**Testimony on behalf of the  
Hawai‘i State Commission on the Status of Women**

**Support with Amendments  
HCR122, HD1**

Dear Chair Nakashima, Vice Chair Matayoshi, and Honorable Members,

The Hawai‘i State Commission on the Status of Women supports the intent of this measure and **requests amendments to strengthen HCR122, HD1.**

The Commission takes the position that this project is urgently needed and that a formal taskforce should be created. The Commission supports the creation of a *Task Force to End the Invisibility and Abuse of Filipino Women*.

It has been long known that Filipino women represent nearly one-third (28.9%) of all domestic violence victims in Hawai‘i. Filipino women are also much more likely to be fatal victims of domestic violence compared to Native Hawaiian and Japanese women relative to their proportions in the population.<sup>1</sup> More still, almost 10% of domestic violence victims speak Filipino as their first language.

Results from *Hawaii domestic violence fatality review 2000-2009* found that, “It is possible that tolerance for domestic violence is influenced by socio-cultural factors and length of immigration and acculturation,” but cited an outsider of our Filipino culture (David Joel Steinberg) who was only able to provide a superficial, gender-blind analysis: “Personalism, smooth interpersonal relationships, and hierarchical structures are safety lids for the Philippine society. Filipinos are both friendly and tolerant, but the society also tolerates moments of violence. To run amok is an understandable behavior if an individual has been wronged or provoked sufficiently. Crimes of passion abound and revenge is, in Philippine terms, often an acceptable explanation of criminal behavior. Temporary, explosive anger at a personal affront is a way Filipinos expresses

---

<sup>1</sup> Pobutsky, Ann et al. “Results from the Hawaii domestic violence fatality review, 2000-2009.” *Journal of injury & violence research* vol. 6,2 (2014): 79-90. doi:10.5249/jivr.v6i2.473

existential rage. Political violence, especially just prior to elections, is widely accepted and usually unpunished.”

We need a special taskforce led for and by Filipino women to address this deadly tragedy afflicting our community and that is currently, but not eternally, embedded in our culture.

**Requested Amendment:**

1. Create a formal Taskforce to End the Invisibility and Abuse of Filipino Women. Add additional stakeholders to broaden community input and participation. Amend duties. Target the entire Filipino community, not only victims. The Commission will attempt to implement the plan to the extent possible but cannot make a formal commitment to “implement an outreach program” without adequate resources because we do not have funding or staff to execute an effective, integrated public health communications program, which is what this effort would require:

BE IT RESOLVED by the Senate of the Thirty-first Legislature of the State of Hawaii, Regular Session of 2022, the House of Representatives concurring, that the State Commission on the Status of Women is to ~~work~~ **create the Task Force to End the Invisibility and Abuse of Filipino Women** with the Domestic Violence Action Center, **Consulate General of the Philippines, Hawaii Department of Health, Hawaii Immigrant Justice Center, The Legal Clinic, Hawaii State Coalition Against Domestic Violence**, the Filipino Chamber of Commerce of Hawai‘i, and other chambers of commerce in Hawaii, as appropriate, to develop ~~and implement~~ an outreach program aimed at informing ~~domestic violence victims~~ **the Filipino community** of various sources of assistance, including placement of posters and signage in various languages in discreet areas; and

2. Extend the report deadline to 2024.

BE IT FURTHER RESOLVED that the State Commission on the Status of Women is requested to submit a report of its progress in the development and implementation of the outreach program, findings and recommendations, and proposed legislation if any, to the Legislature no later than twenty days prior to the convening of the Regular Session of **2023 2024**

Re: Testimony in Support of HCR 122

We offer this testimony in support of HCR 122, urging collaboration between the Hawaii State Commission on the Status of Women, the Filipino Chamber of Commerce in Hawai'i, and other chambers of commerce of Hawai'i in developing and implementing an outreach program aimed at informing domestic violence victims of various sources of assistance.

The Domestic Violence Action Center provides unique and culturally responsive program services to meet the needs of survivors. Pacific Islander, Asian and immigrant communities experience domestic violence at much higher rates than the general population. Our work is tailored to support these communities who are facing enormous challenges.

Collaborative outreach is an excellent way to inform the community that there are ways to get free and safe, there are available community programs and the needs of our communities with unique challenges can be assured that no one deserves to be harmed.

Thank you for giving this your greatest consideration. We look forward to favorable action.

## HAWAI'I FRIENDS OF CIVIL RIGHTS

April 3, 2022

TO: **Committee on Judiciary and Hawaiian Affairs**  
Representative Mark M. Nakashima, Chair  
Representative Scot Z. Matayoshi, Vice-Chair

FROM: Amy Agbayani, Co-Chair & Pat McManaman, Co-Chair

SUBJECT: **HCR112, HD1 and HR122, HD1**

HEARING: April 5, 2022 at 2:00 PM  
Conference Room 325 & Via Videoconference

The Hawai'i Friends of Civil Rights stands in **Strong Support of HCR112, HD1, and HR122, HD1** which propose to provide outreach and information to abused immigrant women through a collaboration between the State Commission on the Status of Women, the Domestic Violence Action Center, and the Filipino Chamber of Commerce Hawai'i.

In concert with our partners, we recommend the Resolutions be amended to create a Task Force to include the Domestic Violence Action Center, Consulate General of the Philippines, Hawaii Department of Health, Hawaii Immigrant Justice Center, The Legal Clinic, Hawaii State Coalition Against Domestic Violence, the Filipino Chamber of Commerce of Hawai'i, and other chambers of commerce in Hawaii, as appropriate, to evaluate previous strategic plans from a culturally competent and gender-responsive lens and develop and implement an outreach program aimed at informing domestic violence victims of various sources of assistance, including placement of posters and signage in various languages in discreet areas.

In engaging battered immigrants, we also recommend that the Task Force be encouraged to develop a plan for language equity. Engaging battered immigrant women in their communities and their languages is a critical first step in ending immigrant domestic violence. In addition to

multilingual posters and signage, the collaborative organizations may wish to provide multilingual digital access to information and resources on their websites. Often, a cell phone is the sole link a battered woman may have to seek information, help, and assistance. Confronting English-only information may dissuade her from making further contact.

Finally, there is a critical need to restore state-wide training for community health care providers, community-based organizations, state and local government workers, and others on the unique barriers confronting abused immigrant women and available immigration legal remedies.

Thank you for the opportunity to testify on this important measure.

**Committee on Judiciary and Hawaiian Affairs**  
Representative Mark M. Nakashima, Chair  
Representative Scot Z. Matayoshi, Vice-Chair

**SUPPORT for HCR112, HD1 and HR122, HD1**

April 5, 2022 at 2:00 PM

Conference Room 325 & Via Videoconference

The Hawai'i Coalition for Immigrant Rights (HCIR) stands in **Strong Support of HCR112, HD1, and HR122, HD1** which proposes to provide outreach and information to immigrant women who have been abused through a collaboration between the State Commission on the Status of Women, the Domestic Violence Action Center, and the Filipino Chamber of Commerce Hawai'i.

Foreign-born individuals who identify as female are disproportionately impacted by intimate partner violence, especially if they are undocumented or have a complicated legal status. It is not uncommon for an intimate partner to use the threat of deportation and/or separation from their children to maintain control over a victim. In the state of Hawai'i, approximately half of our foreign-born population is of Filipino background, in addition to the many second generation Filipino/as, nearly 342,000 individuals in total. It is critical that this population receive the thought, resources, and individualized care that it deserves.

In concert with our partners, we recommend the Resolutions be amended to create a Task Force to include the Domestic Violence Action Center, Consulate General of the Philippines, Hawai'i Department of Health, Hawai'i Immigrant Justice Center, The Legal Clinic, Hawai'i State Coalition Against Domestic Violence, the Filipino Chamber of Commerce of Hawai'i, and other chambers of commerce in Hawaii, as appropriate, to evaluate previous strategic plans from a culturally competent and gender-responsive lens and develop and implement an outreach

program aimed at informing domestic violence victims of various sources of assistance, including placement of posters and signage in various languages in discrete areas.

In engaging immigrant survivors of intimate partner abuse, we also recommend that the Task Force be encouraged to develop a plan for language equity. Engaging immigrant survivor women in their communities and their languages is a critical first step in ending immigrant domestic violence. In addition to multilingual posters and signage, the collaborative organizations may wish to provide multilingual digital access to information and resources on their websites. Often, a cell phone is the sole link a victim may have to seek information, help, and assistance. Confronting English-only information may dissuade her from making further contact.

Finally, there is a critical need to restore state-wide training for community health care providers, community-based organizations, state and local government workers, and others on the unique barriers confronting abused immigrant women and available immigration legal remedies.

Dear Chair, Vice Chair, and Committee Members:

The Hawai'i State Coalition Against Domestic Violence (HSCADV) advances the safety and healing of victims, survivors, and their families. We are the collective voice of a diverse network of organizations and individuals, working to eliminate all forms of domestic violence in Hawai'i by fostering partnership, increasing awareness of domestic violence, developing the capacity our member programs and community partners to address the needs of survivors and their families, and advocating for social justice and change.

On behalf of HSCADV and our 26 member programs statewide, we support this measure and recommend amending the measure to match SCR133 as amended on 3/31/22.

Thank you for the opportunity to testify on this matter.

Sincerely,  
Angelina Mercado, Executive Director

Comments:

Dear Chair Nakashima, Vice Chair Matayoshi, and Members of the Committee on the Judiciary & Hawaiian Affairs,

Growing up in Hawai‘i as a daughter of Filipino (im)migrants, I know many who have either experienced or witnessed violence against women at home. Filipino women represent nearly one-third (28.9%) of all domestic violence victims in Hawai‘i. Filipino women are also much more likely to be fatal victims of domestic violence compared to Native Hawaiian and Japanese women, relative to their proportions in the population.

Unfortunately, the data does not surprise me, however, we need action to address this insidious problem that impacts everyone. This violence did not always exist in our community and culture. Stressors of migration and ongoing economic hardship in Hawai‘i are factors in creating the extremely difficult conditions in which violence manifests. When abusers inflict violence against women, the culture of silence has protected abusers and allowed for this unacceptable treatment of women to continue. Survivors are not to be blamed for doing what they need to do to survive and endure and yet, the onus remains on all of us to take deliberate, principled, and collective action. It will take each of us to break this generational cycle, begin to heal those harmed, and ensure future generations will no longer normalize domestic violence.

This resolution seeks to gather trusted organizations to work together to develop an outreach program to spread awareness and increase access to resources. In addition, it is urgently needed and warrants a formal taskforce: the *Task Force to End the Invisibility and Abuse of Filipino Women*. Lived experiences can inform solutions to address this issue within the Filipino community. We need a special taskforce led for and by Filipino women. It’s notable that 10% of domestic violence victims speak Filipino as their first language, so navigating systems as an English language learner often contributes to the difficulties in accessing services.

I ask that the Committee pass HCR 122 the **requested amendments**:

1. Create a formal Taskforce to End the Invisibility and Abuse of Filipino Women.

BE IT RESOLVED by the Senate of the Thirty-first Legislature of the State of Hawaii, Regular Session of 2022, the House of Representatives concurring, that the State Commission on the Status of Women is to **work create the Task Force to End the Invisibility and Abuse of Filipino Women**

2. Extend the report deadline to 2024 to allow for sufficient time to investigate the issue and develop a plan to combat domestic violence in the Filipino community.

BE IT FURTHER RESOLVED that the State Commission on the Status of Women is requested to submit a report of its progress in the development and implementation of the outreach program, findings and recommendations, and proposed legislation if any, to the Legislature no later than twenty days prior to the convening of the Regular Session of **2023 2024**

Thank you for the opportunity to express my strong support for this measure. **Please pass HCR 122.**
