Comments:

Jaris Kuniyuki will be a very valuable asset to the State of Hawaii Radiologic Technology board if he was allowed to serve in it. He has been employed at Straub Medical Center for many years. Jaris has been fully trained to work in several modalities including General X-ray, CT, and Interventional Radiology. In addition, he oversees the Radiologic Technology students that rotate thru our hospital. Jaris has also been carrying the role of Radiology Supervisor for the past few years and have been doing an excellent job. His experience and leadership skills would be well utilized if he could serve on the board. If you have any questions and concerns, please feel free to contact me and I would be delighted to provide you folks any information needed. Mahalo.

Steven Louie, Lead Special Procedures Technologist @ Straub Medical Center
