# Hawaii Broadband

**DBEDT 2020** 

### 'Ike Wai - To know water

### Hawaii Broadband Initiative

Honolulu

#### Mission

The mission of the Hawaii Broadband Initiative is to ensure connectivity (subsea and terrestrial) to the global Internet is robust and resilient to create an international hub for data transit and computing so that the availability of the cloud and essential broadband services is accessible to the residents and business throughout Hawaii, now and into the future.

Hawaii

#### **Vision**

The vision of the **Hawaii Broadband Initiative is to establish Hawaii as a leader and forward thinker in enabling its citizens, businesses and international community with the communications infrastructure to be competitive in the global marketplace and to thrive in the 21st century.** 

Manhole

**Undersea portion** 

4 - Horizontal Bores

### Terrestrial Backhaul

Fiber Optic Connectivity -Fiber runs along rights of way in roads, guideways and along pole lines

## Telecom distribution

## CATV distribution

### Principle of operation

### What Are Small Cell Deployments?

Small cell deployments are complementary to towers, adding much needed coverage and capacity to urban and residential areas, venues, and anywhere large crowds gather

## Wireless spectrum

#### Some everyday uses of the radio frequency spectrum

## Rural Community Networks

## Brøadband Strategy 2020 - Beyond

Carrier **Neutral Cable** Landing Station (CLS) -Help to reduce barrier to entry for trans-Pacific fiber optic cables landing in Hawaii.

**Terrestrial** Backhaul **Connectivity** -Encourage cost competitive options for terrestrial backhaul prices.

Kauai

Oahu **Interisland Fiber -** Wailuku **Small Cell** Hawaii **Deployment** -Support initiatives throughout the state to deploy small cell and wireless technologies.

### Explore options to

build a more robust, resilient inter-Island fiber network.

#### Rural Broadband -

Support funding opportunities for rural broadband and community network projects

## Connected Cities

## The Growing Demand for Broadband

- Cloud
- Mobile
- AI / ML
- Edge / IoT
- Education
- Health
- Public Safety
- Agriculture
- Remote Work
- Entertainment
