13 reduction in the local urchin population; and  
14

15 WHEREAS, Molokai's southern reef, which is the longest  
16 continuous fringing reef in the United States, has suffered  
17 extensive damage from runoff pollution in recent years; and  
18

19 WHEREAS, damage from ground water pollution and runoff has  
20 been especially common in areas where owners of large tracts of  
21 land use those lands for activities that destabilize the soil;
