DLNR FY19 Supplemental Budget Overview

A. Provide your agency's mission statement.

The Department of Land and Natural Resources' (DLNR) mission is to enhance, protect, conserve, and manage Hawaii's unique and limited natural, cultural and historic resources held in public trust for current and future generations of the people of Hawai'i nei, and its visitors, in partnership with others from the public and private sectors.

DLNR is responsible for managing or overseeing:

- 1.3 million acres of Hawaii's public lands in forests, parks and other natural areas
- 3 million acres of state ocean waters (including all fisheries, coral reefs, small boat facilities, and ocean recreation)
- All fresh water resources (including more than 376 streams and all ground water aquifers)
- Historic and cultural sites
- Forests and watersheds
- Public beaches
- State parks
- Regulation of dams and reservoirs
- Rockfall mitigation (on public lands)
- Endangered species protection
- Invasive species control
- Regulating 3 million acres of land in the Conservation District

DLNR works in partnership with federal, county, and other state agencies, as well as community groups, non-profit organizations and private land owners, to carry out its mission.

Administration (Admin) -- LNR 906

DLNR Administration's objective is to enhance the effectiveness and efficiency by formulating policies, directing and coordinating operations, fiscal management, information technology, communications and personnel, and providing other core administrative and support services.

Bureau of Conveyances (BOC) -- LNR 111

The mission of the Bureau of Conveyances is to serve the public by providing for an accurate, timely, and permanent system of recording, maintaining, preserving and accessing land title related documents and maps.

Division of Aquatic Resources (DAR) -- LNR 153, LNR 401, LNR 805

The mission of the Division of Aquatic Resources is to manage, conserve and restore the state's aquatic resources and ecosystems for present and future generations.

Division of Boating and Ocean Recreation (DOBOR) -- LNR 801

The mission of the Division of Boating and Ocean Recreation is to enrich the lives of people of all ages, both residents and visitors alike, by providing opportunities and facilities for developing skills and participating in both organized and non-organized ocean-based outdoor activities such as boating of all types, salt water fishing, surfing, sailboarding and diving, ocean swimming and other related activities of all types.

Division of Conservation and Resources Enforcement (DOCARE) -- LNR 405

The Division of Conservation and Resources Enforcement (DOCARE) has primary responsibility for the enforcement of laws created to manage, protect and conserve Hawaii's unique and limited, natural, cultural and historic resources. DOCARE is responsible for patrolling and monitoring 3 million acres of marine waters, the largest tropical forest in the nation; the 11th largest forest reserve in the nation of which over 1 million acres have been set aside for hunting; 1.2 million acres of state owned lands; 2 million acres of conservation lands and 23,000 acres of inland surface waters. Throughout the State, DOCARE officers are required to serve a resident population of approximately 1.4 million and approximately 8 million visitors that utilize Hawaii's resources on a regular basis.

Engineering Division (ENG) -- LNR 141, LNR 810

The Engineering Division administers programs to:

- (1) provide engineering services to other DLNR divisions and other state agencies to execute Capital Improvements Program (CIP) and/or operating, maintenance and repair projects;
- (2) reduce the risk to people, property, and natural resources from natural hazards and the failure of Dams and Reservoirs, through planning, management, mitigative efforts, educations and administration of compatible regulatory programs (including the National Flood Insurance Program NFIP);
- (3) effectively manage geothermal resources and its development to protect the health and safety, and to ensure continued viability of the resource for the future; and
- (4) promote economic development and enhance public welfare by developing water supplies and state lands in support of State-sponsored projects.

Division of Forestry and Wildlife (DOFAW) -- LNR 172, 402, 407, 804

The mission of the Division of Forestry and Wildlife is to responsibly manage and protect watersheds, native ecosystems, and cultural resources and provide outdoor recreation and sustainable forest products opportunities, while facilitating partnerships, community involvement and education. *E mālama i ka 'āina*.

State Historic Preservation Division (SHPD)-- LNR 802

The State Historic Preservation Division works to preserve and sustain reminders of earlier times which link the past to the present. SHPD's three branches, History and Culture, Archaeology, and Architecture, strive to accomplish this goal through regulatory review and other activities.

Land Division (Land) -- LNR 101

The Land Division is responsible for the management of State-owned lands in ways that will promote the well-being of Hawaii's people and insure that these lands are used in accordance with the goals, policies and plans of the State. Lands that are not set aside for use by other government agencies come within the direct purview of the division. The Land Division also serves as an office of record and maintains a central repository of all government documents dating back to the "Great Mahele" of 1848.

Office of Conservation and Coastal Lands (OCCL)-- LNR 101

The Office of Conservation and Coastal Lands is responsible for overseeing approximately two million acres of private and public lands that lie within the State Land Use Conservation District. In addition to privately and publicly zoned Conservation District lands, OCCL is responsible for overseeing beach and marine lands out to the seaward extend of the State's jurisdiction.

<u>Division of State Parks (State Parks) -- LNR 806</u>

The Division of State Parks manages and administers 52 state parks encompassing nearly 25,000 acres on the 5 major islands. These parks offer varied outdoor recreation and heritage opportunities. The park environments range from landscaped grounds with developed facilities to wildland areas with trails and primitive facilities. Issues camping permits.

Commission on Water Resource Management (CWRM) -- LNR 404

The Commission on Water Resource Management administers the State Water Code, which was created by the 1987 Hawaii State Legislature. The Water Commission's general mission is to protect and enhance the water resources of the State of Hawaii through wise and responsible management.

B. Discuss how current state-wide conditions have affected your division's operations and the ability to meet goals. Identify and discuss notable measures, expected outcomes, and recent results.

DLNR Overall:

With a statewide unemployment rate of 2.2%, competition for skilled and unskilled labor has increased. The Department is challenged to find, hire, and retain qualified employees. A number

of recruitments have been stalled due to lack of qualified applicants or due to qualified applicants receiving offers from multiple state agencies. DLNR also notes an increasing number of applicants from out of state for some positions.

Nonetheless, DLNR has focused efforts this year on streamlining and making progress on filling positions. In June DLNR undertook a week-long cross-divisional "kaizen" process engineering review of its recruitment process from the date of notice of a vacancy to the date the position is filled. As a result of this review, DLNR has eliminated duplicate or unnecessary steps, clarified the information necessary at each step to reduce repeat reviews, standardized forms across the department, and reduced delays in interviewing candidates.

DLNR had 215 vacancies as of November 30, 2017, including new FY18 positions. Notably, 54 positions have been filled by promoting from within the Department, which has provided excellent career opportunities for our staff. During the past year (Dec.1 to Nov.30), the Department has filled 70 positions with external hires, and 54 positions with internal promotions, for a total of 124 positions filled, while it lost 90 employees to retirement or other departure plus the 54 to promotion.

Bureau of Conveyances (BOC) LNR 111:

The Bureau of Conveyances' daily operations, revenues and expenses are directly impacted by the volume of recordings which is largely dependent upon real estate market conditions and the overall health of the Hawai'i and national economy.

The Bureau of Conveyances has recorded an annual average of 330,000 documents in the past three fiscal years, a decrease of approximately 7,000 documents from the previous three fiscal years. This can mostly be attributed to the changes in real estate market activities and the timing of recent condominium project completions.

Revenues from document recording fees, certified copies and miscellaneous user fees totaled \$6.11M in Fiscal Year 2017. The increase in revenues was a result of the implementation of our updated Administrative Rule package in the third quarter of fiscal year 2017 which increased recording fees. For Fiscal year 2018, the Bureau of Conveyances is anticipating a slight increase in revenues that will cover all operating expenses based upon current activity projections coupled with the increased recording fee being in effect for the entire year.

Division of Aquatic Resources (DAR) LNR 153, LNR 401, LNR 805:

Over the past several years coral bleaching events have severely impacted insular coral reefs statewide. In response, DAR developed and released a Coral Bleaching Recovery Plan in March 2017. The goal of the plan is to promote coral reef recovery following bleaching events. The plan concluded that establishing a network of permanent no-take marine protected areas as well as a network of herbivore fishery management areas were among highly recommended management

actions to both hopefully lessen the severity of the bleaching event and hasten the recovery of the affected corals. Current projects which are attempting to reduce sediment stress on coral reefs in the west Maui and south Kohala watersheds were also highly recommended.

Although it was not a natural event, the greatest unanticipated impact to the Division of Aquatic Resources was the abolishment of two of the three program managers by the 2017 Legislature. These extremely important managerial positions were eliminated because they remained vacant for several years due to a series of circumstances including a major reorganization, a hiring freeze, and other untoward events. During that period, the program manager positions were always filled on an acting basis because of their critical nature. The loss of these program managers has been devastating to DAR's ability to provide leadership to many of DAR's programs and projects. These include: projects protecting coral reefs and restoring the State's native aquatic biota and ecosystems, which ensures the long-term integrity and viability of Hawaii's freshwater, estuarine, and marine resources; our Statewide Recreational Fishery Program, involving management and oversight of freshwater and marine recreational program activities; planning program development; projects to study recreational fishing practices, manage recreational fisheries, improvement of recreational fishing resources and opportunities; and the establishment of community-based fishing areas. The restoration of the two program manager positions are the Department's top ranked requests in the supplemental budget.

In September 2017, the Hawai'i Supreme Court ruled that commercial aquarium permits are subject to the Hawai'i Environmental Policy Act. This court action ceased the issuance of and renewal of aquarium permits. This action resulted in the immediate and significant decline in the collection and sale of aquarium fish statewide. Dealing with this decision and providing guidance to fishermen and others has required a significant amount of time and effort and has far reaching implications for licensure programs at DAR.

<u>Division of Boating and Ocean Recreation (DOBOR) LNR 801:</u>

Hawai'i's small boat harbors, ramps and other structures supporting boating and ocean recreation are in constant need of repairs and improvements in various locations statewide. The current construction boom has caused the price of labor and materials to increase. This has raised the cost of repair and maintenance and capital improvement projects.

Division of Conservation and Resources Enforcement (DOCARE) LNR 405:

The Division of Conservation and Resources Enforcement currently faces recruitment and retention issues. It plans to run a Conservation Officer training academy, which will train entry level employees to Hawai'i law enforcement standards as well as modern conservation law. This academy will allow the hiring of officers with interest in conservation who currently do not possess the experience necessary to qualify as a lateral hire. This should increase the applicant pool for career conservation enforcement officers and allow DOCARE to fully staff the enforcement division.

DOCARE is also facing direct impacts to its operational budget due to the key role it has played in homeless enforcement activities on lands used by the public including coastal areas, state parks, forest reserves, unencumbered lands, and historic sites like 'lolani Palace. The public, both visitors and residents alike, frequent these areas to experience Hawaii's natural beauty, and this experience may be disrupted by the homeless who occupy these areas.

Enforcement operations in support of clearing and cleanup have affected operational budgets, and recognition of these budget effects is essential. Mitigating the extra time and effort required to conduct operations must be supported. Without additional support for enforcement, the activities surrounding homelessness operations will adversely affect DOCARE's primary mission. Funding will allow DOCARE to increase enforcement efforts on these lands, which help to restore the area's natural beauty and enhance the quality of the visitor experience.

In carrying out DOCARE's mission, a major criticism has been the inability of the public to connect with enforcement personnel in a timely manner. Allied agencies, visitors & residents, and DLNR personnel have difficulty in providing violation information to DOCARE. The reason is that DOCARE has no central dispatch service. Potential legislation has previously requested some sort of call center. In 2017, a text-a-tip line was created, but that information is still required to be forwarded to officers. DOCARE's proposal is to improve operational support by funding the initial efforts toward implementing a centralized call center. The funding for this request will allow DOCARE to increase the efficiency in its response efforts for visitors and residents alike.

DOCARE implemented a grant funded pilot program to assess the effectiveness of dedicated maritime enforcement units. The initial program was allocated twelve (12) temporary positions. The use of specialized units to address boating safety and offshore fishery regulations has been found to be effective and DOCARE has received federal funding to purchase specialized assets for the program. Therefore, it is now necessary to make these positions permanent.

With regards to the Hunter Education Program, payroll is not charged to the subject appropriation (S-344), while program income is deposited into this account and is used to cover the cost of other expenditures. This trade-off request from payroll to other expenditures is necessary to disburse program income in compliance with federal mandates.

Engineering Division (ENG) LNR 141, LNR 810:

Hawaii's improving economy has resulted in a significant number of CIP projects over the past 3 years. Since fiscal year 2016, over \$150 million in CIP funds were appropriated to DLNR. The Engineering Division will implement the majority of these projects for the Department.

Division of Forestry and Wildlife (DOFAW):

The Division of Forestry and Wildlife (DOFAW) directly manages one million acres of Hawai'i's watershed forests and other natural areas - a quarter of all the land in Hawai'i, designated as Forest Reserves, Wildlife Sanctuaries, Natural Area Reserves, and Public Hunting Areas, including habitat for more endangered species than any state in the nation. Through collaborative partnerships, we assist in managing another one million acres of partnership lands that protect Hawaii's natural and cultural lands inventory.

DOFAW's top priority is providing a sustainable water supply for Hawai'i by protecting our watersheds. Support by the Legislature over the years has enabled the Division of Forestry and Wildlife to protect critical native forested watershed lands against damage by feral ungulates and other invasive species. This important work and funding is matched by public and private funding and watershed protection work by federal, county and private partners. The Sustainable Hawai'i Initiative calls for protected management of 30% of Hawai'i's watershed lands by 2030 to protect forests that recharge our freshwater supplies. We are now over halfway to our 2030 goal. Meeting this goal to protect Hawai'i's water supply for the future requires a consistent stream of the necessary capital and operating funds for this critical work.

In addition to state-owned watershed areas, the Watershed Partnership Program manages another one million acres through voluntary alliances of large landowners committed to maintaining their forest lands. 66% of the forest lands in Hawai'i are privately owned, and the State and Private Forestry Program works to provide expertise to private landowners to assure that forest lands remain in forest.

Another top DOFAW priority is to manage wildland fire impacts to natural resources and to the wildland/urban interface. Large wildland fire events are not part of natural Hawaiian landscapes: fires impact public health and safety, damage native ecosystems, lay the ground work for invasive species invasions, and erode watershed function. Recent investments in wildland fire infrastructure and dedicated fire suppression funding has allowed DOFAW to be more effective in their fire-fighting efforts, and improved DOFAW's infrastructure and capacity to manage large emergency management incidents such as floods and hurricanes.

Mitigating climate change is a major focus, with impacts on all our work from forest health, wildland fire, invasive species invasions, and endangered species management. Planning is underway to develop contingencies for climate change adaptation scenarios including sea-level rise, longer drought periods with intermittent extreme rainfall events, and forest health impacts. Adaptive management is needed to prevent endangered species impacts such as endangered forest bird disease spread from warming-induced introduced mosquito range expansion. The Plant Extinction Program has successfully kept native plant species from going extinct under its watch, but reductions in Federal funding in the coming fiscal year may eliminate a majority of the

program's funding, and the work needs to be supported by the State and DOFAW or we will return to the previous average of a plant species going extinct every year.

Forest health is a major challenge, exacerbated by climate change. Invasion of pathogens such as the Rapid 'Ōhi'a Death fungus, Ceratocystis fimbriata, and other ecosystem threats such as Miconia, Coqui frogs, Little Fire ants, and a host of aggressive potential invaders such as the Brown tree snake and biting sand flies, could have devastating effects on our ecosystems and economy. Recent investments in the Hawai'i Invasive Species Committee has been a major contributor to the Division of Forestry and Wildlife's ability to detect, contain and control new species introductions, but addition funds are needed to support the demand for invasive species projects. Ceratocystis detection, response and control is vitally important to protecting 'Ōhi'a trees, the foundation of the Hawaiian native forest. Funding to date has been highly effective in identifying the disease vector, its biology, means of spread, and possible control strategies, but continued effort is needed as the pathogen continues its spread to new areas. The Hawai'i Biosecurity Plan provides a roadmap for minimizing the chances of introduction and spread of invasive species, and money invested in these programs is a hedge against the economic impacts of not taking proactive measures.

Because of the importance of adequately and timely addressing the Rapid 'Ōhi'a Death threat, DLNR recently sought and received Governor Ige's approval to release \$1.2 million in restricted DOFAW funds specifically to address next critical steps in Rapid 'Ōhi'a Death mapping, identification, containment trials, and outreach.

Sustainable management of natural resources impacts all of Hawaii's people. Healthy forests support healthy people, and Division of Forestry and Wildlife maintains hundreds of miles of trails and roads that provide access for recreation, public hunting, education and resource management. DOFAW manages teacher training programs, gets students in the field for education and research projects, supports youth internships that provide pathways for green jobs, and provides volunteer opportunities. The Sustainable Hawai'i Initiative includes goals of doubling food production and reaching 100% renewable energy production, both of which can be provided in part through active forest management. The Urban and Community Forestry program provides opportunities to beautify urban landscapes, improve business sales and public health, increase watershed function, combat climate change impacts, and produce locally-grown food. Forests can provide energy by producing biomass for energy production, and reduce energy needs by reducing the urban heat-island effect, and cooling schools, homes and businesses through passive cooling via shade trees.

DOFAW is also working to align our resource management programs with values consistent with native Hawaiian resource management principles. Collaborations with Hawaiian practitioners provide natural resource managers access to traditional knowledge, and reconnects Hawaiian people with the land.

To maintain the efforts described above to protect our cultural and natural resources, it is essential that budgetary support continue at current levels.

State Historic Preservation Division (SHPD) LNR 802:

Although Hawaii's major economic indicators were mostly positive In FY 17, the construction sector continued to show signs of slowing down as the government contracts awarded and the permit value for private construction decreased. As a result, fee revenue decreased from at \$73,827 in FY 16 compared to \$48,844 in FY 17 due to a reduction in the number of project submittals and permits submitted to the State Historic Preservation Division for review and comment.

Land Division (LNR 101):

Current state-wide conditions have not had a significant impact on the Land Division's operations this year. Land Division-managed revenues have been stable.

The Land Division administers the Special Land and Development fund (SLDF). In the fiscal year ending on June 30, 2017, Land Division generated about \$13.4 million in revenues for the SLDF, and expended about \$6.6 million, with encumbrances of another \$3.0 million dollars. The Land Division transferred a net amount of about \$3.6 million dollars to divisions and programs within the Department. The Land Division also generated about \$5.4 million in Public Land Trust revenues of which \$2.38 million was paid to OHA, and \$3.15 deposited into the public land trust account.

In fiscal year ending on June 30, 2017, the Land Division had issued 82 dispositions involving permits, leases, easements and set asides to other federal, state and county agencies.

The Land Division participated in the Hawai'i Interagency Council for Transit Oriented Development and is in the pre-planning stage for the development of lands in East Kapolei and Pulehunui, Maui. The Land Division is also evaluating options for the redevelopment of certain aging buildings on Banyan Drive in Hilo. The Land Division participated in a trial involving an accretion/takings claim filed against the State by certain Portlock residents.

Legacy Land Conservation Program (LLCP) LNR 101:

In FY17, the Legacy Land Conservation Program—supported by the Land Conservation Fund and the Legacy Land Conservation Commission—completed a rigorous public process that culminated in approval from the Board of Land and Natural Resources to award grant funding for three land acquisitions that are expected to protect 6,685 acres of land having resource value to the State. The LLCP also provided for payment of debt service on the Turtle Bay reimbursable general obligation bonds. In FY18, the LLCP received eight applications for land acquisition grants,

totaling 7,616 more acres of land, along with an application for further payment of debt service on the Turtle Bay reimbursable general obligation bonds.

Recently completed Legacy Land Conservation transactions at Ka Iwi Coast Mauka Lands (Koʻolaupoko, Oʻahu) and Kānewai Spring, (Kona, Oʻahu) resulted in the protection of 182 acres for public purposes that include the preservation of: watershed protection; coastal areas, beaches, and ocean access; habitat protection; cultural and historical sites; recreational areas; parks; natural areas; and open spaces and scenic resources. About fifteen additional Legacy Land Conservation transactions are expected to close by the end of FY19, along with ongoing annual payment of debt service on the Turtle Bay reimbursable general obligation bonds.

Office of Conservation and Coastal Lands (OCCL) LNR 101:

The Office of Conservation and Coastal Lands (OCCL) is administratively attached to the Office of the Chairperson. It is the mission and goal of OCCL to protect and conserve conservation district lands and beaches within the State of Hawai'i for the benefit of present and future generations, pursuant to Article XI, Section 1, of the Hawai'i State Constitution. These lands encompass our State's terrestrial and marine environments, with special emphasis on coastal areas and beaches. The regulatory functions of OCCL commonly intersect with federal regulatory efforts involving State submerged land and County authorities, where conservation district lands and special management areas intersect. In fact, OCCL should be viewed a planning department with functions and responsibilities similar to the County Planning Departments, but with a much larger geographic scope.

OCCL oversees and regulates uses on private and public lands in the conservation district:

- 2-million acres of conservation lands process land use permits and enforce land use laws in the State land use conservation district.
- Oversee 750-miles of general coastline 43rd among the 50 states in land area 4th longest general coastline.
- Regulate beach and marine lands out to the seaward extent of the State's jurisdiction.
- Facilitate and manage beach restoration projects in Hawai'i.
- Coordinate and manage chronic and episodic coastal erosion issues throughout the State.
- Coordinate the State of Hawai'i Climate Change Mitigation and Adaptation Commission.

OCCL is successful in effectively carrying out its functions because it is continually evaluating and streamlining the way it operates. One example of this is the Loko I'a Project in which OCCL is developed a process with the Army Corps of Engineers along with other federal and state agencies, and the legislature, to streamline the permit process for the restoration and repair of Hawaiian fishponds. Many Loko I'a restoration projects are currently underway due to this innovative program.

A current project involves a permit streamlining effort (similar to the Loko I'a Project) for small scale beach restoration projects by developing a programmatic statewide environmental document to be used by regulatory agencies to provide faster permitting timeframes for sand restoration on critically eroded beaches.

A critical effort by OCCL is the implementation of the Hawai'i Climate Change Mitigation and Adaptation Initiative Act (Act 32, 2017). The purpose of Act 32 is to facilitate carbon emissions reductions in Hawai'i and to address the effects of climate change to protect the State's economy, health, environment, and way of life. Act 32 addresses climate change by establishing the Hawai'i Climate Change Mitigation and Adaptation Commission (Climate Commission) under the Hawai'i Department of Land and Natural Resources (DLNR) to initially develop a Sea Level Rise Vulnerability and Adaptation Report (SLR Report) that addresses sea level rise impacts statewide. The DLNR has the responsibility for coordinating the Climate Commission, and must hire a Climate Change Mitigation and Adaptation Coordinator. The Sea Level Rise Vulnerability and Adaptation Report has been completed.

The OCCL is engaged in major beach management and restoration efforts Statewide, under prior appropriations. An environmental impact statement (EIS) has been initiated to restore sand at Ka'anapali Beach. Permitting and environmental review has been completed for a project to replace the Royal Hawaiian Groin at Waikīkī Beach. Under a prior appropriation, and using TAT funds, the OCCL is developing a Feasibility Study and an Environmental Impact Statement for beach improvements at Waikīkī.

Division of State Parks (State Parks) LNR 806:

The Division of State Parks (State Parks) is focusing on 3 critical objectives:

- maintain and improve public safety and management through additional and continuation of service and infrastructure/resource modification, repair and construction,
- 2) maintain and increase revenue production through capital projects to enhance economic value, and
- 3) prevent the loss of historic resources through preservation actions that upon completion will also allow for increased public private partnerships for enhanced management and interpretation.

Ever-increasing numbers of visitors to the islands drawn by Hawai'i's iconic landscapes, and social media driving illegal, unpermitted and unsafe behaviors in our natural areas, add unprecedented pressure to our natural resources and our state parks infrastructure.

At the same time, several years of continuing focused and coordinated enforcement and cleanup efforts among State Parks, DOCARE and DLNR Communications at Kalalau Valley in Nā Pali Coast State Wilderness Park demonstrate that with adequate resources and will, we can protect Hawai'i's jewels for visitors and residents alike. Kalalau is free of many tons of trash and dozens of illegal campsites, over 200 citations for illegal camping have been issued, and campers state Kalalau Valley hasn't looked this good in decades. However, this remote wilderness park and camping area has no dedicated staff on site. Until it does, enforcement of illegal camping and behavior will be an ongoing, expensive, time-consuming and difficult challenge.

Recently concluded negotiations for lifeguard pay have driven salary costs significantly beyond budgeted amounts. The County of Hawai'i and City & County of Honolulu are currently special funded, while Maui County and Kaua'i County lifeguards are general funded. Increase amounts are \$449,591 for the County of Maui (Makena) and \$87,228 for the County of Kaua'i (Ke'e). Last year's flash flood damage at 'Iao Valley State Monument and the resulting closure during repair and reconstruction significantly decreased revenue to the State Parks special fund. State Parks continuously fills virtually all of the vacancies associated with our General and Special funded positions and as of December 2017, there is currently one vacancy. State Parks considers the positions high priority in order to:

- protect valuable natural and cultural resources,
- enhance public recreational safety and management,
- improve upon the park experience for both resident and the growing numbers of out of state visitors,
- reduce overall operational costs by ensuring public compliance on permitted access.

State Parks is working to establish a sustainable base budget for quality core operations and to meet increasing costs associated with payroll obligations derived from the State Parks' special fund. Due to the impacts of tourism on parks Statewide, the two million dollars of Transient Accommodations Tax that is derived from the three million dollars in TAT allocated to DLNR is essential for formulating a DSP base budget in addition to the current general fund allocation (G17-086 Appropriation: \$5,313,044.00), as Special fund income may fluctuate (as demonstrated by the 'lao Valley State Monument closure and subsequent loss of revenue generating capacity).

Commission on Water Resource Management (CWRM) LNR 404:

The current level of resources has enabled the Commission on Water Resource Management to meet the following performance measures:

- Improve water use reporting compliance statewide –16% increase since 2010.
- Increase education and community participation in water forums: conducted public factgathering meetings for four Southwest Maui streams (Ukumehame, Olowalu, Launiupoko, and Kaua'ula) as part of the process to set quantifiable instream flow

- standards; and conducted site visits and individualized training with over 100 well owners/operators on O'ahu in an effort to increase water use reporting compliance.
- Increased stream diversion and stream flow monitoring by establishing 25 new gaging stations on Kaua'i, Maui, and Moloka'i.
- Constructed a new deep monitor well and a new basal water level monitoring well in Kona, Hawai'i to better inform our understanding of the area hydrogeology.
- Successfully resolved a petition to restore flows in Waimea Stream on Kaua'i using meditative dispute resolution.
- Resolved a petition to designate the Keauhou Aquifer System Area in West Hawai'i as a water management area by establishing adaptive management principles and strategies.
- Participated in the completion and adoption of updated Hawai'i Water Plan components: State Water Projects Plan and North Shore Watershed Management Plans.
- Updated the 2005 Hawai'i Drought Plan.
- Completed a water-energy nexus study for water, wastewater, and energy utilities to inform water and energy conservation potential.
- Began a statewide program of water loss audits and technical assistance for drinking water systems which will lead to increased water conservation.

There is much more work to be done. Future activities and expected outcomes include resolving pending petitions and water disputes in East Maui, Na Wai 'Ehā (West Maui), and Kualapu'u (Moloka'i); updating the Commission's Water Resource Protection Plan and other components of the Hawai'i Water Plan; completing the estimation of low flow characteristics for un-gauged streams statewide (StreamStats); monitoring and enforcing established interim instream flow standards; analyzing the current hydrologic monitoring network for gaps and redundancies; evaluating the hydrologic response and ground water recharge potential of native versus non-native vegetation; and drilling new deep monitor wells in aquifers threatened by existing or planned future withdrawals.

C. Federal Funds: Identify programs that have lost or are at risk of losing federal grants and provide the following:

- Federal Award Title:
- CFDA Number:
- Discuss the impact to the public and your planned response, including efforts to supplant any federal fund reductions for the current year (FY18) and upcoming fiscal year (FY19) with other funds.

<u>Administration:</u> Not Applicable.

Bureau of Conveyances: Not Applicable.

Division of Aquatic Resources:

Federal Award Title: Monk Seals & Seal Turtles Management

CFDA Number: 11.472

Loss of this grant will result in the termination of three civil service employees and three contract hires working on this project unless a new award is granted next fiscal year. Fortunately, the project had enough unspent grant funds to continue to support one of the three civil service staff for another year. DAR used another grant to partially fund another position, but we did not have enough funds to support the third position, which is currently unfilled. In addition, DAR utilized end-of-year general fund savings to continued funding the three contract hires until the end of this fiscal year. A new grant application has been submitted to continue supporting these important positions next fiscal year (FY 19).

Division of Boating and Ocean Recreation: Not Applicable.

<u>Division of Conservation and Resource Enforcement:</u> Not Applicable.

Engineering:

Federal Award Title: Community Assistance Program-State Support Services Element (CAP-SSSE) and Cooperating Technical Partners (CTP). CFDA Number: 97.023 and 97.045

Due to recent events and the change in the federal administration, there is uncertainty of the availability and level of FEMA federal funds which currently fund 50% of the State National Flood Insurance Program (NFIP) coordinator position. The loss of this position would critically impact the state and each county who participates in the NFIP. The loss of the availability of federal flood insurance and disaster assistance would be devastating to individuals, businesses and the State's economy in the event of a major flood disaster. In response to this potential loss of federal funds, the program requests the conversion of 0.5 FTE from MOF P to MOF B.

Division of Forestry and Wildlife: Not Applicable.

State Historic Preservation Division:

The State Historic Preservation Division continues to acknowledge full responsibility for its activities and is working hard at demonstrating its capacity to carry out the Federally-mandated functions of a State Historic Preservation Office under the National Park Service (NPS), Corrective Action Plan II (CAP II). It has worked at meeting its obligations under the National Historic Preservation Act (NHPA) in order to avoid the loss of grant funds and the removal of Hawaii's approved program status that would negatively impact the economy of the State. As a result, SHPD has completed several segments of a phased implementation of

the last element of the NPS Corrective Action Plans II. It has initiated the digitizing of reports and correspondence into its DocuShare application and is now preparing the RFP for the development and installation of a new Integrated Information Management System (IIMS) with the partial funding received from the 2017 legislature. The completion and installation of the new Integrated Information Management System will allow the National Park Service to release the State Historic Preservation Division from the "high risk" status and supplant any federal fund reductions in FY 17, FY 18, and FY 19.

<u>Land Division LNR 101:</u> Not Applicable.

Legacy Land Conservation Program (LLCP) LNR 101:

Federal competitive grants for land acquisition can provide up to 75 percent of acquisition costs, including advance funding for appraisal and other real property due diligence. Federal Award programs utilized include:

- Coastal Wetlands Planning, Protection and Restoration, CDFA 15.614
- Section 6 Cooperative Endangered Species Fund, CDFA 15.615 (Recovery Land Acquisition and Habitat Conservation Plan Land Acquisition)
- National Wetlands Conservation, CDFA 15.623

Potential reductions in federal funding would make the federal grant programs more competitive, and could result in fewer federal awards and less federal funding for acquiring protected areas in Hawai'i. LLCP applications that utilize federal grants for matching funds could become less competitive due to weaker financial leverage. Given the limited funding and heavy competition for LLCP awards, it would be extremely challenging to supplant federal funds with increased funding from other sources that already provide substantial non-federal cost shares, including State CIP, State Land Conservation Fund, and funds arising from partnerships with private landowners, counties, and local land trusts. A recent slowdown in decisions and deliveries along the federal funding pipeline is negatively affecting some pending LLCP transactions.

Office of Conservation and Coastal Lands (OCCL) LNR 101: None.

State Parks: Not Applicable.

<u>Commission on Water Resource Management:</u> Not Applicable.

D. Non-General Fund web link:

http://dlnr.hawaii.gov/reports/reports-to-the-legislature/2018-reports-to-the-legislature/

E. Explain the process used to develop the agency's budget and prioritize requests for budget changes.

DLNR prioritizes projects and programs based on public safety, compliance, and public trust resource protection. Implementation of the *Sustainable Hawai'i Initiative* is the core focus for DLNR's forest, marine and invasive species work, as well as DLNR support for local food production and renewable energy.

Under that framework, each DLNR division undergoes its own budget review and prioritization in accordance with statutory mandates that guide its vision, mission, goals and objectives to manage resources for the benefit of the public and to protect the resources and the public. Implementation plans are also established which outline short-term benchmarks and deliverables towards long-term targets.

These results are combined into an overall DLNR budget review and prioritization. The programs consider the major initiatives in progress and planned for upcoming budget cycles and prepare requests for operational and capital funding to support the initiation and/or sustenance of those initiatives and core programs.

Requests are prioritized by considering the scope of potential impacts in serving the citizens of the State of Hawai'i and what potential risks and delays may result in not receiving funds by certain time periods and what alternatives are available.

For revenue generating divisions, management teams review expected revenues and needs to establish a sustainable base budget for operations. They assess needs for special fund ceiling requests. Priorities are established to meet minimum standards of operation, including salaries and the fringe benefit assessment, IT system and hardware maintenance and replacement, and preservation of records expenses.

F. Identify and discuss <u>significant</u> adjustments contained in the budget request submitted to the legislature. Explain and quantify how significant request for additional funds are expected to affect outcomes.

Administration:

Operating budget requests:

DLNR requests general funds to re-establish Accountant IV position to replace position abolished by Act 49, SLH 2017. The reduction of the Accountant IV position in Administrative Services Office has had a significant impact to the Department. The current staffing level is inadequate to meet the current demands for fiscal management support services. This position is an integral part of the Department's fiscal Office and is essential to effectively

carryout the increasing quantity and complexity of Department's fiscal management needs. Restoring this position would avoid critical delays in the fiscal operation. Extended deadlines, reduced work completion, quality decline, and stress and frustration (employee welfare) are just a few of the effects the Department is currently experiencing of not having enough workforce. Approval of this position would ensure that the Department would be spending less money on average and improve the overall productivity.

DLNR also requests Special Land Development Funds (SLDF) special funds (with ceiling increase) for a new Accountant IV position to adequately monitor, manage, and effectively assist other programs and the department as a whole. It is critical to have a new Accountant position to keep up with the tremendous amount of workload in recording and reporting the revenues, processing all expenditures including payroll, processing budget requirements and meeting various internal and external deadlines. It will be more cost-effective to hire an additional staff member at regular time than to pay existing staff excessive overtime. Approval of this position would ensure that the Department would be spending less money on average and improve the overall productivity.

Bureau of Conveyances (BOC):

Operating Budget Request:

The Bureau of Conveyances is requesting an additional \$350,000 ceiling increase in FY19, to continue our efforts with the digitization, preservation and access to the public land records and to improve and preserve the physical records and facility as a business/cultural resource. These expenditures will increase accessibility to our records and increase efficiencies by automating public access. The conversion to, enhancement and automation of the digital images of our recorded documents will also allow the Bureau to deliver our services for a fee to anyone who has web access.

The net outcome of this funding and anticipated future phases of this project to be funded will be the timely protection, preservation and accessibility of all land records and maps that are vital to commerce and the economy of Hawai'i.

Division of Aquatic Resources (DAR):

Operating budget requests:

The Division of Aquatic Resources is requesting the following:

 \$46,050 in general funds to restore the LNR 401 Ecosystem Protection & Restoration Program Manager position that was abolished by Act 49, SLH 2017. This critical position is responsible for the management of DAR's largest program involving numerous environmental projects impacting the protection and restoration of native aquatic species and ecosystems.

- 2) \$46, 050 in general funds to restore the LNR 805 District Resources Management Program Manager position that was abolished by Act 49, SLH 2017. This vital position is responsible for effective management of aquatic resources of each county and the administrative services of the Division of Aquatic Resources.
- 3) \$117,475 in special funds from the Department's Special Land and Development Fund for three Aquatic Biologist III positions in LNR 805 as marine monitoring coordinators for Hawai'i Island (Kona), Maui & Kaua'i. The Sustainable Hawai'i Initiative to effectively manage 30% of the state nearshore aquatic resources by 2030 (30 x 30 initiative) implicitly requires that the effectiveness of existing and new management measures be monitored statewide.
- 4) Requesting a change in method of funding (MOF) of \$85,363 in federal funds from "P" to "N" funds due a lack of "P" funds for an existing education Specialist IV position (#116575).
- 5) \$39,158 in special funds from the Department's Special Land and Development Fund to add a Program Specialist III position for a Geographic Information Systems (GIS) specialist to perform computerized mapping and graphs pf aquatic resources statewide. The Governor's initiative to effectively manage 30% of the state nearshore aquatic resources by 2030 requires geospatial modeling and analysis and, ultimately, the development of maps of fisheries management areas statewide.
- 6) A change in method of funding (MOF) of \$82,099 in federal funds from "P" to "N" funds due a lack of "P" funds for an existing Sanctuary Programs & Operations Coordinator position (#113267) to hire an Aquatic Biologist for a fish tagging project.
- 7) A change in method of funding (MOF) in federal funds from "P" (\$93,352) to "B" (\$95,386) funds from the Department's Special Land and Development Fund (with ceiling increase) due a lack of "P" funds for an existing Monument Research Coordinator position (#119160) to hire a Program Specialist V position as a biostatistician to perform the analysis of fisheries data sets. The Governor's initiative to effectively manage 30% of the state nearshore aquatic resources by 2030 requires a biostatistician to perform complex analysis of fisheries management data to better understand our aquatic resources for management purposes.

Capital Improvement Project Budget Request:

The Division of Aquatic Resources is requesting \$350,000 in CIP funds for a new sewer line connection for two existing restrooms at the Ānuenue Fisheries Research Center on Sand Island. The two existing restrooms are currently connected to a cesspool which is reaching its capacity due to use by approximately 30 staff at AFRC and visitors. This is a compliance issue with potential of leaching/polluting the nearby coastline.

Division of Boating and Ocean Recreation (DOBOR):

Capital Improvement Project Budget Requests

The Division of Boating and Ocean Recreation is requesting \$750,000 in CIP funds for fendering at the Wailoa Small Boat harbor. The fendering is necessary to address a public safety issue. The fendering has been needed to be replaced for at least a decade and DOBOR will need to close the affected slips to protect vessel owners, the general public, and the State. This would decrease the amount of funding received to maintain and repair the harbor facilities and also limit the number of slips available to the boaters of East Hawaii.

<u>Division of Conservation and Resources Enforcement (DOCARE) LNR 405:</u>

Operating Budget Requests:

The Division of Conservation and Resources Enforcement is requesting the following:

- \$500,000 in general funds to establish DOCARE training academy to train newly hired officers throughout the State of Hawai'i: 2 new positions, \$44,928; Other Expenses: \$317,000; Equipment: \$89,000; Motor Vehicles: \$50,000.

 Currently, DOCARE lacks a centralized training venue to conduct both new hire recruit level training and in-service training for employees. As a result, there is no common core of knowledge, and employees have varying degrees of training depending on past law enforcement employment. This request would create a Training Academy by establishing positions to operate and manage training and provide instruction. It would also fund necessary equipment, motor vehicles and other expenses to support the DOCARE Training Academy.
- \$330,000 from Transient Accommodations Tax funds appropriation to fund homelessness enforcement statewide: Overtime and other payroll costs: \$330,000. Enforcement operations in support of the clearing and clean up relating to homelessness have adversely impacted DOCARE's operational budget. Without additional support for enforcement, the activities surrounding homeless enforcement will adversely affect the Division of Conservation and Resource Enforcement's primary mission. This request will allow DOCARE to increase enforcement efforts on lands the Department manages, which will help to restore the area's natural beauty and enhance the visitor experience in these areas. DOCARE will use special funds from its TAT appropriation to cover overtime and other payroll costs that are inevitable with additional homeless enforcement operations.

- \$84,816 from Transient Accommodations Tax funds appropriation to fund initial efforts to establish DOCARE Dispatch Center: 2 new positions, \$84,416. DOCARE has been criticized for its inability to timely connect the public with Enforcement personnel. This is due to not having a Statewide Dispatch Center. This request establishes a Statewide Dispatch Center by creating three (3) Clerk Dispatcher positions to provide telephone call servicing, radio dispatch and response coordination. Due to a large volume of calls originating in areas of high visitor use statewide, the DOCARE will use special funds from its TAT appropriation to cover the initial personal expenses of the requested positions.
- Trade-off personal services (-\$32,671) for other operating expenditures (\$32,671) for Hunter Education Program appropriation.
 Payroll is not charged to the subject appropriation (S-344), while program income is deposited into this account and is used to cover the cost of other expenditures. This trade-off is necessary to disburse program income in compliance with federal mandates.

Engineering (ENG):

Operating Budget Request:

The Engineering Division is requesting in LNR 810 the conversion of 0.5 FTE position for the State National Flood Insurance Program Coordinator from federal (MOF P) to special (MOF B) funds (see Part C above).

Capital Improvement Project Budget Requests:

The Engineering Division is requesting:

- (1) \$3,000,000 (MOF C) for Rockfall and Flood Mitigation, Statewide (LNR 141) to address potentially hazardous flooding or rockfall hazards/conditions on DLNR lands or where conditions on certain state-owned lands may impact homes or property on adjacent parcels, and
- (2) \$120,000 (MOF C) for Kaua'i Baseyard Improvements, Kaua'i (LNR 906) to cost share needed facility improvements with the Department of Accounting and General Services. The project is to repair and improve the damaged shared driveway at the Kaua'i (Līhu'e) baseyard that provides access to DLNR's DOFAW and DOCARE divisions, and DAGS-managed facilities for the Departments of Agriculture and Health. DAGS has requested that DLNR cost-share in these improvements which will benefit both departments.

Division of Forestry and Wildlife (DOFAW):

The Division of Forestry and Wildlife is requesting the following:

LNR 172

Operating Budget Requests:

- Re-establish (restore) position for Forestry and Wildlife Technician, SR13, O'ahu (ReplacePosition#112449, Forestry and Wildlife Technician IV abolished by Act 49, SLH 2017), (A). This position is dedicated to combating invasive species in public forest reserves. Position is responsible for early detection and response to invasive species threats to native resources and watersheds, which is critical to the state's biosecurity.
- Decrease funds in other operating expenditure to establish and fund 6 new positions Statewide (Forestry and Wildlife Technician IV, SR 13 (4), Maui; Forester III, SR 20 (2), Admin), (A). These six functions are currently served by employees of the University of Hawai'i RCUH Pacific Cooperative Studies Unit under contract with DLNR. They have been identified as having duties similar to civil servant employees. Thus these positions should be converted to civil servant positions to continue their important work in controlling invasive species, tree planting in degraded areas, and supporting the management of the Hawai'i Forest Reserve System.
- (A): Convert 7 positions from Temporary Permanent, to Position#112450, #112451,#112452,#118602,#118680,#119025,#118078 These positions should be made permanent in order to retain adequate staffing to ensure continued conservation actions in the Department's forest reserves, natural areas, watersheds, and for the protection of threatened and endangered species
- Federal Fund Ceiling Adjustment, (P) increase by \$530,000 to reflect anticipated federal grant awards. Additional Federal funds were gained from the U.S. Department of Agriculture Forest Service for various projects.

Capital Improvement Project Budget Requests:

- Hazardous Tree Mitigation, Statewide Contract tree removal services from professional arborists to mitigate hazardous trees. Trees may fall and injure or kill adjacent landowners or the public while recreating in Department managed lands.
- Honua'ula Forest Reserve Fencing and Reforestation DOFAW is actively removing feral cattle from Honua'ula Forest Reserve which is the Department of Water Supply's Priority 1 Watershed for Hawai'i Island serving Kailua-Kona. It is critical to

exclude all domestic cattle from entering the forest and becoming feral. Feral cattle from the forest reserve have severely damaged the existing fence that keeps the domestic cattle from entering the forest.

- Request for Pūa'ahala Ahupua'a, Moloka'i Management Plan, Moloka'i Ahupua'a of Pūa'ahala spans from the summit to the sea and includes pristine watersheds, endangered species, coastal wetlands, and lowland dry and mesic habitats; habitats are currently threatened by invasive species and feral ungulates. A management plan is needed to engage community participation, determine appropriate actions, guide management, and communicate goals and objectives to the public. Through this planning process the community can help the Department in determining the appropriate management and use of this potential new forest reserve
- Request for Pu'u 'Ō'ō saddle house repairs, Hawai'i Island The Pu'u 'Ō'ō cabin area is used for public outreach events. The cabin is used for staff and volunteers to overnight for natural resource work. The cabin is in severe need of repairs.

LNR 402

Operating Budget Requests:

- Re-establish (restore) position for Forester IV, SR 22, O'ahu (Replace Position#118677, Forester IV abolished by Act 49, SLH 2017), (A)- This position is vital for emergency response especially in light of anticipated increases in fire frequency and damage due to climate change.
- Add funds for Fire Protection Program (A) DOFAW is the primary responder for wildland fires occurring across 1M acres of forested watershed or over 25% of the land area in the state, and co-responds with federal and county agencies for an additional 30% of the state. The requested amount is based on analysis of recent costs for controlling wildland fires in Hawai'i, which are trending upward with climate change and other factors.
- Convert 2 positions from Temporary to Permanent, (A):
 Equipment Operator II, Position#118405, BC 06, Forestry and Wildlife Worker III, Position#118857, WS05, (A) These positions should be made permanent in order to retain adequate staffing to ensure continued conservation actions in natural areas, watersheds, and to protect threatened and endangered species.

Capital Improvement Project (CIP) Budget Requests:

• Radio repeater and base station communications upgrades, Kaua'i

Repairs to 3 existing broken repeaters and the District Baseyard's base station are needed to enable basic communications across the island. Without line of sight, we are not able to communicate unless we can bounce a signal off of Mt. Ka'ala on O'ahu. This is a safety issue for all staff and visitors enjoying the forests across Kaua'i.

- Remote predator trap sensors, Kaua'i Remote predator trap sensor equipment
 will be purchased for use in the field Many areas where predators pose the
 greatest threat to Kauai's native and endangered species are VERY remote. This
 equipment will greatly increase the efficiency and response time and reduce the
 cost of predator control in these places, potentially reducing labor costs by 50-75
- Nēnē Sanctuary Development, Wailua, Kaua'i Three fences around 3 separate but nearby small parcels in the Wailua State Park area will be converted into nēneē Sanctuaries. Some earth work will be done to contain the water that pools there after rains.
- Waimea, Hawai'i Island, Base Yard Office Planning, Design and Construction The administrative operations are currently being done out of a small house that
 was built in 1966 on the state property in Waimea, Hawai'i Island. Due to the age
 and size of the building there is not enough room for staff, file storage or sufficient
 space for public information displays.
- O'ahu Baseyard Improvements Implementation of second phase of O'ahu baseyard planning. Baseyard facilities are in need of upgrades, replacement and repair. Infrastructure needs include upgrading plumbing and electrical systems, paving, and drainage and water detention. Structures need safety upgrades or replacement, depending on structural assessments.

LNR 407

Operating Budget Requests:

• Re-establish (restore) 2 Natural Area Reserve Specialist IV Positions, SR 22 for Kaua'i and Hawai'i (Replace 2 positions NAR Specialist IV Position#118286 and #121788, abolished by Act 49, SLH 2017) (A) These positions perform core programmatic functions best served by state civil service positions because the duties are necessary for long-term maintenance and protection of natural areas, watersheds, and threatened and endangered species, and are core to the department's mission. These positions provide critical roles for both watershed and forest protection, as well as public health and safety through wildland firefighting and emergency response.

- Decrease funds from other operating to establish and fund 5 positions Statewide (Natural Area Reserve Specialist IV, SR 22 (2), Hawai'i & O'ahu; Forestry and Wildlife Technician IV, SR13 (2), Kaua'i; Forestry and Wildlife Worker II, BC05, O'ahu),(A) These five functions are currently filled by employees of the University of Hawai'i RCUH Pacific Cooperative Studies Unit under contract with DLNR. These core positions are conducting duties fundamental to the department's mission, including long- term maintenance and protection of natural areas, watersheds, and threatened and endangered species.
- Convert 16 positions from Temporary to Permanent (A): Position#117018, #118261, #118274, 118275, #118276, #118277, #118284, #118285, #118287, #118288, #118289, #118290, #118291, #118337, #118338, #121616 These positions should be made permanent in order to retain adequate staffing to ensure continued conservation actions in natural areas, watersheds, and for the protection of threatened and endangered species
- Add funds (\$500,0000) for Native Ecosystem Recovery from State Special Fund,
 (B)
 - This request implements the State's goal to protect Hawaii's rare plants and native ecosystems, as well as protect priority watershed forests. Invasive plants and animals are the biggest threats to the health of Hawaii's native ecosystems. As additional capital improvement project fences are constructed, animal removal within these fenced areas is needed. There have been over 40,000 acres of new fenced watershed areas in the last five years. Once that phase of management is completed, maintenance of the area through invasive weed control is needed.
- Decrease funds from other operating to establish and fund 1 position for Hawai'i Island (Staff Services Supervisor III, SR 18) (A) The Hawai'i Island district is unique as it contains two offices (Kamuela and Hilo) separated by a two hour drive, and 75% more positions than any other branch. A supervisor is needed to oversee the clerical, personnel, fiscal, procurement, and other administrative needs for the entire branch across the various offices.
- Request for full year funding for 5 positions (Natural Area Reserve Spec. IV(2), Position#122487 & 91519C; Forestry and Wildlife Worker II (2), Position#122327 & 122434; Account Clerk III, 91525C). Full-year funding is needed for these fulltime positions. Funding was only allocated for half a year for these positions for the first year, and now that they are being filled, a full year's worth of funding is requested. These positions are necessary for on-going maintenance, management, and protection of Hawaii's forests, watersheds, natural resources and those people that depend on them.

Capital Improvement Project (CIP) budget requests:

- Watershed Protection and Initiatives, Statewide from State Special Fund (B) This is the number one CIP request for the Department. Hawaii's main source of fresh water – forests – is degrading from non-native hooved animals like goats, sheep, cattle, pigs, and deer. Immediate action is needed to secure Hawaii's water supply. Hotter, drier conditions and damaged watersheds are escalating the costs and conflicts over water. Current drought conditions and declining water supplies experienced across the state will only worsen with the coming climate change problems. Protecting forests reduces erosion and runoff that is a major threat to reef health. In addition, Hawai'i has about a third of the endangered species in the nation, with many on the brink of extinction. This project will secure habitat for dozens of these highly endangered plants and wildlife. This project focuses on the first step of long-term watershed protection fencing. Fences are the best way to protect these watershed forests by eliminating damage from pigs, deer, and goats found in 15 priority sites across the state, totaling over 18,923 acres. Left unchecked, these animals will significantly degrade the native ecosystem through browsing, digging, and rooting. This creates bare ground and openings for invasive plants to grow and rainfall to wash away the sediment and impairing watershed function.
- Waiawa Forest Reserve Source-Water Protection Project, O'ahu
 This project protects a priority water supply for the Waiawa, O'ahu region by
 fencing 1,400 acres. Feral pigs are devouring and trampling this forest, causing
 erosion and polluting and reducing water supplies for the Pearl Harbor aquifer,
 which supplies over half of the municipal water on O'ahu.
- Kīpahoehoe Natural Area Reserve Mauka Boundary Fencing, Hawai'i Island
 This fence will keep out cattle, sheep, pigs, and goats from 2,655 acres in the
 Kīpahoehoe Natural Area Reserve, Hawai'i Island. Non-native hooved animals are
 devouring and trampling this forest, which is one of the most intact mesic forests
 on Hawai'i Island. These hooved animals are leading certain species to extinction,
 including multiple plants
- 'Āhihi-Kīna'u Parking Fee Collection Facility, Maui
 Purchase of equipment: an automated self-service parking machine at 'Āhihi-Kīna'u Natural Area Reserve, Maui. This is the most cost efficient way to keep the parking fees generated at 'Āhihi-Kīna'u Natural Area Reserve. This will significantly reduce overhead costs from contracting a concession to collect parking fees. Similar machines have been used in other areas and have resulted in impressive cost-savings and efficiency.

- Kapu'a Feasibility Study, Hawai'i Island
 This feasibility study will determine options for improved management and potential acquisition of this large and culturally important coastal wilderness area in South Kona, Hawai'i Island.
- Honopū Awa'awapuhi exclosures, Kaua'i
 Non-native hooved animals are devouring and trampling this forest, which is the
 most intact mesic forest region of Kaua'i. These hooved animals are leading
 certain species to extinction, including multiple plants as well as rare seabirds. Pigs
 will also eat ground-nesting birds. The fence that will keep out deer, pigs, and
 goats from 452 acres in the Kōke'e region of Kaua'i.

LNR 804

Operating Budget Requests:

Convert 4 positions (total 3.0 FTE) from Temporary to Permanent: Position#13312 (1.00 FTE), #13357 (.50 FTE), #117828 (.50 FTE), 120328 (1.00 FTE) (W)
 These positions should be made permanent in order to retain adequate staffing to ensure continued conservation actions in the Department's forest reserves, natural areas, watersheds, for the protection of threatened and endangered species, and maintain and support access and infrastructure for public recreational activities.

Capital Improvement Project (CIP) budget requests:

- North Kona Game Mammal Management Habitat Conservation Plan, Hawai'i Island
 - DOFAW continues to work to ensure both appropriate designation of forest lands in protected areas such as Natural Area Reserves, Sanctuaries or other ecosystem protection, and public recreation areas such as hunting or hiking. This project will allow for recreational opportunities such as game mammal hunting where compatible with important natural resource protection.
- Pololū Valley parking, restroom construction and trailhead improvements, Pololū land acquisition for parking, Hawai'i Island Working with community, neighboring landowner Surety Kohala Corporation to provide a better experience for locals and visitors alike. Increased traffic congestion, inadequate parking, no restrooms, user impacts increasing health and safety concerns. Providing safe and accessible parking for over 50 cars daily while reducing hazardous/illegally parked cars along Akonipule Highway and neighboring driveways. Providing sanitary restroom facilities for over 150 daily users while eliminating defecation around resources and community.

Kanaio Game Management Area Fences, Maui
 The Kanaio Game Management Area is in planning to provide more than 8,000 acres of new public hunting opportunities on Maui. Portions of the area contain sensitive biological and cultural resources, including endangered plant species.
 Ungulate control fences are integral to the management plan to ensure protection and mitigation of impacts of feral animals on those trust resources.

State Historic Preservation Division:

Operating Budget Request:

The State Historic Preservation Division is requesting \$450,000 in funding to supplement the next phase in the development and installation of an Integrated Information Management System which is intended to connect various silo-ed datasets into a centralized environment allowing users to be able to efficiently identify information, while insuring transparency to better inform clients on the status of their projects. Accordingly, the completion and installation of the new Integrated Information Management System will allow NPS to release the State Historic Preservation Division from the "high risk" status and supplant any federal fund reductions in FY 18, FY 19, and FY 20.

The State Historic Preservation Division is requesting \$315,812 in funding for ten new positions and related workstation equipment to reduce the one year backlog in the review of submittals and permits and to ensure that all aspects of the division programs and operation meet the statutory mandates, and time sensitive deadlines and due dates.

The State Historic Preservation Division is requesting \$80,000 in funding to offset increases in operating expenditures that have been attributed to increases in staffing in order to meet legally mandated timeframes and reduce the one year backlog for reviewing submittals and permits.

Capital Improvement Projects (CIP) Budget Request:

The State Historic Preservation Division is requesting \$250,000 in CIP funds for planning for a new East Hawai'i Historic Preservation Center. The existing building is old with structural problems and a leaking roof that has made important historical records and artifacts vulnerable to potential damage.

<u>Land Division:</u> None.

Legacy Land Conservation Program (LLCP) LNR 101:

Operating Budget Request:

For FY19, the Department requests an increase of \$1,848,496 (about \$1.85 million) to the LLCP spending ceiling imposed on the Land Conservation Fund. This one-time increase is needed to revitalize the declining buying power of the LLCP for protecting—and for providing public access

to—land having natural, environmental, recreational, scenic, cultural, agricultural production, and historic value, with minimal impact on the unencumbered cash balance in the Land Conservation Fund. In the face of increasing development pressures, rising real estate values, and growing public needs for access to conserved lands, the LLCP needs additional funding to maintain and enhance its historic level of positive program impacts.

Act 84, SLH 2015 capped the annual transfer of conveyance tax revenues to the Land Conservation Fund at \$6.8 million, or 10 percent of the revenues, whichever is less. Transfers of conveyance tax revenues to the Land Conservation Fund reached the \$6.8 million cap in FY17 and are on track to reach the \$6.8 million cap in FY18, while the most recent set of applications for LLCP grant funding requested over \$11.5 million, total, from the Land Conservation Fund. Increasing the FY19 LLCP spending ceiling by \$1.85 million would allow the LLCP program to support new acquisitions of land having resource value to the State, plus recurring debt service, at the level where the Legislature has set its annual revenue cap, while retaining, at its current level, a substantial balance of unencumbered funds in the Land Conservation Fund, above the spending ceiling.

With a proposed ceiling increase of \$1.85 million, the Legacy Land Conservation Program anticipates bringing in an additional \$3.7 million of non-State funding for land conservation, based on historical match rates for the program. This ceiling increase would expand program funding capacity by 36%, greatly increasing the resource protection and public benefits that the Legacy Land Conservation Program provides.

Office of Conservation and Coastal Lands (OCCL) LNR 101: None.

Division of State Parks (State Parks) LNR 806:

Operating Budget Requests:

1) Lifeguard budget request:

State Parks is requesting funds for 2 county contracts for lifeguard services to cover increases (\$536,819 – MOF:A). The budget request reflects the funds to cover the increase of the actual salary costs for the County of Maui (\$449,591) and County of Kaua'i (\$87,228) only.

Due to the compelling need to insure public safety at 4 State Park beaches, the State Parks Division continues to fund lifeguard contracts with the 4 County water safety personnel. While it is critical to insure the public safety due to ocean related response needs, this expenditure continues to reduce both the available special fund income and general funds that could be deployed for statewide park management. This cost is approximately 13% of DSP total budget.

2) Personnel budget requests:

Add two Park Interpretive Tech positions (MOF:B \$53,1818), Nā Pali Coast State Wilderness Park (Kalalau), Kaua'i. The two positions are Park Interpretive Technicians for the island of

Kaua'i to provide essential interpretive park visitor services and assist with key resource management program such as camping permit compliance, public safety and volunteer projects.

The Park Interpretive Tech positions will be a key component to implement the *Protecting Hawai'i's Environment and Cultural Resources* plan.

These positions will provide team coverage as well as safety and maintenance requirements within a remote state park areas that have a great volume of users, fragile natural and cultural resources and unique safety concerns in Nā Pali Coast State Wilderness Park - which includes Kalalau Trail and Hanakāpī'ai Beach. By providing dedicated staff coverage on site, the user capacity (60 people per day) can be managed and monitored, additional and daily site maintenance will occur, first aid and direct communication via satellite phones to both rescue and enforcement personnel is obtained, ensuring the overall safety and quality for users of the experience.

Capital Improvement Projects (CIP) Budget Requests:

State Parks requests the following for Capitol Improvement Project (CIP):

- 1. Park reconstruction and restoration improvements for 'lao Valley State Monument, Mauifinal phases of completion of \$4,500,000 for flood damage reconstruction. Revenue generation from parking fees will commence upon completion of restoration and restored public use.
- 2. Lump Sum Hazard Mitigation request of \$1,000,000 for parks, statewide, is to ensure the State's responsibility for safety of all park users and visitors.
- 3. CIP Improvements of \$3,000,000 (FF MOF:C) for State Parks Infrastructure and Facility Improvements, Statewide. The Lump Sum CIP Improvements request is for the continuation of infrastructure, facility support and regulatory compliance improvements in the State Parks system that are shovel ready.
- 4. CIP Improvements of \$300,000 (FF MOF:N) for State Parks Infrastructure and Facility Improvements, Statewide. The Lump Sum CIP Improvements request (MOF N) is for federal matching funds.
- 5. CIP Improvements of \$900,000 for park improvements for repair and restoration of two historic structures (Allerton and Montgomery cottages) within Hā'ena State Park.
- 6. CIP Improvements of \$4,600,000 for State Parks Infrastructure and Facility Improvements, Statewide. Infrastructure and facility improvements at Malaekahana State Recreation Area Kahuku Section, to include 3 new comfort stations for public health to improve sanitation

and quality of the public camping and day use experience and revenue enhancement upon completion via increased concession rent from the management lease.

All State Parks CIP projects are:

- (a) "shovel ready" projects that will ensure public health and safety;
- (b) required for compliance with current regulations and mandates; or
- (c) deemed necessary to qualify for federal aid reimbursement and/or financing.

Commission on Water Resource Management (CWRM) LNR 404:

Operating Budget Request:

Establish a permanent full-time Planner IV position (\$42,365B) under the Planning Branch of the Commission on Water Resource Management (Commission).

Act 169, Session Laws of Hawaii 2016, established a new water audit program in the Commission. This program requires affected public drinking water systems across the State to submit annual water audits to the Commission beginning in July 2018. While the Act authorized initial federal and private program funding for Fiscal Year (FY) 17 for a consultant to provide technical assistance and training to establish the water audit program, the Act did not authorize a state position to sustain the program activities beyond FY 17. Water conservation is among the least expensive and most efficient ways to increase the available supply of fresh water. It requires improving the efficiency of water delivery and identifying losses to the system. A water audit helps a utility understand how much water is lost from a distribution system through the detailed analysis of data, which the utility can use to make informed decisions to reduce real or apparent losses. Drinking water utilities would utilize their water audit results to design and implement water loss control measures to increase water delivery efficiency. This would conserve our limited natural water supplies and the significant amounts of energy required to produce and deliver drinking water. (Note that the Act affects 49 water utilities operating 103 public drinking water systems - several utilities operate multiple systems. Annual water audits are required for each public drinking water system.) The new Planner IV would primarily assist with new water audit program work duties including: water audit review; evaluation of accompanying data validity and water loss control measures; follow-on communication and correspondence with water utilities; and provision of technical assistance for completing water audits. Other secondary duties would be to assist with the Commission's drought and water conservation and water security programs. Approval of this position would ensure that annual water audits from each public water system are evaluated by the Commission on a timely basis, providing continuity and successful implementation of this program.

	5. Coordinate activities with other State, County and Federal law enforcement agencies to suppress cultivation and minimize the availability of marijuana through crop destruction.	Plan and implement missions to eradicate marijuana on state- owned lands and forest areas.	LNR 405	Title 12, Subtitle 7, Chapter 199, HRS
Division of Boating and Recreation	Managing and administrating the ocean-based recreation and coastal areas programs of the state.	Establish, maintain, and revise Hawaii Administrative Rules (HAR) HAR governs the use of state harbors, ramps, and ocean recreation areas. Active oversight and responsibility of managing state small harbors, ramps and ocean recreation areas as well as the ocean waters of the State out to three miles. Maintain, repair, and replace aids to navigation as well as ensure access to small boat harbors and ramps to the boating and non-boating public. Responsible for managing the use of all near shore waters, which includes regulating the use of ocean waters for surfers, stand-up paddleboarders, kayakers, and other users of the nearshore waters. Issue marine activity permits for organized uses of the nearshore waters for regattas, surf contests, etc.		Chapter 200
	2. Planning, developing, operating, administering, and maintaining small boat harbors, launching ramps, and other boating facilities and associated aids to navigation throughout the state.	Operate, maintain, and repair 16 small boat harbors and 52 small boat ramps statewide. Also maintain, repair, and replace navigational aids and aids to navigation statewide. Responsible for dredging harbor and ramp entrance channels.	LNR 801	Chapter 200
	Developing and administering an ocean recreation management plan.	Work with community to develop appropriate uses for state ocean waters.	LNR 801	Chapter 200
	4. Administering and operating a vessel registration system for the state.	Registers all new and existing vessels in the state. This includes vessel sales and transfers.	LNR 801	Chapter 200
	5. Regulating the commercial use of state waters and marine resources, including operations originating from private marinas.	The division issues commercial use permits for the use of state small boat harbor facilities and state waters in accordance with the Hawaii Administrative Rules (HAR).	LNR 801	Chapter 200

Department of Land and Natural Resources Functions

Division	Description of Function	<u>Activities</u>	Prog ID(s)	Statutory Reference
	6. Regulating boat regattas and other ocean water events.	The division issues marine event permits for ocean recreation activitities such as regattas, surf contests and other uses of the ocean waters.	LNR 801	Chapter 200
	7. Administering a marine casualty and investigation program.	Tracks marine accidents statewide as well as coordinates investigations of marine accidents. Accident reports are tracked and submitted to the United States Coast Guard (USCG).	LNR 801	Chapter 200
	8. Assisting in abating air, water, and noise pollution.		LNR 801	Chapter 200
	9. Conducting public education in boating safety.	Promotes safe boating activities state wide through educational activities at boat shows, schools and other public, marine gatherings. This includes coordinating activities with USCG Reserve and USCG Auxiliary.	LNR 801	Chapter 200
	10. Administering the boating special fund.	Responsible for processing payments and expenditures for the program in accordance with B&F and DAGS guidelines.	LNR 801	Chapter 200
	11. Assisting in Controlling Shoreline Erosion	Works with DLNR Engineering and the Office of Conservation and Coastal Lands (OCCL).	LNR 801	Chapter 200
	12. Repairing seawalls and other existing coastal protective structures under the jurisdiction of the State.	Works with DLNR Engineering and the Office of Conservation and Coastal Lands (OCCL).	LNR 801	Chapter 200
	13. Removing nonnatural obstructions and public safety hazards from the shoreline, navigable streams, harbors, channels, and coastal areas of the State.	Removes grounded vessels, submerged vehicles, whale carcasses, and other marine debris from beaches and near shore waters.	LNR 801	Chapter 200
	Issue long term leases, concession contracts, revocable permits, etc. for the use of fast lands within a state small boat harbor.	The property management section is responsible for developing the fast lands in the state small boat harbor in order to increase revenue that will be used to support the program.	LNR 801	Chapter 200
Historic Preservation	1. Review of State and Federal projects	Review reports, photos, inventories, meet with project 'proponents, enter into agreements with other agencies regarding the treatment of historic or cultural properties.	LNR802	6E-8, 6E-10, 6E-42 National Historic Preservation Act as amended (NHPA)
	2. Inventory and Survey	Inventory and catalogue significant cultural and historic sites.		6E-3, NHPA, NPS Grant Manual

Prog ID	Sub-Org	Addition Type	Prog ID Priority	<u>Dept-</u> <u>Wide</u> <u>Priority</u>	Description of Addition	<u>Justification</u>	<u>MOF</u>	Pos (P)	Pos (T)	<u>\$\$\$</u>
LNR 401	CA	AR	1	1	Re-establish (restore) Ecosystem Protection & Restoration position, Aquatic Resources Program Manager, EM05, abolished by Act 49, SLH 2017	This critical position is responsible for the management of the Division's largest program involving numerous environmental projects impacting the protection and restoration of native aquatic species and ecosystems.		1.00		46,050
LNR 172	DA	FF	3	1	Federal Fund ceiling adjustment	Additional Federal funds were gained from the U.S. Department of Agriculture Forest Service for various projects.	Р			530,000
LNR 805	СВ	AR	2	2	Re-establish (restore) District Resource Management Position, Aquatic Resources Program Manager, EM05, abolished by Act 49, SLH 2017	This vital position is responsible for effective management of aquatic resources of each county and the administrative services of the Division.	A	1.00		46,050
LNR 401	CA	FF		2	Federal Fund ceiling adjustment	Ceiling increase for anticipated federal award fudning the Monk Seal & Turtle Recoveries project	Р			1,311,351
LNR 906	AA	AR	1	3	Re-establish (restore) Accountant IV position and funds to replace position abolished by Act 49, SLH 2017.	DLNR requests general funds to re-establish Accountant IV position to replace position abolished by Act 49, SLH 2017. The reduction of the Accountant IV position in Administrative Services Office has a significant impact to the Department. The current staffing level is inadequate to meet the current demands for fiscal management support services. This position is an integral part of the Department's fiscal Office and is essential to effectively carryout the increasing quantity and complexity of Department's fiscal management needs. Restoring this position would avoid critical delays in the fiscal operation. Extended deadlines, reduced work completion, quality decline, and stress and frustration (employee welfare) are just a few of the effects the Department is currently experiencing of not having enough workforce.		1.00		26,478

Prog ID	Sub-Org	Addition Type	Prog ID Priority	Dept- Wide Priority	Description of Addition	<u>Justification</u>	MOF	Pos (P)	Pos (T)	<u>\$\$\$</u>
LNR 402	DA	AR	1	4	Re-establish (restore) position for Forester IV, SR 22, Oahu (Replace Position#118677, Forester IV abolished by Act 49, SLH 2017)	Forester IV serves as the Protection Forester for Oahu. It is the only professional forestry staff on Oahu besides the program manager. Responsible for ensuring District is ready to respond to wildfire and other forest health threats. Position is vital for emergency response especially in light of anticipated increases in fire frequency and damage due to climate change.		1.00		26,478
LNR 172	DA	AR	1		Re-establish (restore) position for Forestry and Wildlife Technician, SR 13, Oahu (ReplacePosition#112449, Forestry and Wildlife Technician IV abolished by Act 49, SLH 2017)	Position is responsible for early detection and response to invasive species threats to native resources and watersheds, which is critical to the state's biosecurity. Position works closely with the Oahu Invasive Species Committee to ensure collaboration and continuity in efforts.	Α	1.00		17,454
LNR 407	NA	AR	1		Re-establish (restore) 2 Natural Area Reserve Specialist IV Positions, SR 22 for Kauai and Hawaii (Replace 2 positions NAR Specialist IV Position#118286 and #121788, abolished by Act 49, SLH 2017)	In the 2017 Legislative Session, HB 100, ACT 049, these 2 positions were abolished. The duties were shifted to RCUH contracts which results in increased overhead costs and less efficiency. These positions perform core programmatic functions best served by state civil service positions because the duties are necessary for long-term maintenance and protection of natural areas, watersheds, and threatened and endangered species, and are core to the department's mission. These positions had critical roles for both watershed and forest protection, as well as public health and safety through wildland fire-fighting and emergency response	A	2.00		52,956
LNR 111	BA	NG	1	I	Request ceiling increase for the preservation and digitization of records, including maps	With the vital importance of the BOC records to the Hawaii Economy, the BOC is continuing its multiphase digitization of these records which will include maps in this phase. Besides the long term preservation of these records through this process, later phases of this effort will make these records more widely accessible to the public here and abroad.	В			350,000

Prog ID	Sub-Org	Addition Type	Prog ID Priority	<u>Dept-</u> <u>Wide</u> <u>Priority</u>	<u>Description of Addition</u>	<u>Justification</u>	MOF	Pos (P)	Pos (T)	<u>\$\$\$</u>
LNR 101	EA	NR	1	8	Request ceiling increase for the acquisition of interests or rights in land having value as resource to the State	This one-time increase would help to revitalize the declining buying power of the Legacy Land Conservation Program (LLCP) for protecting—and for providing public access to—land having natural, environmental, recreational, scenic, cultural, agricultural production, and historic value, with minimal impact on the unencumbered cash balance in the Land Conservation Fund. In the face of increasing development pressures, rising real estate values, and growing public needs for access to conserved lands, the LLCP needs additional funding to maintain and enhance its historic level of positive program impacts. With a proposed ceiling increase of \$1.85 million, the Legacy Land Conservation Program anticipates bringing in an additional \$3.7 million of non-State funding for land conservation, based on historical match rates for the program. This ceiling increase would expand program funding capacity by 36%, greatly increasing the resource protection and public benefits that the Legacy Land Conservation Program provides.				1,848,498
LNR 802	НР	AR	1		Additional funds to complete phase three of developing and installing a new integrated Information Management System which is a NPS CAP requirement, and for the digitization of SHPD reports, records, and files.	To continue work on the development and installation of an Integrated Information Management System to connect several silo-ed datasets into a centralized database enabling users to efficiently identify information, track projects through its lifecycle, and for SHPD to fulfill a requirement under the National Park Service, Correction Action Plan (CAP).	A			450,000

Prog ID	Sub-Org	Addition Type	Prog ID Priority	Dept- Wide Priority	<u>Description of Addition</u>	<u>Justification</u>	MOF	Pos (P)	Pos (T)	<u>\$\$\$</u>
LNR 802	НР	AR	2	10	Add general funds to offset increases in operating expenditures in support of increases in staffing, and to reinstate the percent of funding for operating expenditures to the FY 2010 level of approximately 10.8% of the total general fund appropriation.	To offset increases in operating expenditures that have been attributed to increases in staffing in order to meet legally mandated timeframes and reduce the one year backlog for reviewing submittals and permits.	Α			80,000
LNR 806	FA	AR	1		Add funds for 2 county contracts for lifeguard services to cover increases: Maui - \$449,591, Kauai - \$87,228	To offset the increased salary costs for the County of Maui and County of Kauai general funded lifeguard contracts. Due to the compelling need to insure public safety at 4 State Park beaches, the Division continues to fund lifeguard contracts with the 4 County water safety personnel. While it is critical to insure the public safety for both residents and the increasing number of out of State visitors, due to ocean related response needs, this expenditure is increasing the impact to both special funds and general funds that should be deployed for Statewide Park management. This cost is approximately 13% of DSP total operating budget.	Α			536,819
LNR 405	НА	AR	1	12	Establish DOCARE training academy to train newly hired officers throughout the State of Hawaii: 2 new positions, \$44,928; Other Expenses: \$317,000; Equipment: \$89,000; Motor Vehicles: \$50,000.	This academy will allow the hiring of officers who currently do not possess the experience necessary to qualify as a lateral hire. This should increase the applicant pool and allow DOCARE to fully staff the division.	Α,	2.00		500,928

LNR 906	AA	NG	2	17	Fringes - \$15,887)	DLNR requests special funds (ceiling) for a new Accountant IV position to adequately monitor, manage, and effectively assist other programs and the department as a whole. It is critical to have a new Accountant position to keep up with the tremendous amount of workload in recording and reporting the revenues, processing all expenditures including payroll, processing budget requirements and meeting various internal and external deadlines. It will be more cost-effective to hire an additional staff member at regular time than to pay existing staff excessive overtime. The Department would be spending less money on average and improve the overall productivity.	В,	1.00		42,365
LNR 402	DA	AR	2	18	Overtime - \$80,000; Other Operating - \$320,000.	DOFAW is primary responder for wildland fires occurring across 1M acres of forested watershed or over 25% of the land area in the state, and coresponds with federal and county agencies for an additional 30%. The requested amount is based on analysis of recent costs for controlling wildland fires in Hawaii, which are trending upward with climate change and other factors. DOFAW currently assists federal, state, and county agencies, including civil defense to protect natural resources and public safety.	A			200,000

Prog ID	Sub-Org	Addition Type	Prog ID Priority	Dept- Wide Priority	Description of Addition	<u>Justification</u>	MOF	Pos (P)	Pos (T)	<u>\$\$\$</u>
LNR 404	GC	NG		20	Add Planner IV position in the Commission On Water Resource Management	Act 169, Session Laws of Hawaii 2016, established a new water audit program in the Commission requiring affected public drinking water systems across the State to submit annual water audits to the Commission beginning in July 2018. While the Act authorized initial federal and private program funding for Fiscal Year (FY) 17 for a consultant to provide technical assistance and training to establish the water audit program, the Act did not authorize a position to sustain the program activities beyond FY 17. Approval of a new Planner IV position would ensure that annual water audits from each public water system are evaluated by the Commission on a timely basis, providing continuity and successful implementation of this program to assess system efficiency and conserve drinking water supplies.	В	1.00		42,365
LNR 805	СВ	NG	7	21	Add Aquatic Biologist III positions as marine monitoring coordinators for Hawaii Island (Kona), Maui & Kauai	The Governor's initiative to effectively manage 30% of the state nearshore aquatic resources by 2030 (30 x 30 initiative) implicitly requires that the effectiveness of existing and new management measures be monitored statewide.		3.00		117,475
LNR 405	на	NG	4	22	Establish homelessness policy enforcement statewide: Overtime and other payroll costs: \$400,000, Equipment: \$100,000.	This request will allow DOCARE to increase enforcement efforts on lands the Department manages, which will help to restore the area's natural beauty and enhance the visitor experience in these areas.				330,000

Page 7 of 9 2018 Budget Briefing

Prog ID	Sub-Org	Addition Type	Prog ID Priority	<u>Dept-</u> <u>Wide</u> <u>Priority</u>	Description of Addition	<u>Justification</u>	MOF	Pos (P)	Pos (T)	<u>\$\$\$</u>
LNR 806	FA	NG	2	24	Add 30 new positions and funds: 8 Park Interpretive Tech, SR 13 (4 for Napali, Kauai, 2 for Oahu, 1 for Kona, Hawaii, and 1 for Maui); 11 General Laborer I, BCO2 (4 for Oahu, 2 for Hawaii, 4 for Maui, 1 for Kauai); 1 Office Assistant, SR08, Hawaii Distrrict; 1 Property Manager IV, SR22, Admin; 1 General Professional IV, SR22, Napali, Kauai; 1 Account Clerk III, SR11, Admin; 3 Construction Worker I, BCO9 (1 each for Hawaii, Maui, and Oahu Baseyards); 2 Tree Trimmer-Truck Driver, BCO5, (1 for Oahu; 1 for Kauai); 1 Planner IV SR22, Admin; 1 Office Assistant III, SR08, Admin;	These two positions are Park Interpretive Technicians for the island of Kauai to provide essential interpretive park visitor services and assist with key resource management program such as camping permit compliance, public safety and volunteer projects in a globally reknowned and remote state park.	В	2.00		53,818
LNR 401	CA	FF	3	27	Change MOF from P to N due to the lack of P funds, Education Specialist IV, (#116575): Salary, \$53,352; Fringe, \$32,011 (60%).	Requesting a change in method of funding (MOF) of \$85,363 in federal funds from "P" to "N" funds due a lack of "P" funds for an existing education Specialist IV position (#116575).	N		1.00	85,363
LNR 401	CA	NG	6	32	Add Program Specialist III position - GIS (Geographic Information Systems) specialist to perform computerized mapping and graphs of aquatic resources statewide.	The Governor's initiative to effectively manage 30% of the state nearshore aquatic resources by 2030 requires geospatial modeling and analysis and, ultimately, the development of maps of fisheries management areas statewide.	В	1.00		39,158

Prog ID	Sub-Org	Addition Type	Prog ID Priority	Dept- Wide Priority	Description of Addition	<u>Justification</u>	MOF	Pos (P)	Pos (T)	<u>\$\$\$</u>
LNR 407	NA	NG	2	44	Add funds for Native Ecosystem Recovery	This request implements the State's goal to protect Hawaii's rare plants and native ecosystems, as well as protect priority watershed forests. Invasive plants and animals are the biggest threats to the health of Hawaii's native ecosystems. As additional capital improvement project fences are constructed, animal removal within these fenced areas is needed. There have been over 40,000 acres of new fenced watershed areas in the last five years. Once that phase of management is completed, maintenance of the area through invasive weed control is needed. Additionally, this project will plant Koa trees and other natives to restore badly degraded areas, such as areas where Rapid Ohia Death has damaged the forest. The Natural Area Reserve Fund, established by §195-9, is an appropriate source of funds for this activity as it implements the purpose of Chapter 195, Hawaii Revised Statutes, including "the identification, establishment, and management of natural area reserves."	В			500,000
LNR 401	CA	NG	4	48	Change MOF from "P" to "N" due to lack of "P" funds, Sanctuary Prgms & Oper Coord., (#113267): Salary, \$51,312; Fringe, \$30,787 (60%).	Requesting a change in method of funding (MOF) of \$82,099 in federal funds from "P" to "N" funds due a lack of "P" funds for an existing Sanctuary Programs & Operations Coordinator position (#113267) to hire an Aquatic Biologist for a fish tagging project.			1.00	82,099
LNR 401	1. CA	NG	5		Change MOF from "P" to "A" due to the lack of "P" funds, Monument Research Coordinator (#119160).	The Governor's initiative to effectively manage 30% of the state nearshore aquatic resources by 2030 requires a biostatistician to perform complex analysis of fisheries management data to better understand our aquatic resources for management purposes.			1.00	95,386

Department of Land and Natural Resources FY18 Restrictions

	_				<u>Difference</u>		
			Budgeted by		Between	Percent	
Prog ID	Sub-Org	MOF	Dept	Restriction	Budgeted &	Difference	<u>Impact</u>
					Restricted		
LNR 101	EA	Α	97,250	9,047	88,203	90.70%	
LNR 141	GA	Α	2,169,355	201,818	1,967,537	90.70%	The 2017 Legislature approved the conversion of DLNR CIP staff positions from the CIP budget to the LNR 141 (Engineering Division positions) and LNR 806 (State Parks Division) operating budgets. Restrictions will prevent the filling of all authorized positions and may impact the programs' ability to implement/execute all CIP appropriations.
LNR 153	СВ	Α	813,472	75,678	737,794	90.70%	The restriction may cause the use of the program's declining commercial fish special fund to cover a shortage in operating cost.
LNR 172	DA	A	3,682,786	160,806	3,521,980		Restrictions impact ability to provide matching funds for federal grants, reducing access to federal funds and operational capacity to provide continuity for long-term projects such as fencing, tree planting, and road maintenance; reduces ability to maintain emergency response capacity for wildland fire, hurricane, flood, tsunami incidents.
LNR 401	CA	Α	2,236,556	203,568	2,032,988	90.90%	Restriction on operating funds may cause a transfer of vacancy savings to cover unexpected operating cost.
LNR 402	DA	Α	14,368,812	637,426	13,731,386	95.56%	Operating expenditure reduction includes management of endangered wildlife at Kawainui on Oahu, Puu Waawaa Forest Reserve and Wildlife Sanctuary on Hawaii, Mana Plains management on Kauai, and Kanaha ponds on Maui; the Nene recovery and management plan and base operations for district wildlife biologists across the state; and invasive species detection and control; all of which impacts the required state match on Federal Grants.
LNR 404	GC	Α	2,559,371	238,100	2,321,271		While the Commission on Water Resource Management has actively pursued filling vacancies, inability to find qualified and suitable candidates has hampered this effort and resulted in payroll savings which are being applied to meet the imposed 5% general fund restriction and 5% general fund contingency restriction. The effect of not filling positions has resulted in: (1) Delays in implementing interim instream flow standards in multiple Maui streams; (2) Delays in analysis and processing existing and new surface water use permit applications; (3) Delays in analysis and processing of applications and reports for water use permits in designated water management areas, statewide surface water use reporting, stream channel alterations, stream diversion works; (4) Cutting back or deferring complex hydrologic studies and investigations; (5) Diminished response and resolution of citizen complaints/disputes.
LNR 405	HA	A	8,422,817	783,580	7,639,237		May affect Division's ability to conduct needed repairs & maintenance, operational functions, and may cause delays in filling vacant positions that are necessary for enforcement efforts.

Department of Land and Natural Resources FY18 Restrictions

Prog ID	Sub-Org	MOF	Budgeted by Dept	Restriction	Difference Between Budgeted & Restricted	Percent Difference	<u>Impact</u>
LNR 407	NA	A	8,458,700	393,459	8,065,241		The restriction will reduce maintenance of capital improvement project investments and long-term projects focusing on supplying fresh water, reducing greenhouse gas emissions, reducing flooding, erosion, and wildfires, and protection and management of threatened and endangered species.
LNR 801	СН	Α	621,987	57,864	564,123	90.70%	This will effect the general funded harbor agents and general laborers.
LNR 802	HP	Α	2,084,310	193,905	1,890,405	90.70%	The \$193,905 restriction of funds would negatively impact the Division's capacity and ability to fulfill its HRS, 6E, mandate as SHPD is forced to delay payments to vendors and contracts for up to two months because of the strain caused by the restriction on its bare bones general fund budget.
LNR 804	DA	A	1,570,467	73,051	1,497,416	95.35%	The restriction would mean up to a 50% cut on operating expenditures. Operating cuts would impact the required state match on most federally funded projects such as the Recreational Trails Program and the Game Management Grant, and limit the department's ability to implement much needed trail improvement projects, maintain public safety, and expand recreational opportunities. The restriction will also exacerbate the payroll short-fall, which is already below the annual liability.
LNR 805	СВ	Α	814,224	75,748	738,476		The restriction will probably cause a transfer of up to \$50,000 from operating to payroll to cover an anticipated shortage.
LNR 806	FA	Α	5,858,422	532,013	5,326,409		State Parks is requesting approval for release of the 10% reduction to cover the increase costs for lifeguard contracts with the 4 counties that was an unanticipated budget expense.
LNR 906	AA	Α	3,635,396	338,203	3,297,193	90.70%	There may not be enough funds to cover the salaries in the 4th quarter.

	Sub-Org		
Program ID	1	<u>Name</u>	<u>Objective</u>
Program ID LNR 101	1		The Land Division is responsible for overseeing approximately 1.3 million acres of public lands. The large majority of these lands comprise known as ceded in that they were ceded to the United States by the Republic and returned upon admission as a state. Much of these lands have been set aside to other governmental agencies for such purposes as schools, parks, forest reserves and State or County office buildings. The land division also leases out a portion of theses land to private parties for such purposes as agriculture, pasture, commercial, industrial, resort and renewable energy projects. The Office of Conservation and Coastal Lands (OCCL) is under LNR 101. The OCCL processes: Conservation District Use Permits (CDUP), prosecution of land use violations, resolution of shoreline encroachments, enactment of beach restoration projects (i.e. Waikiki Beach Improvements/Kaanapali Beach and Dune Enhancement), administration of contested cases involving Conservation District Use Permit's and shoreline certifications. OCCL provides information to landowners, decision makers and the general public regarding Conservation District matters. OCCL provides direction and guidance on a wide variety of coastal issues. This includes response to coastal erosion, coastal development setbacks, and beach nourishment. OCCL is in charge of the Hawaii Climate Adaptation Initiative (OP is Co-Chair) and is developing the State Sea Level Rise Vulnerability and Adaptation Report. The Legacy Land Conservation Program is also under LNR 101. The Legacy Land Conservation
			Process: Conduct a competitive, public process that awards grants from the Land Conservation Fund to state agencies, counties, and nonprofit land conservation organizations for the acquisition of lands that have resource value to the state; administer approved grants and review and approve due diligence for conservation transactions; monitor properties conserved, in perpetuity, to assure ongoing compliance with statutory requirements and contractual terms.
LNR 111	ВА	Conveyances and Recording / Conveyances Division	To serve the public by providing for an accurate, timely, and permanent system of recording, maintaining, preserving and accessing land title related documents and maps.

Program ID	Sub-Org Code	Name	Ohioativo
LNR 141	GA GA	Water and Land Development / Dowald-Water and Land Development	Objective Promote economic development and enhance public welfare by developing water supplies and state lands, with priority given to state-sponsored projects. Investigate and develop traditional and alternative water sources to augment and conserve existing supplies while meeting the increasing demands of state-sponsored projects. Provide engineering services to other divisions of the Department and other state agencies to execute Capital Improvements Program (CIP) and/or operating, maintenance and repair projects. Effectively manage geothermal resources and its development to protect the health and safety, and to ensure continued viability of the resource for the future.
LNR 153	СВ	Fisheries Management / Aquatic Resources Division	To support and assist in the wise use of Hawaii's fishery resources and other aquatic life for Hawaii's people and its visitors by providing opportunities in managed freshwater and marine areas for fishing, diving, photography, or nature study, by providing opportunities and facilities for skill development, and by the implementation of effective resource management, appropriate regulatory frameworks, outreach, collaboration and the wise use of and the long-term sustainability of Hawaii's fishery resources through research, outreach, collaboration, and management. Coordinate with other resource management agencies in the management of fishery resources for the people of Hawaii. Enhance or improve existing resources through stock enhancement and culture research and development, thereby providing increased opportunities for fishing and seafood markets.
LNR 172	DA	Forestry Resource Management & Development / Forestry Division	To strengthen the State's economic opportunities through forest resource management to improve and assist in the sustainable production of forest products and services from forest reserves and other public and private lands. To promote resource restoration and conservation through outreach and education.
LNR 401	CA	Ecosystem Protection and Restoration / Aquatic Resources Division	To preserve and enhance native and indigenous fish and other aquatic species and their habitats for Hawaii's people and its visitors through active protection, public information and education, and other effective management measures.
LNR 402	DA		Manage habitats to protect, maintain, and enhance the biological integrity of native ecosystems. Reduce the impacts of wildfires on native ecosystems and watersheds. Reduce the impacts of invasive species on native resources. Protect, maintain, and enhance native species populations, and recover threatened and endangered species.

Program ID	Sub-Org Code	Name	Objective
LNR 402	DB	Natural Resources and Fire Protection Program / Wildlife Section	Promote outreach and foster partnerships to improve public understanding, responsibility, and participation in natural resource protection. Conduct monitoring and evaluation to guide the development of recovery and management plans, and ensure cost effective adaptive management of implementation actions.
LNR 404	GC	Water Resources / CWRM - Water Code	To set overall water conservation, quality and use policies, define reasonable and beneficial uses, protect ground and surface water resources, watersheds and natural stream environments, establish criteria for water use priorities while assuring appurtenant rights and existing correlative and riparian uses and establish procedures for protecting and managing Hawaii's water resources.
LNR 405	НА	Conservation and Resources Enforcement / Enforcement	To effectively uphold the laws that serve to protect, conserve and manage Hawaii's unique and limited natural, cultural and historic resources held in public trust for current and future generations of visitors and the people of Hawaii nei.
LNR 405	НВ	Conservation and Resources Enforcement / Enforcement	To effectively uphold the laws that serve to protect, conserve and manage Hawaii's unique and limited natural, cultural and historic resources held in public trust for current and future generations of visitors and the people of Hawaii nei.
LNR 407	NA	Watershed Management / Native	To protect, restore, and enhance Hawaii's natural areas, forested watersheds, native ecosystems, unique native plant and animal species, and cultural and geological features for their inherent cultural, scientific, educational and economic values for the enrichment of present and future generations.
LNR 801	СН	Ocean-Based Recreation / Administration	To enrich the lives of people of all ages, both residents and visitors alike, by providing opportunities and facilities for developing skills and participating in both organized and non-organized ocean-based outdoor activities such as boating of all types, salt water fishing, surfing, sailboarding and diving, ocean swimming and other related activities of all types.
LNR 802	НР	Historic Preservation / Historical Preservation	To develop and maintain a comprehensive program of historic preservation to promote the use and conservation of historic properties for the education, inspiration, pleasure and enrichment of the citizens of Hawai'i.

) Dan man ma ID	Sub-Org	•	Ohioativa
Program ID LNR 804	<u>Code</u> DA	Name Forestry and Outdoor Recreation / Forest Recreation Section	Objective To provide managed opportunities and facilities for the public to engage in multi-use outdoor recreation activities (hiking, biking, equestrian riding, off-highway vehicle use, hunting, and camping), while also providing access for resource management. To maintain and enhance a public hunting program to control animal damage in watershed areas, and to provide a source of food and outdoor recreation for the public. To document and inventory ownership of historic trails and old government roads for public use.
LNR 805		District Resource Management / Aquatic Resources Division	Enriches the lives of people of all ages of the respective counties within the State of Hawaii by providing aquatic resource management at an appropriate level. Takes into account the differences between each County in Hawaii and consults with the appropriate moku on resource management.
LNR 806	FA	Parks Administration and Operations / State Parks Division	Maintain natural and cultural parks, facilities, and resources for current and future generations. Provide safe public access to state parks containing both sensitive natural resources and historic sites.
LNR 806	FI	Parks Administration and Operations / Park Interpretation	Educate the public in accessing sensitive resources and historic sites by developing interpretive programs, signage and providing public information.
LNR 810	. GD	Prevention of Natural Resources / Dowald-Flood Control and Dam Safety	Protect people, property, and natural resources from natural hazards through planning, management, mitigative efforts, and regulatory programs (including the National Flood Insurance Program - NFIP).
LNR 906	AA	LNR - Natural and Physical Environment / Departmental Administration - LNR	To enhance program effectiveness and efficiency by formulating policies, directing and coordinating operations and personnel, and providing other administrative and support services.

Department of Land and Natural Resources Organization Changes

Year of Change	•
FY18/FY19	<u>Description of Change</u>
FY18	Budgeted exempt position 117517 extended effective 07/01/17, NTE 06/30/18. *
FY18	Civil service position 121535 abolished pursuant to Act 49, SLH 2017 effective 07/01/17.
FY18	Budgeted exempt position 102283 extended effective 07/01/17, NTE 06/30/18. *
	Non-delegated reorganization of Personnel Office effective 07/19/17. Updated the office and section names, and
FY18	rearranged staff.
	Budgeted civil service position 121502 redescribed from Human Resources Specialist IV to Human Resources Specialist
FY18	V effective 08/09/17.
	Budgeted civil service position 13120 redescribed from Human Resources Assistant V to Human Resources Technician
FY18	VI effective 11/01/17.
FY18	Established budgeted exempt position 122530 per Act 32, SLH 2017 effective 11/27/17, NTE 06/30/18.
FY18	Budgeted temporary positions 118972 and 118994 extended effective 07/01/17, NTE 06/30/18. *
FY18	Budgeted temporary position 120981 extended effective 07/01/17, NTE 06/30/18. *
FY18	Conversion from temporary to permanent for position 120457 effective 07/01/17.
FY18	Civil service positions 9620 and 8738 abolished pursuant to Act 49, SLH 2017 effective 07/01/17.
FY18	Budgeted temporary position 118784 extended effective 07/01/17, NTE 06/30/18. *
FY18	Budgeted temporary positions 109101 and 118628 extended effective 10/01/17, NTE 09/30/18. *
FY18	Budgeted temporary position 116574 extended effective 07/01/17, NTE 03/31/18. *
FY18	Established budgeted temporary position 122543 per Act 49, SLH 2017 effective 11/27/17, NTE 06/30/18.
FY18	Civil service position 27075 abolished pursuant to Act 49, SLH 2017 effective 07/01/17.
FY18	Budgeted temporary position 118250 extended effective 07/01/17, NTE 06/30/18. *
FY18	Budgeted temporary positions 121976, 122076, and 122213 extended effective 07/01/17, NTE 06/30/18. *
FY18	Conversion from temporary to permanent for positions 120852, 121262, 121988 effective 07/01/17.
FY18	Budgeted civil service position 41172 redescribed from Account Clerk III to Account Clerk IV effective 10/16/17.
FY18	Budgeted civil service position 11307 redescribed from Forester VI to Forester V effective 08/01/17.
	Budgeted temporary positions 118277, 118284, 118287, 120332, 120863, 121490, and 122328 extended effective
FY18	07/01/17, NTE 06/30/18. *
FY18	Civil service position 118286 abolished pursuant to Act 49, SLH 2017 effective 07/01/17.
	Established budgeted temporary position 122434 per Act 134, SLH 2013 as amended by Act 122, SLH 2014 effective
FY18	07/20/17, NTE 06/30/18.

Department of Land and Natural Resources Organization Changes

FY18	Established budgeted temporary position 122487 per Act 119, SLH 2015 effective 09/14/17, NTE 06/30/18.
FY18	Budgeted temporary positions 112451, 118276, and 118285 extended effective 07/01/17, NTE 06/30/18. *
FY18	Budgeted temporary positions 118680, 119025, and 122326 extended effective 07/01/17, NTE 06/30/18. *
	Budgeted temporary positions 112450, 117018, 118275, 118290, 118291, 121616, 121624, 121641, and 121642
FY18	extended effective 07/01/17, NTE 06/30/18. *
FY18	Budgeted civil service position 38928 redescribed from Account Clerk II to Account Clerk III effective 04/16/17.
FY18	Established budgeted position 122433 per Act 158, SLH 2008 effective 07/20/17.
FY18	Budgeted temporary position 13312 extended effective 07/01/17, NTE 06/30/18. *
FY18	Civil service position 112449 and 118677 abolished pursuant to Act 49, SLH 2017 effective 07/01/17.
FY18	Budgeted temporary positions 118274, 118288, 118405, 118857, 121718, 122003, and 122278 extended effective 07/01/17, NTE 06/30/18. *
FY18	Conversion from temporary to permanent for position 118404 effective 07/01/17.
FY18	Budgeted civil service position 116396 redescribed from Account Clerk II to Account Clerk III effective 02/01/16.
FY18	Established budgeted temporary position 122501 per Act 134, SLH 2013 as amended by Act 122, SLH 2014 effective 09/29/17, NTE 06/30/18.
FY18	Budgeted temporary positions 112452, 118261, 118337, 120328, 120729, 120730, 120765, 121614, and 122243 extended effective 07/01/17, NTE 06/30/18. *
