CLIMATE CHANGE EXPERTS TO BRIEF HOUSE AND SENATE ENVIRONMENT COMMITTEES

Recent Erosion of North Shore Beaches Demonstrates Effect of Climate Change Locally

WHO: House Committee on Energy and Environment Protection
Senate Committee on Energy and Environment

WHAT: Given the current erosion damage on North Shore beaches and the threat to homes in the area, the environment committees will hold informational briefings with experts for the latest science on Climate Change and the expected impacts on the State of Hawaii. Committee members will also hear about what conditions Hawaii should prepare to experience.

Presentations will be made by:

- Pacific Island Climate Change Cooperative
- School of Ocean and Earth Science and Technology, University of Hawaii at Manoa
- Sea Grant, University of Hawaii at Manoa

WHEN: Thursday, January 9, 2014
10:00 a.m.

WHERE: Conference Room 325
Hawaii State Capitol

The hearing agenda is available at
