Before the Senate Committee on
WATER AND LAND

Monday, March 14, 2022
1:00 PM

State Capitol, Conference Room 229, Via Videoconference

In consideration of
HOUSE BILL 2016, HOUSE DRAFT 1
RELATING TO THE SAND ISLAND STATE RECREATION AREA

House Bill 2016, House Draft 1 proposes to appropriate moneys to the Department of Land and Natural Resources (Department) to prepare a master plan for the Sand Island State Recreation Area. **The Department supports this measure provided that its passage does not replace or adversely impact priorities indicated in the Executive Supplemental Budget request.**

The Department recognizes the importance of providing outdoor recreational opportunities, safe and well-maintained park infrastructure and facilities, and the protection of cultural and historic resources. The previous Sand Island State Recreation Area plan was completed in 1973 but never fully implemented – the focus was on water sports at that time and comprehensive development of shoreline pathways and passive recreational sites. Since then, the Sand Island State Recreation Area has become a diverse use park unit, and provides opportunities for day use, camping, fishing, surfing, softball play, canoe paddling, non-motorized BMX bicycle use with additional areas of open grass fields that can accommodate a variety of passive recreation and general open space for picnic and family gatherings.

However, the Park is in a deleterious condition with aging infrastructure, irrigation deficiencies, and is currently undergoing a new sewer line repair. Other challenges include constant homelessness, invasive kiawe in the undeveloped area, an entrenched feral cat population and the shoreline is now subject to the impacts of climate change and sea level rise (SLR). Most of the Sand Island State Recreation Area is dredged material from the adjacent sea lanes and has been impacted by the recent King Tides that are now eroding the shoreline. The shoreline itself has

remnants of wartime materials and object and there is a current CIP to identify and clean up these unnatural features that are now more exposed due to SLR impacts.

The Sand Island State Recreation Area's location in the urban core and adjacent a densely populated resident community makes the demand and popularity of developing an urban flagship park more optimized as a "People's Park" warrant another funded planning effort. An updated master plan for the Sand Island State Recreation Area would help to address the weathered and antiquated facilities, create increased outdoor recreation opportunities, plans for underutilized spaces of the Park and guide the Department in adaptive management and resilience to the impact of SLR on coastal recreational land.

Thank you for the opportunity to comment on this measure.

TO THE SENATE COMMITTEE ON WATER AND LAND
ON
HOUSE BILL NO. 2016, H.D. 1

March 14, 2022
1:00 p.m.
Room 229 and Videoconference

RELATING TO THE SAND ISLAND STATE RECREATION AREA

The Department of Budget and Finance (B&F) offers comments on this bill.

House Bill No. 2016, H.D. 1, requires the Department of Land and Natural Resources (DLNR) to prepare a master plan for the Sand Island State Recreation Area and appropriates an unspecified amount of general funds for FY 23 for the DLNR to prepare a park master plan.

B&F notes that, with respect to the general fund appropriation in this bill, the federal Coronavirus Response and Relief Supplemental Appropriations Act requires that states receiving Elementary and Secondary School Emergency Relief (ESSER) II funds and Governor's Emergency Education Relief II funds must maintain state support for:

- Elementary and secondary education in FY 22 at least at the proportional level of the state's support for elementary and secondary education relative to the state's overall spending, averaged over FYs 17, 18 and 19; and
- Higher education in FY 22 at least at the proportional level of the state's support for higher education relative to the state's overall spending, averaged over FYs 17, 18 and 19.

Further, the federal American Rescue Plan (ARP) Act requires that states receiving ARP ESSER funds must maintain state support for:

- Elementary and secondary education in FY 22 and FY 23 at least at the proportional level of the state's support for elementary and secondary education relative to the state's overall spending, averaged over FYs 17, 18 and 19; and
- Higher education in FY 22 and FY 23 at least at the proportional level of the state's support for higher education relative to the state's overall spending, averaged over FYs 17, 18 and 19.

The U.S. Department of Education has issued rules governing how these maintenance of effort (MOE) requirements are to be administered. B&F will be working with the money committees of the Legislature to ensure that the State of Hawai'i complies with these ESSER MOE requirements.

Thank you for your consideration of our comments.

Written Testimony Presented Before the Senate Committee on Water and Land

by

Ty Tamagawa, Executive Director

The Pillars LLC

HB2016- RELATING TO THE SAND ISLAND STATE RECREATION AREA

Chair Inouye, Vice Chair Keith-Agaran, and Members of the Committee:

Thank you for the opportunity to testify on HB2016. I support HB2016.

Even though I am representing The Pillars LLC, this project has immense value to me as well. I grew up in the Lanakila Housing area, and have a vested interest in urban communities, especially the ohana in Kalihi. There is a felt need for projects like this, not just in Kalihi, but for local communities all around Hawai'i. I believe that developing Sand Island Recreation Area can be the start of something valuable and special for our state, especially, like this bill suggests, if it is done with the community in mind.

"The People's Park" is a great way to put it. There is a felt need for better parks in Kalihi, safer, more beautiful, and functional parks. Parks that serve the community, reflect the community, and honor them. These sentiments can be felt all over the US, this sense of community led development projects. Especially in Hawai'i, where there is a tension between the urban planners and the locals, this project can be an historic feat for the islands, that start the healing process and continuing of the path in our state progressing, and building more forms of equity.

Confirming what this bill has already stated, the users of this park are looking for improvements and added features. They want this park to be developed and taken care of. Not only that, but the people of Kalihi have a vested interest as well. Our team at the Pillars have personally surveyed park users before, but we have also been going out to the different communities of Kalihi, not only serving them, but also asking them questions about development here. We have already been doing community engagement for this project, and so far, it is a resounding yes of support. Aunties and Uncles want safer and cleaner areas for themselves and their family, young adults want more areas of community for activity and gatherings. Nonprofits want to support a project of development that serve our locals in such a special way. People want their voice to be heard.

I support HB2016. It is a project with profound results if done with the people in mind. You have a high potential opportunity here that can be used for the betterment of our state and its ohana. This is a park that not only will serve our current citizens and increase our island beauty, but will benefit our future generations as well.

Mahalo for your time.

Chair Inouye, Vice Chair Keith-Agaran, and Members of the Committee:

Thank you for the opportunity to testify on HB2016. I support HB2016.

I believe this project is good because everyone knows where Sand Island is at. All the locals, the businesses around the area, it is a great central place for everyone. It is neutral as well, making it a ground for a lot of different kinds of people to meet up and come together.

I support HB2016.

Mahalo for your time.

HB2016- RELATING TO THE SAND ISLAND STATE RECREATION AREA

Chair Inouye, Vice Chair Keith-Agaran, and Members of the Committee:

Thank you for the opportunity to testify on HB2016. I support HB2016.

I support Sand Island Recreation Area being developed because communities like these need safe places and more opportunities for positive community growth that promote health as well. In our Polynesian communities, public health is a concern, riddled with problems of weight gain and physical activity.

Development in Sand Island can also lead to facilities and opportunities to provide positive services like financial teaching, life skills, and maybe even addiction facilities. This place can become a great way to serve our communities and meet needs that our ohana deal with every day.

I support HB2016.

Mahalo for your time.

HB2016- RELATING TO THE SAND ISLAND STATE RECREATION AREA

Chair Inouye, Vice Chair Keith-Agaran, and Members of the Committee:

Thank you for the opportunity to testify on HB2016. I support HB2016.

I think this park is in a unique position to serve communities that need it the most. A lot of places have things like skate parks, soccer fields, and equipment like that, but with Sand Island Recreation area, we can bring more of that kind of stuff into these communities that don't have them, and are in need of them more. Sand Island is central, right off the freeway, and it is near town and a lot of communities that need these types of services and safe places.

Sand Island Recreation Area can also be used as a place to teach, provide services that schools do not provide much these days too. Let's get students in here, and the kids in general. PE, physical betterment, maybe teach them home skills, and provide facilities for parts of our community that is often forgotten about, like those with mental disabilities. I work with autistic kids as well, and I know they need help too. Either way, this place can be made to serve the community with the communities in mind and part of the process, to bring fulfillment into people's lives through facilities and providing a safe and positive gathering place for ohana.

I support HB2016.

Thank you for letting me speak.

HB2016- RELATING TO THE SAND ISLAND STATE RECREATION AREA

Chair Inouye, Vice Chair Keith-Agaran, and Members of the Committee:

Thank you for the opportunity to testify on HB2016. I do not support HB2016.

I know some of the surf hui at Sand Island, and some people that have been living there for a long time, even before they put the sea walls there. So speaking on behalf of them, I do not think they would want anything to change, they would want it to stay the same, because the last time someone tried to help with the sea walls, it ruined the beach. But yeah, that is why.

I do not support HB2016.

Mahalo for your time.

HB2016- RELATING TO THE SAND ISLAND STATE RECREATION AREA

Chair Inouye, Vice Chair Keith-Agaran, and Members of the Committee:

Thank you for the opportunity to testify on HB2016. I support HB2016.

First off, I am from Kalihi and near the area that this project would definitely help serve. It would benefit the community; I think it would be for everyone too. Adults, kids, workers, teenagers, all of that. It can help relieve stress and help with health as well. It can also be a place to provide more jobs and expand the workforce, and provides opportunities to do more volunteering and good things in helping out the communities. At the end of the day, we are looking for places to help and give back. That is what it is all about. Community and helping each other out.

I support HB2016, Sand Island Recreation Area is a great place for these kinds of things to happen, creating greater community and goodwill.

Mahalo for your time.

HB2016- RELATING TO THE SAND ISLAND STATE RECREATION AREA

Chair Inouye, Vice Chair Keith-Agaran, and Members of the Committee:

Thank you for the opportunity to testify on HB2016. I support HB2016

Like other states Hawaii has its share of challenges such as substance abuse, affordable housing, teen age sex trafficking and domestic violence. I believe the development of Sand Island Recreation Area will help stem the tide by bringing the community together. Some say it takes a village to raise a child, but it takes many hands working together, laulima, to build a healthy community. Our communities are only as strong as our families. When we raise healthy families we establish a strong foundation for generations to come.

When we heal the man, we heal the land. I support this bill because it espouses the values needed to heal and impact the individuals who reside in the area including unity of heart and purpose, compassion for those less fortunate and the spirit of aloha.

I support HB2016.

Thank you for the opportunity to testify on HB2016. I support HB2016.

Sand Island Recreation Area would be a great for the community, and provide a safe environment for kids. A lot of youth come into the boxing gym, and it keeps them off of the streets and out of trouble. Same thing with this project, this park can not only give them other opportunities to spend their time, but give them more outlets. This park will not only benefit the Kalihi or urban youth, but I believe it can benefit all of Oahu. This is a good idea.

I support HB2016.

Mahalo for your time.

Aloha, first and foremost I support this project, especially for Kalihi and the urban community, because it helps to set people in the right pathways. Projects like these are great for the kids and for their future. If you catch them early and get them with positive experiences of community and safe places, it can change their trajectory. If the kids and families benefit, we all benefit as a community and state.

I support HB2016, because it is a great opportunity for community strengthening and collaboration, and can provide positive teachings and experiences for the keiki of the next generation.

Thank you for your time.

Thank you for the opportunity to testify on HB2016. I support HB2016.

Having worked with families, teens and young adults, the need to have a place to gather to build relationships especially during this time of isolation and lockdown is more important than it ever has been. This will help motivate people to get out of their houses, connect with their ohana, and build deeper community roots and relationships, while being able to go to a quality safe place.

This is a unique opportunity for families to take ownership in a community way, and have a greater impact on their local community as well.

I support HB2016.

We need projects like these to get kids out of the street. Kalihi is coming bad. This project can set the younger generation to set an example of how our community should be. Instead of gangs and drugs, they can turn to other options like boxing and other outlets these types of areas can provide. I lived the same lifestyle. In between worlds. Boxing and gang life. So I know we need a place for healthier outlets and better safe gathering spaces to set a positive lifestyle for our youth.

I support HB2016.

Thank you for the opportunity to testify on HB2016. I support HB2016.

I believe this bill and project is important, because parks like these can provide an outlet for the younger generation, for the population of Kalihi and Honolulu area to come together in a safe place and participate in something that allows them to connect and have a better life. Projects like these provide opportunities for healthy social interaction, and can inspire people to have different vision for their lives. Great parks are melting pots of ideas and perspective, and if you get the community involved and participating in creating it, it would bring a lot of positivity and open the door for new ideas and vision to what is possible for urban communities and their youth especially.

I support HB2016.

Thank you for your time.

HB2016- RELATING TO THE SAND ISLAND STATE RECREATION AREA

Chair Inouye, Vice Chair Keith-Agaran, and Members of the Committee:

Thank you for the opportunity to testify on HB2016. I support HB2016.

I believe that during this time where there is controversy with external interests taking advantage of our local resources and land, that projects like these are especially important. Take the Red Hill situation for example. Sand Island's condition can be attributed to the poor treatment it faced when military forces occupied it for their own gain. We owe it to our communities to rebuild these things that have been damaged. Projects like these will also give our communities around the islands hope and a great story to counteract the negativity that surrounds development and land usage. Doing this project as a community is important, specifically through local support and participation. I would love to see a park that has the local people in mind.

Also, I believe in projects that take care of nature and restore our Aina in things that were lost. Sand Island was not always in such a poor state; I have a strong connection to restoring what was lost.

Again, I support HB2016, and think it is an important project that can really help the stories and legacy of our ohana and islands.

Thank you for your time.

HB2016- RELATING TO THE SAND ISLAND STATE RECREATION AREA

Chair Inouye, Vice Chair Keith-Agaran, and Members of the Committee:

Thank you for the opportunity to testify on HB2016.

Honolulu needs more things like this, especially parks. A lot of parks are starting to be made for tourists and other interests besides local needs and wants. Kalihi is also a place that desperately needs things like this. If this park is done right, it can help change communities and possibly trajectories of the youth.

I support HB2016.

Mahalo for your time.

HB2016- RELATING TO THE SAND ISLAND STATE RECREATION AREA

Chair Inouye, Vice Chair Keith-Agaran, and Members of the Committee:

Thank you for the opportunity to testify on HB2016.

I support this bill, it will be great for keiki and for the community. Trusting and giving the people the opportunity to the land is important as well. We should all share our duty to take care and build on our land. The park has a lot of potential and if done right could be a staple for the Hawaiian Islands for beauty and for community.

I support HB2016

Mahalo for your time.

HB2016- RELATING TO THE SAND ISLAND STATE RECREATION AREA

Chair Inouye, Vice Chair Keith-Agaran, and Members of the Committee:

Thank you for the opportunity to testify on HB2016.

I support HB2016, it is a great idea with a lot of opportunity and potential. If this is done right, the community of not just Kalihi, but Oahu in general would benefit from it. It will also be a place where locals can feel like they had a say in something that was made in their community. Also, it is also never a bad thing to beautify our land and clean up that place. It is super dirty and is a hazard as well.

Mahalo for your time.

HB2016- RELATING TO THE SAND ISLAND STATE RECREATION AREA

Chair Inouye, Vice Chair Keith-Agaran, and Members of the Committee:

Thank you for the opportunity to testify on HB2016. I support HB2016.

Aloha, I support this bill and project because growing up in Kalihi I saw the need for more community areas and local participation in important stuff like this. Projects like these is what saves communities and help ohana grow, especially the keiki and young adults. Kalihi and urban Honolulu in general would benefit a lot from this, especially if it becomes a park that is made for the community. It can also be a park that brings Oahu together in general, and can be a place for people of all walks of life to enjoy.

I know a place like this, if done correctly, would have helped me growing up as well to stay away from the streets and other negative environments. We need a safe place to gather and socialize.

I support HB2016.

Mahalo for your time.

HB2016- RELATING TO THE SAND ISLAND STATE RECREATION AREA

Chair Inouye, Vice Chair Keith-Agaran, and Members of the Committee:

Thank you for the opportunity to testify on HB2016.

I support HB2016. I think the parks are underutilized and that communities aren't engaged as much as they could be. COVID 19 has prevented and imprisoned many people in fear. But I believe in a post Covid Hawaii, that parks and public places can once again be community hubs where people gather and celebrate and make lasting memories. Sand Island Beach Park along with many others have slowly started to see people returning, but not in the way or in the numbers as the past. HB2016's proposal to gather and encourage community leaders and businesses to not only pour in their resources, but also to take ownership can help us heal and thrive and become the Hawaii we all want it to be. I believe that it is time to partner with people of the community and the local private sector to stop wholly relying on the state to maintain and fund our public parks through taxes. People like me are looking and wanting to help make our communities better and HB2016 gives us a very possible way to do so.

I support HB2016.

Mahalo for your time and consideration.

HB2016- RELATING TO THE SAND ISLAND STATE RECREATION AREA

Chair Inouye, Vice Chair Keith-Agaran, and Members of the Committee:

Thank you for the opportunity to testify on HB2016. I support HB2016.

One of the first things that come to mind about parks, is I had my first birthday party at a public park, specifically Halawa Park. Even though it isn't the same park we are talking about, these types of experiences hold a core value to me. I love our state, and I believe in the importance of public recreational areas as a place of fellowship, community, and health. I think that is how community is built, when you have these places where people can gather, and I believe that part of the responsibility is for individuals in that community to maintain and upkeep those areas. However, I also value and appreciate the way our state of Hawai'i has provided in these different parks and areas, to be a place of communities and special memories.

Places like these build upon family. Family quality time, family activities, and family memories; so we are talking about legacy. I believe Sand Island Recreation Area can be a place of community based initiatives, where commissions such as these can be promoted and envisioned. These types of local participation and community building need to be in our parks, what better way than for a "People's Park", with Sand Island Recreation Area having so much potential. With the partnership of the state, and local communities working side by side, this can be progressive and good not just for Oahu, but beyond.

I support HB2016.

Mahalo for letting me speak on this measure.

HB2016- RELATING TO THE SAND ISLAND STATE RECREATION AREA

Chair Inouye, Vice Chair Keith-Agaran, and Members of the Committee:

Thank you for the opportunity to testify on HB2016. I support HB2016

I support this project because I feel it is good for the community, especially in the urban environments. Though I am from the Westside, I am still familiar with environments like these. Where I live there is a lot of drugs and homelessness, and places like Sand Island Recreation Area can provide opportunities and a safe place to deter and stay away from things like these. More positive things to see. Especially for the kids I feel like, they will benefit the most. Keep them away from the streets, the drugs, and all that. Projects like these can reach and keep the young people away from these environments and show them other more positive things and situations. It will benefit the community a lot.

I support HB2016.

Mahalo for your time.

HB2016- RELATING TO THE SAND ISLAND STATE RECREATION AREA

Chair Inouye, Vice Chair Keith-Agaran, and Members of the Committee:

Thank you for the opportunity to testify on HB2016.

I support HB2016. The depth of thought in this bill has exceeded expectations and gives hope to the future of the Sand Island area. The care for the history, culture, present issues, and future use of the land demonstrates a vision that has the possibility of transforming the "image" of Sand Island into a clean and safe family environment that will enable prosperity of the area and exceptional use of the facilities. I believe this plan will bring many people who live in proximity of Sand Island and on Oahu to visit and enjoy various activities with friends and loved ones. This bill also has the potential to benefit other respected organizations, such as, the University of Hawaii and its maritime training and education center. With it's many avenues of approach in restoring, development, and respect to the history and culture of Hawaii I am in full support of this bill.

May "The Lord bless you and keep you; the Lord make His face shine upon you, and be gracious to you; the Lord lift up His countenance upon you, and give you peace."

Mahalo for your time.

HB2016- RELATING TO THE SAND ISLAND STATE RECREATION AREA

Chair Inouye, Vice Chair Keith-Agaran, and Members of the Committee:

I support HB2016. I think Kalihi needs a park, not just any park, but a park with the people that live around it in mind. A people that live here, that have multiple generations of family here. Something for all of us, not just Kalihi, but all of Honolulu. Kalihi though really needs it, the kids need a place, the young adults need a place, families need a place. I think Sand Island is a key place too, it's part of Kalihi, but away from the streets and a secluded environment of its own, like a safe place.

Thank you for the opportunity to testify.
