

APRIL 2021

Rep. Lisa
MARTEN

State House District 51

Waimānalo • Enchanted Lake • Lanikai • Pohakupu

Aloha Neighbors,

We are well passed the half-way mark this legislative session. Please take a look at these highlights of what the House sent over to the Senate below. With funding from the American Rescue Plan and clean-up of Special funds, the House was able to pass a budget that results in a leaner government while still restoring funds to our schools, social services, and environmental management.

Check below to see if you qualify for any American Rescue Plan benefits. If you do, and you need help applying, call our office.

COVID vaccines are available to those 50+. If you are worried about the vaccine, please call my office to discuss it.

Happy Earth Month. Get outside and enjoy living in the most beautiful place on earth.

Please reach out if you have any ideas, questions, or concerns.

With warmest aloha,

Rep. Lisa Marten
