Re: Governor's Message Nos. 617 & 618 appointing Ed Barnabas to the Hawai`i Technology Development Corporation

Chair Kim, Vice Chair Misalucha and Members of the Committee,

I would like to express my **support** for GM 617 and GM 618 relating to Mr. Ed Barnabas's consideration and confirmation to the Hawai`i Technology Development Corporation.

I have known Mr. Barnabas since his relocation to Hawai`i a few years ago and have worked with him on multiple initiatives meant to stimulate the technology sector here in Hawai`i for the benefit of our local economy but also on projects focused on re-envisioning a STEM pathway for our students in order to increase the size of our pool of engineering workforce as well as the readiness of this workforce as they enter their careers out of the University of Hawai`i. I have always known Ed to be hard working, fair, and knowledgeable about the tasks at hand. He has familiarity with both government processes as well as private best practices, has been actively growing his network of business and community relationships that would be of benefit to HTDC, and is committed to the well-being of Hawai`i and its people.

I am confident that Ed is someone who has the experience to help provide support for such an important organization to the development of our technology sector for Hawai`i. I believe he is a qualified nominee and would humbly ask for your favorable consideration of his nomination to this position.

Aloha,

Brennon T. Morioka, PhD, PE
