# A BILL FOR AN ACT

RELATING TO ECONOMIC DEVELOPMENT.

**BE IT ENACTED BY THE LEGISLATURE OF THE STATE OF HAWAII:**

1       SECTION 1. The purpose of this Act is to transfer the  
2       administrative attachment of the agribusiness development  
3       corporation from the department of agriculture to the department  
4       of business, economic development, and tourism.

5       SECTION 2. Section 163D-1, Hawaii Revised Statutes, is  
6       amended to read as follows:

7       "~~{}~~**\$163D-1**~~{}~~ **Findings and purpose.** The legislature  
8       finds that the downsizing of the sugar and pineapple industries  
9       ~~[is presenting]~~ presented an unprecedented opportunity for the  
10      conversion of agriculture into a dynamic growth industry.  
11      Within the next decade, ~~[seventy-five thousand]~~ the State can  
12      use public agricultural lands to enhance the local economy,  
13      provide employment opportunities, decrease reliance on imported  
14      agricultural products, and provide more sources of locally grown  
15      food for residents. Thousands of acres of agricultural lands  
16      and fifty million gallons per day of irrigation water ~~[are~~  
17      ~~expected to be]~~ were released by plantations. The downsizing of

1 the sugar and pineapple industries [~~will idle~~] idled and left  
2 vacant a valuable inventory of supporting infrastructure  
3 including irrigation systems, roads, drainage systems,  
4 processing facilities, workshops, and warehouses[~~-~~] that are  
5 still largely underutilized. The challenge to government and  
6 business is to continue to conserve and convert the arable lands  
7 and their associated production infrastructure in a timely  
8 manner into new productive uses [~~that are based upon strategies~~  
9 ~~developed from detailed marketing analysis and monitoring of~~  
10 ~~local, national, and international opportunities~~. Constantly  
11 ~~evolving economies require an aggressive~~]. Aggressive and  
12 dynamic leadership [~~for the promotion~~] can play a critically  
13 important role in promoting and development of agricultural  
14 enterprises, [~~and centralized leadership to coordinate~~]  
15 coordinating industry development, provide industry-wide  
16 services, [~~provide~~] providing marketing assistance, and  
17 [~~facilitate~~] facilitating investments and coventures in viable  
18 enterprises.

19 The purpose of this chapter is to create a vehicle and  
20 process to make optimal use of agricultural assets for the  
21 economic, environmental, and social benefit of the people of

1 Hawaii. This chapter establishes a public corporation to  
2 administer an aggressive and dynamic agribusiness development  
3 program. The purposes of the corporation shall be to support  
4 the production of local agricultural products for local  
5 consumption in a manner that is economically and environmentally  
6 sustainable while continuing to develop commercial exports of  
7 locally produced agriculture products. To further these  
8 purposes, the corporation shall coordinate and administer  
9 programs to assist agricultural enterprises to facilitate the  
10 transition of agricultural infrastructure from plantation  
11 operations into other agricultural enterprises, [to carry on the  
12 marketing analysis to direct agricultural industry evolution,  
13 and to provide the leadership for the development, financing,  
14 improvement, or enhancement of agricultural enterprises.]  
15 increase local production of agricultural products for local  
16 consumption, reduce the State's reliance on imported  
17 agricultural products, and increase access to farmland and  
18 related infrastructure for small local farmers and  
19 cooperatives."

1       SECTION 3. Section 163D-2, Hawaii Revised Statutes, is  
2 amended by amending the definition of "agriculture" to read as  
3 follows:

4       "Agriculture" means the production for [~~marketing~~]  
5 consumption within the State and exporting of plant and animal  
6 life on land and within ponds and other bodies of water for  
7 food, fiber, and raw materials for value-added products, and any  
8 agricultural enterprise or enterprises organized for the  
9 production of agricultural materials or value-added products  
10 based on detailed marketing analysis and strategies to exploit  
11 profitable potentials in local, national, and international  
12 markets, including general farming, cane growing, fruit growing,  
13 flower growing, aquaculture, growing of timber and forest  
14 products, apiary, grazing, dairying, and the production of any
