A child's parent or legal guardian may invoke the same consumer rights on behalf of the child regarding processing personal data belonging to the child. A controller shall comply with an authenticated consumer request to exercise the right:

(1) To confirm whether or not a controller is processing the consumer's personal data and to access the personal data;

(2) To correct inaccuracies in the consumer's personal data, taking into account the nature of the personal data and the purposes of the processing of the consumer's personal data;

(3) To delete personal data provided by or obtained about the consumer;

(4) To obtain a copy of the consumer's personal data that the consumer previously provided to the controller in a format that:

(A) Is portable;

(B) To the extent technically feasible, is readily usable; and

(C) Allows the consumer to transmit the data to another controller without hindrance, where the processing is carried out by automated means;

(5) To opt out of the processing of the personal data for purposes of:

(A) Targeted advertising;

(B) The sale of personal data; or

(C) Profiling in furtherance of decisions made by the controller that results in the provision or denial by the controller of financial and lending services, housing, insurance, education enrollment, criminal justice, employment opportunities, health care services, or access to basic necessities, including food and water.

(b) Except as otherwise provided in this chapter, a controller shall comply with a request by a consumer to exercise the consumer rights specified in subsection (a) as follows:

(1) A controller shall respond to the consumer without undue delay, but in all cases within forty-five days of receipt of the request submitted pursuant to the methods described in subsection (a). The response period may be extended once by forty-five additional days when reasonably necessary, taking into account the complexity and number of the consumer's requests, so long as the controller informs the consumer of the extension within the initial forty-five-day response period, together with the reason for the extension;

(2) If a controller declines to take action regarding the consumer's request, the controller, without undue delay, but no later than forty-five days of receipt of the request, shall inform the consumer in writing of the justification for declining to take action and instructions for appealing the decision pursuant to subsection (c);

(3) Information provided in response to a consumer request shall be provided by a controller free of charge, up to twice annually per consumer. If requests from a consumer are manifestly unfounded, excessive, or repetitive, the controller may charge the consumer a reasonable fee to cover the administrative costs of complying with the request or decline to act on the request. The controller shall bear the burden of demonstrating the manifestly unfounded, excessive, or repetitive nature of the request; and

(4) If a controller is unable to authenticate the request using commercially reasonable efforts, the controller shall not be required to comply with a request to initiate an action under subsection (a) and may request that the consumer provide additional information reasonably necessary to authenticate the consumer and the consumer's request.

(c) A controller shall establish a process for a consumer to appeal the controller's refusal to take action on a request within a reasonable period of time after the consumer's receipt of the decision pursuant to subsection (b)(2); provided that the

appeal process shall be similar to the process for submitting requests to initiate action pursuant to subsection (a). Within sixty days of receipt of an appeal, a controller shall inform the consumer in writing of its decision, including a written explanation of the reasons for the decision. If the appeal is denied, the controller shall also provide the consumer with an online method, if available, or other method through which the consumer may contact the department to submit a complaint.

§ **-4 Data controller responsibilities; transparency.** (a) A controller shall:

(1) Limit the collection of personal data to data that is adequate, relevant, and reasonably necessary in relation to the purposes for which the data is processed, as disclosed to the consumer;

(2) Except as otherwise provided in this chapter, not process personal data for purposes that are neither reasonably necessary to nor compatible with the disclosed purposes for which the personal data is processed, as disclosed to the consumer, unless the controller obtains the consumer's consent;

(3) Establish, implement, and maintain reasonable administrative, technical, and physical data security practices to protect the confidentiality, integrity, and accessibility of personal data. The data security practices shall be appropriate to the volume and nature of the personal data at issue;

(4) Not process personal data in violation of state and federal laws that prohibit unlawful discrimination against consumers; and

(5) Not process sensitive data concerning a consumer without obtaining the consumer's consent, or, in the case of the processing of sensitive data concerning a known child, without processing the data in accordance with the Children's Online Privacy Protection Act (15 U.S.C. chapter 91).

(b) Any provision of a contract or agreement that purports to waive or limit in any way consumer rights pursuant to section -3 shall be deemed contrary to public policy and shall be void and unenforceable.

(c) Controllers shall provide consumers with a reasonably accessible, clear, and meaningful privacy notice that includes:

(1) The categories of personal data processed by the controller;

(2) The purpose for processing personal data;

(3) How consumers may exercise their consumer rights pursuant to section -3, including how a consumer may appeal a controller's decision with regard to the consumer's request;

(4) The categories of personal data that the controller shares with third parties, if any; and

(5) The categories of third parties, if any, with whom the controller shares personal data.

(d) If a controller sells personal data to third parties or processes personal data for targeted advertising, the controller shall clearly and conspicuously disclose the processing, as well as the manner in which a consumer may exercise the right to opt out of the processing.

(e) A controller shall establish, and shall describe in a privacy notice, one or more secure and reliable means for consumers to submit a request to exercise their consumer rights under this chapter. Those means shall take into account the ways in which consumers normally interact with the controller,

the need for secure and reliable communication of the requests, and the ability of the controller to authenticate the identity of the consumer making the request. Controllers shall not require a consumer to create a new account in order to exercise consumer rights pursuant to section -3 but may require a consumer to use an existing account.

(f) A controller shall not discriminate against a consumer for exercising any of the consumer rights contained in this chapter, including denying goods or services, charging different prices or rates for goods or services, or providing a different level of quality of goods and services to the consumer; provided that nothing in this chapter shall be construed to require a controller to provide a product or service that requires the personal data of a consumer that the controller does not collect or maintain or to prohibit a controller from offering a different price, rate, level, quality, or selection of goods or services to a consumer, including offering goods or services for no fee, if the consumer has exercised the consumer's right to opt out pursuant to section -3 or the offer is related to a consumer's voluntary participation in a bona fide loyalty, rewards, premium features, discounts, or club card program.

§ **-5 Responsibility according to role; controller and processor.** (a) In meeting its obligations under this chapter, a processor shall adhere to the instructions of a controller and shall assist the controller. The assistance shall include:

(1) Consideration of the nature of processing and the information available to the processor, by appropriate technical and organizational measures, insofar as this is reasonably practicable, to fulfill the controller's obligation to respond to consumer rights requests pursuant to section -3;

(2) Consideration of account the nature of processing and the information available to the processor, by assisting the controller in meeting the controller's obligations in relation to the security of processing the personal data and in relation to the notice of security breach pursuant to section 487N-2 in order to meet the controller's obligations; and

(3) The provision of necessary information to enable the controller to conduct and document data protection assessments pursuant to section -6.

(b) A contract between a controller and a processor shall govern the processor's data processing procedures with respect to processing performed on behalf of the controller. The contract shall be binding and clearly set forth instructions for processing data, the nature and purpose of processing, the type of data subject to processing, the duration of processing, and the rights and obligations of both parties. The contract shall also include requirements that the processor shall:

(1) Ensure that each person processing personal data is subject to a duty of confidentiality with respect to the data;

(2) At the controller's direction, delete or return all personal data to the controller as requested at the end of the provision of services, unless retention of the personal data is required by law;

(3) Upon the reasonable request of the controller, make available to the controller all information in its possession necessary to demonstrate the processor's compliance with the obligations in this chapter;

(4) Allow, and cooperate with, reasonable assessments by the controller or the controller's designated

assessor; alternatively, the processor may arrange for a qualified and independent assessor to conduct an assessment of the processor's policies and technical and organizational measures in support of the obligations under this chapter using an appropriate and accepted control standard or framework and assessment procedure for the assessments. The processor shall provide a report of the assessment to the controller upon request; and

(5) Engage any subcontractor pursuant to a written contract in accordance with subsection (c) that requires the subcontractor to meet the obligations of the processor with respect to the personal data.

(c) Nothing in this section shall be construed to relieve a controller or a processor from the liabilities imposed on the controller or processor by virtue of the controller's or processor's role in the processing relationship as defined by this chapter.

(d) A determination regarding whether a person is acting as a controller or processor with respect to a specific processing of data is a fact-based determination that depends

upon the context in which personal data is to be processed. A processor that continues to adhere to a controller's instructions with respect to a specific processing of personal data remains a processor.

§ **-6 Data protection assessments.** (a) The data protection assessment requirements of this section shall apply to processing activities created or generated after January 1, 2024.

(b) A controller shall conduct and document a data protection assessment of each of the following processing activities involving personal data:

(1) The processing of personal data for purposes of targeted advertising;

(2) The sale of personal data;

(3) The processing of personal data for purposes of profiling, where the profiling presents a reasonably foreseeable risk of:

(A) Unfair or deceptive treatment of, or unlawful disparate impact on, consumers;

(B) Financial, physical, or reputational injury to consumers;

(C) A physical intrusion or other intrusion upon the solitude or seclusion, or the private affairs or concerns, of consumers, where the intrusion would be offensive to a reasonable person; or

(D) Other substantial injury to consumers;

(4) The processing of sensitive data; and

(5) Any processing activities involving personal data that present a heightened risk of harm to consumers.

(c) Data protection assessments conducted pursuant to subsection (b) shall identify and evaluate the benefits, direct or indirect, that a controller, consumer, other stakeholders, and the public may derive from processing against the potential risks to the rights of consumers associated with the processing, as mitigated by safeguards that can be employed by the controller to reduce the risks. The use of de-identified data and the reasonable expectations of consumers, as well as the context of the processing and the relationship between the controller and the consumer whose personal data is processed, shall be factored into this assessment by the controller.

(d) The department may request, pursuant to a civil investigative demand, that a controller disclose any data

protection assessment that is relevant to an investigation conducted by the department, and the controller shall make the data protection assessment available to the department. The department may evaluate the data protection assessment for compliance with the responsibilities set forth in section -4. Data protection assessments shall be confidential and exempt from public inspection and copying under chapter 92F. The disclosure of a data protection assessment pursuant to a request from the department shall not constitute a waiver of attorney-client privilege or work product protection with respect to the assessment and any information contained in the assessment.

(e) A single data protection assessment may address a comparable set of processing operations that include similar activities.

(f) Data protection assessments conducted by a controller for the purpose of compliance with other laws may comply under this section if the assessments have a reasonably comparable scope and effect.

§ **-7 Processing de-identified data; exemptions.** (a) The controller in possession of de-identified data shall:

(1) Take reasonable measures to ensure that the data cannot be associated with a natural person;

(2) Publicly commit to maintaining and using de-identified data without attempting to re-identify the data; and

(3) Contractually obligate any recipients of the de-identified data to comply with all provisions of this chapter.

(b) Nothing in this chapter shall be construed to require a controller or processor to:

(1) Re-identify de-identified data or pseudonymous data; or

(2) Maintain data in identifiable form, or collect, obtain, retain, or access any data or technology, in order to be capable of associating an authenticated consumer request with personal data.

(c) Nothing in this chapter shall be construed to require a controller or processor to comply with an authenticated consumer rights request pursuant to section -3 if all of the following are true:

(1) The controller is not reasonably capable of associating the request with the personal data or it

would be unreasonably burdensome for the controller to associate the request with the personal data;

(2) The controller does not use the personal data to recognize or respond to the specific consumer who is the subject of the personal data, or associate the personal data with other personal data about the same specific consumer; and

(3) The controller does not sell the personal data to any third party or otherwise voluntarily disclose the personal data to any third party other than a processor, except as otherwise permitted in this section.

(d) The consumer rights specified in section -3(a)(1) to (4) and section -4 shall not apply to pseudonymous data in cases in which the controller is able to demonstrate that any additional information necessary to identify the consumer is kept separately and is subject to effective technical and organizational controls that:

(1) Ensure that the personal data is not attributed to an identified or identifiable natural person; and

(2) Prevent the controller from accessing the information.

(e) A controller that discloses pseudonymous data or de-identified data shall exercise reasonable oversight to monitor compliance with any contractual commitments to which the pseudonymous data or de-identified data is subject and shall take appropriate steps to address any breaches of those contractual commitments.

§ **-8 Limitations.** (a) Nothing in this chapter shall be construed to restrict a controller's or processor's ability to:

(1) Comply with federal, state, or local laws, rules, or regulations;

(2) Comply with a civil, criminal, or regulatory inquiry, investigation, subpoena, or summons by federal, state, county, or other governmental authorities;

(3) Cooperate with law enforcement agencies concerning conduct or activity that the controller or processor reasonably and in good faith believes may violate federal, state, or county laws, rules, or regulations;

(4) Investigate, establish, exercise, prepare for, or defend legal claims;

(5) Provide a product or service specifically requested by a consumer, perform a contract to which the consumer

is a party, including fulfilling the terms of a written warranty, or take steps at the request of the consumer before entering into a contract;

(6) Take immediate steps to protect an interest that is essential for the life or physical safety of the consumer or of another natural person, and where the processing cannot be manifestly based on another legal basis;

(7) Prevent, detect, protect against, or respond to security incidents, identity theft, fraud, harassment, malicious or deceptive activities, or any illegal activity; preserve the integrity or security of systems; or investigate, report, or prosecute those responsible for any of those actions;

(8) Engage in public or peer-reviewed scientific or statistical research in the public interest that adheres to all other applicable ethics and privacy laws and is approved, monitored, and governed by an independent oversight entity that determines:

(A) If the deletion of the information is likely to provide substantial benefits that do not exclusively accrue to the controller;

(B) The expected benefits of the research outweigh the privacy risks; and

(C) If the controller has implemented reasonable safeguards to mitigate privacy risks associated with research, including any risks associated with reidentification; or

(9) Assist another controller, processor, or third party with any of the obligations under this subsection.

(b) The obligations imposed on controllers or processors under this chapter shall not restrict a controller's or processor's ability to collect, use, or retain data to:

(1) Conduct internal research to develop, improve, or repair products, services, or technology;

(2) Effectuate a product recall;

(3) Identify and repair technical errors that impair existing or intended functionality; or

(4) Perform internal operations that are reasonably aligned with the expectations of the consumer,

reasonably anticipated based on the consumer's existing relationship with the controller, or are otherwise compatible with processing data in furtherance of the provision of a product or service specifically requested by a consumer or the performance of a contract to which the consumer is a party.

(c) The obligations imposed on controllers or processors under this chapter shall not apply where compliance by the controller or processor with this chapter would violate an evidentiary privilege under state law. Nothing in this chapter shall be construed to prevent a controller or processor from providing personal data concerning a consumer to a person covered by an evidentiary privilege under state law as part of a privileged communication.

(d) A controller or processor that discloses personal data to a third-party controller or processor in compliance with the requirements of this chapter shall not be deemed to be in violation of this chapter if the third-party controller or processor that receives and processes the personal data is in violation of this chapter; provided that, at the time of the

disclosure of the personal data, the disclosing controller or processor did not have actual knowledge that the recipient intended to commit a violation. A third-party controller or processor that receives personal data from a controller or processor in compliance with the requirements of this chapter shall not be deemed to be in violation of this chapter if the controller or processor from which the third-party controller or processor receives the personal data is in violation of this chapter.

(e) Nothing in this chapter shall be construed to:

(1) Impose an obligation on controllers and processors that adversely affects the rights or freedoms of any person, including the right of free expression pursuant to the First Amendment to the Constitution of the United States; or

(2) Apply to the processing of personal data by a person in the course of a purely personal or household activity.

(f) Personal data processed by a controller pursuant to this section shall not be processed for any purpose other than those expressly listed in this section unless otherwise allowed

by this chapter. Personal data processed by a controller pursuant to this section may be processed to the extent that the processing is:

(1) Reasonably necessary and proportionate to the purposes listed in this section; and

(2) Adequate, relevant, and limited to what is necessary in relation to the specific purposes listed in this section. Personal data collected, used, or retained pursuant to subsection (b) where applicable, shall consider the nature and purpose or purposes of the collection, use, or retention. The data shall be subject to reasonable administrative, technical, and physical measures to protect the confidentiality, integrity, and accessibility of the personal data and to reduce reasonably foreseeable risks of harm to consumers relating to the collection, use, or retention of personal data.

(g) If a controller processes personal data pursuant to an exemption in this section, the controller bears the burden of demonstrating that the processing qualifies for the exemption and complies with subsection (f).

(h) An entity's processing of personal data for the purposes expressly identified in subsection (a) shall not be the sole basis for the department to consider the entity as a controller with respect to the processing.

§ **-9 Investigative authority; civil investigative demand.** (a) Whenever the department has reasonable cause to believe that any person has engaged in, is engaging in, or is about to engage in any violation of this chapter, the department may either require or permit the person to file with the department a statement in writing or otherwise, under oath, as to all facts and circumstances concerning the subject matter. The department may also require any other data and information as the department may deem relevant to the subject matter of an investigation of a possible violation of this chapter and may make such special and independent investigations as the department may deem necessary in connection with the matter.

(b) In connection with the investigation, the department may issue a civil investigative demand to witnesses by which the department may:

(1) Compel the attendance of the witnesses;

(2) Examine the witnesses under oath before the department or a court of record;

(3) Subject to subsection (d), require the production of any books or papers that the department deems relevant or material to the inquiry; and

(4) Issue written interrogatories to be answered by the witness served or, if the witness served is a corporation, partnership, association, governmental agency, or any person other than a natural person, by any officer or agent, who shall furnish the information as is available to the witness.

The investigative powers of this subsection shall not abate or terminate by reason of any action or proceeding brought by the department under this chapter.

(c) When documentary material is demanded by a civil investigative demand, the demand shall not:

(1) Contain any requirement that would be unreasonable or improper if contained in a subpoena duces tecum issued by a court of the State; or

(2) Require the disclosure of any documentary material that would be privileged, or production of which for

any other reason would not be required by a subpoena duces tecum issued by a court of the State.

(d) Where the information requested pursuant to a civil investigative demand may be derived or ascertained from the business records of the party upon whom the interrogatory has been served or from an examination, audit, or inspection of the business records, or from a compilation, abstract, or summary based therein, and the burden of deriving or ascertaining the answer is substantially the same for the department as for the party from whom the information is requested, it shall be sufficient for that party to specify the records from which the answer may be derived or ascertained and to afford the department, or other individuals properly designated by the department, reasonable opportunity to examine, audit, or inspect the records and to make copies, compilations, abstracts, or summaries. Further, the department may elect to require the production pursuant to this section of documentary material before or after the taking of any testimony of the person summoned pursuant to a civil investigative demand, in which event, the documentary matter shall be made available for inspection and copying during normal business hours at the

principal place of business of the person served, or at any other time and place, as may be agreed upon by the person served and the department.

(e) Any civil investigative demand issued by the department shall contain the following information:

(1) The statute alleged to have been violated and the subject matter of the investigation;

(2) The date, place, time, and locations at which the person is required to appear to produce documentary material in the person's possession, custody, or control; provided that the date shall not be less than twenty days after the date of the civil investigative demand; and

(3) If documentary material is required to be produced, it shall be described by class so as to clearly indicate the material demanded.

(f) Service of civil investigative demand of the department may be made by:

(g) Within twenty days after the service of a demand upon any person or enterprise, or at any time before the return date specified in the demand, whichever period is shorter, the party may file in the circuit court and serve upon the attorney general a petition for an order modifying or setting aside the demand. The time allowed for compliance with the demand in whole or in part as deemed proper and ordered by the court shall not run during the pendency of the petition in the court. The petition shall specify each ground upon which the petitioner relies in seeking relief, and may be based upon any failure of the demand to comply with the provisions of this chapter or upon any constitutional or other legal right or privilege of the party. This subsection shall be the exclusive means for a witness summoned pursuant to a civil investigative demand

pursuant to this section to challenge the civil investigative demand.

(h) The examination of all witnesses under this section shall be conducted by the attorney general, or the attorney general's designee, before a person authorized to administer oaths in the State. Any party compelled to testify or to produce documentary evidence may be accompanied and advised by counsel, but counsel may not, as a matter of right, otherwise participate in the investigation.

(j) Any persons served with a civil investigative demand by the department under this chapter, other than any person whose conduct or practices are being investigated or any

No person shall be excused from attending an inquiry pursuant to the mandate of a civil investigative demand, or from producing a paper, or from being examined or required to answer questions on the ground of failure to tender or pay a witness fee or mileage unless demand is made at the time testimony is about to be taken and as a condition precedent to offering the production or testimony and unless payment is not made upon the demand.

(k) Any natural person who shall neglect or refuse to attend and testify, or to answer any lawful inquiry or to produce documentary evidence, if in the person's power to do so, in obedience of a civil investigative demand or lawful request of the department or those properly authorized by the department, pursuant to this section, shall be guilty of a misdemeanor.

(l) Any natural person who commits perjury or false swearing or contempt in answering, failing to answer, producing evidence, or failing to produce evidence in accordance with a

A person may be prosecuted or subjected to penalty or forfeiture for any perjury, false swearing, or contempt committed in answering, or failing to answer, or in producing evidence or failing to do so in accordance with the order of the department or the court. If a person refuses to testify or produce evidence after being granted immunity from prosecution and after being ordered to testify or produce evidence, the person may be adjudged in contempt by a court of

pursuant to section 710-1077. This subsection shall not be construed to prevent the department from instituting other appropriate contempt proceedings against any person who violates this section.

Any officer participating in the inquiry and any person examined as a witness upon the inquiry who shall disclose to any person other than the department, the name of any witness examined or any other information obtained upon the inquiry, except as so directed by the department, shall be guilty of a misdemeanor.

(o) The department shall maintain the secrecy of all evidence, testimony, documents, or other results of investigations; provided that:
