A BILL FOR AN ACT

RELATING TO PSYCHOLOGY.

BE IT ENACTED BY THE LEGISLATURE OF THE STATE OF HAWAII:

PART I

SECTION 1. The legislature finds that properly licensed school psychologists provide effective services to help children and youth succeed academically, socially, behaviorally, and emotionally by providing direct educational and mental health services for children and youth, as well as working with parents, educators, and other professionals to create supportive learning and social environments for all children.

Currently, Hawaii is the only state without certification or licensure for school psychologists. Without licensing, the State cannot ensure that functioning school psychologists are properly qualified and delivering appropriate services. In addition, the State's failure to properly license school psychologists means that, by law, the State is unable to seek reimbursements from the federal medicaid program for the use of school psychologists in an educational setting. Consequently, it is necessary to establish a licensure program to ensure the

1 employment of qualified school psychologists and to allow
2 schools using school psychologists to properly seek available
3 federal medicaid funds.

4 The legislature further finds that a proper licensing
5 program requires establishing meaningful criteria and guidelines
6 for the licensure of school psychologists. The National
7 Association of School Psychologists' Standards for the
8 Credentialing of School Psychologists provides a model upon
9 which these guidelines may in part be based. The National
10 Association of School Psychologists' Standards create a set of
11 national standards that can serve to regulate the credentialing
12 of school psychologists. School psychologists who hold a
13 National Association of School Psychologists credential have met
14 these national standards.

15 The legislature finds that accredited school psychologists
16 should be licensed by, and registered with, the board of
17 psychology to ensure the delivery of quality services to
18 students and the community. The legislature additionally finds
19 that school psychologists and the practice of school psychology
20 should be subject to regulation and control to protect the
21 public from the unqualified practice of school psychology and

1 from unprofessional conduct by persons licensed to practice
2 school psychology.

3 Accordingly, the purpose of this Act is to establish the
4 recommended criteria for the licensure of school psychologists,
5 including graduate coursework, practica, and internship
6 requirements based in part on the National Association of School
7 Psychologists' Standards.

8 SECTION 2. Chapter 465, Hawaii Revised Statutes, is
9 amended by adding a new part to be appropriately designated and
10 to read as follows:

11 "PART . SCHOOL PSYCHOLOGISTS

12 §465- Findings and declaration of necessity. It is the
13 intent of the legislature to establish standards for the
