Comments:

I stand in support of this resolution. I am a lifelong resident of Makaha and throughout my life my family and I have made use of the Refuse Center in Waianae. I have seen increased usage of the dump and have also witnessed increased illegal dumping nearby and in other areas. On more than one occasion we've seen the line at a stand still and made the decision to try again later or another day and have sat in the line because we needed the truck bed emptied for another purpose. Me and my family are patient and I would like to think eco conscious, I know there are others who are not. On more than one occasion I've seen trucks and cars loaded with rubbish turn out from the road going to the Refuse center, then seen that same garbage on the side of the road further up the valley, I've even see people just fly right past the road to the dump and just keep on going uphill.

The refuse center needs more containers and drivers/trucks to haul away the full bins. The facility itself could use an upgrade as well, if not a small expansion. And the road itself (Ho'opuhi street) from the turn to the center could stand to be widened and improved as it's really a 1 lane road, which can be a problem when there's a line waiting, people leaving, and a truck with an empty bin stuck at the end of the line, I can't even imagine the residents trying to get in and out when it gets really busy there. It would also be good to have HPD or a relevant agency sweep the road weekly for the abandoned vehicles and other garbage dumped along that section of road.

Comments:

Wai'anae Coast has become a dumping ground over the past 5 years. Our coast is suffering from people being turned away from the convenience center day after day, due to the lack of bins, drivers, staff, above all funding.

Our center needs to be expanded the property that it sits on is not being used to its full potential to benefit and reverse the dumbing happening on our beaches, back roads, and parks because the dump can't handle its daily operational load.

Please expand, acquire funding for expansion stop turning a blind eye!

Comments:

This convenience center has not been updated or expanded since it was built in the 70's. There are not enough bins for it to remain open for use. It is closed a lot during the day because they are waiting for a truck to come empty the bins. Always full. People end up leaving garbage all over the roads in Waianae because of it.

Comments:

Aloha I am Keline Kahau and I am in support of expanding and improveing the waianae convenience center. The State of Hawaii should look into better technology with our refuse division. to help all communities.
