## Proposed Special and Revolving Funds Analyses

Report No. 22-03

PHOTO: OFFICE OF THE AUDITOR

### Sixty-three funds proposed in 2022 did not meet criteria.

We reviewed 104 Senate and House bills introduced during the 2022 legislative session proposing 63 special and revolving funds of which none met criteria.

**ONLY ABOUT HALF OF THE MONEY** the State spends each year comes from its main financial account, the general fund. The other half of expenditures are financed by special, revolving, federal, and trust funds. Between 2008 and 2012, the number of these non-general funds and the amount of money contained in them substantially increased. Much of that upward trend had been caused by an increase in special funds, which are funds set aside by law for a specified object or purpose.

In 2013, the Legislature amended section 23-11, Hawai'i Revised Statutes (HRS), after the Auditor recommended changes to stem a trend in the proliferation of special and revolving funds over the past 30 years. Such funds erode the Legislature's ability to control the State budget through the general fund appropriation process. General funds, which made up about two-thirds of State operating budget outlays in the late 1980s, had dwindled to about half of outlays.

---

By 2011, special funds amounted to \$2.48 billion, or 24.3 percent, of the State's \$10.2 billion operating budget. Also ballooning were revolving funds, which are used to pay for goods and services and are replenished through charges to users of the goods and services or transfers from other accounts or funds. By 2011, revolving funds made up \$384.2 million, or 3.8 percent, of the State's operating budget. Further hampering the Legislature's control over the budget process was a 2008 court case. In *Hawai'i Insurers Council v. Linda Lingle, Governor of the State of Hawai'i*, the Hawai'i Supreme Court determined that under only certain conditions could the Legislature "raid" special funds to balance the State budget. In 2013, in order to gain more control over the budget process, the Legislature built new safeguards into the criteria for establishing special funds.

## The Criteria

**SECTION 23-11, HRS,** requires the Auditor to analyze all bills proposing to establish new special or revolving funds according to the following criteria:

1. The need for the fund, as demonstrated by:
  - The purpose of the program to be supported by the fund;
  - The scope of the program, including financial information on fees to be charged, sources of projected revenue, and costs; and
  - An explanation of why the program cannot be implemented successfully under the general fund appropriation process; and
2. Whether there is a clear nexus between the benefits sought and charges made upon the program users or beneficiaries or a clear link between the program and the sources of revenue, as opposed to serving primarily as a means to provide the program or users with an automatic means of support that is removed from the normal budget and appropriation process.

# Analyses of Proposed Special and Revolving Funds 2022

Section 23-11, Hawai'i Revised Statutes, requires the Auditor to submit no later than 30 days prior to the end of the legislative session an analysis of each new special or revolving fund proposed by legislative bills.

## Analyses of Proposed Special and Revolving Funds 2022

**SECTION 23-11, HAWAII REVISED STATUTES (HRS)**, requires the Auditor to analyze all legislative bills introduced each session that propose to establish new special or revolving funds. Specifically, the Auditor's analysis of each bill must be based on the following criteria:

1. The need for the fund, as demonstrated by:
  - a. The purpose of the program to be supported by the fund;
  - b. The scope of the program, including financial information on fees to be charged, sources of projected revenue, and costs; and
  - c. An explanation of why the program cannot be implemented successfully under the general fund appropriation process; and
2. Whether there is a clear nexus between the benefits sought and charges made upon the program users or beneficiaries or a clear link between the program and the sources of revenue, as opposed to serving primarily as a means to provide the program or users with an automatic means of support that is removed from the normal budget and appropriation process.

**We reviewed  
104 Senate and  
House bills  
proposing 63 special  
and revolving funds  
during the 2022  
legislative session.**

We sent surveys to bill introducers requesting information about the proposed funds, including the need for the fund as set forth in section 23-11(b)(1), HRS, and nexus as required by section 23-11(b)(2), HRS.

Our review included survey responses and statutory criteria; we include with each analysis an assessment of alternative forms of funding and, where we are able, the probable effects of the proposed fund.

We reviewed 104 Senate and House bills introduced during the 2022 legislative session proposing 63 special and revolving funds. None satisfied the criteria set forth in section 23-11, HRS, for proposed special and revolving funds. References to Senate Draft and House Draft versions reflect bill status at the time of our review.

Exhibit 1 summarizes the results of our analyses.

# 9-8-8 Special Fund

## S.B. No. 2019

### Does Not Meet Criteria

---

#### Description and Purpose of the Proposed Fund

This bill proposes to establish the 9-8-8 Special Fund to be administered by the Department of Health. Revenues for the fund are from fees derived from the statewide 9-8-8 assessment on subscribers of commercial landline telephone, mobile telephone, or internet protocol-enabled voice services; appropriations made by the Legislature; grants and gifts intended for deposit in the fund, interest, premiums, gains, or other earnings on the fund; and moneys from any other source that is deposited in or transferred to the fund. Moneys in the fund will be used to offset costs attributed to ensuring the maintenance of the 9-8-8 Suicide Prevention and Behavioral Health Crisis Hotline, including staffing and technological infrastructure enhancements; personnel, training, and outreach and stabilization services; provision of data, reporting, participation in evaluations, and related quality improvement activities; and administration of the fund.

#### Analysis

**This bill does not satisfy criteria for establishing a special fund.**

#### Demonstrated Need For the Fund

There is insufficient information to demonstrate a special fund is needed to support the activities described in the bill. Although revenue sources and expenses for the fund are identified, detailed financial information was not provided. Additionally, an explanation of why the activities described in the bill cannot be successfully implemented through the general fund appropriation process was not provided.

#### Nexus or Linkage

Nexus or linkage exists between the activities described in the bill and fees derived from the statewide 9-8-8 assessment on telephone and voice services subscribers; grants and gifts to the fund; and interest, premiums, gains, or other earnings on the fund. However, nexus or linkage does not exist between the activities described in the bill and continued support from legislative appropriations. Without additional information, it is also unclear whether nexus or linkage exists between the activities described in the bill and “moneys from any other source that is deposited in or transferred to the fund.”
