#### A BILL FOR AN ACT

RELATING TO HOUSING.

#### BE IT ENACTED BY THE LEGISLATURE OF THE STATE OF HAWAII:

1 SECTION 1. The legislature finds that the cost and 2 availability of housing in the State are significant challenges 3 facing Hawaii residents. Although Hawaii has the tenth highest median wage nationally, living expenses are two-thirds higher 4 5 than the rest of the nation, with the cost of housing being a major contributing factor. According to the Honolulu Board of 6 7 Realtors, by November 2020 the median price for a single-family 8 home on Oahu had risen to \$872,500, while the median price for 9 condominiums on Oahu had risen to \$420,000. With a simple 10 mortgage calculator and using conservative assumptions on 11 interest rates and down payment amounts, a household needs to 12 earn almost \$170,000 annually to afford to buy a median-priced 13 home on Oahu in 2020, making homeownership out of reach for many 14 of Hawaii's residents, especially first-time buyers.

15 Because of the many barriers hindering the production of 16 new housing, such as geographic limitations, lack of major 17 infrastructure, construction costs, and government regulation,

1 the State and housing developers have not been able to produce 2 enough housing for Hawaii residents. According to a 2015 report 3 from the department of business, economic development, and 4 tourism, the projected long-run estimate of demand for total new 5 housing in Hawaii is between 64,700 to 66,000 for the 2015 to 6 2025 period. The legislature has responded through the passage of various legislation. During the regular session of 2016, the 7 8 legislature passed a bill enacted as Act 127, Session Laws of 9 Hawaii 2016, that, among other things, established a goal of 10 developing or vesting the development of at least 22,500 11 affordable rental housing units ready for occupancy by the end 12 of 2026. During the regular session of 2017, the legislature 13 passed a bill enacted as Act 54, Session Laws of Hawaii 2017, to 14 expand the types of rental housing projects that can be exempt 15 from general excise tax, thereby encouraging the development of 16 rental housing projects targeted for occupancy by households at 17 or below the one hundred forty per cent area median income 18 level. During the regular session of 2018, the legislature 19 passed a bill enacted as Act 39, Session Laws of Hawaii 2018, 20 that, among other things, provides an estimated total value of 21 \$570,000,000 to address Hawaii's affordable rental housing

crisis and is expected to generate more than 25,000 affordable
 units by the year 2030.

3 Despite these efforts, the amount of new construction of 4 housing, especially for low- to middle-income families, 5 continues to be inadequate as the supply of housing remains 6 constrained while demand for housing increases. This lack of 7 supply leads to higher housing prices and rents for households 8 of all income levels, leaving all tenants with less disposable 9 income, increasing the personal stress on buyers and renters, 10 and exacerbating overcrowding and homelessness. Given these 11 consequences, the lack of affordable housing requires the 12 concentrated attention of state government at the highest level.

13 The legislature further finds that Singapore faced a 14 housing crisis in the 1940s through 1960s but was subsequently 15 able to provide nearly one million residential units for its 16 citizens. The housing and development board -- the government 17 entity responsible for the rapid increase in housing development 18 -- plans, develops, and constructs the housing units, including 19 commercial, recreational, and social amenities. The result is 20 that units built by the housing and development board house 21 eighty per cent of the resident population and that, overall,

1 ninety per cent of the resident population are owners of their 2 units. Through government loans, subsidies, and grants and the 3 use of money saved through a government-run mandatory savings 4 program, residents are able to purchase residential units at an 5 affordable price, including options to upgrade to a better 6 living environment in the future.

7 The legislature further finds that with Honolulu's 8 construction of an elevated rail transit system, the State has 9 an opportunity to enhance Oahu's urban environment and increase 10 the quality of life for residents by increasing the affordable 11 housing inventory and eliminating the need for personal 12 automobiles, among other public benefits. As the largest 13 landowner of properties along the transit line, with 14 approximately two thousand acres under the jurisdiction of 15 various departments, the State must be proactive in establishing 16 a unified vision and approach toward redevelopment of its 17 properties to maximize the benefits of state lands available for 18 redevelopment.

19

The purpose of this Act is to:
