The Honorable Henry J.C. Aquino, Chair
and Members
Committee on Transportation
House of Representatives
Hawaii State Capitol
415 South Beretania Street, Room 423
Honolulu, Hawaii 96813

Dear Chair Aquino and Members:

SUBJECT: House Bill No. 2336, Relating to the Photo Red Light Imaging Detector Systems Program

I am James Slayter, Acting Major of the Traffic Division of the Honolulu Police Department (HPD), City and County of Honolulu.

The HPD supports House Bill No. 2336, Relating to the Photo Red Light Imaging Detector Systems Program.

The HPD supports the proposal to clarify amendments to Chapter 291J of the Hawaii Revised Statutes to better reflect the legislative intent of the photo red light imaging detector systems program, including repealing or changing certain defenses to violations of the program. We also support the amendment of Act 30, Session Laws of Hawaii 2020, to account for the current timetable of the photo red light imaging detector systems program.

We believe this system will allow our streets to be much safer with a visible 24-hour deterrent at our busiest intersections. This would free up law enforcement officers to respond to priority calls and would remove the safety risk involved in conducting traditional traffic stops during their tours of duty.

The Honorable Henry J.C. Aquino, Chair
and Members

Thirty-First State Legislature
Regular Session of 2022
State of Hawai'i

February 4, 2022

RE: H.B. 2336; RELATING TO THE PHOTO RED LIGHT IMAGING DETECTOR SYSTEMS PROGRAM.

Chair Aquino, Vice-Chair Ilagan, and members of the House Committee on Transportation, the Department of the Prosecuting Attorney of the City and County of Honolulu (“Department”) submits the following testimony in support of H.B. 2336.

The purpose of this bill is to clarify various statutes related to the Red Light Imaging Detector Systems pilot program, and adjust funding and applicable dates to correlate with the pilot program’s current timeline.

In 2019, the Department participated in a multi-agency red light running committee, convened by the State Department of Transportation – Highways Safety Division (“DOT”), pursuant to Act 131 (2019). Since that time, the Department has worked diligently with committee members, to anticipate any legal or procedural challenges, and prepare for its participation in the upcoming pilot program, which is scheduled to begin operating later this year.

The Department appreciates DOT’s leadership on this project, and believes that all changes proposed in H.B. 2336 will help to clarify the Legislature’s intent for the Red Light Imaging Detector Systems pilot program. In addition, this bill would provide necessary adjustments to various dates and funding provisions, which will allow DOT to fund the anticipated influx of work to be handled by the Department.

For all of the foregoing reasons, the Department of the Prosecuting Attorney of the City and County of Honolulu supports the passage of H.B. 2336. Thank you for the opportunity to testify on this matter.

H.B. 2336
RELATING TO THE PHOTO RED LIGHT IMAGING DETECTOR SYSTEMS
PROGRAM

House Committee on Transportation

The Department of Transportation (DOT) **supports** H.B. 2336, which clarifies certain provisions in chapter 291J, Hawaii Revised Statutes, to better reflect the legislative intent of the photo red light imaging detector systems program.

The DOT supports updating the current timetable for the photo red light imaging detector systems program to ensure the successful implementation of the program.

Thank you for the opportunity to provide testimony.
