Re: **HCR 157; HR 157-Urging The Allocation Of Additional Resources To Increase Police Presence On The Waianae Coast And The Creation Of A New Police District For Waianae That Is Separate From Kapolei And Ewa**

Dear Chair Nakashima, Vice-Chair Matayoshi, and Honorable Committee members:

I serve as the President of the State of Hawaii Organization of Police Officers ("SHOPO") and write to you on behalf of our Union in strong **support** of HCR 157 and HR 157 which calls for the creation of another police district and for increased staffing on the Leeward Coast.

While we strongly support the creation of a new district to police the Waianae area, the resolution does not address how we are expected to staff this newly created district with officers given the severe staffing crisis we have been experiencing. As a union, we would like to know where and how are we supposed to find these officers when we cannot fill the districts, sectors and beats that already exist.

The local residents and business owners of Waianae have been screaming for greater police protection for years but it has fallen on deaf ears because nothing productive has been done to increase the number of police officers in the Honolulu Police Department ("HPD") so that Waianae can have the level of police protection it deserves. Rather than help us recruit and retain officers, we have seen our compensation fall substantially behind compensation rates paid in other jurisdictions, our retirement benefits slashed by the legislature, and we have been working without a contract for almost a year creating an atmosphere of instability and anxiety.

Our current pay and reduced retirement benefits do not attract a sufficient number of qualified recruits, the attrition rate at the police academy is staggering and reflective of the quality of candidates applying with HPD, and those who are eligible to retire are getting out as soon as they can. We are in the midst of a staffing crisis yet this resolution calls for an expansion of police services and greater police presence and protection without offering any real world solutions on how to make this all happen. You simply cannot have your cake and eat it too.

As far as our union is concerned, the residents and business owners in Waianae deserve the same level of police service, presence, and protection as those who live in Kahala and Hawaii Kai. It should be no less of a priority to maintain their safety and to protect the property and possessions of those who live and work in Waianae than areas that have higher real estate values. Moreover, the residents and business owners did not only recently call for a greater police presence as the resolution seems to infer. Many of our police officers have families and relatives who live in Waianae. They have been clamoring for greater police protection for years, but shamefully no one has responded with any substance. The simple fact is we do not have enough officers to adequately protect the residents of Waianae and other areas, and have made this known for a long time but the situation remains the same. HPD's hierarchy seems more concerned about saving overtime funds and returning the unspent funds to the City council rather than spending it on protecting the citizens of Waianae and other neighborhoods that require greater police protection. Your resolution urges an increase in staffing for the Waianae Coast but again I have to ask you, where do you propose we get the officers from? Please tell us how we are going to staff a new district when we cannot fully staff our current districts. While we certainly support the intent of this resolution, we wish this honorable body would do more to provide substantive support for our officers instead of working earnestly to pass legislation that creates additional and unnecessary certifications and standards that discourages rather than encourages people from joining the police department.

We thank you for allowing us to be heard and to share our concerns on this resolution and hope your committee will also offer concrete and specific solutions to address and mitigate the shortage of police officers so that we can provide the necessary level of police protection to the residents and businesses of Waianae and other communities.

Respectfully submitted,

ROBERT "BOBBY" CAVACO
SHOPO President

Comments:

Let us remember that people who are ill suffering economic conditions and a lack of education shall *not* be treated as criminals, and shall not be subject to slavery under the 13th Amendment, or human trafficking as it pertains to the illegal transfer of prisoners across state borders. Let it be known and established that the new police station shall protect and serve the RESIDENTS, not tourism. Keep in mind that a crime is *not* a crime unless there is a victim. Paperwork infractions beget no victims, therefore are not crimes. Hawaiian national license plates beget no victims, therefore are not crimes. Let the police station remain diligent and focused on community affairs to continue education among the people. Without the above referenced portions, there is absolutely no reason to have another police district, unless your goal is slavery as defined under the 13th Amendment.

Comments:

I fully support HCR157 in requesting more police officers on the Wai'anae Coast. I personally have experienced a couple car break-ins and feel that the area could use a little more support in protection and guidance.

Thank you

Comments:

Ewa and Kapolei should definitely be separated from Wai'anae in reference of police districts the demand in Wai'anae is much higher and Wai'anae lacks sufficient resources

Comments:

Aloha,

I am writing in testimony to support the call for necessary resources and or funding to have more HPD presence on the Leeward Coast in general. Not just plain clothes officers but even our men and women in uniform. I am a firm believer that their presence deters random violent acts. On our side, gun violence, speeding and alcohol related accidents, theft, robberies and assaults are at an all time high. The pandemic has made it worse but the level of crimes being committed today has definitely gone to a level that threatens our already fragile community. When kids can easily get ahold of a gun or the fact that they know someone that has one is alarming. If having more HPD officers out in the general public eye of the community not hiding down dark streets with their lights off or patrolling with their lights off, I believe it could really do some good in the neighborhood. Everybody young and old knows when you see a cop car what do you do??? Slow down, maybe buckle up, drive better if your not doing it already. Mahalo for your time.

Comments:

Our ohana has lived in Makaha for several decades. Makaha used to be a safe family oriented community, but has slowly changed since 2010. The influence of west coast mainland gang culture has infiltrated our community and only compound the issues of substance abuse and violence. We have been exposed to random gun fire (weekly), manufacturing of methamphetamines in plain veiw, brutal attacks with bats and weapons, and even threats against our ohana for assisting HPD in addressing the Gameroom and drug distribution that occurs 24/7.

The level of organization and collaboration between these criminal enterprises demonstrate a sophistication I haven't seen here locally. It is reminiscent of the organized crime I observed in Albany Georgia when it was murder capitol of the US. I grew up here with many of the people engage in illegal activity and they mock HPD because they know there are insufficient resources to address community concerns and needs.

We desperately need more enforcement presence, increased patrols, and tools for our officers to address the hazards of our community. I support this bill and pray that it will help our offices restore some semblance of order and make the Waianae coast a safer place for family's, keiki, and kupuna again.

My comments are based on observing activities of the game room and multigenerational meth house across the street from us for 4-6 hours nightly since 2019.

Mahalo for your time,

James P. Jones

Former Public Health Nurse

Comments:

My family and I have been victims of repeated threats, damages and harassment by a sick homeless person that breaks the law by living on Mauna Lahilahi behind our house. This area has become a drug haven and we need more policing to enforce the law. Sleeping in the park while openly consuming drugs and prostitution is not what Waiane is about. There's just bad seeds that need to be harassed by the law and not the criminals harassing citizens.

RE: House Concurrent Resolution 157

Aloha Honorable Gates and members of the Legislature:

As a former social worker for Child Welfare Services (CWS) under the Department of Human Services (DHS), a former Behavioral Health Specialist for the Department of Education (DOE) Nānākuli-Wai‘anae complex area, a current third-year law student at the William S. Richardson School of Law at the University of Hawai‘i at Mānoa and a resident of Wai‘anae, mahalo for this opportunity to provide testimony in support of H.C.R. No. 157 which urges the allocation of additional resources for police prescense in Wai‘anae and the creation of a seperate policing district.

Additional resources to increase police presence on the Wai‘anae Coast will significantly contribute to the overall safety and qualify of life of the residents.

It is beyond imperative that we work towards keeping our residents safe and improving the qualify of life. There are many elderly residents and families with young children walking, commuting, and engaged in leisure and recreational activities on this the Coast. This population may be more saturated on the Coast because of the variety and availability of affordable housing programs up and down the Coast, from shelters, to elderly affordable housing, to transitional housing, to temporary housing for homeless as-risk/very low-income individuals and families. These individuals represent our more vulnerable members of the community. These individuals may attract the attention of non-violent and violent criminals more often than we’d like to acknowledge. We need to protect the vulnerable members of our society. Increase police presence will improve the quality of life by cutting the delay in reaching people who are calling into dispatch and requesting HPD services. More police being visible on the Coast will deter behaviors against the vulnerable population by increasing the reactions and responses and may lead to more arrests and incarcerations of individuals who prey on our Kapuna and keiki.

Many calls to HPD from this Coast are involving matters of safety. Stray dangerous animals, domestic and intimate violence, violent crimes, theft, harassment, and situations involving exposure to and abuse of substances and access to weapons can be frequent. These types of calls cannot wait and need to be addressed immediately. A delay in response by HPD could be the difference in life or death. It is also unfair to force the officers to choose between emergencies that are truly emergencies. Household emergencies involving weapons are just as much an emergency as an armed robbery on commercial property. If the resources for police are thin, dispatch will have to choose who receives help first. Also, a delay in response may lead to a decrease in evidence available, be in eye witnesses, body cams, etc., which could contribute to less deserving arrests and failed convictions. We need officers available and we need them compensated well and not subject or burn out because they are stretched too thin. The safety of the residents of the Wai‘anae Coast are relying on our elected officials of the State and the City & County to be good stewards of the resources entrusted to them. Additional resources to increase police presence will show that our leadership is taking our safety and security seriously.

Constituents have a propensity to believe that an increase in police presence helps to deter small petty crimes and crimes against small business owners. There are many small businesses on the Wai‘anae Coast and also pop-up vending on private property. These business people deserve to feel safe in their own community while conducting the activities of commerce. Patrons also want to feel safe and secure doing transactions. The perception of more police actively available, gives the reassurance and peace of mind *should* HPD be needed for assistance or an emergency affecting a business, officers will actually be available. Having secure local businesses is essential for the sustainability of a community and the overall quality of life for all the residents.

Additional resources to increase police presence on the Wai‘anae Coast will significantly contribute to the overall safety and quality of work performance of professional workers who require HPD’s assistance.

From my experience as a Social Worker with CWS and Behavior Health Specialist at Nānākuli Intermediate, I have lost count of the times we’ve had to call on HPD for assistance. For our own protection, for the protection of faculty and clients, sometimes police presence is needed in order to facilitate certain social and mental health services. Workers are unable to assess or even intervene in certain situations without the assistance of presence of HPD per the internal regulations. Police presence needs to be readily available and trained to be able to assist professional workers serving the community on the Wai‘anae Coast. In some cases, workers are risking their own safety to service certain populations and police presence is essential. HPD is sometimes required to place minors into custody or to intervene with domestic violence or mental health situations that involve a professional worker attempting to perform job duties. Having these additional resources allocated to increase police presence will increase the safety

and support of workers that perform duties, live in, or come into the Wai‘anae Coast community to serve the people.

The creation of a new police district for Wai‘anae, separate from Kapolei and ‘Ewa, will ensure that the unique needs of the Wai‘anae Coast without infringement or thinning of the resources that are needed to serve other deserving communities.

The Wai‘anae Coast deserves our own policing district. The traffic alone between Kapolei/‘Ewa should be reason enough to warrant an entire division that only services this unique 16 miles of coastline. Police rushing from other areas on Farrington Hwy during commuting hours poses a risk to public safety. Having police of the Coast will assist in efforts in a timely manner without the police themselves having to commute.

In addition, the Wai‘anae Coast has a unique set of needs that ought to be policed by dedicated individuals who are committed to *this* community and are working to build a rapport within this area. Kapolei/‘Ewa/Wai‘anae is too expansive of a region to ensure the officers will be consistent. Some levels of policing a unique community can only be achieved by the people having trust and faith in the officers, and the officers having a positive rapport with the people. Creating a policing district would be a great step in the right direction of allowing the people to work closely with HPD especially for issues that are commonplace and frequent on this side.

Lastly, we need to protect our officers as resources. The community does not benefit from burnt out and discouraged members of the police force. We are currently having officers servicing three very deserving, very distinct, and very active communities that expand over twenty miles, and this is too much for one division. The population of the Wai‘anae Coast is increasing, we have a huge houseless population, we have an increase in mental health needs and needs of the community in general since Covid-19, we are seeing more and more tourist, and we are seeing more traffic not only on the major roadways, but also the neighborhood and the beaches. We need more officers, and we need our own distinct police district. We need officers to show up ready and able to serve and committed to serving the Wai‘anae Coast in all her tribulations and in all her glory.

For the aforementioned reasons I urge you submit my testimony and encourage the other members of legislation to pass H.C.R. No. 157.
