

GOV. MSG. NO. 1134

EXECUTIVE CHAMBERS
HONOLULU

DAVID Y. IGE
GOVERNOR

June 8, 2022

The Honorable Ronald D. Kouchi,
President
and Members of the Senate
Thirty-First State Legislature
State Capitol, Room 409
Honolulu, Hawai'i 96813

The Honorable Scott K. Saiki,
Speaker and Members of the
House of Representatives
Thirty-First State Legislature
State Capitol, Room 431
Honolulu, Hawai'i 96813

Dear President Kouchi, Speaker Saiki, and Members of the Legislature:

This is to inform you that on June 8, 2022, the following bill was signed into law:

SB2767 SD1 HD1 CD1

RELATING TO FISH AGGREGATION DEVICES.
ACT 034

Sincerely,

DAVID Y. IGE
Governor, State of Hawai'i

Approved by the Governor

on JUN 8 2022

THE SENATE
THIRTY-FIRST LEGISLATURE, 2022
STATE OF HAWAII

ACT 034

S.B. NO. 2767
S.D. 1
H.D. 1
C.D. 1

A BILL FOR AN ACT

RELATING TO FISH AGGREGATION DEVICES.

BE IT ENACTED BY THE LEGISLATURE OF THE STATE OF HAWAII:

1 SECTION 1. The legislature finds that the State's system
2 of fish aggregation devices, or FADs, maintained by the Hawaii
3 institute of marine biology provides enhanced fishing
4 opportunities for island fishers. In the vast open ocean,
5 natural and human-made floating objects will commonly attract a
6 microcosm of marine life, including large pelagic fish species
7 sought by local anglers. The State's FADs are highly utilized
8 by Hawaii's pelagic small boat, non-longline fishers, especially
9 those targeting tuna species.

10 Maintenance of the FAD program is labor-intensive as the
11 devices are prone to breaking off and frequently need to be
12 replaced or recovered and re-deployed. As of January 13, 2022,
13 twenty-two of the State's fifty-five FADs were missing or off-
14 station. The impact of a missing FAD or series of FADs to
15 individual fishers can be great as some depend on them heavily
16 to locate targeted pelagic species. A missing FAD can result in
17 less fish for personal or community consumption and increased
18 operational costs as fishers shift to targeting distant FADs.

2022-3074 SB2767 CD1 SMA.doc

1 It is highly important that the State maintain funding to
2 sufficiently carry out timely upkeep and replacement of the
3 FADs, thereby minimizing the length of time off-station and the
4 resulting lost fishing opportunities.

5 The average cost of replacing a missing FAD is \$12,000.
6 Additional funding sources for the FAD program are currently in
7 development, including the implementation of a non-resident
8 recreational marine fishing license issued by the division of
9 aquatic resources of the department of land and natural
10 resources. Until additional funds are secured, gap funding in
11 the interim will ensure that the FAD program can be maintained
12 effectively.

13 The purpose of this Act is to provide the department of
14 land and natural resources with one-time funding to bring the
15 state FAD program up to full capacity.

16 SECTION 2. There is appropriated out of the general
17 revenues of the State of Hawaii the sum of \$350,000 or so much
18 thereof as may be necessary for fiscal year 2022-2023 to support
19 the fish aggregation device program.

20 The sum appropriated shall be expended by the department of
21 land and natural resources for the purposes of this Act.

1 SECTION 3. This Act shall take effect on July 1, 2022.

S.B. NO. 2767
