GOV. MSG. NO. 587

NAME Carroll J. Diebold, MD

WORK ADDRESS Department of Behavioral Health (MCHK-BH)
Tripler Army Medical Center

CAREER HIGHLIGHTS

- Staff Psychiatrist, Tripler Army Medical Center: Dec 2017 - 2020
- American Red Cross Volunteer: June 2017 - present
- Mandatory Military Retirement Date: May 31, 2017
- Years of Active Duty military service: 34
- Years as a Board Certified Psychiatrist: 27 (lifetime certification)
- Years as a Board Certified Forensic Psychiatrist: 26 (Certified 1994, recert 2003, 2013 (thru 2023))
- Years of Military Graduate Medical Education Teaching Faculty Experience: 23
- Number of residents trained: 110 (25 personally supervised)
- Number of Medical Students Precepted or Taught: 155
- Faculty instructor for Psychopharmacology and Forensic Psychiatry Courses
- Duty Positions while on Active Duty: Division Psychiatrist; Service Chief, MEDDAC; Service Chief, Small MEDCEN; Department Chief, small MEDCEN; Service Chief, large MEDCEN; Department Chief, large teaching MEDCEN (17 years as department chair with Psychiatry GME program including three successful ACGME site visits and six successful The Joint Commission (TJC) surveys; maintained clinical practice in all leadership positions
- MEDCOM level appointments: ten years total as Army Surgeon Consultant for Psychiatry Specialty (Forensic Psychiatry six years and General Psychiatry four years)
- Combat Deployments: 2 (both to OIF—one as member of Mental Health Advisory Team, Third Iterations (MHAT-III) and other as Mental Health Consultant for Iraq Theater of Operations)
- Academic Appointments: 2 (Associate Clinical Professor at the Uniformed Services University and University of Hawaii John A. Burns School of Medicine)
- Publications: Journal Articles (8) including presentation of pathways to career in Military Psychiatry as either Active Duty or civilian psychiatrist and Book Chapters (2) to include history of Graduate Medical Education in the Military Healthcare System and overview of Military Administrative Psychiatry
- Privileged in Electroconvulsive Therapy and have training in Transcranial

Magnetic Stimulation

--Academic Interests: Graduate Medical Education in the Military; Forensic Psychiatry training in the Military; Psychopharmacology; Military Administrative Psychiatry

CLINICAL SERVICE DELIVERY AND PSYCHIATRY GME TEACHING:

Considered expert in Clinical and Administrative Psychiatry based upon training, education, and workplace experience with twenty five years of supervising physicians of lower grade level in the management of difficult and complex cases; work performance evaluated through professional discussions with peers and supervisors and medical record reviews/peer reviews/audit procedures as part of Ongoing Provider Performance Evaluations (OPPE), performance improvement (PI) initiatives, and compliance with medical record documentation standards; performs duties as practitioner and consultant in Psychiatry encompassing all levels of complexity with thirty-two years of knowledge and experience working with a military population providing treatment services for all levels of care (inpatient service, partial hospitalization service, behavioral health intensive outpatient service, addictions medicine outpatient service, emergency service, walk in service, routine outpatient service, consultation liaison service with ability to cover any area as required; on all services developed and executed appropriate major diagnostic studies and evaluations and executed inter-disciplinary treatment plans; ensured appropriate follow up care for patients transitioning to different levels of behavioral health care (eg inpatient, partial hospital, outpatient) with disorders such as depression, anxiety, substance abuse, psychosis, and organic brain syndrome; performed diagnostic evaluations and developed individual treatment and rehabilitation plans through diagnostic interview, clinical examination, laboratory tests, collateral interviews, and other diagnostic processes in addition to consulting with healthcare providers in other medical specialties on cases involving complicated and multi-faceted problems; constructed individualized treatment plans to provided appropriate therapeutic treatment services; also provided professional consultation, supervision, and collaborative medical support to other professional staff such as psychologists, advanced practical nurses, and social workers in addition to consulting with the Service Member's chain of command for collateral information in development of individualized treatment plan, and provided unit commander with fitness for duty assessment, duty limitations as per official profile (if indicated), and plan for behavioral health follow up; also has served as prescribing behavioral health provider on a team directly serving a FORSCOM unit while providing additional services to include consultation with operational unit commanders, proactive identification of Service Members at risk to develop behavioral health related conditions, and appropriate treatment and recommendations for disposition such as medical retirement or administrative separation; clinical cases were very high level of complexity and included Post Traumatic Stress Disorder, Major Depression, Bipolar Disorder, Poly Substance Abuse, and Schizophrenia. Extensive experience performing ongoing Quality

Assurance studies within area of responsibility and continually made decisions having a significant impact on the lives of patients and their families such as recommending hospitalization, determining a Service Member's fitness for duty, initiating the Medical Evaluation Board (MEB) process, and performing Temporary Disability Retirement List (TDRL) assessments, psychological autopsies, Rules for Courts Martial (RCM) 706 (ie Sanity Board) evaluations, providing command consultations, and participating in other administrative processes as required and prepared reports of such evaluations according to applicable regulations. (Note: Authored book chapter on Military Administrative Psychiatry which discussed all of these processes in depth); also has extensive experience in psychiatric patient assessment to include identification of treatment needs and development of a treatment plan to produce a safe therapeutic outcome; past clinical and administrative duties/assignments have included leveraging of training, program coordination and development, research, analysis, and consultation; extensive experience in development, coordination, and execution of Performance Improvement (P.I.) programs at clinic, service, department, and organization levels; has comprehensive understanding of requirements and benefits of TRICARE which can be conveyed to patients, family members, and fellow healthcare providers; extensive experience in properly maintaining and ensuring proper release or disclosure of all types of documentation related to clinical service delivery: electronic outpatient and inpatient medical records—both DoD and VA, Protected Healthcare Information documents (both electronic and paper), official military healthcare related forms released to patients and/or military chains of command, and medical related documents requested by patients for personal use or to be forwarded to third parties as per applicable facility Standard Operating Procedures, Service Regulations, and state and federal laws; timely and effective preparation and release of case summaries and other correspondence with specific review and approval process if required.

Twenty-two years of experience providing training in Psychiatry to resident physicians and medical students through direct teaching, clinical supervision (both direct and indirect), giving lectures and clinical demonstrations, and conducting ward rounds.

ACTIVE DUTY CLINICAL POSITIONS

Tripler Army Medical Center, Hawaii

Chief, Department of Behavioral Health (2013-2017): Head of a 250 personnel clinical department within a tertiary care referral center providing a wide scope behavioral health services to a beneficiary population of 200K to include military referrals throughout the Pacific Region. Led fully accredited graduate medical education programs in Psychiatry and Psychology to train Army behavioral health practitioners. Served as full time Psychiatry GME faculty to include direct teaching and supervision of trainees, leading academic courses and conferences, and

assist in career development. Maintained an adult outpatient panel, and assisted in providing clinical coverage for adult inpatient, partial hospital level, and emergency/consultation psychiatric services.

Chief, Department of Psychiatry (2001-2013): Head of 150 personnel clinical department prior to consolidation of behavioral health resources within the medical center in 2013. Personally led the consolidation of the former Departments of Psychiatry, Psychology, and Social Work into one inter-disciplinary service delivery system while simultaneously overseeing the local implementation of the United States Army Medical Command Behavioral Health Service Line initiative to standardize behavioral health service delivery across the Army. Clinical and academic duties same as above.

Chief, Chemical Addictions Treatment Service (1999-2001): Leader of two levels of chemical addictions treatment programs to include Tri-Service Addictions Recovery Facility (partial hospital level of care—see below for details) and the Army Substance Abuse Program (ASAP), an outpatient level of care comprised of fifteen total addictions treatment professionals. Clinical duties included medical and psychiatric assessments of program participants as indicated. Took regular turn as after hours and weekend/holiday attending psychiatrist on-call, provided full scope of GME related supervision, teaching, and mentoring, and maintained outpatient Psychiatry patient panel.

Chief, Tri-Service Addictions Recovery Facility (1997-1999): Similar duties as noted with the Chemical Addictions Treatment Service but without Army Substance Abuse Program leadership responsibilities. Chief of partial hospital level addictions treatment program with average census of fifteen patients providing wide scope of substance abuse treatment services for higher acuity patients. Served as Clinical Consultant for Army Substance Abuse Program by providing medical and psychiatric assessments and treatment as indicated. Took regular turn as after hours and weekend/holiday attending psychiatrist on-call and provided full scope of GME related supervision, teaching, and mentoring.

Womack Army Medical Center, Fort Bragg, North Carolina

Chief, Department of Psychiatry and Neurology (1996-1997): Selected as Chief of forty person behavioral health department as a mid-level Major. Responsible for coordination of behavioral health care of 75K military beneficiaries and retirees in Fort Bragg area. Maintained out patient psychiatric patient panel and assisted in covering inpatient and consultation psychiatry services when needed.

Chief, Forensic and Consultation - Liaison Psychiatry Section (1994-1996): Served in dual role chief of both clinical services. Responded to psychiatric consultation requests throughout two hundred bed Army medical center to include medical, surgical, and obstetric wards; intensive care unit; and emergency department. Also provided wide range of forensic psychiatry services throughout

the second largest Army installation. Maintained out patient psychiatric patient panel, assisted in covering inpatient psychiatry service when needed, and served as Clinical Consultant and Medical Review Officer to the Alcohol and Drug Abuse Prevention and Control Program (ADAPCP).

Kimbrough Army Community Hospital, Fort Meade, Maryland

Chief, Psychiatry Section, Community Mental Health Service, (1992-1993): both directly provided and coordinated psychiatric services for fifty bed Army Community Hospital to include outpatient services; consultation liaison psychiatry to emergency room and inpatient wards; ADAPCP Clinical Consultant and Medical Review Officer services; behavioral health consultations to local military units; and psychiatric evaluations related to security clearance evaluations for United States Army Intelligence and Security Command and National Security Agency personnel.

2nd Infantry Division, Korea

Division Psychiatrist and Chief of Division Mental Health Service (1991-1992): Only residency trained physician for 15K Soldier Army combat division adjacent to the demilitarized zone in the Republic of South Korea; chief of eight behavioral health providers to include psychologist, social worker, and six behavioral health technicians providing behavioral health care for Soldiers and Department of the Army civilians spread over fifteen camps. Maintained own patient panel; supervised behavioral health technicians in providing treatment and case management; provided behavioral health consultation to military units; covered emergency psychiatric services via both direct evaluation or telephonic consultation; participated as behavioral health subject matter expert in several field training exercises; served as both ADAPCP Clinical Consultant and Medical Review Officer.

SUBSTANCE ABUSE ASSESSMENT AND TREATMENT EXPERIENCE

**Clinical Consultant, Army Substance Abuse Program (ASAP): 12 years
2nd ID, Korea (1991-1992, 2004)
Fort Meade, Maryland (1992-1993)
Fort Bragg, North Carolina (1995-1997)
Tripler Army Medical Center and Schofield Barracks, HI (1997-2001)**

Substance Abuse Treatment Education

Visiting Professionals Course on the Treatment of Alcoholism (TRISARD), Naval Hospital, Bethesda, Maryland (1989)

US Army ADAPCP Clinical Consultant Course (1995, 1997, 1999, 2000, 2003)

Medical Review Officer Course (1997, 1999, 2003)

PROFESSIONAL CREDENTIALS

UNDERGRADUATE EDUCATION:

**Bachelor of Science, Pre-professional Studies (cum laude)
University of Notre Dame**

MEDICAL SCHOOL:

**Uniformed Services University of the Health Sciences, F. Edward Hebert
School of Medicine, Doctor of Medicine**

GRADUATE MEDICAL EDUCATION:

Walter Reed Army Medical Center, Psychiatry Internship

Walter Reed Army Medical Center, Psychiatry Residency

Walter Reed Army Medical Center, Forensic Psychiatry Fellowship

MEDICAL LICENSING INFORMATION:

STATE	EXPIRATION DATE
Pennsylvania	December 31, 2022

AMERICAN BOARD OF PSYCHIATRY AND NEUROLOGY CERTIFICATION:

Psychiatry Section, 1993 (lifetime certification)

Forensic Psychiatry Subspecialty Section, 1994; recertified: 2003, 2013

ACADEMIC APPOINTMENTS:

Uniformed Services University of the Health Sciences

Teaching Fellow (1990-1991)

Assistant Professor of Psychiatry (1998 -2015)

Clinical Associate Professor (2015 - present)

University of Hawaii at Manoa, John A. Burns School of Medicine

Associate Clinical Professor of Psychiatry (2005 - present)

PROFESSIONAL SOCIETY MEMBERSHIPS:

Association of Military Surgeons of the U.S. (1984 - present)

University of Notre Dame Alumni Association (1985 - present)

American Psychiatric Association (1989 - present)

38th Parallel Medical Society (1991 - present)

American Academy Psychiatry and the Law (1993 - present)

MILITARY CAREER

LEADERSHIP POSITIONS (See Clinical Positions above for duty descriptions)

Tripler Army Medical Center, Hawaii

Chief, Department of Behavioral Health (2013-2017)

Chief, Department of Psychiatry (2001-2013)

Chief, Chemical Addictions Treatment Service (1999-2001)

Chief, Tri-Service Addictions Recovery Facility (1997-1999)

Womack Army Medical Center, Fort Bragg, North Carolina

Chief, Department of Psychiatry and Neurology (1996-1997)

Chief, Forensic and Consultation - Liaison Psychiatry Section (1994-1996)

Kimbrough Army Community Hospital, Fort Meade, Maryland

Chief, Psychiatry Section, Community Mental Health Service, (1991-1993)

2nd Infantry Division, Korea

Division Psychiatrist (1991-1992)

PROMOTIONS

2nd Lieutenant: May 15, 1983 (via Reserve Officer Training Corps)

Captain: May 16, 1987

Major: May 16, 1993

Lieutenant Colonel: May 16, 1999

Colonel: May 16, 2005

APPOINTMENTS:

Consultant to US Army Surgeon General, Forensic Psychiatry (1998 -2004): Appointed by the Army Surgeon as subject matter expert in Forensic Psychiatry. Duties included authoring policy and position statements on issues within Forensic Psychiatry impacting military healthcare; administrative policies and procedures; and criminal forensic evaluations. Also performed numerous psychiatric evaluations of the accused and testified as an expert witness at numerous military court martials.

Pacific Regional Medical Command Psychiatry Consultant (2001-2008): Senior Army Psychiatrist within the Pacific Regional Medical Command; provided consultation for Army behavioral Health providers within the Pacific Region on behavioral health related issues and staffing.

Consultant to US Army Surgeon General, Psychiatry (2008-2012): Chief psychiatrist within Army Medicine responsible for analysis of Army Psychiatry inventory and making recommendation as to annual distribution of psychiatry assets across the Army which directly impacted on individual assignments in addition to identifying specific Army psychiatrists for deployment with related monitoring and analysis of individual deployment status of entire inventory; very involved with retention of Army psychiatrists with emphasis on assisting each to manage own career; emphasis also on recruiting of civilian psychiatrists to come on Active Duty through direct engagement or via recruitment at specialty venues such as American Psychiatric Association annual meeting; directly worked with fellow behavioral health specialty consultants to develop and assess behavioral health related policies and programs.

COMBAT DEPLOYMENTS:

Operation Iraqi Freedom 05-07: assigned to Multi National Force-Iraq Surgeon's Office as part of the Mental Health Assessment Team, third iteration (MHAT III), 2005-6: by name selection by Army Surgeon General to serve as psychiatrist for inter-disciplinary behavioral health team to assess overall behavioral health state of U.S. personnel deployed to Operation Iraqi Freedom (OIF) and corresponding resources and programs available to personnel and units. Personally interviewed Service Members and leaders throughout OIF area of operations and contributed to final out brief to Commanding General, Multi-National Force-Iraq (MNF-I) and assisted in authoring final report.

Operation Iraqi Freedom 07-09: assigned to Task Force 62d Medical Brigade serving as the Mental Health Consultant for the Iraq Theater of Operations, 2007-8; served as the senior behavioral health Officer in the combat theater consisting of 170 uniformed behavioral health providers from four uniformed services; was responsible for developing and vetting behavioral health related policies, operation orders, and situational reports. Assessed and monitored overall behavioral health care delivery to include conducting workload assessments used to optimize placement of behavioral health resources. Participated in numerous General Officer and VIP briefings on behavioral health related topics. Traveled throughout the theater of operations to perform site visits and meet with behavioral health providers. Awarded Bronze Star Medal for performance during the deployment.

AWARDS (listed by increasing level of significance) :

Army Achievement Medal x 2 (2004, 2009)

Army Commendation Medal x2 (1992, 1993)

Meritorious Service Medal x 3 (1997, 2000, 2004)

Bronze Star Medal (2008)

Legion of Merit (2017)

PROFESSIONAL RECOGNITIONS:

Order of Military Medical Merit (2001): Inducted into the organization in recognition of achievements within the Army Medical Department and overall significant contributions to Army Medicine.

"A" Proficiency Designator for Psychiatry (2006): Awarded by the Army Surgeon General in recognition for contributions as a recognized leader and subject matter expert within Army Psychiatry. (Less than ten percent of the entire Army Psychiatry inventory is awarded the designation.)

Namesake for award given to top Tripler Army Medical Center Department of Behavioral Health Annual Research Symposium Military Poster presentation.

Outstanding Staff Teacher (2017): Awarded by Tripler Army Medical Center residents and staff for exceptional contribution to TAMC academics and Graduate Medical Education.

2018 USU Alumni Lifetime Achievement Award (2018): Awarded by the Uniformed Services University for significant contributions to Military Health, high personal integrity, academic achievement, outstanding leadership, and promotion of the art and science of medicine through Military Service.

MILITARY EDUCATION

Army ROTC, University of Notre Dame (1979-83): Military education done concurrently with undergraduate studies. Earned designation as a Distinguished Military Graduate. (Top ten per cent of graduating class).

AMEDD Officer Basic Course (1983): Entry level military skills course for Officers post commissioning and completed prior to entry into medical school.

AMEDD Officer Advanced Course (1992): Continuing military education for early career Officers.

Command and General Staff Officer Course (2000): Further military education for mid to senior level Officers focusing on leadership and military doctrine at operational and strategic levels.

MILITARY PROFICIENCY RECOGNITIONS

United States Army Parachutist Badge (1984): Training and demonstration of proficiency for conducting military static line parachute jumps. Five jumps total.

Expert Field Medical Badge (1984): Demonstrated proficiency in both military and medical skills in a field environment. (Pass rate about 10%).

REGIONAL AND NATIONAL LEVEL GOVERNMENT WORKING GROUPS:

Committee to Rewrite AR 40-216, "Army Behavioral Health" (1999-2001): Army Regulation which outlined the structure and process of behavioral healthcare within the Army and was predecessor to the Army Behavioral Health System of Care and the current Army Behavioral Health Service Line.

DoD/VA Post Deployment Mental Health Work Group (2005): Inter-agency workgroup which addressed issue of ensuring adequate continuity of care and service availability for Service Members when transitioning to new assignments and ultimately to establishing care within the Veterans Administration.

Mental Health Advisory Team III (2005-6): OTSG appointed interdisciplinary behavioral health team that deployed to Operation Iraqi Freedom to assess behavioral health system in place and to evaluate the behavioral health needs of Soldiers.

HQDA Suicide Assessment Team (2007): requested by Commanding General, Multi-National Corps-Iraq to assess the suicide prevention program in place within the Iraq Theater of Operations and make recommendations for enhancement of program.

Chairman, Pacific Psychological Health Task Force (2008-2015): Intra-agency task force chartered to enhance behavioral healthcare to TRICARE and Department of Veterans Affairs Beneficiaries across the Pacific Region to include Active, Reserve, and National Guard components.

Army Surgeon General's Comprehensive Behavioral Health System of Care Development Committee (2009-11): In role of Army Surgeon General's Consultant in Psychiatry, assisted in developing the next iteration of Army behavioral health care to meet the evolving needs of Service Members and their Families during a prolonged period of very high operational tempo.

ADVISORY BOARDS:

Hawaii Healing Trauma of War Advisory Board (2009-11): Multi-disciplinary team which addressed the post deployment behavioral health services needed for returning members of the Hawaii National Guard in 2009 based upon lessons learned from the unit's first deployment in 2005-6.

Pacific Veterans Administration PTSD Residential Recovery Program (PRRP) Stakeholders Board (2011-17): Inter-disciplinary clinical work group which assesses the service delivery of the PRRP serving a population of Veterans, National Guard, Reserve, and Active Duty war veterans.

National Center for PTSD Pacific Islands Division Advisory Board (2011-17): Interdisciplinary board which monitors the functioning of the Center and its interaction with the Veterans Administration and

MEDICAL MANAGEMENT EDUCATION

Physicians in Management Course, Part I (1996), II (1997), III (1998): Three level training course providing early to mid-career level physicians instruction in functioning as clinical leaders within the managed care environment.

Critical Decision Making for Medical Executives: Keys to Improving Population Health (2005): Detailed course for mid to senior level healthcare executives to implement and oversee population healthcare programs addressing primary, secondary, and tertiary prevention.

FORENSIC PSYCHIATRY REVIEWS, CASE CONSULTATIONS AND EXPERT WITNESS TESTIMONY:

Behavioral Health in Military Corrections (2000): OTSG appointed workgroup which assessed behavioral health resources in military correctional facilities. Conducted site visits to facilities across the military and provided recommendations on enhancing behavioral health services for both inmates and staff.

Psychological Autopsy Review of Deaths at Fort Bragg (2002): Conducted in depth review of murder-suicide events involving Special Operations Service Members stationed at Fort Bragg who had been deployed to Afghanistan. Did site visit, conducted interviews, and performed extensive records review. Submitted assessment to assist with overall investigation.

Notable Military Forensic Psychiatry Evaluations: performed comprehensive psychiatric evaluation and testified at each court martial.
