Program I.D. and Title: HTH 212 – Hawaii Health Systems Corporation - Regions

Program I.D. and Title: HTH 213 – Alii Community Care, Inc.

HHSC's Mission

The mission of Hawaii Health Systems Corporation is to provide accessible, high quality, cost-effective services that address the healthcare needs of Hawaii's unique island communities.

Background

Given the combination of its total acute and long-term care bed capacity, the Hawaii Health Systems Corporation (HHSC) is one of the largest public health systems in the United States.

3675 KILAUEA AVENUE • HONOLULU, HAWAII 96816 • PHONE: (808) 733-4020 • FAX: (808) 733-4028

HILO • HONOKAA • KAU • KONA • KOHALA • WAIMEA • KAPAA • WAILUKU • KULA • LANAI • HONOLULU
www.hhsc.org <<http://www.hhsc.org>>

- HHSC is the largest provider of healthcare on the Neighbor Islands and is the only acute care provider in many communities offering a wide range of specialty services such as cardiovascular, cancer, and stroke.
- HHSC provides other community based services, such as (but not limited to) clinics, home health, assisted living, memory care, and adult day health directly and through affiliate organizations.
- A total of over **1,300** physicians practice at HHSC facilities.
- HHSC employs more than **4,300** workers statewide, of which over **1,000** are registered nurses.
- HHSC operates over **1,200** licensed beds through a network of acute, critical access hospitals, and long term care facilities located on five different islands.

The Importance of HHSC in Serving Hawaii's Communities cannot be overstated.

- HHSC serves as a vital component of the State's healthcare "safety net".
- HHSC facilities provide **75%** of the emergency room care and account for **65%** of total acute discharges for the counties of Hawaii, Maui, and Kauai.
- HHSC is largest provider of long term care in Hawaii and operates **776** licensed long term care beds.
- HHSC's facilities provided the care for approximately **21%** of all acute care discharges and **27%** of all emergency room visits statewide. In fact, HHSC's facilities in total have more than double the emergency room visits of Queens Medical Center.
- For Hawaii county residents, HHSC facilities provided the care for approximately **68%** of all acute care discharges and **84%** of all emergency room visits.
- For Maui county residents, HHSC facilities provided the care for approximately **80%** of all acute care discharges and almost **86%** of all emergency room visits.
- For Kauai county residents, HHSC facilities provided the care for almost **21%** of all acute care discharges and **35%** of all emergency room visits.

ECONOMIC IMPACT OF HHSC TO THE STATE OF HAWAII

- HHSC's total impact to the economy of the State of Hawaii was **\$1,388,000,000**.
- HHSC was responsible for creating over **8,400 jobs** in the State of Hawaii.
- The total labor income created by HHSC in the State of Hawaii was almost **\$762,000,000**.

Accomplishments

In spite of its many challenges, HHSC, the state's community-hospital system continues to provide high quality healthcare to the island communities it serves. The following are some of the major accomplishments over the past year:

- The development of the Electronic Medical Records (EMR) system is progressing. Kona Community Hospital and Kohala Hospital were the first to go-live on the system in February 2013. Maui Memorial went live on the EMR system in March 2014. Kula Hospital and Lanai Community Hospital are scheduled to go-live in February 2015, with the other HHSC facilities following thereafter.
- Ka'u Hospital, Kohala Hospital, Kona Community Hospital, Kauai Veterans Memorial Hospital, Maluhia, and Kahuku Medical Center achieved the highest possible five-star rating from Medicare's Nursing Home Compare website. Several other HHSC facilities received a four-star rating.
- The HHSC Residency Program welcomed its first class of residents at Hilo Medical Center on July 1, 2014. There are four residents in this first class.
- Maui Memorial Medical Center (MMMC) received recognition in U.S. News and World Report's 2015 edition of the country's best hospitals. MMMC was acknowledged for their Get With The Guidelines Gold Plus award for heart failure care.

Economic Challenges

Hawaii hospitals face an ever-changing and extremely challenging health care environment today with challenges such as:

- Inadequate government and third-party payor reimbursements for quality healthcare services.
- Long-term care waitlist.
- Escalating costs related to physician and clinical staff recruitment and retention.
- The need for capital investment in new technology, particularly in electronic medical records.
- The impact of the provisions of federal health care reform.
- The impact of other federal health care mandates, such as ICD-10.
- The impact of federal deficit reduction legislation.
- Increased costs of caring for Hawaii's elderly population.

Additional major issues impacting HHSC's financial viability include:

- Aging facilities, with life and safety code issues, well beyond the average for similar facilities across the country.

- Exceptional leave benefits and other labor issues that place HHSC's labor costs above national norms.
- Inability to outsource non-clinical functions.
- Under-capitalization of the Corporation.
- Small scale operations, which are costly to maintain.

Financial Concerns

Since fiscal year 2010, when HHSC received \$96.8 million in general fund appropriations, HHSC managed to survive despite lower levels of general fund appropriations without seeking any emergency appropriations until fiscal year 2014. HHSC has received \$80.5 million, \$71.9 million, \$78.5 million, and \$82.9 million in fiscal years 2011, 2012, 2013, and 2014, respectively (exclusive of collective bargaining funding, emergency appropriations, and residency program funding). A history of HHSC's general fund appropriations since fiscal year 2010 is shown below.

This year has been very challenging year for HHSC (and all other healthcare systems in Hawaii) financially. HHSC began fiscal year 2015 with only 30 days cash on hand with approximately 65 days in accounts payable, which is a very precarious liquidity position for any business.

During fiscal year 2015, HHSC has been forced to absorb approximately \$48 million in unfunded collective bargaining raises which were negotiated by the Administration on HHSC's behalf. The cumulative total costs of these raises are approximately \$60 million, and the total general fund appropriations provided for these raises was only \$12 million, as shown in the chart below.

Exacerbating the problem was the 10% general fund restriction imposed by the Administration on September 2, 2014 via Executive Memorandum 14-06. This reduced HHSC's total general fund appropriations in fiscal year 2015 from \$91,440,000 as appropriated by the Legislature to \$82,296,000. HHSC appealed to the Governor to have the restriction released, but this request was returned to HHSC without action on December 8, 2014.

Anticipating that the State would have insufficient funds to fully fund the system, HHSC began a rigorous budgeting exercise for fiscal year 2015 which began in February 2014 and is continuing to be refined and reevaluated even now. The first draft of HHSC's fiscal year 2015 resulted in a \$48 million cash flow deficit, which was roughly equal to the amount of underfunding for the

collective bargaining pay raises. Throughout the Legislative Session and summer, HHSC management worked to find savings to reduce the deficit, and through approximately \$9 million in updated operating results and other federal reimbursement changes and \$17 million in contingency plan cuts (including service closures and reductions in force), management had managed to reduce the cash flow deficit to approximately \$22 million. In September 2014, HHSC was informed by the Administration that, due to poor Council of Revenue forecasts, HHSC's general fund appropriations for fiscal year 2015 would be restricted by 10%. This restriction meant a reduction in general fund appropriations for HHSC of \$9,144,000. This restriction pushed HHSC's deficit for fiscal year 2015 back up to approximately \$31 million.

To deal with this deficit, HHSC began implementing its contingency plans, including a first round of reduction-in-force actions that resulted in the elimination of 109 vacant positions and 33 filled positions, the closure of Maui Memorial's adolescent psych unit, hiring freezes, and aggressive pursuit of attrition savings. Further contingency plan actions may be taken based on collaborative discussions with key legislators and the State Administration, which could include further rounds of reduction-in-force actions and further service closures.

Federal Funds

HHSC has lost federal funds in the form of reduced Medicare reimbursements as a result of "fiscal cliff" legislation and sequestration, totaling approximately \$4.6 million combined. These losses represent a permanent reduction in HHSC's Medicare reimbursement. Recent federal deficit reduction proposals have included proposals to reduce reimbursements for critical access hospitals, reduce the number of critical access hospitals, impose site-neutral payments for procedures that would reduce hospital reimbursements to match reimbursements at physician offices, and impose mandatory bundled payments, which would further reduce the amount of reimbursements that HHSC receives. Given that over 36% of HHSC's revenues come from Medicare and Medicare supplemental plans (e.g. HMSA 65C plus and Kaiser Senior), any reductions to Medicare reimbursements will have a sizeable negative impact to HHSC.

HHSC REQUEST

Emergency Appropriation

HHSC is seeking an emergency appropriation of \$48 million for the cumulative underfunding of collective bargaining pay raises for fiscal years 2013-2015 negotiated by the Administration on HHSC's behalf. HHSC was forced to absorb approximately \$60 million in collective bargaining pay raises, and the Legislature only provided \$12 million in general fund appropriations for fiscal year 2015, leaving a funding deficit of \$48 million. See details under **"Financial Concerns"** above.

Fiscal Years 2016-2017 Biennium Budget

On September 29, 2014, HHSC received budget preparation instructions from the Administration which contained the following assumptions (relating to HTH 212):

- The Administration decreased the \$102 million in general fund appropriations appropriated by the Legislature in fiscal year 2015 by removing \$12 million in collective bargaining funding and removing \$5 million in general fund appropriations, which brought the baseline general fund appropriation down to approximately \$85 million.
- Continued collective bargaining pay raises of 4% for both fiscal year 2016 and fiscal year 2017, with no general fund appropriations to pay for these raises. This amounts to an additional \$19.8 million and \$22.6 million in costs to HHSC for fiscal years 2016 and 2017, respectively.
- Increased fringe benefit rate from 42% to 52% for both fiscal year 2016 and fiscal year 2017 in order to fund the retiree health insurance costs. In the 2013 Legislative Session, Act 268 was passed which required the State to increase funding of retiree health insurance costs by 20% each year from fiscal years 2014 to 2019 until 100% of the annual required contribution is funded. The Administration did not provide any general fund appropriations to HHSC to cover this increase in fringe benefit costs, which will cost HHSC approximately \$34.6 million in fiscal years 2016 and 2017. The difference between the fringe rate of private hospitals of 25-27% and the 52% rate the State is assessing represents approximately \$80.0 million in additional costs to HHSC annually.

The major assumption made by HHSC is the impact of ICD-10 revenue shortfalls as a result of the federal mandate to implement the new ICD-10 coding standard on October 1, 2015. HHSC worked with the Advisory Board (HHSC's ICD-10 implementation consultant) to determine a range of potential lost revenue as a result of the ICD-10 transition. It appears that HHSC could lose revenue in two areas: 1) rebasing of DRG payments based on the expanded coding set and 2) medical necessity denials due to improper coding. From HHSC's discussions with the Advisory Board, both areas of potential revenue loss could be mitigated by proper training up-front and consistent follow-up. They have estimated that the potential revenue loss range is between 5% and 10% of net revenue, which would amount to between \$28 million and \$57 million on an annual basis. Management has elected to go with a 7.5% loss estimate, as some of these denials can be expected to be recovered from the training and post go-live support that the Advisory Board has been contracted to provide. This results in a projected impact of approximately \$30 million in FY 16 and \$40

million in FY 17 of lost revenue that has been included in the projections below.

SUMMARY OF FISCAL YEARS 2015 – 2017 PROJECTED SHORTFALLS (Amounts in \$'000's):

	FY 2015	FY 2016	FY 2017
Cash Collections	559,222	536,473	536,507
Salaries & Benefits Costs	442,586	491,753	518,680
Non-Payroll Costs	223,917	228,689	235,908
Total Operating Costs	666,503	720,442	754,588
Cash Flow Deficit from Operations	(107,281)	(183,969)	(218,081)
General Fund Appropriations	92,946	84,940	84,940
Other Non-Operating Items	(16,809)	(18,256)	(16,857)
Projected Cash Flow Deficit	(31,144)	(117,285)	(149,998)

REASONS FOR THE SHORTFALLS (Amounts in millions of \$):

	FY 2015	FY 2016	FY 2017
Collective Bargaining Underfunding	48.1	79.9	114.5
Fringe Benefit Rate Increase of 10%	-	34.6	34.6
Loss of Revenue from ICD-10	-	29.6	40.3

Alternatives Considered

HHSC believes that the best alternative in order for its communities to receive the healthcare they deserve at the minimum cost to the State of Hawaii would be to find another health system which would engage HHSC in a public-private partnership. All Regional Boards and the Corporate Board support the exploration of the concept of public-private partnerships. The boards believe a public-private partnership would allow HHSC's facilities to:

- Gain access to private capital to build and maintain information technology infrastructure, increase access to services, and address physical plant needs.
- Optimize clinical practice and care delivery.
- Implement private sector compensation packages to retain qualified medical service personnel.
- Reduce waste and obtain efficiencies of scale.
- Create a sustainable model of health care delivery that will lower costs and improve outcomes (quality).
- Reduce dependence on government subsidies.

Legislation will be required to lay the groundwork for such a public-private partnership to occur, and HHSC is in the process of drafting the proposed legislation. HHSC supports this effort in exploring all opportunities to respond to the challenges facing us today to reduce costs, increase quality, and expanding coverage of health care.

HHSC is also analyzing how it can re-structure itself to better meet the challenges of health care reform. In doing so, HHSC continues to evaluate its current operations to see where there may be opportunities for the system as a whole to operate more efficiently and effectively in providing accessible, high quality, cost-effective services that address the healthcare needs of Hawaii's unique island communities.
