

STAND. COM. REP. NO. 3670

Honolulu, Hawaii

APR - 4 2022

RE: S.C.R. No. 203

Honorable Ronald D. Kouchi
President of the Senate
Thirty-First State Legislature
Regular Session of 2022
State of Hawaii

Sir:

Your Committee on Water and Land, to which was referred
S.C.R. No. 203 entitled:

"SENATE CONCURRENT RESOLUTION URGING THE DEPARTMENT OF LAND
AND NATURAL RESOURCES TO DEVELOP PROGRAMS TO RECAPTURE,
RETAIN, AND SHARE THE CULTURAL AND ENVIRONMENTAL KNOWLEDGE OF
LIMU KALA,"

begs leave to report as follows:

The purpose and intent of this measure is to urge the
Department of Land and Natural Resources to develop programs to
recapture, retain, and share the cultural and environmental
knowledge of limu kala.

Your Committee received testimony in support of this measure
from the Department of Land and Natural Resources, Kua'āina Ulu
'Auamo, The Marine Science Learning Center at Wai'anae High School,
Malama Pūpūkea-Waimea, and four individuals.

Your Committee finds that limu is an important component of a
healthy and productive reef ecosystem; the base of the marine food
chain; a key indicator of the health and resilience of an ahupuaa;
and a critical part of many marine life habitats, especially limu
kala. Four endemic species are currently found in Hawaii: *S.*
echniocarpum, *S. hawaiiensis*, *S. obtusifolium*, and *S. polyphyllum*.
Limu kala is a seasonally abundant and commonly found in many
intertidal and subtidal habitats, including tidepools and reef
flats in areas with moderate to high wave action. Limu is used as

a vitamin-, mineral-, and fiber-rich food source, in traditional medicine, and cultural ceremonies. Your Committee further finds that much of limu-based cultural knowledge has been lost over many generations due to a lack of understanding and awareness of the significance of limu. This lack of knowledge hinders work and efforts to increase the State's population of nearshore fish. Learning, retaining, and sharing cultural and environmental knowledge about limu will benefit nearshore fisheries and all residents of the State for many generations.

As affirmed by the record of votes of the members of your Committee on Water and Land that is attached to this report, your Committee concurs with the intent and purpose of S.C.R. No. 203 and recommends its adoption.

Respectfully submitted on
behalf of the members of the
Committee on Water and Land,

LORRAINE R. INOUE, Chair

The Senate
 Thirty-First Legislature
 State of Hawai'i
