaboration with the Department of Health collect data on LGBTQ youth to accurately reflect their numbers under judicial supervision and the custody of the Hawaii Youth Correctional Facility.

Based on past DOH health reports, we know that LGBTQ youth are disparately subjected to punishment in the criminal system and have higher risk factors for incarceration.

In order to meet the needs of our LGBTQ youth, including diversion from unjust incarceration, we must have accurate data as a first step to implementing targeted interventions.

Please pass SCR24.
