In consideration of
House Bill 1688
Relating to the Registration of Vehicles

Honorable Chair Johanson, Vice Chair Kitagawa, and Members of the Committee:

The Finance Department of the County of Kaua'i **strongly supports** HB 1688, which allows the director of finance of a county to charge u-drive vehicles the same beautification fee as any regular citizen would pay. Currently the County of Kaua'i charges \$1 for u-drive vehicles and \$5 for all others. We use this money to defray the costs of abandoned and derelict vehicles left for county disposal.

The abandoned and derelict vehicle problem is impacting the quality of life for our residents, impacts our environment, and is an eye-sore that detracts from our visitor experience. Mayor Kawakami put together an abandoned vehicle task force which made progress in identifying process issues. While we are making progress on addressing some of those issues, this increased fee would help to pay for the clean-up initiatives.

It is for these reasons, that we **strongly support** HB 1688. Thank you for your consideration of this testimony.

Honorable Chair Johanson, Vice Chair Kitagawa, and Members of the Committee:

The County of Kaua'i and I are in **strong support of HB 1688** which subjects U-drove motor vehicles to the same motor vehicle registration fees as other motor vehicles, and authorizes the counties to use certain motor vehicle registration fees to mitigate and address the impacts of tourism-related traffic congestion.

Over the years our islands have continued to be impacted by the increase of abandoned and derelict vehicles left littering the sides of our roads and on vacant properties. To address this issue on Kaua'i, we initiated a county Abandoned Car Task Force with representatives from our finance department, solid waste division, police department, county council, and the private sector. One of our challenges, of course, is funding the removal and disposal of these vehicles.

Registration fees that are equitable for all motor vehicles will certainly assist our effort in managing this challenge and keeping our Kaua'i as the Garden Island.

Mahalo for accepting my testimony in **strong support** of HB1688.

The County of Kaua'i is in **strong support** of HB 1688 which subjects U-drove motor vehicles to the same motor vehicle registration fees as other motor vehicles, and authorizes the counties to use certain motor vehicle registration fees to mitigate and address the impacts of tourism-related traffic congestion.

As all motor vehicles impact our environment while assisting us in our daily lives, it is important that all registration fees contribute equally to fund the highway beautification, abandoned vehicle, and tourism-related traffic congestion revolving fund. The County of Kaua'i Abandoned Car Task Force seeks to address the blight of derelict and abandoned vehicles that are left strewn across our island when the life of the car ends.

We appreciate the Legislature's efforts in addressing this issue affecting all our islands and working to improve the quality of life for our residents and the experiences of our visitors.

Thank you for the opportunity to testify in **strong support** of HB1688.

RE: **H.B. 1688, Relating to Registration of Vehicles**
Hearing Date: Friday, February 11, 2022 at 2:00 p.m.
Conference Room: 329

Dear Chair Johanson, Vice Chair Kitagawa, and members of the House Committee on Committee on Consumer Protection and Commerce:

We submit this testimony on behalf of Enterprise Holdings, which includes Enterprise Rent-A-Car, Alamo Rent-A-Car, National Car Rental, and Enterprise Commute (Van Pool).

Enterprise **supports** H.B. 1688, which subjects U-drive motor vehicles to the same motor vehicle registration fees as other motor vehicles, and authorizes the counties to use certain motor vehicle registration fees to mitigate and address the impacts of tourism-related traffic congestion.

The rental car industry has been engaged in discussions with some of the counties to partner together to address the impacts of tourism related traffic congestion. As part of these discussions, this measure emerged as a concept having support from all stakeholders.

The current registration fee for U-drive motor vehicles, or rental motor vehicles, is less than all other motor vehicles. Raising the current county certificate of registration fee to \$2 for all vehicles would create parity between U-drive vehicles and all other motor vehicles and allows for a more equitable application of the fee.

In addition, allowing counties to use the fee to address the impacts of tourism congestion will help provide funding for the counties, as well as flexibility for the counties to use the fee to support county traffic programs and infrastructure.

For the above reasons, we support H.B. 1688 and respectfully request that the Committee pass the bill in its current form. Thank you for the opportunity to submit testimony on this bill.

SUBJECT: **SUPPORT OF HB 1688, REGISTRATION OF VEHICLES**

Thank you for the opportunity to testify in **SUPPORT** of this important measure. The purpose of this measure is to subject rental vehicles to the same motor vehicle registration fees as other motor vehicles and to authorize the counties to use certain motor vehicle registration fees to mitigate and address the impacts of tourism-related traffic congestion.

The Maui County Council has not had the opportunity to take a formal position on this measure. Therefore, I am providing this testimony in my capacity as an individual member of the Maui County Council.

I **SUPPORT** this measure for the following reasons:

1. Raising the current county certificate of registration fee to \$2 for all vehicles would create parity between rental vehicles and all other motor vehicles and allows for a more equitable application of the fee.
2. This measure is a form of tourism management that can help to ensure quality of life for residents, the health of the environment, and the continued value of the visitor experience.
3. The additional revenue from motor vehicle registration fees will help the counties mitigate and address the impacts of tourism-related traffic congestion.

For the foregoing reasons, I **SUPPORT** this measure.

H.B. No. 1688

Relating to the Registration of Vehicles.

Committee on Consumer Protection & Commerce

LATE

The Hawai'i State Association of Counties (HSAC) strongly supports H.B. No. 1688, with a recommended amendment. H.B. No. 1688: requires U-drive motor vehicles to pay the same beautification fee as that charged to regular citizens; and authorizes the counties to use the additional motor vehicle registration fees to mitigate problems caused by the additional costs of disposing abandoned and derelict vehicles, and to address the impacts of tourism-related traffic congestion.

There is a \$10 limit on the beautification fee that a county may charge. The costs relating to abandoned/derelict vehicles, however, continue to grow. During 2017, the County of Kauai handled the removal of 404 abandoned and derelict vehicles, 498 in 2018. Kauai taxpayers paid more than \$411,000 for the handling and disposal of abandoned and derelict vehicles in 2017; \$423,000 in 2018; and \$419,999 for the period up until September 2019. Because of the greater number of registered vehicles in some of the counties, the \$10 cap is sufficient. Removing the cap considers the varying conditions in different counties; storage space, recycling facilities, administrative services.

We request that H.B. No. 1688 be amended to remove the \$10 cap on the beautification fee that a county may charge for the disposal of abandoned and derelict vehicles.

For these reasons the Hawai'i State Association of Counties strongly supports H.B. 1688, with the recommended amendment and requests your favorable consideration of this measure.

SUBJECT: MOTOR VEHICLE, Registration Fees for U-drive Motor Vehicle

LATE

BILL NUMBER: HB 1688 HD 1

INTRODUCED BY: House Committee on Transportation

EXECUTIVE SUMMARY: Subjects U-drive motor vehicles to the same motor vehicle registration fees as other motor vehicles. Authorizes the counties to use certain motor vehicle registration fees to mitigate and address the impacts of tourism-related traffic congestion.

SYNOPSIS: Amends section 286-51, HRS, to raise the beautification fee for U-drive vehicle registrations from \$1 to \$2, which is the rate generally applicable to vehicles. Deletes the proviso that a county's power to increase the beautification fee up to \$10 by ordinance will not apply to U-drive vehicles, so that the county ordinance may apply to all vehicles.

Allows beautification fees to be used to mitigate and address the impacts of tourism-related traffic congestion.

EFFECTIVE DATE: Upon Approval

STAFF COMMENTS: The special reduced beautification fee for U-drive vehicles was enacted by Act 274, SLH 1999, which raised the beautification fee from \$1 to \$2 and gave the counties the power to raise it further, but froze the beautification fee for U-drive vehicles at \$1. This bill reverses the preferential treatment of U-drive vehicles.

RE: HB1688 RELATING TO REGISTRATION OF VEHICLES

Chair Johanson and members of the Committee on Consumer Protection & Commerce:

My name is Jim East, and I am the Vice President of Government Relations for Hertz. Hertz supports HB1688 which subjects U-drive motor vehicles to the same motor vehicle registration fees as other motor vehicles, and authorizes the counties to use certain motor vehicle registration fees to mitigate and address the impacts of tourism-related traffic congestion.

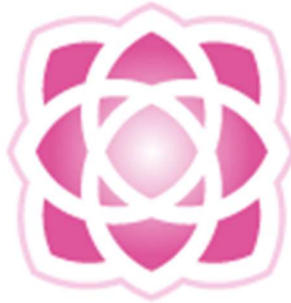

Over the past several months, Hertz has been in discussion with several counties and recognize that visitor destination management is a critical concern for their residents. Recognizing that the visitor industry plays an essential part of the State's economy, it is also important to address the impacts on infrastructure, traffic, and the environment. Expanding the use of vehicle registration fees to include the impacts of tourism-related traffic congestion is an appropriate and needed use.

Hertz supports HB1688. Thank you for the opportunity to testify on this matter.

Sincerely,

COMMENTING ON HB1688 RELATING TO REGISTRATION OF VEHICLES

The Maui Chamber of Commerce would like to comment on HB1688 which subjects U-drive motor vehicles to the same motor vehicle registration fees as other motor vehicles. Authorizes the counties to use certain motor vehicle registration fees to mitigate and address the impacts of tourism-related traffic congestion.

The Chamber agrees that all motor vehicles should be charged the same fee for highway beautification, disposal of abandoned vehicles, etc. Our concern is that the additional use of these funds – to “mitigate and address the impacts of tourism-related traffic congestion” – may reduce the amount of funds available for the original purposes of this fund. We would prefer to see that only the revenue from rental car registration be used for mitigating and addressing the impacts of tourism-related traffic congestion.

Thank you for the opportunity to provide this testimony.

Sincerely,
