STATEMENT OF OBJECTIONS TO SENATE BILL NO. 2142

Honorable Members
Thirty-First Legislature
State of Hawai'i

Pursuant to Section 16 of Article III of the Constitution of the State of Hawai'i, I am returning herewith, without my approval, Senate Bill No. 2142, entitled "A Bill for an Act Relating to Computer Science."

The purposes of this bill are to (1) allow Department of Education students to fulfill graduation requirements by taking world language, fine arts, career and technical education, or computer science courses; (2) establish a scholarship at the University of Hawaii to encourage students majoring in education to take a computer science course; (3) require the University of Hawaii to establish computer science pathways for students majoring in education; (4) require teacher licensing and certification to include computer science; and (5) appropriate funds for the computer science in teaching scholarship program at the University of Hawaii.

This bill is objectionable because it imposes a new admissions requirement on the University of Hawaii (UH), which will be applicable to all campuses. As written, this bill would require that applicants for admission have successfully completed a world language, fine arts, career and technical education, or computer science class. This requirement would effectively preclude many adults from entering the UH Community College system. Approximately one-third of all community college applicants are over the age of 25 and would not have met the proposed admissions requirement. In addition, UH's Community Colleges work hard to provide opportunities to those who did not complete high school. The new admissions requirement set forth in this bill would create a barrier to public higher education that could impact thousands of potential adult learners.

STATEMENT OF OBJECTIONS
SENATE BILL NO. 2142
Page 2

Furthermore, this bill diminishes the power of the Board of Education (BOE) to formulate statewide educational policy, as established by Section 3 of Article X of the Hawai'i Constitution. The BOE already has a policy regarding high school graduation requirements; under the constitution, any revisions to those requirements should be made by the BOE, and not by the Legislature.

For the foregoing reasons, I am returning Senate Bill No. 2142 without my approval.

Respectfully,

A handwritten signature in black ink, appearing to read "David Y. Ige", with a stylized flourish at the end.
