
A BILL FOR AN ACT

RELATING TO HEALTH.

BE IT ENACTED BY THE LEGISLATURE OF THE STATE OF HAWAII:

1 PART I

2 SECTION 1. The legislature finds that pharmacies are vital
3 to the health care system because of their convenient points of
4 access in the community. Pharmacists are trusted health care
5 professionals who have established relationships with their
6 patients, medical providers, and hospitals.

7 The Clinical Laboratory Improvement Amendments of 1988,
8 P.L. 100-578 (CLIA), regulates all facilities that perform
9 laboratory testing on human specimens for health assessment.
10 The CLIA also provide waivers for certain tests, such as simple
11 tests that are non-technical and have a low risk for erroneous
12 results. Most CLIA-waived tests are approved by the Federal
13 Drug Administration for home use; employ simple methodologies
14 that are so accurate as to render the likelihood of erroneous
15 results negligible; use unprocessed specimens, including blood
16 or oral fluids; and pose very little reasonable risk of harm to
17 the patient if performed incorrectly. Some examples of CLIA-

1 waived tests include blood glucose monitoring tests, cholesterol
2 monitoring tests, and, recently, coronavirus disease 2019
3 (COVID-19) tests.

4 The legislature further finds that pharmacists in the State
5 are permitted to order and perform drug therapy related tests
6 under section 461-1, Hawaii Revised Statutes. One
7 interpretation of this provision is that these assessment
8 procedures include tests waived in accordance with the CLIA.
9 Notwithstanding the existing authority for pharmacists to
10 perform assessment procedures, under current department of
11 health regulations, pharmacies that perform CLIA-waived tests
12 are required to partner with a clinical laboratory director to
13 sign off on the application to perform the tests. This
14 requirement places Hawaii in a minority of states that still
15 require a laboratory director to sign off on CLIA waiver
16 applications. Most states instead allow certain pharmacists to
17 sign applications for the purpose of authorizing CLIA-waived
18 testing.

19 The legislature further finds that the COVID-19 pandemic
20 has highlighted the need to address health care accessibility
21 and streamline unnecessary administrative regulation. The

1 federal government addressed pharmacy-administered CLIA-waived
2 tests specifically in an April 2020 emergency declaration under
3 the Public Readiness and Emergency Preparedness Act, which,
4 among other things, authorized pharmacists to order and
5 administer COVID-19 testing utilizing a CLIA-waived device.

6 Accordingly, the purpose of this Act is to:

- 7 (1) Clarify who is authorized to sign an application to
8 perform CLIA-waived tests; and
9 (2) Amend the pharmacist scope of practice to include the
10 ordering and performing of certain CLIA-waived tests.

11 PART II

12 SECTION 2. Section 321-15.1, Hawaii Revised Statutes, is
13 amended by adding a new definition to be appropriately inserted
14 and to read as follows:

15 "Clinical laboratory director" means a person who is
16 responsible for the administrative, technical, and scientific
17 operation of a clinical laboratory, including the supervision of
18 procedures for testing and the reporting of the test results.

19 "Clinical laboratory director" includes the following:

- 20 (1) A physician licensed to practice medicine or
21 osteopathy under chapter 453; or

1 (2) For clinical laboratory tests or examinations
2 classified as waived pursuant to the Clinical
3 Laboratory Improvement Amendments of 1998 (title 42
4 United States Code section 263a):

5 (A) An advanced practice registered nurse, as
6 identified in section 457-2.7;

7 (B) A duly licensed clinical laboratory scientist; or

8 (c) A pharmacist serving as the director of a
9 laboratory that only performs tests waived
10 pursuant to the Clinical Laboratory Improvement
11 Amendments of 1988 (title 42 United States Code
12 section 263a) or that performs the collection of
13 a specimen that is processed by a clinical
14 laboratory."

15 SECTION 3. Section 461-1, Hawaii Revised Statutes, is
16 amended by amending the definition of "practice of pharmacy" to
17 read as follows:

18 "Practice of pharmacy" means:

19 (1) The interpretation and evaluation of prescription
20 orders; the compounding, dispensing, and labeling of
21 drugs and devices (except labeling by a manufacturer,

1 packer, or distributor of nonprescription drugs and
2 commercially legend drugs and devices); the
3 participation in drug selection and drug utilization
4 reviews; the proper and safe storage of drugs and
5 devices and the maintenance of proper records
6 therefor; the responsibility for advising when
7 necessary or where regulated, of therapeutic values,
8 content, hazards, and use of drugs and devices; and
9 the interpretation and evaluation of prescription
10 orders to adjust the supply dispensed for purposes of
11 medication synchronization pursuant to
12 section 431:10A-606, 432:1-621, or 432D-30;

- 13 (2) [~~Performing~~] The performance of the following
14 procedures or functions as part of the care provided
15 by, and in concurrence with, a "health care facility"
16 and "health care service" as defined in
17 section 323D-2, or a "pharmacy" or a licensed
18 physician or a licensed advanced practice registered
19 nurse with prescriptive authority, or a "managed care
20 plan" as defined in section 432E-1, in accordance with
21 policies, procedures, or protocols developed

1 collaboratively by health professionals, including
2 physicians and surgeons, pharmacists, and registered
3 nurses, and for which a pharmacist has received
4 appropriate training required by these policies,
5 procedures, or protocols:

6 (A) Ordering or performing routine drug therapy
7 related patient assessment procedures;

8 (B) Ordering or performing drug therapy and
9 diagnostic related laboratory and Clinical
10 Laboratory Improvement Amendments of 1988 (title
11 42 United States Code section 263a)-waived
12 tests[+], including performing any United States
13 Food and Drug Administration-approved or United
14 States Food and Drug Administration-authorized
15 test that is classified as waived pursuant to the
16 Clinical Laboratory Improvement Amendments of
17 1988 by a pharmacist having appropriate training
18 that includes programs approved by the
19 Accreditation Council for Pharmacy Education
20 (ACPE), curriculum-based programs from an ACPE-
21 accredited college of pharmacy, state or local

1 health department programs, or programs
2 recognized by the board of pharmacy, and any
3 regulations adopted thereunder by the United
4 States Health Care Financing Administration;
5 provided that no test shall require the use of
6 specimens collected by vaginal swab,
7 venipuncture, or the collection of seminal fluid;
8 (C) Initiating emergency contraception oral drug
9 therapy in accordance with a written
10 collaborative agreement approved by the board,
11 between a licensed physician or advanced practice
12 registered nurse with prescriptive authority and
13 a pharmacist who has received appropriate
14 training that includes programs approved by the
15 ~~[Accreditation Council for Pharmacy Education~~
16 ~~{]ACPE[}]~~, curriculum-based programs from an
17 ACPE-accredited college of pharmacy, state or
18 local health department programs, or programs
19 recognized by the board of pharmacy;
20 (D) Administering drugs orally, topically, by
21 intranasal delivery, or by injection, pursuant to

1 the order of the patient's licensed physician or
2 advanced practice registered nurse with
3 prescriptive authority, by a pharmacist having
4 appropriate training that includes programs
5 approved by the ACPE, curriculum-based programs
6 from an ACPE-accredited college of pharmacy,
7 state or local health department programs, or
8 programs recognized by the board of pharmacy;

9 (E) Administering:

10 (i) Immunizations orally, by injection, or by
11 intranasal delivery, to persons eighteen
12 years of age or older by a pharmacist having
13 appropriate training that includes programs
14 approved by the ACPE, curriculum-based
15 programs from an ACPE-accredited college of
16 pharmacy, state or local health department
17 programs, or programs recognized by the
18 board of pharmacy;

19 (ii) Vaccines to persons between fourteen and
20 seventeen years of age pursuant to
21 section 461-11.4; and

1 (iii) Human papillomavirus, Tdap (tetanus,
2 diphtheria, pertussis), meningococcal, and
3 influenza vaccines to persons between eleven
4 and seventeen years of age pursuant to
5 section 461-11.4;

6 (F) As authorized by the written instructions of a
7 licensed physician or advanced practice
8 registered nurse with prescriptive authority,
9 initiating or adjusting the drug regimen of a
10 patient pursuant to an order or authorization
11 made by the patient's licensed physician or
12 advanced practice registered nurse with
13 prescriptive authority and related to the
14 condition for which the patient has been seen by
15 the licensed physician or advanced practice
16 registered nurse with prescriptive authority;
17 provided that the pharmacist shall issue written
18 notification to the patient's licensed physician
19 or advanced practice registered nurse with
20 prescriptive authority or enter the appropriate
21 information in an electronic patient record

- 1 system shared by the licensed physician or
- 2 advanced practice registered nurse with
- 3 prescriptive authority, within twenty-four hours;
- 4 (G) Transmitting a valid prescription to another
- 5 pharmacist for the purpose of filling or
- 6 dispensing;
- 7 (H) Providing consultation, information, or education
- 8 to patients and health care professionals based
- 9 on the pharmacist's training and for which no
- 10 other licensure is required; or
- 11 (I) Prescribing and dispensing an opioid antagonist
- 12 pursuant to section 461-11.8;
- 13 (3) The offering or performing of those acts, services,
- 14 operations, or transactions necessary in the conduct,
- 15 operation, management, and control of pharmacy; and
- 16 (4) Prescribing and dispensing contraceptive supplies
- 17 pursuant to section 461-11.6."

18 SECTION 4. This Act does not affect rights and duties that
19 matured, penalties that were incurred, and proceedings that were
20 begun before its effective date.

1 SECTION 5. Statutory material to be repealed is bracketed
2 and stricken. New statutory material is underscored.

3 SECTION 6. This Act shall take effect on January 1, 2050.

Report Title:

Clinical Laboratory Directors; Pharmacies; Pharmacists; Clinical Laboratory Improvement Amendments Waived Tests

Description:

Defines "clinical laboratory director" to include certain physicians, or advanced practice registered nurses, licensed clinical laboratory scientists, or pharmacists for the purpose of certain tests or examinations. Amends the definition of "practice of pharmacy" to include the ordering and performing of certain Clinical Laboratory Improvement Amendments-waived tests. Effective 1/1/2050. (SD2)
